2014-2015 Undergraduate and Graduate Course Catalog
AMERICAN INTERNATIONAL COLLEGE
Founded in 1885

AT A GLANCE
American International College is located in Springfield, Massachusetts—a city of 150,000 people in the Connecticut River Valley. Areas of study at the bachelor’s level include: accounting, biochemistry, biology, business administration, chemistry, communications, criminal justice, finance and economics, English, history, human biology, human services, interdepartmental sciences, international business, liberal studies, management, marketing, nursing, occupational therapy, physical therapy, political science, psychology, public health, sociology, and sports and recreation management.

Graduate degrees are available in accounting and taxation, business administration, clinical psychology, counseling, education, fine arts, forensic psychology, nursing, occupational therapy, public administration (master’s), education (C.A.G.S.), educational leadership and supervision, educational psychology, individual and institutional development, teaching and learning, physical therapy, professional counseling and supervision, and psychology (doctorate).

AIC’s flexible scheduling allows for courses to be held during the day, evenings, and on weekends in the fall and spring terms, and during intersession (January), summer sessions, and online. Courses are offered in three-week, six-week, eight-week, and fifteen-week sessions.

The student body consists of 1500 undergraduate students from 35 states and 27 countries, and over 2500 graduate students.

Wireless Internet access is available throughout the campus.

The seal of American International College bears the college motto Post tenebras lux – “After darkness, light.” The motto refers to students moving from the darkness of ignorance into the light of knowledge.
THE PRESIDENT’S MESSAGE

It is with great pleasure that I invite you to explore this catalog and investigate for yourself the full breadth and depth of the degree programs here at American International College. The AIC curriculum is built on a foundation of courses that liberate thinking and foster learning, and our professional programs enable you to gain practical knowledge and skills in the areas of greatest demand in regional, national, and global markets.

If there is one thing that you should know about AIC, it is this: through high-quality, relevant, academic programs in a seamless learning environment, this is a place where all students have the opportunity to thrive. Our faculty is well known for being caring, supportive, and dedicated to the success of all our students. For over 125 years, the student has been the focus of our educational enterprise, and that focus sharpens every single year.

Our size—AIC is small but dynamic—is one of our greatest attributes, and it enables all students on the Springfield campus to recognize and interact with their classmates, faculty members, and the administrative staff. We are an engaging educational community—a family full of ideas and diversity—to which you are a welcome addition. At AIC you will find a level of comfort that is both satisfying and rewarding.

If you are still looking for a school that is a good fit for you, I urge you to seriously consider American International College as the provider of your higher educational development. If you are a returning student, you know all this already, and we are more than happy to welcome you back.

With warm personal regards and best wishes,

Vincent M. Maniaci
President

ACCREDITATIONS AND AFFILIATIONS

American International College is accredited by the New England Association of Schools and Colleges, Incorporated through its Commission on Institutions of Higher Education. Inquiries regarding the accreditation status by the New England Association should be directed to the administrative staff of the college. Individuals may also contact:

Commission on Institutions of Higher Education
New England Association of Schools and Colleges
3 Burlington Woods Drive
Suite 100
Burlington, MA 01803
Phone: (781)271-0022
Email: cihe@neasc.org

Health sciences programs have additional accreditation by the Accreditation Council for Occupational Therapy Education (ACOTE) of the American Occupational Therapy Association (AOTA), the Commission on Accreditation in Physical Therapy Education (CAPTE) of the American Physical Therapy Association, and the Commission on Collegiate Nursing Education (CCNE).

The education preparation programs are approved by the Massachusetts Department of Elementary and Secondary Education for state licensure eligibility.

The Business programs are accredited by the International Assembly for Collegiate Business Education (IACBE).

The United States Veterans Administration approves American International College programs for veterans.

American International College holds membership in the American Association of Independent Colleges, the American Council of Education, the International Assembly for Collegiate Business Education, the National Association of State Directors of Teacher Education and Certification, and the University Continuing Education Association.

American International College is recognized by the American Association of University Women.
NOTICE TO THE READER

The reader should take notice that every effort is made to ensure the accuracy of the information provided herein. American International College, however, reserves the right to make changes at any time without prior notice. The College provides the information herein solely for the convenience of the reader and, to the extent permissible by law, expressly disclaims any liability that may otherwise be incurred.

The College reserves the right to alter any of the rules and regulations outlined in this catalog and also in the Academic Regulations. All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students but also to those who already are enrolled in the College. This catalog should not be construed as constituting a contract between the College and any other person.

NOTE: For updated information, please visit our website at: www.aic.edu. Additional sources of information regarding college policies can be found in the Undergraduate Academic Regulations, Graduate Academic Regulations, and the Student Handbook. Students are responsible for the information contained in each.

Notice of Nondiscrimination
American International College (the “College”) is committed to providing equal educational opportunities to all students and to maintaining an environment that encourages mutual respect. The College prohibits discrimination against any student or applicant for enrollment because of race, color, national or ethnic origin, age, religion, disability, sex, sexual orientation, gender identity and expression, veteran status (special disabled veterans, disabled veterans and Vietnam-era veterans), or any other characteristic protected under applicable federal or state law.

There are several different forms of discrimination. Accordingly, the College prohibits discriminatory conduct of any kind, including unequal treatment, harassment (including sexual harassment and sexual misconduct), and retaliation.

In all areas of education and employment, the College complies with all applicable federal and state laws and guidelines, including titles VI and VII of the Civil rights Act of 1964, Executive Order 11246 of 1965 as amended by Executive Order 11375 of 1967, and Title IX of the Educational amendments Act of 1972, with Section 504 of the Rehabilitation Act of 1973, the Americans with Disabilities Act of 1992, with the Family Educational Rights and Privacy Act of 1974 (PL93-380) as amended (PL93-568), and with Titles I and II of the Student Right-To-Know and Campus Security Act (PL103-542).
Information on American International College disclosed in compliance with the Student-Right-to-Know and Campus Security Act, Public Law 103-542, as amended, may be obtained by writing to the Office of the Provost, American International College, 1000 State Street, Springfield, Massachusetts 01109.

Title I of the Education Amendments of 1976, Title IV of the Higher Education Act of 1965, both as amended, and Title 45 Public Welfare, Code of Federal Regulations 177 and 178, are primarily designed to protect the interests of the student consumer and to improve student information. For a complete version of the College’s Discrimination Policy please see the Student Handbook.

**Students with Disabilities**

American International College (the “College”) recognizes that students with disabilities are an important part of the campus community. The College complies with Section 504 of the Rehabilitation Act of 1973 (“Section 504”) and Title II of the Americans with Disabilities Act of 1990 (the “ADA”). The College prohibits discrimination on the basis of disability and is committed to providing equal educational opportunity to qualified students with disabilities in accordance with the law. The College also prohibits discrimination against someone solely because of his/her association with an individual with a disability.

Section 504 is a civil rights statute designed to prevent discrimination against individuals with disabilities. It provides that:

No otherwise qualified individual with disabilities in the United States . . . shall, solely by reason of his/her disability be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving federal financial assistance . . . 29 USC 794.

The ADA, which took effect in 1992, was modeled after Section 504. It guarantees equal opportunity for individuals with disabilities in employment, public accommodations, transportation, state and local government services, and telecommunications.

**Definitions**

“Otherwise qualified” means students must be able to meet the technical and academic qualifications for entry into the school, program or activity in order to be considered otherwise qualified.

An “individual with a disability” is a person who:

1. has a physical or mental impairment which substantially limits a major life activity;
2. has record or history of such an impairment; or
3. is regarded as having such an impairment.

“Major life activities” include, but are not limited to: caring for oneself; performing manual tasks; seeing;
The following major bodily functions are also considered “major life activities”: functions of the immune system; normal cell growth; and digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

**Requesting Academic Adjustments or Reasonable Accommodations**

Students with disabilities who need appropriate academic adjustments or reasonable accommodations must identify themselves as having a disability. Disclosure of a disability is always voluntary, but the College will not be able to provide academic adjustments or accommodations without the student first contacting the appropriate party.

- Students with disabilities that effect any aspect of college life should contact Brian O’Shaughnessy, Dean of Students, to initiate the process for determining what, if any reasonable accommodations may be provided. (413 205-3264; brian.oshaugnessy@aic.edu)

These individuals will assist students with the procedures necessary for requesting appropriate academic adjustments and/or reasonable accommodations. Students should expect to work with the College in an interactive process to identify an appropriate academic adjustment or reasonable accommodation. Although students may make such requests at any time, requests should be made as early as possible. Some academic adjustments and accommodations may take more time to provide than others. In all instances, the College needs sufficient time to review the request.

Academic adjustments may include modifications to academic requirements, auxiliary aids and services, and reasonable accommodations as necessary to ensure equal educational opportunity. In providing an academic adjustment or reasonable accommodation, the College is not required to lower or substantially modify essential requirements. In addition, the College does not have to make adjustments that would fundamentally alter the nature of a service, program, or activity, or that would result in an undue financial or administrative burden. Finally, the College does not have to provide personal attendants, individually prescribed devices, readers for personal use or study, or other devices or services of a personal nature, such as tutoring and typing.

The College is also not required to accept or retain a student who poses a direct threat to the health or safety of others. “Direct threat” is defined as a “significant” risk of “substantial” harm that cannot be eliminated by reasonable modifications or the provision of auxiliary aids or services. The assessment of whether a student poses a direct threat of harm must be individualized and based on current medical knowledge or on the best available objective evidence. Once students have contacted the appropriate individual, they will be given an application to fill out regarding their request. Students will also be given guidelines as to the documentation necessary to support their request.
Generally, students must provide documentation prepared by an appropriate professional, such as a medical doctor, psychologist, or other qualified diagnostican, showing that that they have a current disability and need an academic adjustment and/or reasonable accommodation. The required documentation may include one or more of the following: a diagnosis of the current disability, as well as supporting information, such as the date of the diagnosis, how that diagnosis was reached, and the credentials of the diagnosing professional; information on how the disability affects a major life activity; and information on how the disability affects academic performance. An individualized education program (IEP) or Section 504 plan may help identify services that have been effective, but is generally not sufficient because of the differences between postsecondary education and high school education. Also, in some cases, the nature of a disability may change.

The documentation must provide enough information to decide what is an appropriate academic adjustment or reasonable accommodation. If the documentation does not meet the College’s requirements, students will be informed in a timely manner as to what additional documentation they need to provide. In some instances, this may require a new evaluation. (The College is not required to conduct or pay for a new evaluation to document a disability and the need for an academic adjustment or accommodation.)

Once the College has received sufficient documentation, it will review each request in light of the essential requirements for the relevant program. If a student has requested a specific academic adjustment, the College may offer that academic adjustment, or it may offer an effective alternative. Upon completion of the process, students whose applications are approved will receive verification of eligibility; a letter documenting the verification will also be kept on file.

**Disability Discrimination Grievance Procedure**

It is the policy of American International College not to discriminate on the basis of disability. If you believe that you have been improperly denied an appropriate academic adjustment or reasonable accommodation or otherwise discriminated against on the basis of disability, you may raise your concern with the above-named individuals in an attempt to resolve your concerns on an informal basis. You may also file a formal complaint with the College’s Section 504 Coordinator, Brian O'Shaughnessy, who coordinates compliance with the requirements of Section 504 and the ADA.

The College has adopted the following internal grievance procedure to provide for prompt and equitable resolution of formal complaints.

- Grievance must be submitted to the Section 504 Coordinator within thirty (30) days of the date the person filing the complaint becomes aware of the alleged discriminatory action. (The College may extend this time frame when a delay is due to circumstances beyond the student’s control, e.g., illness or incapacity.)
Complaints must be in writing and include a full description of the problem and any relevant facts; a summary of the steps the student has already taken in attempt to resolve the problem, including the names of persons involved; the remedy or relief sought; and the name, contact information, and signature of the person filing it.

As an initial matter, all grievances will be reviewed to determine whether they are submitted within a timely manner and/or whether they contain all required information. The College will not review a grievance that is untimely or fails to contain all required information, including a clear statement of all grounds for the grievance. To facilitate a clear and prompt resolution, once initiated, a grievance shall not be expanded beyond the issues presented in the initial complaint.

The Section 504 Coordinator (or her/his designee) will conduct an investigation of the complaint. This investigation may be informal, but it must be thorough, affording all interested persons an opportunity to present witnesses and submit other evidence relevant to the complaint. The Section 504 Coordinator will maintain the files and records of the College relating to such grievances.

The Section 504 Coordinator will issue a written decision on the grievance no later than thirty (30) days after its filing.

The person filing the grievance may appeal the decision of the Section 504 Coordinator by writing to Todd Fritch, Provost within fifteen (15) days of receiving the Section 504 Coordinator's decision. The appeal must be in writing and explain the basis for the appeal. The Provost shall issue a written decision in response to the appeal no later than 30 days after its filing.

To the extent that it is determined that disability discrimination has occurred, the College will take appropriate steps to prevent recurrence of the discrimination and to correct its effects on the complainant and others, as appropriate.

Retaliation
The College prohibits retaliation against any student for filing a grievance under this process or against any other individual participating in the investigation of a grievance. Any such retaliation is against state and federal laws and College Policy. Retaliation may be subject to disciplinary action up to and including termination. Individuals who have participated in the grievance process in support of a student may file a grievance under these procedures if they feel they have been retaliated against.

Confidentiality
The student’s confidentiality shall be maintained by each person involved in the informal or formal investigation or resolution of a student grievance under this policy. Any disclosures regarding the student or the investigation shall be limited to the minimum necessary to accomplish the investigation or address the student’s grievance.
If a student is dissatisfied with the outcome of the College's grievance procedures or wishes to pursue an alternative to using those procedures, he/she may file a complaint with U. S. Department of Education, Office for Civil Rights or in a court.

Office for Civil Rights,
U.S. Department of Education
8th Floor
5 Post Office Square
Boston, MA 02109-3921

**Student Records Policy**
The Family Educational Rights and Privacy Act (FERPA) affords eligible students certain rights with respect to their education records. An “eligible student” under FERPA is a student who is 18 years of age or older or who attends a postsecondary institution. “Education record” is defined as those records that contain information directly related to a student and which are maintained by an educational institution or party acting for the institution. These rights include:

1. **The right to inspect and review the student’s education records within 45 days after the day American International College (the “College”) receives a request for access.**
   - A student should submit to the registrar, dean, head of the academic department, or other appropriate school official, a written request that identifies the record(s) the student wishes to inspect. The school official will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the school official to whom the request was submitted, that official shall advise the student of the correct official to whom the request should be addressed.

2. **The right to request the amendment of the student’s education records that the student believes is inaccurate, misleading, or otherwise in violation of the student’s privacy rights under FERPA.**
   - A student who wishes to ask the College to amend a record should write the school official responsible for the record, clearly identify the part of the record the student wants changed, and specify why it should be changed.
   - If the College decides not to amend the record as requested, the College will notify the student in writing of the decision and the student’s right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. **The right to provide written consent before the College discloses personally identifiable information (PII) from the student’s education records, except to the extent that FERPA authorizes disclosure without consent.** (For more information, see below.)

4. **The right to file a complaint with the U.S. Department of Education concerning alleged failures by the College to comply with the requirements of FERPA.** The name and address of the Office that administers FERPA is:
Student Education Records Disclosure Notice

The College will disclose personally identifiable information (PII) from students’ education records upon receipt of written consent. FERPA permits the disclosure of personally identifiable information (PII) from students’ education records, without consent of the student, if the disclosure meets certain conditions found in §99.31 the FERPA regulations.

- Except for disclosures to school officials, disclosures related to some judicial orders or lawfully issued subpoenas, disclosures of directory information, and disclosures to the student, FERPA regulations require the institution to record the disclosure. Eligible students have a right to inspect and review the record of such disclosures.

In compliance with FERPA regulations, the College may disclose PII from the education records without obtaining prior written consent of the student:

1. To other school officials within the College whom the College has determined to have legitimate educational interests.
   
   A school official is a person employed by the College in an administrative, supervisory, academic, research, or support staff position (including law enforcement unit personnel and health staff); a person serving on the board of trustees; or a student serving on an official committee, such as a disciplinary or grievance committee. A school official also may include a volunteer or contractor outside of the College who performs an institutional service of function for which the College would otherwise use its own employees and who is under the direct control of the College with respect to the use and maintenance of PII from education records, such as an attorney, auditor, or collection agent or a student volunteering to assist another school official in performing his or her tasks. A school official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibilities for the College.

2. Upon request, to officials of another school where the student seeks or intends to enroll, or where the student is already enrolled if the disclosure is for purposes related to the student’s enrollment or transfer.

3. To authorized representatives of the U. S. Comptroller General, the U. S. Attorney General, the U.S. Secretary of Education, or State and local educational authorities, such as a State postsecondary authority that is responsible for supervising the College’s State-supported education programs. Disclosures under this provision may be made in connection with an audit or evaluation of Federal-or State-supported education programs, or for the enforcement of or compliance with Federal legal requirements that relate to those programs. These entities may make further disclosures of PII to outside entities that are designated by them as their authorized
representatives to conduct any audit, evaluation, or enforcement or compliance activity on their behalf.

4. In connection with financial aid for which the student has applied or which the student has received, if the information is necessary to determine eligibility for the aid, determine the amount of the aid, determine the conditions of the aid, or enforce the terms and conditions of the aid.

5. To organizations conducting studies for, or on behalf of, the College, in order to: (a) develop, validate, or administer predictive tests; (b) administer student aid programs; or (c) improve instruction.

6. To accrediting organizations to carry out their accrediting functions.

7. To parents of an eligible student if the student is a dependent for IRS tax purposes.

8. To comply with a judicial order or lawfully issued subpoena.

9. To appropriate officials in connection with a health or safety emergency, subject to §99.36.

10. To a victim of an alleged perpetrator of a crime of violence or a non-forcible sex offense. The disclosure may only include the final results of the disciplinary proceeding with respect to that alleged crime or offense, regardless of the finding.

11. To the general public, the final results of a disciplinary proceeding, if the College determines the student is an alleged perpetrator of a crime of violence or non-forcible sex offense and the student has committed a violation of the College’s rules or policies with respect to the allegation made against him or her.

12. To parents of a student regarding the student’s violation of any Federal, State, or local law, or of any rule or policy of the College, governing the use or possession of alcohol or a controlled substance if the College determines the student committed a disciplinary violation and the student is under the age of 21.

13. Information the College has designated as “directory information,” which includes:
   For currently enrolled students directory information includes the student’s name; addresses; telephone numbers; college, curriculum and major field of study; class level; date of birth; dates of attendance; eligibility for membership in registered College honoraries; degrees; honors; certificates received or anticipated; weight and height if she/ he is an athletic team member; participation in officially recognized activities and sports; and, institutions previously attended.

NOTE: A student may restrict the disclosure of “directory information” by filing a request to limit the release with the Office of the Registrar on or before October 1 of each academic year.

**CORI/SORI Screening**

Criminal Offender Record Information (CORI)
Sex Offender Registry Information (SORI)
Prior to being accepted into courses and degree programs that require the student to work directly with vulnerable populations (such as children, the elderly, or the infirm), or in other fieldwork experiences at
agencies that require such, a student will be subject to a CORI and/or SORI check. The results of this report may or may not disqualify a student from entering or completing a program. Specific details and a complete copy of the College policy and the authorization form are available at the Office of the Provost, first floor, Adams Hall.

**Intellectual Property and Use of College Computers**

Respect for the intellectual work and property of others has traditionally been essential to the mission of colleges and universities. AIC does not tolerate plagiarism, and as an academic community, we do not condone unauthorized copying of software, including programs, applications, databases, and code. The faculty, staff, and administration of this institution recognize its obligation to provide continuing guidance as to what constitutes academic honesty and to promote procedures and circumstances that will reinforce this principle.

The inappropriate use of college computers, including, but not limited to, the use of threatening, sexist, and/or racist communication is strictly prohibited. For a complete version of the Technology Use Policy please see the Student Handbook.

**College Finances**

A copy of the College’s most recent audited financial statement is on file in the college library. Copies of previous tax return statements (Form 990) are posted on www.guidestar.com.

MISSION

The mission of American International College is to prepare students for personal fulfillment, professional achievement, and civic engagement through educational experiences that transform lives.

Academic programs founded on the knowledge, skills, and values of the liberal arts engage students in theory and emphasize applied learning, while preparing them for the challenges and opportunities presented in the global environment.

Committed to the intrinsic worth of each individual, AIC prepares students for life!

THE EDUCATIONAL PHILOSOPHY

Building on its mission, the College believes that its primary function is to engage students in the enterprise of learning. The curriculum has been designed to serve this function, and all other activities, including co-curricular and athletic programs, are consistent with this primary function.

The College is dedicated to the belief that the liberal arts provide the best foundation for lifelong intellectual growth and informed career and professional education. The institutional mission centers on the intellectual, social, and professional preparation of each student. The college community is committed to nurturing in each individual an awareness of intrinsic worth, a concern for other individuals, an international perspective, and a dedication and sense of responsibility to the private and public sectors of our society.

An important element of this commitment is communicating—by means of a core of required courses—an understanding of the American cultural heritage and an awareness of the social and ethical issues of our times. The expected outcomes of the general education program are to think logically, compute accurately, communicate effectively, and act creatively. In addition, the curriculum of each of the College’s schools and divisions incorporates course work as well as practicums or internships designed to cultivate depth of understanding in a particular discipline. Thus, our students achieve the competencies necessary both for admission to and successful performance in graduate and professional schools, or immediate entry into a career or professional field of their choice.

In pursuing its goals, the College attempts, through efficient management and wise use of resources, to deliver these services affordably and in an atmosphere that reflects a sense of community, identity, and purpose among faculty, staff, and students.
American International College was founded on July 18, 1885 by the Reverend Mr. Calvin E. Amaron, who persuaded other enlightened clergy to assist in the establishment of a college that would provide the youth of his own French Canadian ethnic group with access to higher education. The founders understood that a college education was an effective means of gaining economic and social success in American society. They wanted to provide access to higher education to all who wanted to broaden their horizons and improve their futures.

The first president of the new College, and chairman of the board of trustees, the Reverend John Morton Greene, was fully committed to AIC’s founding mission. He led the effort to get the College chartered by the Commonwealth of Massachusetts, an honor granted to the College on September 18, 1885.

Always at the forefront of providing access to all who wanted it, it wasn’t long until the College was breaking new barriers. Its second president and visionary founder, Reverend Amaron, asserted that women should be given the same opportunity as men to pursue higher education. The board of trustees discussed the question and agreed. Women were admitted to the College for the first time in 1892. President Amaron is honored for his leadership with his name on the central academic building on campus—Amaron Hall.

The College continued in its mission of educating newcomers to the United States for both citizenship and success. In this way, it was both American and international. Students learned English, American history, mathematics, and science in an effort to become effective citizens and community leaders. The student body before World War I consisted of people from 42 nations, reflecting a rich diversity from Europe, Asia, Africa, and North, Central, and South America.

With the onset of World War I and the subsequent adoption by the United States of immigration quota laws, there came an inevitable decrease in enrollment. During the mid-1920s, the chief goal of the College shifted, from the education of international and immigrant students, to providing quality education to a diverse body of United States citizens. With its new direction, the College survived the economic depression of the 1930s and the world war of the early 1940s.

The growth of the College since the end of World War II has been notable. The establishment of the evening college and the summer school provided a springboard for rapidly escalating enrollment beginning in 1946. Returning veterans swelled classes and the College added many new faculty and staff members.
In the following two decades, the progressive development of the curriculum required enlarged physical facilities that the campus continues to enjoy. The College, with fully developed curricula in the liberal arts and sciences, business administration, and teacher education, offered the intimacy of a small college and the curriculum of a university.

The early 1950s witnessed educational innovation with the creation of a training program for a group of skilled artisans from Marshall Aid countries in Europe. Part of the special curriculum included a period for the trainees to work in local industries to learn American production methods. More than 100 persons, representing 11 nations, were involved in the program.

In 1953, after conferring with business executives in the area, the College began an evening offering known as the Executive Development Program. This graduate study program was for people with executive responsibility and for those who anticipated taking positions in management. Accepted candidates were able to earn the Master of Business Administration degree entirely through evening classes. This program was a first of its kind in the region.

The Schools of Arts and Sciences and Business Administration were established in 1960, and the School of Psychology and Education in 1970.

During the 1960s, American International College experienced substantial growth; 11 new buildings were erected. The 1970s witnessed the addition of the Curtis Blake Child Development Center, improvements to existing facilities, and the acquisition and beautification of a substantial amount of property on the immediate periphery of the main campus. The James J. Shea, Sr. Memorial Library was completed in 1980, and The Karen Sprague Cultural Arts Center and The Esther B. Griswold Theatre for the Performing Arts followed in 1984. An addition to the existing Schwartz Campus Center was opened in September 1992. The Sokolowski Tower portion of the building, which houses the clock tower and carillons, was formally dedicated on April 22, 1994, and named in honor of Joseph and Anna Sokolowski by their daughter Sylvia Falconer Lissa (’29). The addition of the Harry J. and Annette R. Courniates Hall that houses the Divisions of Physical Therapy, Occupational Therapy, and Nursing was the last physical addition to the College in the 20th century. A unique feature of the complex is an anatomical laboratory.

Notable during the period from 1975 through the mid-1990s was the development of several programs. The Curtis Blake Child Development Center exerted leadership in the field of learning disabilities. The College has attained a national leadership position because of work within the center, including provision for college study by learning-disabled students and the initiation of a doctoral program in educational psychology with a specialty in learning disabilities.

Also during this period, the Division of Nursing was established and programs in criminal justice and
special education, the day division program for graduate studies in business, the graduate programs in clinical psychology, school psychology, public administration, and human resource development, and the undergraduate programs in computer science, international business, and communications were developed. A significant new major in undergraduate physical therapy was introduced in February 1993, augmenting the College’s already strong programs in the sciences and in nursing. The graduate professional program in physical therapy, leading to a Master of Physical Therapy degree, began in September 1996, and the Doctorate in Physical Therapy program began in September 2005. A baccalaureate degree program in occupational therapy was begun in September 1995, and the Master of Occupational Therapy program was begun in September 2000. A Master of Science in Nursing was launched in 2005.

The College Today
In the early 21st century, American International College remains attractive to current students, alumni, the greater Springfield community, and the world for many reasons. Situated in the heart of the medium-sized New England city of Springfield, Massachusetts, the College is an active and vibrant institution that has educational programs throughout the year during the daytime, evening, and on weekends. The College is a community of learners nurtured by faculty members who are dedicated to the mission of the College and energized by student body that strives toward academic excellence. Our students are drawn principally from the northeast region of the United States, but students from many other states and nations choose to study with us. The College enjoys the reputation of being student-centered, with a 14 to 1 student–faculty ratio for undergraduate programs and an 8 to 1 student–faculty ratio for graduate programs. Academic programs include the traditional major offerings in the liberal arts, various specialties in business administration and teacher education, as well as such professional programs as nursing, occupational therapy, physical therapy, and criminal justice studies. The College has comprehensive programs of social and cultural significance that are largely student-operated and that are supported by an active student government. A wide variety of intercollegiate and intramural sports programs serve both men and women.

Enrollment
American International College consists of a student body of 1,500 undergraduate students from 35 states and 27 countries. Over 2,100 graduate students study on the flagship Springfield campus as well as several extended campus sites in Massachusetts and a learning center in Cairo, Egypt.

THE CAMPUS

Location
The American International Campus is located in the geographic center of the City of Springfield, Massachusetts.
Springfield is a typical, medium-sized American city of 150,000 people currently in the midst of transforming itself from a manufacturing to a service center with a global outreach. It is the hub of a metropolitan area of over 500,000 people. Springfield is easily reached by automobile via Interstate 91 and the Massachusetts Turnpike; by rail via major north-south and east-west lines; and by airplane from Bradley International Airport 30 minutes to the south, Logan International Airport 90 miles to the east, and John F. Kennedy International Airport 110 miles to the south. A modern bus terminal, the headquarters of the Peter Pan Bus Company, provides regional and national connections.

To the west, the campus is less than two miles from Springfield's tourist and entertainment center, including the National Basketball Hall of Fame. To the east, the campus is less than three miles from the city's largest shopping mall. All locations are accessible by an efficient and timely public transportation system operated by the Pioneer Valley Transit Authority. The city is proud of its professional theater, the symphony orchestra, and its art, history, and natural science museums. The MassMutual Center complex offers a venue for concerts, shows, and sporting events.

The main campus is designed for student learning and living and features proportional scale, Georgian architecture and a traditional New England college quadrangle (“quad”) with exceptionally fine landscaping. Facilities include the James J. Shea, Sr. Memorial Library; Amaron, D.A.R., and Breck Halls; the Dining Commons; the Schwartz Campus Center; the Karen Sprague Cultural Arts Center and the Esther B. Griswold Theatre for the Performing Arts; the Curtis L. Blake Child Development Center; the Courniotes Health Science Complex; and three residence halls.

The Edgewood Gardens Campus is reached through the College Mall Gate on State Street. It is the site of three residence halls, the Henry A. Butova Memorial Gymnasium/Falconer Fitness Center, the Harry G. Metcalf Gymnasium, the Ronald J. Abdow Field, the Judy Groff Field, the John G. Hoyt Track, the MassMutual Soccer Field, tennis courts, and athletic, intramural, and recreational fields.

Information Services Department
The Information Services Department is located in the Shea Library with labs in Amaron Hall and Courniotes Hall, and the library. The college network and the Internet are accessible wirelessly throughout the campus. There are printers and scanners in each lab.

Computer labs are available to the general student population as posted during the semester.

The James J. Shea, Sr. Memorial Library
The graceful lines of the James J. Shea, Sr. Memorial Library building project a classical image. Originally constructed in 1948, a west wing was added in 1980. In addition to the library, the building also houses the Office of Information Technology, the Oral History Collection, the College Archives
and the Futures Education Center for Academic Success which includes the Writing Center, the ACE program, the Tutoring Center and the Title III program.

The James J. Shea Sr., Memorial Library serves the college as an active learning environment to support undergraduate instruction, graduate research, and independent study. The circulating collection of more than 67,000 works supplements general classroom instruction and includes concentrations in the subject areas of health sciences, education (especially learning disabilities), psychology, business, literature, and criminal justice.

The Shea Library subscribes to 886 current print and electronic periodicals in general and special subject areas. In addition, the library acquires new e-books at the rate of 10,000 per year with a current total of approximately 120,000.

Computer terminals in the library provide patrons with access to the Internet, as well as 36 databases and the online catalog. Most of the databases include full-text from serial publications. For those patrons who have access to the Internet from their homes or dorm rooms, our databases and online catalog are also available from their own computers. Through the availability of a wireless network, some areas of the library allow patron access to the Internet using a laptop with appropriate hardware.

Among academic libraries, networking has made it possible to provide patrons with almost unlimited access to information resources. Shea Library is a charter member of Central and Western Massachusetts Automated Resource Sharing (C/W MARS), a network that provides the online catalog and links AIC with over 150 public, academic, and special libraries. In addition, it is affiliated with Cooperating Libraries of Greater Springfield (CLGS), Western Massachusetts Health Information Consortia (WMHIC), and two medical online networks for interlibrary loans entitled ARIEL and DOCLINE.

All students, faculty, and staff of American International College must have either an activated library card or student identification number before accessing Shea Memorial Library databases. For further information please inquire at the circulation desk.

**Joseph H. and Hilda Schwartz Campus Center**
The Schwartz Campus Center, so named in recognition of the generosity of Joseph and Hilda Schwartz, is the focus of student life. It is a building dedicated to the co-curricular activities of the student body. The offices of the student government and Model Congress are all located in the Schwartz Campus Center. The offices of the dean of students and the residence life staff are on the second floor. The offices of student activities, campus recreation, and diversity affairs are located on the lower level. Service and programming space found in the Campus Center includes the Kevin Saremi and Deborah Krewski Saremi Career Services Center, the Frank and Norma Colaccino student lounge, the Hive snack bar,
Starbucks student mailroom, Follett bookstore, recreation rooms, and an auditorium.

The Karen Sprague Cultural Arts Center and The Esther B. Griswold Theatre for the Performing Arts, located at the northeast corner of the campus, presents its beautiful facade to passersby on State Street. The West Wing is devoted to the visual and literary arts, with studios and galleries, as well as classroom, conference and seminar facilities. The 500-seat Esther B. Griswold Theatre for the Performing Arts has a proscenium stage with flying space and quality acoustics to enable the presentation of professional musical and dramatic productions.

Residence Life
AIC’s residence life program is all about community. First-year students live together in traditional residence halls on the Main Campus (Hines, Pouch, and Magna Halls), while upperclassmen have the option of moving to the Edgewood Gardens Campus (Edgewood Complex and Acorn Heights - close to our athletic fields).

All student rooms have Wi-Fi Internet access and cable TV. Each sleeping area is outfitted with a bed, dresser, desk, desk chair, and closet per resident. Each residence hall has free washers and dryers, game rooms, and study areas. Parking is available by paid permit. All residence halls are secured by a 24-hour access system at the main entrance, which is also monitored by cameras. Campus Police are on duty 24/7.

Main Campus Residences (Hines, Pouch, Magna,)

Hines Hall
Named in honor of Admiral John F. Hines who served the college as president from 1953-1969, Hines is an eight-story building that houses over 200 first-year students and is co-ed by floor. The campus police office is located in Hines and is staffed 24/7. Hines Hall is the place for first year students with lots of activity and interaction.

Pouch Hall
Named in honor of Helena Pouch, a long-time member of the board of trustees and friend of the college, Pouch Hall is a four-story building that houses 120 female residents. Pouch is a mix of all class years but houses many female first-year students.

Magna Hall
Named in honor of Edith Scott Magna who served the college as acting president in 1946 and as a college trustee for over 30 years. Magna Hall is a four-story building that houses 140 primarily sophomore residents. Magna is co-ed by floor.
Edgewood Gardens Residences
Edgewood Complex (Street and Broadhurst Wings)
Some sophomores and most juniors may be eligible to live on our Edgewood Gardens Campus in the Broadhurst and Street Hall wings of the Edgewood Complex (E-Wood). Street Hall features traditional double rooms similar to the Main Campus. Broadhurst offers two bedroom suites with a furnished common living area and bathroom for three or four residents.

Edgewood Complex (Edgewood Wing)
Residents with senior standing may apply to live in apartments in the Edgewood wing of the Edgewood Complex. The Edgewood wing features two bedroom apartments that house four residents with a common living area, kitchen sink with cabinets, and bathroom.

Acorn Heights
Our newest residence facility, Acorn Heights is designed for juniors and above with both proven academic success and maturity. Each unit houses six residents in three-bedroom townhouses and features a full kitchen (appliances included), two bathrooms, and a furnished living room.

Each unit has a deck for socializing as well as central air conditioning. Acorn townhouses can be co-ed/gender neutral. Students must apply for Acorn Heights in a separate application process prior to April housing selection day.
The undergraduate admission process at American International College is individualized and holistic. It is the goal of the Office of Admissions to admit students who are academically prepared to be successful at American International College.

While there is no hard deadline for submitting an application, interested students are encouraged to submit their applications by the middle of their senior years if applying for first-year admission for the fall semester, or by December 1 if applying for first-year or transfer admission for the spring semester. Applicants to the health science programs should aim to apply by the Preferred Application Deadlines, however applications received after the deadline will be considered on a rolling admissions basis. Students applying for transfer admission for the fall semester are urged to complete their applications by August 1. Students are encouraged to submit their applications online, but may also use the paper application, which may be obtained by contacting the admissions office. Online applications can be accessed on the web at www.aic.edu/apply.

Notification of non-health science admission decisions are made on a rolling basis. That is, applications are processed upon receipt of all credentials, and in most cases applicants are notified of the admission decision within a few weeks of the application's completion. Health science applications are reviewed following the Preferred Application Deadline(s), and on a rolling basis once the deadlines have passed.

Final matriculation to the college is contingent upon the successful completion of high school or its equivalent. A final transcript documenting graduation or an official General Education Diploma (GED) certificate is required or financial aid and registration may be affected.

First-Year/Freshman Admission
Applicants with less than 12 credits of college work are considered for first-time admission. Students may apply for entrance in either September or January.

American International College supports the efforts of secondary school officials and governing bodies to have their schools achieve regional accredited status to provide reliable assurance of the quality of the educational preparation of their applicants for admission.

The admission decision is based on an assessment of the applicant’s readiness for college. Among the factors considered are the applicant’s academic record, including the quality of courses completed and grades earned. Additionally, standardized test results, an optional letter of recommendation, an optional personal statement and extra-curricular involvement in both school and community contribute to the decision. The final selection is based on a thorough and individual review of the credentials presented by each prospective student. Because the admission process is individualized, the weight of each of these
credentials may vary.

SAT-1 or ACT scores for applicants who have been out of high school for more than one year may be waived.

Applicants for admission to the freshman class must be graduates of approved secondary schools. Recommended college preparatory units (16) include:

- 4 units - English
- 3 units - Mathematics
- 2 units - Laboratory Science
- 2 units - Social Studies
- 1 unit - Foreign Language
- 4 units - Electives

Alternatively, an applicant may provide evidence of equivalent education and training, such as a General Education Development (GED) certificate, in which case he/she should have achieved a score in the 50th percentile or higher.

Some programs may have additional minimum admission requirements to be most competitive. These are listed below:

**Nursing**

The four-year undergraduate nursing program accepts candidates for freshman admission in September and January. Preferred application deadlines are: February 15th for first time freshmen.

Students who have not completed any college level coursework, including nursing coursework, are admitted as full-time freshman students into the four-year program.

First time freshman candidates must satisfy the college’s admissions requirements as listed above, including a laboratory science course in chemistry. Candidates must also present an official high school transcript demonstrating a GPA of 2.5 or above (on a 4.0 scale). Candidates, with or without reasonable accommodations, are expected to demonstrate academic readiness at the post-secondary level by submitting SAT scores that demonstrate a combined score of 950 or above on the critical reading and critical math components, or ACT scores that demonstrate a minimum score of 21.

Exceptions to minimum requirements may be made in conjunction with the Dean of the School of Health Sciences. Meeting minimum admissions criteria is not a guarantee of admission.
**Physical Therapy**
In addition to the college’s undergraduate admissions requirements, physical therapy candidates should have a high school GPA of 3.0; rank in the upper third of their high school class; have a combined score of 1050 for the critical reading and mathematics sections of the SAT-1 (generally expected); and have evidence of completing observational experiences in the field of physical therapy. Preferred application deadlines are: February 15th for first time freshmen.

Exceptions to minimum requirements may be made in conjunction with the Dean of the School of Health Sciences. Meeting minimum admissions criteria is not a guarantee of admission.

**Occupational Therapy**
Admission requirements are designed to select qualified students who are likely to successfully complete this professional program of study. Freshman entrance requirements include a high school GPA of 2.80, and a minimum of a 950 SAT combined score on math and critical reading or a 20 ACT combined score. Preferred application deadlines are: February 15th for first time freshmen.

Exceptions to minimum requirements may be made in conjunction with the Dean of the School of Health Sciences. Meeting minimum admissions criteria is not a guarantee of admission.

**How to Apply to American International College**
1. Applications are available online at www.aic.edu/apply. Paper applications can be obtained by contacting the admissions office.
2. File the completed application form and send it to the admissions office with the required application fee of $25.
3. Submit copies of high school transcript(s), diploma, or GED certificate directly to the admissions office.
4. Submit official transcripts from all colleges/universities previously attended.
5. Optional: Submit one letter of recommendation from professor, counselor or employer, and submit a personal statement.

**Transfer Admission**
Students with academic records satisfactory to American International College are admitted from other colleges for fall or spring enrollment. A transfer student must submit official transcripts of all work undertaken at all institutions attended after high school, whether credit is desired or not.

Students transferring from other accredited colleges are not required to take the SAT.

Some programs may have additional minimum admission requirements to be most competitive in the transfer process. These are listed below:
Nursing
Transfer applicants who are applying to AIC from another institution are accepted on a space-available basis for both the fall and spring semester. Transfer candidates will be evaluated for admission based on the record of their college studies. Transfer candidates, with or without reasonable accommodations, are expected to demonstrate academic readiness at the post-secondary level by submitting an official college transcript demonstrating a cumulative GPA of 2.5 or above (on a 4.0 scale). A minimum grade of C+ or better is required in the following prerequisite courses; courses marked with an asterisk (*) must have been completed within the last five years prior to admission:

- ENG1201/1601
- ENG1202/1602
- *BIO1200/1340
- *BIO1300/1301
- *CHE1211
- PSY1401
- *PSY1602
- *PSY2420
- SOC1000

Transfer of nursing courses is evaluated by the Director of the Division of Nursing and requires a grade of C+ or above (on a 4.0 scale). Nursing courses are only transferable up to and including first semester junior year.

Current AIC students seeking admission to the nursing program must complete a formal application process as an Internal Transfer. Internal transfer applications are reviewed in spring semesters only for fall admission into the program. Information on the internal transfer process can be obtained through the Dean’s office located in the Lissa building.

Occupational Therapy
Transfer applicants must have a minimum GPA of 2.90. Preferred application deadlines are March 15th for transfer students. Non-native English speaking students must submit Test of English as a Foreign Language (TOEFL) score documentation. Minimum score requirements are as follows: 577 Paper; 91 Internet; 233 Computer-based.

Transfer Credit Policy
Students who have earned academic credit at other accredited four-year institutions of higher education may transfer up to a maximum of 90 credit hours. The actual amount of transfer credit and specific courses transferred will be determined after the student has been accepted into a degree program. Such transfer credit will be granted for courses successfully completed elsewhere only when those courses bear
some reasonable relationship to courses in our curriculum and have been completed with a grade that equates, at a minimum, with our grade C-. Some programs, particularly physical therapy, occupational therapy and nursing, require a higher grade in certain courses.

Accepted applicants will be notified of which courses have been accepted in transfer shortly after being notified of an admission decision. Students who have earned academic credit at an accredited two-year institution of higher education may transfer up to a maximum of 60 credit hours. Students who have earned an associate’s degree may transfer credit up to 75 credits for all courses in which they have received a passing grade. Students transferring from an accredited two-year institution wishing to qualify for the bachelor’s degree will be required, in any case, to complete a minimum of 45 semester hours of credit work at this college. Students applying for admission by transfer from an institution not accredited by an official regional accrediting agency and wishing to transfer credit from such an institution will have their records evaluated on an individual basis. The registrar and the dean of the school or the provost will determine the acceptability of transfer credit for which the student is applying.

Readmission
Students who have previously attended American International College and are seeking to re-enroll at the same degree level without having attended another college/university in the interim are considered “Former Students Returning” (FSR). FSR’s should contact the admissions office for the appropriate form. All FSR’s are required to be approved for reenrollment by Student Accounts, Financial Aid, Student Affairs and the Registrar. This process will be overseen by the Office of Admissions. If a former student plans to return to AIC after completing additional coursework at another college/university, he/she must re-apply through the standard transfer admissions process. Financial aid for all FSR’s, including merit awards, is subject to change.

Deferment
In order to defer admission for up to one year, a Deferral of Admission Request form must be submitted to the Office of Admissions. Each request is reviewed on its individual merits and deferments are not automatically granted. The Director of Admissions, in consultation with the admissions counselor, makes the final deferral decision.

To defer, a student must:
- Complete and return the attached Deferral of Admission Request form to the Office of Admissions, indicating which term (s)he would like to defer to. The maximum length of a deferral is one year (typically Fall-Fall, Fall-Spring, or Spring-Fall).
- Pay the required non-refundable $200 confirming deposit by the relevant deadline and, if not already submitted, an official copy of his/her final high school transcript or General Educational Development (GED) diploma.
If the deferral is granted, it will:
- Be granted for a specific term.
- Except under exceptional circumstances as described below, be conditional upon the student not taking any courses at any other colleges/universities. Should an accepted student take courses elsewhere, the deferral is void and (s)he would need to reapply for admission to AIC. This includes courses that were taken Pass/No Pass, or courses that received a “W”.
- Roll forward any merit scholarship the student has already received. However, all other financial aid is not guaranteed.

Financial Aid:
- Students who defer to the following fall must reapply for financial aid by completing the Free Application for Federal Student Aid (FAFSA) as soon as possible after January 1st preceding fall enrollment.
- Students who defer from fall to spring semester normally will receive a proportionate share of their previously granted full-year award.
- Information on applying for financial assistance from AIC is available online at http://www.aic.edu/financialaid/how_to_apply.

Deferrals will not be given out more than once.

Exceptional Circumstances

In rare cases, an accepted student may be presented with an exceptional opportunity to enhance his/her personal portfolio. This could include a volunteer opportunity, athletic opportunity, or academic opportunity that requires a student to enroll in coursework at another institution during his/her deferral. AIC reserves the right to ask for supporting documentation of exceptional circumstances.

To defer under exceptional circumstances, a student must, in addition to the requirements above:
- Explain the special opportunity being presented to the student in the Deferral of Admission Request form.
- Submit official transcripts from any college/university attended during the deferral period at least 30 days prior to the start of class at AIC.

A deferral based on exceptional circumstances will be conditional upon the student maintaining good academic standing and no history of disciplinary action at any college/university (s)he attends during the deferral period.

A deferral granted on the basis of exceptional circumstances will not impact the major the student was accepted into.
Questions about this policy should be directed to the Office of Undergraduate Admissions by telephone (413-205-3201) or email (admissions@aic.edu).

**MassTransfer and Intersegmental General Education Transfer Curriculum (IGETC)**

Students admitted as transfer students who have completed either the MassTransfer Block at a Massachusetts community college or the IGETC program at a California two year college in an approved Associate degree program may have the American International College general education requirements waived, provided the student achieved the minimum of a 2.0 grade point average. Exceptions may be made for those cases where majors require specific courses that serve the dual purpose of meeting general education requirements as well as major requirements. American International College reserves the right to require up to a maximum of an additional six credits if it is determined that any critical area of the general education requirements is missing.

**International Admission**

American International College welcomes international students to its campus. The college is authorized under federal law to enroll non-immigrant students. It is the international students’ responsibility to submit all official records of their academic work and the necessary financial documentation. Applicants should take care to see that these records are complete. In addition, they should attempt to provide evaluations of those records when possible to avoid delays in the application processing.

International students who wish to be considered for admission should provide to the admissions office the following information:

1. Application for admission and application fee.
2. Official/attested secondary school records, certificates, and national examination results. If records are not in English, an English translation must be provided.
3. If applying for transfer admission, official transcripts must be submitted from all colleges/universities previously attended. If an applicant attended a college/university outside of North America, a course-by-course credential evaluation is also required.
4. For applicants whose native language is not English, proof of English proficiency is required. Most common demonstration of English Proficiency is through the Test of English as a Foreign Language (TOEFL), the IELTs, or SAT-1 results.

A Declaration and Certification of Finances is required before an I-20 can be issued. International students are strongly encouraged to submit financial documents with his/her application for admission to improve processing time of immigration documents.
Advanced Placement Program
Students who have completed Advanced Placement courses in high school may receive some college credit for work completed if they have taken the appropriate AP examination and earned a grade of 3, 4, or 5. Official score reports must be sent to the Admissions Office from the Advanced Placement program. The number of credits granted for achieving a grade of 3 or better will vary depending on the specific subject.

College Level Examination Program (CLEP)
American International College realizes that the important question is not how persons acquired their education, but what education they have. The College Board has designed the College Level Examination Program (CLEP) to serve a variety of purposes. The basic purpose is to enable those who have reached the college level of education in non-traditional ways to assess their level of achievement and to use the test results in seeking advanced standing and credit in college. There are test centers throughout the country. Any matriculating student at the college is eligible for this program. However, students must complete the last 30 semester hours of credit in residence for any degree at American International College. No grade may be raised by test results.

There are two types of examinations: general and subject. The general exam may be taken before or shortly after entrance to college. This is a battery of tests covering English composition, humanities, mathematics, natural science, and social science and history. Subject exams measure achievement in more than 30 specified undergraduate subjects.

Scores range from a low of 20 to a high of 80. American International College will give credit for a scaled score of 50 or above.

International Baccalaureate (IB)
In recognition of the standards of the International Baccalaureate Diploma Programme and individual courses taken as part of the IB Program, American International College awards up to six credits for those IB courses taken at the higher level where a score of 4 or better was earned. Such credits will be counted toward either general education requirements or as general electives. A maximum of 30 credits may be granted.

Adult and Continuing Education Admission
Non-matriculated candidates:
- non-matriculated student is one who takes college credit courses but who has not applied for formal admission (matriculation) to a degree program. A person who wishes to register for an undergraduate course without an application for admission may do so. That person must present documentation of high school graduation or completion of the General Education Development (GED) program. Proof of high school graduation or completion of the General Education
Equivalent (GED) is required.

- Continuing education students may take up to 15 semester hours of college credit as non-matriculated students before applying for admission. To become a matriculated student, one must comply with the admission procedure outlined above.

For additional information, call (413) 205-3518 or email pamela.robinson@aic.edu.

Admission for Secondary School Juniors
This college maintains a special program that permits some students to complete the senior year of high school and the freshman year of college simultaneously. Secondary school junior students who have completed their graduation requirements, with the exception of senior English and a social studies unit, by the end of the junior year, may be eligible for this program. They must have the unqualified approval of their guidance counselors and school principal and must possess unusual academic ability, as well as the maturity necessary for success in a college environment.

Approval of the high school officials includes a commitment to award the high school diploma upon the student’s successful completion of the first year of college work.

Veteran Status
A prospective student who plans to utilize any of the benefits available through the Veteran’s Administration should obtain a Certificate of Eligibility and Entitlement. This certificate should be sent to the registrar prior to the student registering for courses for the first time.

Auditing a Course
Students who audit courses pay one-half of the normal tuition rate. Courses taken on an audit basis cannot be taken later for credit.

Tuition and Resident Hall Deposit Payments
American International College abides by the Candidate’s Common Reply Date of May 1. Member schools of the Association for College Admissions Counseling (NACAC) agree that all prospective students should have an opportunity to receive admission decisions from all of the colleges to which they apply, provided all deadlines were met, before a deposit is required.

Admitted applicants will be asked to submit a non-refundable tuition deposit of $200 by May 1 in order to hold the student’s place in the entering class.

Where circumstances merit, requests for an extension of the deposit deadline may be granted at the discretion of the director of admissions.
The admissions office holds as confidential the information furnished on the application form and any other information relating to the applicant, from any source whatsoever. The dean of admissions may disclose any part or all of such information to other authorized college personnel for official college purposes only.
UNDERGRADUATE ACADEMIC REGULATIONS

All students are expected to be familiar with the Undergraduate Academic Regulations of American International College, a separate publication, which can be found at the AIC Student Information System Portal. Major elements of that publication include the following:

Student Advising
All students are assigned an academic advisor who takes an active interest in the academic development of the student. This includes aiding and making decisions regarding course registration and selection of a major, offering support, and referring those needing any type of help to the appropriate resources.

Matriculation
Matriculation is accorded to full-time and part-time students who are officially recognized candidates for a degree.

The Credit System
The basic unit of credit at the college is the semester hour. All courses have an assigned semester hour value, as listed in this catalog and related official publications.

The total minimum number of semester hours of credit required for the bachelor’s degree in any major program is 120.

Classification
Students are classified as follows at the beginning of each term:
- Fewer than 27 semester hours credit  Freshman
- At least 27, but fewer than 57 hours  Sophomore
- At least 57, but fewer than 87 hours  Junior
- At least 87 semester hours  Senior

Course Load
The traditional academic year consists of two terms, in each of which the expected student course load is 15 semester hours. A course load of 12 semester hours is the minimum required for full-time student status.

Grading System
Grades are indicated by the letters A, B, C, D, and F with modifying plus or minus symbols. An “A” represents distinguished work, and is reserved for work of outstanding quality. A grade of “B” is given
for work that is decidedly above average. A grade of “C” is given for work of average quality. A grade of “D” is given for work that is below average, but passing. A grade of “F” indicates that the student’s work is not passing, and that the student will not receive credit. In the event that the course is not repeated, the failure remains on the student’s transcript, exerting a continuously negative influence upon the cumulative grade point average. Candidates for an undergraduate degree must have a minimum cumulative grade point average of 2.0 (C).

For further details on grades and on the rules governing the academic standing of students, see the separate publication, Undergraduate Academic Regulations of American International College, Section V. The letter grades and quality points:

</table>

Report of Grades
The registrar’s office makes student grades available to students via the Student Information System at the end of each term.

**Academic Honors**

**Dean’s List**
The dean’s list is announced shortly after the completion of each semester to recognize those full-time students who have distinguished themselves by outstanding scholarship. To earn the honor of a place on the dean’s list of one’s school, a full-time undergraduate student must have attained at least a 3.30 grade point average for the semester with no grade lower than a C-.

To earn this honor, a part-time matriculated undergraduate student earning at least six credits must achieve a grade point average of 3.50. This honor is recorded on the student’s permanent academic record.
Graduation and Honors
Candidates for graduation must satisfy the academic requirements as outlined by the program and institution. Commencement exercises are held in May of each year.

Upon graduation, the most academically meritorious students are awarded the bachelor’s degree Cum Laude, Magna Cum Laude, or Summa Cum Laude, according to their attainment of the criteria set forth in Academic Regulations. To be considered for a graduation honors designation, transfer students must first have a minimum of 45 semester hours of credit taken at the college.

Course Grade Appeal Process
This appeals process provides an opportunity for the student to initiate a review of a perceived injustice in the final determination of a course grade.

Incomplete Work
A grade of “incomplete” (I) may be applied to work of acceptable quality when the course work has not been completed because of illness or other legitimate reasons. It is never applied to work that, up to the time a grade is to be given, is of failing quality. An “incomplete” must be completed by the end of the following semester unless the dean of the student’s school or the Provost approves an extension of time. Students who do not make up incomplete work within the specified time will receive a failing grade.

Absence from a Final Exam
A student may not miss a final examination without first obtaining the written permission of the appropriate faculty member. The dean may allow exceptions to this rule, under special circumstances. Usually, students may be excused from final exams due to serious illness, or death in the family.

Residency Requirement (30-hour Rule)
Each candidate for an associate’s or bachelor’s degree must complete the final 30 semester hours of credit work here, at American International College.

In rare and unusual circumstances the Provost may make an exception to this rule for a limited number of semester hours, upon the recommendation of the student’s faculty advisor and the dean of the school.

Foreign Study
A student enrolled at this college who wishes to undertake study at a foreign institution in an organized and accredited program may do so for the transfer of up to a limit of one full year of academic credit. Such a proposal of foreign study must be evaluated and approved in advance by the faculty advisor, the registrar, the dean of the school, and, finally, the Provost. Further information on foreign study opportunities may be obtained in the Office of The Dean of Business, Arts and Sciences.
**Course Changes**
Changes in course selection may be made any time up to the end of the add/drop period of any term and shall be processed through the Office of the Registrar with the use of a printed form entitled “Add/Drop Card” or email from the student’s advisor. The signature of the student and the faculty advisor or the dean of the school is required.

**Withdrawal from Courses**
Withdrawal from courses shall be processed through the Office of the Registrar with the use of the appropriate form. Prior to completing 75% of the term, a student may withdraw from a course without affecting the cumulative grade point average.

**Withdrawal from the College**
A student must initiate formal withdrawal from the college with the Office of the Registrar.

**Leave of Absence**
A student must initiate formal leave of absence from the college with her/his advisor. The approved leave of absence assures the student that he/she may re-enter the college in their current major.

**Academic Integrity**
American International College is firmly committed to students understanding the value of their education. Students are expected to perform their own academic work according to the standards set by faculty, departments, schools, and the college.
EXPENSES

All AIC charges are subject to revision at the discretion of the Board of Trustees. Expenses shown here are for full-time undergraduate students for the academic year 2014-2015. Changes to the fees charged by the college will be posted on the college website.

2014-2015 Costs Full Time Undergraduate Resident
Based on 12-17 credits per semester, standard room, and all-access 7-day meal plan. Additional fees for courses, health insurance, parking and other program fees may apply.

Tuition and Fees
Undergraduate full time students registering for 12-17 credits per semester are charged the comprehensive tuition fee. Students who take more than 17 credits per term will be charged a per credit fee for each credit over 17. Undergraduate students who take fewer than 12 credits in a term will be charged at the per credit hour rate.

Charges for Occupational Therapy and Physical Therapy seniors are listed with the Graduate 2014-2015 Tuition and Fee Schedule.

Food Service
The Dining Commons offers continuous service providing meals, drinks, and snacks during all operating hours seven days a week.

Resident students are required to have a meal plan and are initially assigned an all access 7 day meal plan. Meal plan changes may be made with the Student Accounts Office or by accessing their housing record online during the add-drop period at the start of each term. All resident freshmen are required to keep an all access 7 day meal plan.

Commuter students are not required to purchase a meal plan each semester but have several attractive available options. Commuters may make meal plan selections with the Student Accounts Office. Full meals may be purchased for cash in the Dining Commons.

The snack bar, known as The Hive, is located in the campus center. Sandwiches and salads, hot drinks, and other items are available on a cash basis. Adding Dining Dollars, a declining balance choice, is also available to all students through the Dining Commons office. Snacks and soft drinks are available through vending machines in other college facilities.

Student Health Plan
The Health Services office, located in Mallory Hall, is staffed by nurse practitioners, physician assistants, and a physician. Each of the health care providers has prescriptive authority and all are board certified. Hours of operation are Monday through Friday 8:00 am. until 4:00 pm. No appointment is needed to be seen and there is no charge for office visits. Campus Police responds to all emergencies on campus and will refer students to Health Services or Baystate Medical Center Emergency Department as needed.

Massachusetts law requires medical insurance coverage for all undergraduate students enrolled in nine or more credits in a term and for graduate students enrolled 75% of full time based on program requirements. AIC automatically applies the insurance fee but it may be waived during the add-drop period at the start of the semester if the student has comparable coverage with another carrier. A 12-
month plan, the insurance covers the period between August 1st and July 31st of the following year. The cost of insurance is subject to annual increases. Plans that cover dependent children and spouses are available at additional expense. The cost of the 2014-2015 full year plan is $1,600 for the student, $4,250 for a spouse and $1,800 for each dependent child.

STUDENT ACCOUNTS POLICY AND PROCEDURES

College bills are issued beginning in July for the fall term and in December for the spring term. Monthly statements are issued throughout the academic year.

Student Accounts Payment Terms and Conditions

1. Students should make payment arrangements for their account (“Student Account”) by the first day of class in each term.
   - Payment arrangements include approved financial aid, payment plans, cash or credit card.
   - Payments may be made by check, electronic payments, VISA, MASTERCARD, or DISCOVER.
   - The college offers monthly payment options with the Sallie Mae Tuition Payment Plan tuitionpay.salliemae.com.
   - International students must make full payment prior to arrival and are not eligible for participation in payment plans.
   - Students expecting employer funded direct payments should provide a signed agreement to the Student Accounts office for approval.
   - When a verified credit balance appears on a Student Account, refunds will be made in accordance with the student’s directions and regulatory requirements.

2. A student who does not satisfy his/her Student Account payment obligation may be excluded from classes, college activities and services, and campus residence halls.

3. A student who does not satisfy his/her Student Account payment obligation will not be allowed to register for courses and cannot be provided with certified/sealed/official transcripts until the outstanding balance is resolved.

4. A student who withdraws or otherwise separates from AIC is responsible for resolving any outstanding Student Account balance.

5. An overdue balance in a Student Account that is assigned to a collection agency or an attorney may be reported to a credit bureau and is subject to appropriate costs of collections, including attorney fees and court costs incurred.

6. Students with an outstanding account balance are subject to exclusion from the Graduation Ceremony.
Student Accounts Refunds

1. Students must initiate the written withdrawal process with the Registrar’s Office.
2. Refunds are computed on the basis of the date of the student’s written notice of withdrawal or dismissal.
3. Refunds will be calculated on a pro rata basis beginning the first day of classes for the applicable term up to the point at which the term is 60 percent completed. After that, no refunds are made. No refunds will be made for individual classes dropped after the first week of the semester. No refunds will be made for housing and meal plan cancellations after the semester is 50 percent completed.
4. No refunds will be made on charges other than tuition, board and room rent, except that program fees and fees for the Supportive Learning Services program shall be refunded in the same manner as tuition.
5. Reductions of financial aid will be made in accordance with federal regulations that require AIC to determine the amount of federal funds a student has earned as of the date he/she withdraws from the college. A student earns financial aid as the term progresses. Once the student has completed 60 percent of the term, the full award is considered earned. If the student withdraws before the 60 percent point, a federally required calculation is used to determine the amount of federal funds to be returned to the applicable aid programs. The same calculation may be applied to institutional funds.

FINANCIAL AID

Our mission is to work in partnership with the student and family to create a viable college financing plan for each academic year of enrollment. The office administers all college, federal, and state financial aid programs as well as alternative financing programs available through commercial lenders. Each student has an assigned counselor on the financial aid team. All students are encouraged to communicate actively with their assigned counselor. The Office of Financial Aid works with both graduate and undergraduate students.

Students are expected to complete the annual financial aid application process within the published timeframe. Preference is given to students who meet the priority filing dates. All students are encouraged to file well in advance of those dates.

March 1            Incoming undergraduate filing priority date
May 1              Returning undergraduates filing priority date
May 1              All graduate students filing priority date

All applicants must file the Free Application for Federal Student Aid (FAFSA) and any supporting documentation requested by the college. Applicants must include AIC on the FAFSA as the institution
to receive the FAFSA application data by designating AIC’s federal student code (002114) in the appropriate section of the FAFSA. Failure to do so may result in the withdrawal of aid awards.

In accordance with federal privacy laws, strict attention is paid to the confidentiality of student applications. Students must authorize, in writing, release of financial aid awards or application data to those not covered by the exclusions governed by the Family Rights and Privacy Act.

Crediting of Financial Aid Awards
The financial aid award letter will specify the amounts of aid and the expected semester disbursements by semester. All disbursements are made directly to the student’s account, generally during the first one to three weeks of the semester. Credited aid in excess of student charges will be refunded to the student within 14 days unless the student authorizes retention of the credit balance for future charges. No aid will be disbursed until all program and application requirements are met. The student is responsible for working with his/her financial aid counselor to complete all required forms and procedures. Failure to complete the program or application requirements will result in a loss of financial assistance.

GRANTS, SCHOLARSHIPS, AND LOANS

Merit-based Scholarships
Merit-based scholarships are awarded annually to selected incoming applicants who have been accepted for admission as full-time students. Merit scholarships are not available to students pursuing a second bachelor’s degree. Students awarded merit scholarships will be notified at the time of their admission decision.

Eligibility for incoming freshmen is based on SAT/ACT scores, class rank, and high school grade point average. Scholarships range from $5,000 to $17,000 and are renewable provided the student maintains satisfactory academic progress and continues full-time enrollment. Merit based scholarships are not available to students pursuing a second undergraduate degree.

Transfer students who have completed a minimum of 12 transferable credits will be considered for a merit-based scholarship based on their college cumulative grade point average. Students who are awarded such scholarships will be notified at the time of their admission decision.

American International College Grants
The college maintains a grant program that may provide assistance to students qualified on the basis of financial need. This program is open to all full-time undergraduate students who apply for financial aid and demonstrate financial need. AIC grants are not available to students pursuing a second undergraduate degree.
Athletic Grants in Aid
AIC is a Division II member of the NCAA and adheres to the awarding regulations determined by the NCAA. Athletic grants are subject to the coach’s recommendation and the approval of the directors of athletics and financial aid.

Federal Pell Grants
Pell Grants are awarded to eligible students based on the FAFSA and other required supporting documentation. The award schedule is determined by the US Department of Education annually, subject to appropriation by the Congress. Eligible applicants must be enrolled at least half time to receive a Pell Grant.

State Grant Programs
Many states provide grants that are awarded on the basis of financial need and/or academic performance. Application deadlines vary but students are advised to apply as early as possible, generally before March 1st. Students should check with their home state programs for application requirements and deadlines.

Federal Supplemental Educational Opportunity Grant
The Supplemental Educational Opportunity Grant is designed to assist undergraduate students with exceptional financial need as determined by a review of the student's FAFSA. Awards are determined by the Office of Financial Aid and range from $200 to $4,000 annually subject to Congressional appropriations and program regulations.

Federal Work-Study
AIC participates in the Federal College Work-Study Program. It offers students, qualified on the basis of financial need, the opportunity to provide for a portion of their college expenses by working part time while they attend school. Job assignments are based on the availability of funds and are determined by the financial aid office. Students are paid every other week by check or direct deposit. Work-Study awards are not deducted from the student’s account.

Federal Perkins Loan
AIC participates in the Perkins Loan program. This program provides a very limited number of low interest (5%) loans to full-time students who have financial need. Repayment begins nine months after the student ceases enrollment at least half time. Due to limited funding, Perkins Loans are awarded at the discretion of Director of Financial Aid or designee to full time students with exceptional need and/or extenuating financial circumstances.

Federal Direct Loans
Loans under the Federal Direct Loan Program are subject to the regulations and terms as determined by
the U.S. Department of Education. Applicants must file the appropriate FAFSA on an annual basis. There are two types of loans. The Subsidized Direct Loan is available to students demonstrating financial need as defined by the U.S. Department of Education. The federal government assumes responsibility for interest payments while the student is enrolled at least half time. Under the Unsubsidized Federal Direct Loan program, interest accrues while the student is enrolled. The student may elect to pay only interest while enrolled or the interest may be capitalized until the student enters full repayment.

**Federal Direct PLUS Loans**
Parents may borrow the annual full cost of education less any financial aid subject to federal lending criteria. The student must have a FAFSA on file. The federal government is the lender and sets standard for credit worthiness and program eligibility.

Graduate students may supplement borrowing in the subsidized and unsubsidized programs by seeking assistance through the GradPlus option. Students may borrow up to the full cost of attendance less any other financial assistance (loans, assistantships, work study, grants and scholarships).

**HONOR SOCIETIES**

**Alpha Chi Honor Society**
The purpose of Alpha Chi is to encourage sound scholarship and devotion to truth, not only among its members, but also among all students on chapter campuses. The Massachusetts Alpha chapter was begun at AIC in 1949 and has remained focused on the objective to procure “the stimulation, development and recognition of scholarship and those elements that make scholarship effective.” Membership is restricted to the top 10 percent (by GPA) of members of the junior and senior classes with at least 30 credit hours taken at AIC.
Alpha Phi Sigma Honor Society
The purpose of Alpha Phi Sigma National Criminal Justice is to recognize and promote high scholarship among students actively engaged in collegiate preparation for professional services; to keep abreast of the advances in scientific research; to elevate the ethical standards of the criminal justice professions; and to establish in the public mind the benefit and necessity of education. All students must have completed one-third of the credit hours required for graduation by a college or university accredited by the appropriate regional accrediting organization and must be recommended by a local chapter advisor or faculty member. Undergraduates must maintain 3.0 cumulative GPA and a 3.2 GPA in the criminal justice field, and graduate students are required to have a 3.4 GPA in all graduate courses. Students must rank in the top 35 percent of their class.

Alpha Sigma Lambda Honor Society
Alpha Sigma Lambda is a national honor society for undergraduate students in continuing education programs at regionally accredited colleges in the United States. Omicron Chapter was established at AIC in 1961. Candidates for membership must be within 18 hours of program completion and have successfully completed at least 15 credit hours within the academic year preceding induction in The School of Graduate and Adult Education, and must have attained a cumulative grade point average of at least 3.30. Qualified candidates are inducted into the honor society in the spring.

Nursing Honor Society
The American International College Nursing Honor Society, established in 1994, is an organization that recognizes academic achievement of students majoring in nursing. The society also fosters the development of leadership qualities and high professional standards, and strengthens commitment to the ideals and purposes of the profession among its membership. Membership is by invitation. Eligibility requirements are a 3.0 GPA and a class rank of 35 percent or higher. An annual induction is held for both junior and senior candidates each May.

Pi Sigma Alpha
Students with ten or more credits in political science are eligible for initiation into Pi Sigma Alpha, the national honor society for political science. The honor society recognizes students with superior achievement in the study of politics and government, but members must also have achieved a high overall grade point average. While the national honor society traces its origins to 1920, the chapter at American International College, Alpha Epsilon Sigma, was founded in 2008. Pi Sigma Alpha promotes the study of political science via a variety of programs, including awards for best papers, internships and scholarships for study at the Washington Center, and the publication of an journal dedicated to the publication of students’ research. Members are eligible to apply for any of these benefits.
Psi Chi National Honor Society in Psychology

The purpose of Psi Chi is to encourage, stimulate and maintain scholarship of the individual members in all fields, particularly in psychology, and to advance the science of psychology. For active student membership, the student must be enrolled in an accredited college or university and must have completed nine semester hours or 14 quarter hours of psychology and at least three semesters or five quarters of the college course. He or she must be registered for major or minor standing in psychology, or for a program psychological in nature that is equivalent to such standing. Undergraduate students must rank not lower than the highest 35 percent of their class in general scholarship and have a minimum overall GPA and psychology GPA (3.0); graduate students must have an average grade of B (3.0) in all graduate courses.

ACADEMIC SOCIETIES

American Marketing Association Collegiate Chapter

This affiliation provides students the opportunity to network with professionals in the business field and continue in education beyond the classroom.

The chapter will:

• Foster scientific study and research in marketing
• Improve student methods and techniques in marketing research
• Discuss and study the changes in business particularly in marketing

Membership is open to all students majoring in a business field, as well as communication majors. Some of the activities scheduled are speakers, research projects, company trips, and assignments.

Reserve Officers’ Training Corps (ROTC)

Any student at American International College who desires to earn a military commission may do so through the ROTC programs, which are offered through a cooperating agreement with Western New England University in Springfield. Interested students may participate in a two- or four-year program offered by the United States Army or the United States Air Force.

Four-year program students must accumulate 90 contact hours of military science academic courses and leadership and skill training during their freshman and sophomore years. During the junior and senior years, they must take a three-credit military science academic course and leadership laboratory each semester.

Two-year program students (sophomores or students who have two academic years remaining) attend a six-week basic summer camp in lieu of the first two years of the program.
Veterans or members of the National Guard or Reserves may receive up to three years of constructive credit. Two years of credit may be awarded for previous ROTC training in either high school or college.

In addition to classroom instruction, students participate in a leadership practicum, orientation visits to military bases, field trips, and briefings. Students also attend a six-week summer advanced camp at the end of the junior year, which permits application of theory presented in the classroom.

Cadets may compete for scholarships, which include tuition, a monthly stipend, and a book allowance.

Upon completion of degree and ROTC requirements, cadets are commissioned as Second Lieutenants and serve on active duty, or with a Reserve or National Guard unit. Interested students can register for ROTC academic courses at Western New England University as special students, or through the Cooperating Colleges of Greater Springfield.

S.O.T.A.
The Student Occupational Therapy Associations are local occupational therapy student groups on campuses throughout the nation. The S.O.T.A. at AIC is active in promoting intercollegiate relations among students interested in better understanding the discipline of occupational therapy. As a social organization, S.O.T.A. promotes communication among occupational therapy students, serving as an advocate for student concerns. It also assists its members to advance their knowledge about the profession by sponsoring AIC students for the National AOTA Annual Conference, and encouraging students to attend the MAOT State Conference. S.O.T.A. also recognizes its responsibility to the society through its commitment to sponsoring community events such as The Annual Walk for Breast Cancer and the Blood Drive for the American Red Cross, as well as participating in Habitat for Humanity projects.

Student Nurses Association
The Student Nurses Association of the Division of Nursing provides students with opportunities for public service and for student socialization. The purposes of the association are to contribute to nursing education, provide programs of professional interest and concern, and to aid in the development of the student nurse in his or her responsibility for providing health care. Members of the organization are involved in public service functions related to health care and social issues on the AIC campus and in the greater community, and participate in the National SNA Organization. All nursing students are encouraged to become members of the local and national organizations.

ACADEMIC SUPPORT SERVICES

Center for Academic Success
The Center for Academic Success seeks to identify student needs, support the development of programs
and services to address those needs, and partner with existing programs to build a supportive and caring environment that fosters learning, success, responsibility, and commitment.

The following services are available through the Center.

**ACE Program**
The American International College Core Education (ACE) Program is a federally funded program designed to assist with the personal growth and professional development of qualified students. The ACE staff works closely with students to help them adjust to college life, explore educational opportunities, develop study skills, get involved in campus activities, clarify career goals, and prepare for life after graduation. Services include academic advising, advocacy, career development, financial aid counseling, and mentoring.

**Academic Resource Center**
The Academic Resource Center (ARC) is committed to helping students develop the skills they need to become independent learners, skills that will help them to succeed at American International College and, ultimately, in the workplace. Staff members are available to work one-on-one with students on strategies for time management, studying, test taking, and managing test anxiety. The Academic Resource Center also services as a general liaison to other campus resources.

**Advising Center**
AIC is committed to assisting students plan an approach to their course work that supports their personal career goals and the essential academic and professional skills required for their majors. The staff of the Advising Center works closely with freshmen and sophomores to ensure that they have a clear plan for a path to graduation. Working with faculty in the majors and with Career Services, the Advising Center also helps students to identify the essential skills required for their major and related careers. Following their sophomore year, students transition to a faculty advisor who will help them identify appropriate internship/practicum experiences as well as career and graduate school opportunities after graduation.

**Career Development Center**
The Office of Career Services promotes, coordinates, and provides services to assist students in the development of career goals and job search strategies. Using information on employment outlooks and occupational trends, the staff of Career Services works with employers and the Cooperating Colleges of Greater Springfield to develop career fairs, workshops and other events to prepare students for life after graduation. First year students are registered in Career Services Job and Internship Database and encouraged to work throughout their undergraduate years to develop their professional skills.
**Developmental Education**

In order to help students maximize their academic potential, the office of Developmental Education works to develop courses and programs that assist students in developing the skills they need to be successful in their academic courses. The writing and mathematics ability of first-year students is assessed during orientation sessions and students are placed in courses appropriate to their skill levels. Courses to assist students in skill development are held in a computer classroom designed to provide an interactive learning environment.

**Tutoring Program**

Using a small group, peer tutoring model, the Tutoring Program works to provide support for students experiencing difficulty within the content area. Peer tutors are trained in instructional and group facilitation strategies. The director and the peer tutors maintain contact with faculty to ensure that students are prepared for success in their major and content area courses. Tutoring is available both during the day and evening to meet the needs of students.

**Writing Center**

The Writing Center provides support to students who wish to improve their writing skill within the content areas. Trained students and paraprofessionals work with students at all stages of the writing process, from initial brainstorming to final revisions, with the goal of teaching students how to prepare, write, and revise quality compositions. In addition, the Writing Center staff develops workshops for presentation in courses that are writing intensive and research oriented.

**Supportive Learning Services Program**

The college has been a pioneer in the field of ensuring full participation and equal educational opportunity for students with disabilities. The college is committed to making reasonable academic, social, and physical accommodations for students with disabilities.

These accommodations may include, but are not limited to, oral and/or extended-time exams, taped textbooks, adjustments of non-essential program requirements, note-taking assistance, readers, pass/fail options, physical accessibility. These accommodations are provided at no charge to the student.

Any student with a disability who wishes to request an accommodation is encouraged to contact the compliance officer for the college, located in the Campus Center. The telephone number is 205-3264.

In addition, the College, in conjunction with the Curtis Blake Learning Services Center, also operates a formal, comprehensive Supportive Learning Services program, providing personal services for learning disabled students for an additional fee. Students interested in this program should contact the director at 205-3426.
UNDERGRADUATE CURRICULUM

The College reserves the right to alter any of the rules and regulations outlined in this catalog and also in the Academic Regulations (a separate publication). All such changes are effective at such times as the proper authorities determine and may apply not only to prospective students, but also to those who already are enrolled in the college. This catalog should not be construed as constituting a contract between the college and any other person.

American International College ensures that its graduates experience the essentials of a general education. To achieve this purpose, courses basic for general education are required of all students at the college. Courses are also required to complete a specified amount of study of acceptable quality in a major field.

American International College has three schools:

- School of Business, Arts, and Sciences
- School of Health Sciences
- School of Graduate and Adult Education

All undergraduate students in each of the schools must satisfy the College’s general education requirements. Beyond the general education requirements, each school has its own major fields of study, the details of which are included within each departmental listing.
GENERAL EDUCATION REQUIREMENTS

Orientation (1-3 credits)
   AIC1100, AIC1140, HON1104

Communication Skills (6 credits)
   ENG 1201 or ENG1601
   ENG 1202 or ENG1602

Literature (3 credits)
   Any ENG 2-level or higher literature course

Scientific Awareness (8 credits)
   BIO Any 1000-level lab course
   BIO1400, BIO1500 (Biology majors or with permission from instructor)
   CHE1100, 1110, 1200, 1600, 1700
   PHY1010, 1020, 1030, 1050, 1600, 1800

Cultural Awareness (6 credits)
   ART1000, 1010, 1030, 1100, 1120
   COM2460, 3290
   HON2210
   IBS1420
   MUS any course
   PHI1000, 1200, 1400, 2001
   THR1400
   Any elementary or intermediate foreign language, including sign language

Social Awareness (12 credits)
   ECO1000, 1010, 1401, 1402
   HON2220
   HRD2000
   HST1400, 1410, 1500, 1510, 1520, 2440
   POL1000, 1400, 1500
   PSY1401, 1501
   SOC1010, 1100, 1400
Information Literacy (3 credits)
    COM2200
    MIS1220 and BUS1407 for business majors

Quantitative Reasoning (3 credits)
    PSY/CRJ2302
    MAT1310, 1430, 2004, 2030
The AIC Honors Program provides outstanding students from all majors at AIC with an intellectually enhanced learning experience. Students in the program take a variety of special classes that fulfill requirements under AIC’s general education curriculum. In particular, they participate in several honors seminars that are open only to them. During their senior year, they write an honors thesis on a subject of their choice. Upon successful completion of the program, students receive the distinction “Honors Scholar” on their diploma and permanent academic record.

One of the Honors Program’s goals is to foster a community of dedicated student learners and scholars. It sponsors special activities for participants like social events and field trips. It also tries to promote cultural and academic life for the entire campus, for example, by bringing in guest speakers.

There are several ways that students can become part of the Honors Program. Qualified incoming freshmen will be asked to participate in HON 1104 and then formally invited to join the program itself at the start of their second semester. Current AIC students who have earned a 3.3 GPA or better and who have not yet started their junior year may be nominated by a faculty member and admitted with the director’s approval. Finally, transfer students who have earned a 3.5 GPA or better at their previous institution may apply to the director for admission. Students must maintain a 3.3 GPA at AIC each semester (dean’s list) to remain in the program.

Honors Program Curriculum
ENG 1601 Advanced First-Year Composition
ENG 1602 Advanced First-Year Composition and Literature
HON 1104 First Semester Honors Seminar
HON 2210 Honors Seminar in the Field of “Cultural Awareness”
HON 2220 Honors Seminar in the Field of “Social Awareness”
HON 2210 and HON 2220 normally are taken during the sophomore or junior years. The topic for each will alternate from semester to semester. Students in the program may take additional Honors Seminars as free electives.
ENG Honors Literature
This course may be taken after completion of ENG 1601 and ENG 1602. ENG Honors Literature courses currently include ENG 3400 (Major American Authors), ENG 3450 (Environmental Literature), and ENG 3800 (Shakespeare).
HON 4601 Honors Thesis Preparation
This course normally is taken in the Fall Semester of senior year.
UPT students will take this course in the Fall Semester of junior year.
HON 4899 Honors Thesis
This course normally is taken in the Spring Semester of senior year.
UPT students will take this course in the Spring Semester of junior year.

All of the courses in the Honors Program curriculum meet AIC’s general education requirements except for HON 4601 and HON 4899. Students in the program must fulfill their remaining non-Honors general education requirements in order to graduate.

With the permission of their department chair(s) and the Honors Program director, students may combine HON 4601 and HON 4899 with senior capstone projects or theses in their majors.
SCHOOL OF BUSINESS, ARTS AND SCIENCES
Susanne T. Swanker, PhD, Dean

Mission
In support of the college's general academic mission, The School of Business, Arts and Sciences commits itself to serve three functions:

1. To offer an integrated, multidisciplinary program of courses in the liberal arts at the introductory level for the general education of all students throughout the college.
2. To provide high quality instruction at the advanced level for preparing majors in the traditional liberal arts and business for admission to professional or graduate schools, or for direct entry into the work force.
3. To develop competent, dedicated individuals eager to serve the needs of people by providing professional programs based on the application of liberal arts, particularly the social sciences.

The liberal arts teach the intellectual skills and broad acquaintance with society that allows students the ability to adapt and evolve in today's global market. The liberal arts are the academic foundation for the educated person. Through a liberal arts foundation, AIC prepares graduates who can think critically and creatively, communicate effectively, understand broad societal relations and heritages, build strong relationships with others across a variety of cultural and experiential boundaries, and manage themselves well—all essential skills for success in their professions and the wider community.

The liberal arts majors offer a truly most practical career preparation for a world that is constantly changing. They prepare students not only for their first jobs after college, but also for advanced careers beyond the entry level. They equip students so that they can both shape the persons they envision becoming, as well as create the world in which they wish to live.

The professional majors build on the liberal arts foundation by teaching the specific skills and knowledge base, and building the specific values that will:

- develop in students an appreciation of the helping profession as a career choice;
- ensure that every graduate has demonstrated competencies appropriate for entering his/her profession of choice;
- encourage students to engage in practica in their fields so as to experience the realities of the workplace;
- ensure that the students possess or obtain the necessary personal qualities to serve all types of people in an equitable and sensitive manner; and
- foster in students a problem-solving approach when confronted with difficult situations.
DEGREE PROGRAMS

Associate of Arts (AA), Associate of Business Administration (ABA), and Associate of Science (AS)
The degrees of Associate of Arts, Associate of Business Administration, and Associate of Science are conferred upon students who have satisfactorily completed 60 semester hours of academic work.

Majors:
General Business (ABA)*
Liberal Arts (AA)*
Liberal Studies/Early Childhood Focus (AS)

*Available only as a part-time, evening option

General Business (ABA)
The Associate of Business Administration is conferred upon students who have satisfactorily completed a minimum of 60 semester hours of academic work. Business Administration is the area of concentration. This program is designed to provide students with a solid introduction to the subject matter. It also provides a seamless transition into a Bachelor of Science in Business Administration degree program. The ABA in General Business is only available as a part-time evening option.

Business Common Professional Component:
Liberal Arts (AA)
The Associate of Arts is conferred upon students who have satisfactorily completed a minimum of 60 semester hours of academic work. Liberal Arts is the area of concentration. This program is designed to provide students with a solid introduction to the subject matter. It also provides a seamless transition into the Bachelor of Arts degree program. The Liberal Arts (AA) program is only available as a part-time evening option.

Program Requirements:

ENG1201 English Composition I
ENG1202 Analytical Thinking
ENG____ Literature
Scientific Awareness Four (4) credits from General Education Requirements
Social Awareness Twelve (12) credits from General Education Requirements
Cultural Awareness Twelve (12) credits from General Education Requirements
MIS1210 Introduction to Management Information Systems
Electives Twenty-one (21) general electives

Liberal Studies/Early Childhood Focus (AS)
A program for undergraduates seeking to work in a preschool or daycare setting. The curriculum conforms to the standards set by the NAEYC and the Core Competency Areas for Early Education and Care set by the MA Dept. of Early Childhood and Care. Students may transition to the BA-BS/MEd program upon completion.

First year:

AIC1140 The Undergraduate Experience
ART____ selected from General Education Requirements
ECO1010 World Economics Geography
ENG1201 English Composition
ENG1202 Analytical Writing
MIS1220 Applications of Microcomputers
MUS____ any Music course
POL1400 Introduction to American Politics
PSY1401 General Psychology I
Lab Science selected from General Education Requirements
SOC1100 Introduction to Sociology

Bachelor of Arts, Bachelor of Science and Bachelor of Science in Business Administration

The degrees of Bachelor of Arts, Bachelor of Science and Bachelor of Science in Business Administration are conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work.

Majors:

- Accounting (BSBA)*
- American Studies (BA)
- Biochemistry (BS)
- Biology (BS)
- Chemistry (BS)
- Communication (BA)
- Criminal Justice (BS)
- Economics and Finance (BSBA)*
- English (BA)
- General Business (BSBA)*
- Healthcare Management (BSBA)
- History (BA)
- Human Biology (BS)
- Human Resource Management (BSBA)**
- Interdisciplinary Science (BS)
- International Business (BSBA)
- International Studies (BA)
- Liberal Arts (BA)**
- Liberal Studies (BA)
- Management (BSBA)*
- Marketing (BSBA)*
- New Media (BS)
Political Science (BA)
Psychology (BS)
Social Sciences (BA)*
Sociology (BA)
Sports and Recreation Management (BSBA)
Theater Arts (BA)
Visual and Digital Arts (BA)
*May be completed part-time, evening
**Only available as part-time, evening

Double Majors
In some instances, it is possible to have a second major. Students may discuss the advisability of this option with their academic advisor or with the appropriate department/division chair.

Minors
Students may elect to fulfill the requirements of a minor field of study in some disciplines and to have the minor field officially recorded along with their major field of study on their permanent record. Requirements for minors vary according to departments. Interested students are referred to the department/division chairs and to the program description section.

Pre-Professional Studies
Pre-Professional Studies in Pre-Law and Pre-Med are not majors at AIC, but offer aspiring students guidance in choosing a specific major related to their intended careers and graduate studies. Students will work with a pre-professional advisor in addition to working with an advisor in his/her major.

DEPARTMENTS/PROGRAMS

Accounting (BSBA)
Our rigorous program stresses accounting theory and fundamentals, balanced by practical applications provided by a seasoned CPA staff. Our students will be prepared to use accounting and financial information to plan, control, and manage an organization’s resources. Preparation for a specific state’s CPA examination should be closely managed by the students and their advisors.

Learning Outcomes:
• Understand, create and analyze financial statements based upon generally accepted accounting principles
• Understand basic U.S. tax laws as applied to individuals
• Understand basic U.S. tax laws as applied to business entities
• Understand the attestation function and generally accepted auditing standards
• Understand the basic concepts of cost and managerial accounting and its role in business
• Apply mathematical concepts and technology to interpret, understand and communicate quantitative data
• Apply conceptual framework, economic reasoning and generally accepted accounting principles to solving accounting problems
• Analyze and interpret economic and financial events for internal decision-making purposes
• Attest to the fairness of financial representations and the adequacy of internal controls
• Effectively produce, interpret and analyze written text, oral messages and multimedia presentations used in business
• Introduce students to Generally Accepted Accounting Principles for Governmental and Private Not-For-Profit entities

Program Requirements:
All Business students must take the following introductory business courses (Common Professional Component):

- ACC1201 Principles of Accounting I, with laboratory
- ACC1601 Principles of Accounting II
- BUS1407 Business Communications
- BUS3000 Business Law
- ECO1401 Principles of Economics I (General Education Requirement)
- ECO1402 Principles of Economics II (General Education Requirement)
- FIN2003 Managerial Finance
- IBS1400 Introduction to International Business
- MAT1250 Finite Mathematics I
- MAT1430 Foundations of Statistics
- MGT1400 Principles of Management
- MIS1210 Introduction to Management Information Systems
- MIS1220 Applications of Microcomputers
- MKT1450 Principles of Marketing I
- MGT4800 Senior Policy Seminar

Plus:

- ACC2401 Intermediate Accounting I, with laboratory
- ACC2601 Intermediate Accounting II, with laboratory
- ACC3402 Auditing
- ACC3411 Cost Accounting
- ACC3422 Advanced Accounting I
- ACC3431 Advanced Accounting II
- ACC3440 Federal Income Taxation
- ACC3611 Advanced Federal Taxation
- ACC4875 Accounting Capstone
- FIN3___ 3000-level Finance Elective
- MAT2030 Statistical Analysis for Business Decisions

Plus 12 credits of business electives

and 4 credits of any Arts, and Sciences course

Minor

- ACC1201 Principles of Accounting I, with laboratory
- ACC1601 Principles of Accounting II
- ACC2401 Intermediate Accounting I, with laboratory
- ACC2601 Intermediate Accounting II, with laboratory
Choose one of the following courses:
- ACC2210 Managerial Accounting
- ACC3411 Cost Accounting

and one from the following courses:
- ACC3402 Auditing
- ACC3422 Advanced Accounting I
- ACC3431 Advanced Accounting II
- ACC3440 Federal Income Taxation

**American Studies (BA)**
The American studies program offers a major to students who desire an interdisciplinary preparation for careers that will demand a broad but deep knowledge of American society, including an understanding of its economics, socio-cultural patterns, political traditions, and historical heritage, especially as they fit into today’s global society. Students are prepared for an extensive range of careers such as law, journalism, public affairs, politics or governmental affairs from the municipal to national levels, or professions in museums or cultural agencies. American Studies is a foundation for helping set political or social policy for the nation, or advancing into graduate studies in law, history, literature, or political science.

**Program Requirements:**
**Major**
- ENG3400 Major Authors in American Literature, 1492 - 1865
- ENG3410 Major Authors in American Literature, 1865 - Present
- HST1510 United States History I (to 1877)
- HST1520 United States History II (since 1877)
- POL1400 Introduction to Political Science
- POL3700 American Political Thought
- SOC1100 Introduction to Sociology
- AMS4800 American Studies Seminar (repeatable every semester, but at least one per year for a minimum of three completions)

Additionally, students must choose one of the following concentrations and complete four courses within it:

**American Identity:**
- ENG2520 African-American Literature
- HST3413 American Radical Tradition
- HST3430 African-American History since 1619
- POL2630 Civil Liberties
SOC2600  Class, Status and Power
SOC3243  Race and Ethnic Relations

American Law and Institutions:

HST3500  Supreme Court in American History
POL2420  Presidency and Congress
POL2620  Public Law
POL2630  Civil Liberties
POL3400  Public Administration
SOC2420  Sociology of American Institutions

Public Policy and Popular Culture:

ECO1401  Principles of Economics I
HST3413  American Radical Tradition
POL2450  Political Parties
POL2500  American National Elections
POL2520  Politics, Media and Pressure Groups
POL3402  American Foreign Policy
SOC2600  Class, Status and Power

Biochemistry (BS)
The Biochemistry major is an integrated program combining focused studies in biology and chemistry, with supporting coursework in mathematics and physics. Those who complete this program will have a solid understanding of the fundamental principles by which nonliving matter comes together to form living organisms.

Learning Outcomes:

• To acquire knowledge of fundamental chemical and biochemical principles
• To exhibit facility in the application of the fundamental principles of chemistry
• To develop the skills to work competently and safely in the laboratory
• To exhibit scientific literacy
• To demonstrate professionalism and ethical standards in their demeanor and coursework

Program Requirements:

Major

CHE1600  General Chemistry I, with review and laboratory
CHE1700  General Chemistry II, with review and laboratory
CHE2200  Introduction to the Scientific Literature
CHE2400  Organic Chemistry I, with laboratory
Additionally, any two of the following courses:

- BIO1400 Biology I
- BIO3450 Genetics
- BIO4030 Molecular Biology

Plus four credit hours from the following, including one credit of laboratory:

- CHE3600 Advanced Inorganic Chemistry
- CHE3601 Advanced Inorganic Laboratory
- CHE3650 Spectroscopy of Organic Compounds
- CHE3651 Advanced Organic Laboratory Techniques
- CHE4050 Instrumental Analysis, with laboratory
- CHE4600 Physical Biochemistry, with laboratory

**Minor**

- CHE1600 General Chemistry I, with laboratory and review
- CHE1700 General Chemistry II, with laboratory and review
- CHE2400 Organic Chemistry I, with laboratory
- CHE2500 Organic Chemistry II, with laboratory
- CHE4200 Biochemistry I
- CHE4300 Biochemistry II

**Biology (BS)**

Biology majors may focus their studies on one of the following areas: cell and molecular biology, ecology/environmental science, bio-medical (for pre-professional students), zoology, bio-education (for students in middle and secondary education), or general biology (a personalized program for students with unique interests).
Biology majors have pursued careers in such fields as teaching, wildlife conservation, environmental management, environmental consulting, biotechnology industry, research laboratories, laboratory management, environmental education, forensics, public health, allied health fields, museum/aquarium work and graduate school, as well as medicine, dentistry, podiatry, veterinary medicine, and optometry.

**Learning Outcomes:**
- Students will demonstrate familiarity with the knowledge base comprising the field of biology
- Students will become familiar with the process of scientific inquiry
- Students should be able to effectively communicate scientific findings

**Program Requirements:**

Major

All biology students must complete the required biology core of courses that include:

- BIO1400 Biology I, with laboratory
- BIO1500 Biology II, with laboratory
- BIO2400 Comparative Vertebrate Anatomy, with laboratory
- BIO3440 Ecology, with laboratory
- BIO3450 Genetics, with laboratory
- BIO4350 Evolution
- BIO4803 Senior Seminar in Biology

And, one of the following courses:

- BIO2430 Microbiology, with laboratory
- BIO3400 Cell Biology, with laboratory

All biology majors must complete up to 14 elective credits in biology courses at or above the 3000 level in addition to the required biology core. No more than one semester of BIO 4698, 4798, 4833, or 4834 may be counted towards satisfying the requirements of the biology major. All biology majors must also complete the required core in allied fields:

- CHE1600 General Chemistry I, with review and laboratory
- CHE1700 General Chemistry II, with review and laboratory
- CHE2400 Organic Chemistry I, with laboratory
- CHE2500 Organic Chemistry II, with laboratory
- PHY1600 General Physics I, with review and laboratory
- PHY1800 General Physics II, with review and laboratory
- MAT2004 Biostatistics

Additionally, all biology majors must complete two of the following courses:

- MAT1840 College Algebra and Trigonometry
- MAT2400 Calculus I
- MAT2500 Calculus II, with laboratory
By appropriate selection of electives, students may focus their studies on any of the following areas:

- Bio-Education (see education department information for professional requirements for teacher education)
- Biomedical (for students interested in medical professions)
- Cell and Molecular Biology
- Ecology/Environmental Science
- General Biology
- Zoology

Minor

- BIO1400 Biology I, with laboratory
- BIO1500 Biology II, with laboratory
- BIO2400 Comparative Vertebrate Anatomy, with laboratory
- BIO2430 Microbiology, with laboratory
- BIO3440 Ecology, with laboratory
- BIO3___ 3000-level Biology elective, with laboratory as required

Chemistry (BS)

The Chemistry major and minor offers students the flexibility to choose courses appropriate to preparation for careers in industry, health professions, teaching, business, law, or engineering, or graduate studies and research. Obtaining this major requires fluency with the basic nature and behavior of the matter comprising our universe.

Learning Outcomes:

- To acquire knowledge of fundamental chemical principles
- To exhibit facility in the application of the fundamental principles of chemistry
- To develop the skills to work competently and safely in the laboratory
- To exhibit scientific literacy
- To demonstrate professionalism and ethical standards in their demeanor and coursework

Program Requirements:

Major

- CHE1600 General Chemistry I, with review and laboratory
- CHE1700 General Chemistry II, with review and laboratory
- CHE2200 Introduction to the Scientific Literature
- CHE2400 Organic Chemistry I, with laboratory
- CHE2500 Organic Chemistry II, with laboratory
- CHE2600 Analytical Chemistry, with laboratory
- CHE3400 Physical Chemistry I, with laboratory
CHE3500  Physical Chemistry II, with laboratory  
CHE4050  Instrumental Analysis, with laboratory  
CHE4840  Senior Seminar  
MAT2400  Calculus I  
MAT2500  Calculus II  
MAT2600  Calculus III  
MAT2004  Biostatistics  
PHY1600  General Physics I, with review and laboratory  
PHY1800  General Physics II, with review and laboratory  

Plus eight credit hours from the following, including two credits of laboratory:  
CHE3600  Advanced Inorganic Chemistry  
CHE3601  Advanced Inorganic Laboratory  
CHE3650  Spectroscopy of Organic Compounds  
CHE3651  Advanced Organic Laboratory Techniques  
CHE4200  Biochemistry I, with laboratory  
CHE4300  Biochemistry II, with laboratory  
CHE4600  Physical Biochemistry, with laboratory  

Minor  
CHE1600  General Chemistry I, with laboratory and review  
CHE1700  General Chemistry II, with laboratory and review  

Plus 12 credits from 3000-level chemistry courses that: satisfy the chemistry major, and include at least two credits of laboratory.

**Communication (BA)**

The Communication major is designed to develop students’ theoretical and practical skills related to this technologically, evolving field. This major prepares students for careers in print journalism, broadcasting, advertising and public relations, graphic and web design, and photography, while simultaneously providing students with the fundamentals of the Communication discipline. Ultimately, a Mass Communication major understands the fundamentals of an evolving discipline.  

*Learning Outcomes:*  
- Understand and apply the historical and theoretical framework of communication  
- Develop students’ ability to use media ethically and responsibly  
- Be able to find and evaluate information and resources  
- Be visually literate  
- Develop individual and team presentation skills  
- Prepare for a diverse and multi-cultural world and workplace  
- Know how to operate technology
• Know how to write, report and package information in its appropriate format, using visual, video and print media
• Have practical experience in an industry media outlet

Program Requirements:

Major

COM1201 Introduction to Journalism I
COM1202 Introduction to Journalism II
COM1212 Introduction to Video Production
COM1410 Digital Photography I
COM2630 Writing for Media
COM4899 Internship
(at least 3 credits, or Study Abroad one semester)

Choose one from the following courses:
COM1400 Introduction to Broadcasting
COM2401 Radio Programming and Production

and one from the following courses:
COM1281 Introduction to Mass Communication
COM3620 Mass Media Law
COM3621 Media Ethics

Additionally, one from the following courses:
COM3201 Public Relations
COM3680 Communication Research
MKT1450 Principles of Marketing I

Plus a minimum of five additional courses at the 2000-level or higher in communication

Minor

COM1281 Introduction to Mass Communication
COM1400 Introduction to Broadcasting

Choose one from the following courses:
COM1201 Introduction to Journalism I
COM2630 Writing for Media

and one from the following courses:
COM1212 Video Production
COM1410 Digital Photography

Plus at least two elective courses in communication
Criminal Justice (BS)
The major in criminal justice is designed to provide students with a solid understanding of the intricacy and utility of the American criminal justice system. Strong emphasis is placed on examining the components of law enforcement, court system, and corrections as part of the wider sociopolitical system that exercises social control, as well as providing a wide range of human services. It is the intent of the major to provide to the system graduates who possess the potential for leadership and positive change.

**Learning Outcomes:**

- To appreciate the role of criminal justice in our democratic society
- To understand the responsibilities of the major components of the system
- To understand the limits our constitutional democracy places on practitioners by the study of professional, ethical and legal issues in the system
- To understand the basic ingredients associated with the studies of crime and its control, i.e. the law, theories of crime, causation, and formal and informal approaches to crime prevention and management
- To appreciate the developments in the criminal justice that respect diversity, promote tolerance and incorporate the principles of equality, fairness and the protection of rights of all citizens
- To enhance other skills acquired through General Education requirements

**Program Requirements:**

**Major**

Plus one other CRJ course selected with the advisor.

**Economics and Finance (BSBA)**
This program of study gives students a thorough grounding in the workings of the modern economy through study of economic theory – micro and macro – and specific topics in economic analysis including public finance, labor economics, and the science of business decision making. It covers all of the key topics in modern finance and applies them to investment strategy, corporate resource allocation, the financial markets, and international finance. Students receive a thorough grounding in the techniques of financial and economic analysis with a focus on optimal use of resources in both the public and private sectors.

**Learning Outcomes:**
- Understand the context of finance and economics: financial markets, institutions, and interactive forces - both national and international - for the firm, capital markets, households, and the public sector
- Understand the theories of money and banking and the implications of the efficient market hypothesis to interpret movements in the financial markets and their influence on bank lending, insurance, consumer credit, pensions and retirement planning
- Use the economics of the production function to evaluate and analyze business models and to evaluate pricing, costing, and profit generation in relation to managerial decision making and under conditions of constrained optimization
- Analyze and interpret financial statements and information from financial markets using appropriate data bases as well as statistical and financial functions
- Apply concepts of utility maximization to business strategy
- Employ effective business communication and demonstrate professionalism in written and oral communication
- Master the practical skills and applications needed to practice financial analysis on a professional level

**Program Requirements:**

**Education**

Undergraduates seeking a degree and Massachusetts licensure in education (early childhood education, elementary education, moderate disabilities, and ten subjects on the middle school and secondary education level) are required to complete an arts and sciences major appropriate to their field of licensure and the Education minor. Upon successfully completing the BA or BS degree with a minor in Education, they will be eligible for the fifth-year program leading to the MEd degree (a cumulative GPA of 2.67 or better is required for admission). Passage of all MTELs (Massachusetts Tests for Educator Licensure) required for the license is a pre-requisite for the practicum portion of the program. The practicum is a requirement for licensure and is necessary for the fulfillment of the requirements for NASDTEC credentialing. Students may complete the MEd degree without licensure.

Requirements for teacher licensure are based on Massachusetts Department of Elementary and Secondary Education regulations. The programs in education are aligned with the National Association of State Directors of Teacher Education and Certification (NASDTEC). As such, these programs come under the Interstate Certification Contract that provides licensure reciprocity with many participating states.

As pre-education candidates, students begin their program by completing their general education requirements and course work in a content area major drawn from among the liberal arts majors. Formal acceptance into the fifth-year education program will be granted to students who have achieved the following:

- Successful completion of an arts or science major appropriate to the field of licensure sought
- The maintenance of a 2.67 cumulative average or better
- Successful completion of the Education minor (including the required pre-practicum experiences)
- To be accepted as a licensure candidate, passage of the Communication and Literacy Skills section of the Massachusetts Tests for Educator Licensure (MTEL). Students may be accepted as a ‘non-licensure’ candidate until the passage of the MTELs
- Completion of an application to the program
- Two recommendations from content area faculty

Prior to the acceptance into the student teaching practicum, all candidates must pass the appropriate
subject matter knowledge section(s) of the MTEL for the license they are seeking. Candidates who do not pass these tests may complete their degree with “non-licensure” status. They will not be eligible for teacher licensure in Massachusetts nor be eligible for the NASDTEC stamp providing reciprocity with other states.

Program Requirements:
The undergraduate minor in Education is part of the five-year program in education. Students must complete an arts or science major appropriate to the license sought in addition to the education courses listed below. The following licensure areas are offered and are state-approved by the Massachusetts Dept. of Elementary and Secondary Education:

Early Childhood Education
(PreK-2 for students with and without disabilities)
Minor

EDU2102* Introduction to Education: Fieldwork
EDU2103 MTEL Prep
EDU3200* Principles of Education: Early Childhood, Elementary, Moderate Disabilities
EDU3321 Introduction to Special Education
EDU4300* Teaching Reading and Language Arts: Early Childhood, Elementary, Moderate Disabilities (PreK-8)
EDU4301* Teaching Mathematics: Early Childhood, Elementary, Moderate Disabilities
EDU4302 Multisensory Teaching of Language Skills
EDU4341 Assessment and Curriculum for Early Childhood
*Field experience required
Also required: PSY1401, PSY1501, PSY2450, 2620

Elementary Education
(Grades 1-6)
Minor

EDU2102* Introduction to Education: Fieldwork
EDU2103 MTEL Prep
EDU3200* Principles of Education: Early Childhood, Elementary, Moderate Disabilities
EDU3321 Introduction to Special Education
EDU4300* Teaching Reading and Language Arts: Early Childhood, Elementary, Moderate Disabilities (PreK-8)
EDU4301* Teaching Mathematics: Early Childhood, Elementary, Moderate Disabilities
EDU4302 Multisensory Teaching of Language Skills
*Field experience required
Also required: PSY1401, PSY1501, PSY2450, PSY2620

Middle/Secondary Education
(Middle School 5-8, Secondary 8-12)
Minor
EDU2102* Introduction to Education: Fieldwork
EDU2103 MTEL Prep
EDU3201* Principles of Education: Middle/Secondary
EDU3321 Introduction to Special Education
EDU4311* Teaching Mathematics: Secondary or Middle (math candidates only)
EDU4320* Reading and Communication: Middle and Secondary

*Field experience required
Also required: PSY1401, PSY1501, PSY2408, PSY2450, PSY2620

Teacher of Students with Moderate Disabilities
(PreK-8 or 5-12)
Minor
EDU2102* Introduction to Education: Fieldwork
EDU2103 MTEL Prep
EDU3321 Introduction to Special Education
EDU4301* Teaching Mathematics: Early Childhood, Elementary, Moderate Disabilities
EDU4302 Multisensory Teaching of Language Skills

Choose one from the following courses based on area of study:
EDU3200* Principles of Education: Early Childhood, Elementary, Moderate Disabilities (PreK-8)
EDU3201* Principles of Education: Middle/Secondary

Choose one or both from the following courses based on area study:
EDU4300* Teaching Reading and Language Arts: Early Childhood, Elementary, Moderate Disabilities (PreK-8)
EDU4320* Reading and Communication: Middle and Secondary
*Field experience required
Also required: PSY1401, PSY1501, PSY2450 and PSY2620; PSY2408 (5-12 candidates only)
Upon completion of the above minor, students apply to the fifth-year MEd program (see below).

English (BA)
The program offers the major and minor in English. Early consultation with an advisor is recommended, especially for students intending to seek admission to graduate studies after graduation and for those seeking state certification in Secondary Education in English. Students intending to teach English in secondary schools should work with advisors in both English and Education.

*Learning Outcomes:*

- Students will demonstrate an awareness of language as a means of clarifying thinking, determining value, communicating information, and influencing the views of others.
- Students will distinguish between ethical and unethical uses of language, demonstrate skepticism and curiosity by asking questions, and seek and evaluate the evidence that underlies claims.
- Students will demonstrate an awareness of how values and perspectives shift over time, and how they shift according to nationality, race, ethnicity, religion, gender, sexual preference, age, social class, and ability grouping. They will also demonstrate an understanding of the relationships among language, knowledge, and power.
- Students will demonstrate an appreciation for writing as a means of knowing, develop an ability to do close, analytical reading, and use reasoning to analyze, criticize, develop, and defend arguments.
- Students will demonstrate an ability to formulate a research question, to locate and evaluate sources, and to synthesize and converse with these sources in the context of a research paper. They will demonstrate the ability to cite the work of others in MLA or other appropriate styles and use information ethically and responsibly.
- Students will demonstrate effective writing skills in various formats and for various purposes, effective oral communication skills, and be aware that it usually takes multiple drafts to create and complete a successful text.
- Students will develop insight (especially through reading) into one’s own and others’ behavior and thinking processes. They will also reflect (especially in writing) on their experiences and find meaning in them. They will also develop the ability to deal with other people in a civil and appropriate manner.
- Students will engage in career planning and development by developing realistic goals for implementing one’s knowledge, skills, and values in occupational pursuits. They will also identify and develop skills and experiences that will help in achieving these career goals. In addition, students will use electronic environments to draft and compose.
Program Requirements:
Major

ENG2410 Western World Literature I
ENG3800 Shakespeare
ENG4200 Writing Seminar
ENG4375 Approaches to Literary Study

Plus, all English majors must take three of the four following courses:
ENG3400 Major Authors in American Literature, 1492-1865
ENG3410 Major Authors in American Literature, 1865-Present
ENG3480 Major British Authors from 800 to 1780
ENG3490 Major British Authors from 1780 to the Present

In addition, all English majors must also complete a minimum of 15 additional credit hours in area requirements from the following, including at least one course from each area:

1. Language and Rhetoric
   ENG2280 Professional and Technical Writing
   ENG4411 History of the English Language

2. Genres
   ENG3210 The Drama in English
   ENG3280 The Novel in English
   ENG3282 Verbal and Visual Languages
   ENG3290 The Short Narrative
   ENG3377 Modern Poetry
   ENG3430 Women Writers

One of the four American and English literature 3000-level surveys in addition to the three taken to meet the core

3. Literature other than British and American
   ENG2400 The French Perspective
   ENG2420 Western World Literature II
   ENG2500 Literature of the Non Western World
   ENG3380 The Bible As Literature

Minor

ENG2410 Western World Literature I
ENG3800 Shakespeare
ENG ____ One 3000-level course in American literature
ENG ____ One 3000-level course in British literature
ENG ____ Any 2000- or 3000-level English course in literature
Fraud and Financial Crimes
Fraud examination is a growing field for forensic accountants and investigators. The Bureau of Labor Statistics reports that the 10-year outlook for jobs is strong in the occupations dealing with fraud such as accounting, auditing, private detectives, and investigators.

The courses in this interdisciplinary program will aid in preparing undergraduates to become certified through the Association of Certified Fraud Examiners (ACFE)* as part of their four-year degree completion of major requirements and elective courses. The Certified Fraud Examiners (CFE) Exam requires qualified candidates to have knowledge of fraud prevention, investigation, financial transactions, and the legal system.

* The ACFE is the largest and the most recognized anti-fraud organization and training program in the world. Its mission is to "reduce the incidence of fraud and white-collar crime and to assist the Membership in fraud detection and deterrence" ([http://www.acfe.com/who-we-are.aspx](http://www.acfe.com/who-we-are.aspx)).

General Business (BSBA)
The General Business major prepares students to be leaders with general management responsibilities. These students develop new skills, adopt a business-wide perspective, and are suited to become effective strategists, organization builders, and leaders beyond a narrow area of expertise. AIC graduates with a General Business major will possess a varied arsenal of business tools with which to compete, thrive, adapt and communicate.

Healthcare Management (BSBA)

This course of study prepares students to work as managers within a wide variety of healthcare settings, including hospitals, medical practices, extended care facilities, insurance companies, and government agencies. Building on a foundation of general business courses and techniques, it introduces students to healthcare ethics, finance, law, marketing, information systems, and human resources; and explores the
relationship of all of these to the role of governments and third party providers who represent the major source of funding in healthcare. Students are exposed to practical management situations as well as to theories and analytical techniques that are essential to effective problem solving within the American healthcare system.

**History (BA)**

A major or minor in history can serve as either the basis for a general liberal arts education or as preparation for advanced studies in such fields as history, journalism, law, public affairs, foreign service, and teaching. Students will acquire a body of material knowledge over a range of topics, as well as develop their intellectual skills in effective communication and critical thinking. Study of a foreign language is required. Students intending to teach history in secondary schools are strongly encouraged to take an undergraduate minor in Education as part of AIC’s Five-Year MEd Program in Middle/Secondary Education and to work with advisors in both the History and Education Departments.

**Program Requirements:**

**Major**

- HST1400 Western Civilization I
- HST1410 Western Civilization II
- HST1500 World History
- HST1510 United States History to 1877
- HST1520 United States History since 1877
- HST2631 Introduction to Historical Research and Writing
- HST4697 Senior Project
- PHI1000 Introduction to Critical Thinking

At least one foreign written language course (modern or classical)

Plus 15 additional credit hours in history at the 3000-level or above (in addition to the capstone course, HST4697: Senior Project), including: (1) at least one course on any topic of Western civilization before 1650; (2) at least one course on any topic of United States history; and (3) at least one course on any topic in non-Western or global history.

**Minor**

Six courses in history, including at least two courses on the 1000 or 2000 level. Students must take HST2631: Introduction to Historical Research and Writing.
Human Biology (BS)
The human biology major is intended to prepare students for graduate studies and careers in the health sciences, such as physician assistant, medical technology, cytotechnology, health administration, hematology, radiological technology, respiratory therapy, pharmacy, etc. Each of these programs has specific and slightly varied entrance requirements that should be investigated and satisfied by the student.

**Human Resource Management (BSBA)**

The Bachelor of Science in Business Administration is conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work. The Human Resource Management major examines a variety of personnel issues as they relate to business and industry. Coursework draws heavily from psychological theory and practice to inform the successful management and development of a thriving workforce. The General Education Requirements and the Business Common Professional Component apply to all BSBA students. This major is only available part-time evening.

Plus a minimum of 15 credit hours in courses from the following list: BIO1200, BIO1210 any 2000 or 
higher level in biology, chemistry, or mathematics, with the exception of courses specified by each 
department.
International Business (BSBA)

Students are provided with a solid foundation in international business principles and concepts that will prepare them for leadership positions in a dynamic and challenging global world. Students will acquire the professional and personal skills not only to succeed in their international business career but also to think creatively, critically, and ethically. Students will learn the importance of working effectively with team members, and will develop social awareness and individual responsibility to actively participate in society.

Learning Outcomes:

• Provide the student with the professional and personal skills needed to pursue a successful international business career in either the private or public sector.
• Develop an awareness of political, social, and cultural sensitivities that exist in every society that is important to meaningful relationships and for success in every walk of life.
• Appreciate the interdependency among nations around the world that has resulted from globalization.
• Participate in research work and special projects as a team player with the ability to conduct comprehensive analyses and to present the results in an efficient and timely manner.
• Communicate effectively one's ideas in a clear and precise manner.

Program Requirements:

Major

All Business students must take the following introductory business courses (Common Professional Component):

- **ACC1201** Principles of Accounting I, with laboratory
- **ACC1601** Principles of Accounting II
- **BUS1407** Business Communications
- **BUS3000** Business Law
- **ECO1401** Principles of Economics I (General Education Requirement)
- **ECO1402** Principles of Economics II (General Education Requirement)
- **FIN2003** Managerial Finance
- **IBS1400** Introduction to International Business
- **MAT1250** Finite Mathematics I
- **MAT1430** Foundations of Statistics
- **MGT1400** Principles of Management

- **MIS1220** Applications of Microcomputers
- **MKT1450** Principles of Marketing I
- **MGT4800** Senior Policy Seminar

Plus:

- **FIN_____** Finance Elective
- **IBS1420** Diverse Cultures of the World
Choose two of the following courses:
- IBS4430 International Organization and Administration
- IBS4889 International Business Capstone Course
- IBS4899 International Management Internship

and one of the following courses:
- MGT3201 Business and Society
- MGT3202 Leadership

Introductory level Foreign Language; two upper level language courses
Plus 9 elective credits in any courses

Minor
- IBS1400 Introduction to International Business
- IBS1420 Diverse Cultures of the World

Choose four from the following courses:
- IBS2650 International Human Resource Management
- IBS3400 International Economics
- IBS3410 International Marketing
- IBS3620 Management of Export/Import Business
- IBS3820 Global Supply Chain Management and International Negotiations
- IBS4430 International Organization and Administration
- IBS4889 International Business Capstone Course

International Studies (BA)
The International Studies Program offers a major and a minor to students who desire an interdisciplinary preparation for careers that will demand a broad yet in-depth knowledge of world affairs, including an understanding of the economics, socio-cultural patterns, and historical heritages of societies around the globe. Students are prepared for an extensive range of careers in today’s global community such as law, journalism, public affairs, or foreign service. International Studies is a foundation for a career in politics and non-governmental agencies, or for pursuing graduate studies in business, economics, history, law, or political science.

Program Requirements:
Major
Modern foreign language study (ASL not eligible) through at least intermediate-level, with strong
recommendation for eight semesters (may be waived at discretion of program chairperson if student demonstrates fluency in a second language)

HST3401  The Cold War
HST3402  Modern Germany
HST3661/POL3661  History of Political Thought II/Political Philosophy II
Any modern European language literature or literature in translation course.
INS4800  International Studies Seminar (with chairperson’s permission, repeatable once to replace a course in a specialization requirement)
INS4890 Study Abroad and INS4899 Internship also may be used with the chairperson’s permission to fill a specialization requirement.

Minor
INS4800  International Studies Seminar
POL1500  Comparative Politics
POL2410  International Relations
Choose one from the following courses:
ECO1401  Principles of Economics I
IBS1400  Introduction to International Business

and one from the following courses:
ECO1010  World Economic Geography
IBS1420  Diverse Cultures of the World

Additionally, one from the following courses:
HST1500  World History
HST2690  Twentieth-Century Global History

One semester of modern foreign language study on campus or one course on world literature in translation (may be waived at discretion of chairperson if student demonstrates ability in a second language); foreign language study through at least the intermediate level is highly recommended.

Liberal Arts (BA)
The Bachelor of Arts is conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work. This program is designed to meet two major objectives: to provide students with a solid introduction to the liberal arts and to allow students (through judicious use of their electives) the flexibility to combine those studies with their vocational or avocational interests. This joining of diverse fields of study is at the heart of the traditional liberal arts curriculum, a curriculum which seeks to lead the student to develop a broad information background, an ability to make sense out of a complex world, and to articulate clearly and succinctly one’s thoughts to others, both orally and in written form.
Program Requirements:
General Education Requirements:
- ENG1201 English Composition I
- ENG1202 Analytical Thinking
- ENG2___ Literature
- ENG2213 Public Speaking
Scientific Awareness: Eight (8) credits from General Education Requirements
Social Awareness: Nine (9) credits from General Education Requirements
Cultural Awareness: Nine (9) credits from General Education Requirements
MIS1210 Introduction to Management Information Systems
Mathematics: Three (3) credits
Electives: Eighteen (18) credits of general electives

*Concentration I: Fifteen (15) credits from one liberal arts subject matter
*Concentration II: Fifteen (15) credits from one liberal arts subject matter

*Approved Concentrations: English, history, mathematics, political science, psychology, sociology

Liberal Studies (BA)
This is an interdisciplinary major designed primarily for students in elementary-level education, including early childhood education and special education. Students who desire a broad, multidisciplinary general education in the best tradition of the liberal arts, and who wish to avoid the specialization of a major field can also elect to major in liberal studies. Education aspirants work with advisors in each field.

Program Requirements:
Major
Three literature courses, including:
One course in American literature:
- ENG2430 Survey of American Literature
- ENG3400 Major Authors in American Literature, 1492 - 1865
- ENG3410 Major Authors in American Literature 1865 - Present
One course in Western literature:
- ENG2410 Western World Literature I
- ENG2420 Western World Literature II
Any third course in literature
Two lab science courses, including:
One lab science course in the physical sciences (CHE or PHY)
One lab science course in the life sciences (BIO)
Three courses in the humanities, including:
One philosophy course (usually PHI1000 Introduction to Critical Thinking)
Two courses drawn from the list of courses meeting the general education requirement in humanities
(NOTE: For students planning to seek a Massachusetts teaching license, one course each is required in
music and art.)
Six Social Science courses, including:
   ECO1010 World Economic Geography (non-Education majors
       may substitute any economics course)
   HST1500 World History
   POL1400 Introduction to American Politics
   PSY1401 General Psychology I

Choose one of the following (Education minors must take both):
   HST1510 U.S. History to 1877
   HST1520 U.S. History since 1877

One math course (usually MAT1200 Elements of Mathematics).

Students minoring in Education must also complete MAT1200, MAT1201, ENG4411, Earth Science
with laboratory, PSY2450 and PSY2620. These courses may be used to fulfill requirements of the major
or general electives, as appropriate.

Plus a minimum of 21 additional credit hours in any of the traditional liberal arts in which the college
offers advanced courses (biology, chemistry, economics, English, foreign language beyond the first-year
level, history, mathematics, philosophy, political science, psychology, or sociology.) FIVE OF THESE
COURSES MUST BE IN THE SAME DISCIPLINE. These courses should generally be at the
3000-level, but the following 2000-level courses will fulfill the requirement:

Any intermediate language study,
   BIO2200 Pathophysiology
   ECO2210 Labor Economics
   ECO2420 U.S. Economic History
   ECO2480 Economic Issues
   HST2440 Civilization of the Ancient Mediterranean
   HST2610 European Integration
   HST2631 Introduction to Historical Research and Writing
   MAT2600 Calculus III, with laboratory
   MAT2870 Discrete Structures

Note: MAT2030 will NOT fulfill the requirement
Management (BSBA)
The management major offers courses in general business and in specific disciplines – human resource management, operations management, and organizational behavior – along with courses in business ethics and leadership. All courses stress business fundamentals, technology agility, leadership, teamwork, and opportunity recognition in a dynamic, global marketplace. All learning seeks to develop an appreciation of the need to improve organizational effectiveness through applications of management technique and theory.

Learning Outcomes:
• Understand the application of methods used in the social sciences, arts and humanities to the study and practice of business
• Understand each business discipline and the role of management in integrating each discipline into a coherent strategy
• Develop core management skills and understanding of key concepts
• Demonstrate effective critical thinking as applied to the analysis of business problems

Program Requirements:
Major
All Business students must take the following introductory business courses (Common Professional Component):

- ACC1201 Principles of Accounting I, with laboratory
- ACC1601 Principles of Accounting II
- BUS1407 Business Communications
- BUS3000 Business Law
- ECO1401 Principles of Economics I (General Education Requirement)
- ECO1402 Principles of Economics II (General Education Requirement)
- FIN2003 Managerial Finance
- IBS1400 Introduction to International Business
- MAT1250 Finite Mathematics I
- MAT1430 Foundations of Statistics
- MGT1400 Principles of Management
- MIS1210 Introduction to Management Information Systems
- MIS1220 Applications of Microcomputers
- MKT1450 Principles of Marketing I
- MGT4800 Senior Policy Seminar

Plus:
- ACC2210 Managerial Finance
- ECO2210 Labor Economics
- FIN ____ Finance 300-level elective
- MGT2400 Organizational Behavior
- MGT3201 Business and Society
MGT3202 Leadership
MGT3661 Project Management
MGT ____ Management 3000-level elective
MGT ____ Management 3000-level elective
MKT ____ Marketing elective

Plus 9 credits of business electives

Minor
MGT1400 Principles of Management
MGT2400 Organizational Behavior

Choose three from the following courses:
MGT3200 Labor and Industrial Relations
MGT3201 Business and Society
MGT3203 Entrepreneurship and Small Business Management
MGT3213 Human Resource Management
MGT4899 Internship

And one from the following courses:
MGT3202 Leadership
MGT3661 Project Management

Management Information Systems
Students completing a minor course of study in Management Information Systems (MIS) will have developed a fundamental background which can support them in managing the mergence of current technology and traditional business disciplines. They will possess a basic toolbox useful in promoting business objectives through and with the use of MIS practices.

Program requirements:
Minor
MIS1210 Introduction to Management Information Systems
MIS1220 Applications of MicroComputers
MIS3200 Systems Analysis and Design
MIS3350 Computer Security and Control
MGT3661 Project Management

Marketing (BSBA)
Students are provided with substantial learning experiences inside and outside the classroom, including a required internship, in order to establish a career in marketing. The student will learn to apply current marketing theory and practice, develop effective communication skills, conduct market analysis, and use
appropriate technology. The program’s flexibility enables students to focus their studies in areas such as sports marketing, entrepreneurship, international business, marketing research, sales, and marketing communications.

Learning Outcomes:

- Consumer and Organizational Behavior: Understand buyer behavior and how it serves as a foundation for creating marketing strategy.
- Market Segmentation: Understand various bases of segmentation, how to evaluate the attractiveness of different segments, and various segmentation coverage strategies.
- Product Positioning and Branding Strategies: Understand the concept of differentiation, positioning to create and enhance the perceived value of a brand, brand equity, and branding strategies.
- Integrated Marketing Communications: Understand marketing communication strategy and gain a working knowledge of how to manage the promotional mix and other tools for IMC.
- Pricing: Understand pricing strategies at both the brand and product line levels.
- Channels of Distribution: Understand the use of distribution as a source of competitive advantage, the use of multiple channels of distribution, and managing the firm's supply chain.
- Marketing Strategy: Understand strategic planning process (SWOT) and how to create a marketing plan.
- Apply substantive knowledge to marketing situations (cases, scenarios) analytically.
- Identify and understand latest trends in technology (hard and soft) affecting marketing (e.g., social networking, web 2.0, etc.).
- Effectively produce, interpret, analyze written text, oral messages, and multimedia presentations used in business.

Program Requirements:

Major
All Business students must take the following introductory business courses (Common Professional Component):

- ACC1201 Principles of Accounting I, with laboratory
- ACC1601 Principles of Accounting II
- BUS1407 Business Communications
- BUS3000 Business Law
- ECO1401 Principles of Economics I (General Education Requirement)
- ECO1402 Principles of Economics II (General Education Requirement)
- FIN2003 Managerial Finance
- IBS1400 Introduction to International Business
- MAT1250 Finite Mathematics I
- MAT1430 Foundations of Statistics
MGT1400 Principles of Management
MIS1210 Introduction to Management Information Systems
MIS1220 Applications of Microcomputers
MKT1450 Principles of Marketing I
MGT4800 Senior Policy Seminar

Plus:
MKT2600 Consumer Behavior
MKT2610 Distribution Strategies
MKT2700 Brand and Price Strategies
MKT2710 Marketing Communication Strategies
MKT4810 Strategic Marketing
MKT4899 Internship

Plus 21 credits of any 3000-level marketing course or other electives approved by the Marketing Department

Minor
MKT1450 Principles of Marketing I
MKT2600 Consumer Behavior
MKT2700 Brand and Price Strategies

Choose three from the following courses:
MKT2610 Distribution Strategies
MKT2710 Marketing Communication Strategies
MKT3210 Sports Marketing
MKT3400 Professional Sales Development
MKT3410 International Marketing
MKT3420 Hospitality & Service Marketing
MKT3500 Advertising
MKT3510 Entrepreneurship and Small Business Management
MKT3520 Public Relations
MKT3600 Marketing Research
MKT3610 Marketing Simulation
MKT3620 Social Media and Digital Marketing
MKT4694 Directed Study
MKT4810 Strategic Marketing
MKT4899 Internship

Mathematics
Students who would like to minor in mathematics have the flexibility to choose some mathematics courses applicable to industry, teaching, or business. The purpose of the minor is not just to expose the
student to different areas of mathematics but equally as important to enhance the student’s critical
thinking and problem solving skills in an appropriate context, once a fundamental calculus core has been
completed. Additionally, mathematics courses are offered that support the majors in business, the
natural sciences, the health sciences, and education. Some of these courses satisfy the quantitative
reasoning component of the general education requirement.

**Program Requirements:**

**Minor**

- MAT2400 Calculus I
- MAT2500 Calculus II, plus laboratory
- MAT2600 Calculus III, plus laboratory

Choose one from the following courses:

- MAT2816 Linear Algebra
- MAT3801 Modern Abstract Algebra I

and one from the following courses:

- MAT3203 Differential Equations
- MAT3601 Advanced Calculus

**New Media (BS)**

The New Media major focuses on the technical and practical skills related to this evolving field. This
major prepares students for a variety of careers in media and allied fields in which knowledge of and
skills in mediated communications are an integral part of the professional activity. This major offers
students the opportunity to pursue a range of theoretical and practical courses. Career options include,
but are not limited to: web-based communication (journalism, broadcasting), graphic and web design,
and digital communication, while simultaneously providing students with the fundamentals of the
Communication discipline. Ultimately, a NMCT graduate understands the fundamentals of multi-
platform communication writing and technology.

**Learning Outcomes:**

- Understand and apply the historical and theoretical framework of communication
- Develop students’ ability to use media ethically and responsibly
- Be able to find and evaluate information and resources
- Be visually literate
- Develop individual and team presentation skills
- Prepare for a diverse and multi-cultural world and workplace
- Know how to operate technology
- Know how to write, report and package information in its appropriate format, using visual, video
  and print media
• Have practical experience in an industry media outlet

Photography

Students pursuing a Photography Minor develop their artistic, creative and technical capabilities to communicate effectively using digital images. The minor provides a solid foundation in the fundamentals of operating digital cameras and editing images using Adobe Photoshop. Elective courses allow students to tailor their studies in various directions, such as multimedia or photojournalism. Students create online portfolios to showcase their work. Open to all majors, including Communications Majors.

Political Science (BA)
In both the major and minor in political science, students learn about the impact of public decisions at local, national and international levels on pressing issues of the day. The curriculum includes theoretical courses, which entertain topics such as justice and rights, and practical ones, which can focus on particular governmental systems or policies. To accommodate students’ interests, the program is designed for a flexible distribution of emphasis among the following fields of study: political theory, international relations, American government (national, state, and local), public law and administration, and comparative political systems. Besides broadening a student’s general knowledge of the dynamics of governmental systems, an intensive study of political sciences provides a sound basis for a career in such diverse fields as diplomacy, journalism, public administration, law, education, and business.

Learning Outcomes:
• Cultivate analytical, research and communicative skills
• Develop the ability to analyze issues from multiple perspectives (including international)
• Develop a core of knowledge in the field of American politics
• Develop a core of knowledge in the field of political theory
• Develop a core of knowledge in the field of comparative politics
• Develop a core of knowledge in the field of international relations

Program Requirements:
Major
POL1400 Introduction to American Politics
POL1500 Comparative Politics
POL2410 International Relations
POL4870 Seminar in Political Science
PSY2302 Statistics

and one from the following courses:
POL2620 Public Law
POL2630 Civil Liberties

Plus 18 semester hours of additional political science courses at or above the 2000 level, including a minimum of six hours from:
POL3642 Issues in Modern Political Thought
POL3660 Political Philosophy I
POL3661 Political Philosophy II
POL3700 American Political Thought
Minor

- POL1400 Introduction to American Politics
- POL1500 Comparative Politics
- POL2410 International Relations

Plus nine additional credit hours in political science courses, including a minimum of three hours from:

- POL3642 Issues in Modern Political Thought
- POL3660 Political Philosophy I
- POL3661 Political Philosophy II
- POL3700 American Political Thought

Pre-Professional Studies

Pre-Law Studies

“Pre-Law” is not a major in itself. Students aspiring to careers associated with the law will need to select a specific major related to their intended careers. Criminal justice, English, history, and political science are common choices. Students should consult with the college’s pre-law advisor who will provide career guidance to students. Each student will also work with an advisor in his/her major.

Pre-Medical Studies

(Pre-Dental, Medical, Optometry, Osteopathy, Podiatry, Veterinary)

“Pre-Medical Studies,” in its many variations, is not a major in itself. Students aspiring to careers in the health sciences will need to select a specific major appropriate for their intended graduate studies. Biology, chemistry, and biochemistry are common choices. Students should consult with the college’s pre-medical advisor, so that they may satisfy the entrance requirements for their professional training. Each student will also work with an advisor in his/her major.

Students planning careers in medicine are strongly advised to take Biology 1400 and 1500 (with labs) or Chemistry 1600 and 1700 (with labs) in the first year. Students are advised, regardless of which major is chosen, to take mathematics through calculus (Math 2400). In addition, Biology 1150, 1850, and 3150 are 1-credit seminar courses intended to introduce students to the health professions and to the process of applying to professional schools.

Psychology (BS)

Psychology majors are well educated in the liberal arts tradition, exhibit enthusiasm for learning, and are responsive to community needs. Students develop an awareness of ways of viewing, analyzing, measuring, and changing human behavior. Within this context, students learn to:

- design, analyze, and interpret research;
- sharpen oral and written communication skills;
- think critically;
- solve problems;
- and enhance interpersonal skills.

These skills help prepare the psychology major for careers in human services, teaching, business, and personnel. The psychology major also provides...
preparation for successful pursuit of graduate studies leading to careers in professional psychology. 

**Learning Outcomes:**

- Demonstrate familiarity with the major concepts, theoretical perspectives, empirical findings, and historical trends in psychology.
- Understand and apply basic research methods in psychology, including research design, data analysis, and interpretation.
- Respect and use critical thinking, skeptical inquiry, and, when possible, the scientific approach to solve problems related to behavior and mental processes.
- Understand and apply psychological principles to personal, social, and organizational issues.
- Value empirical evidence, tolerate ambiguity, act ethically, and reflect other values that are the underpinnings of psychology as a science.
- Demonstrate information competence and the ability to use computers and other technology for many purposes.
- Communicate effectively in a variety of formats.
- Recognize, understand, and respect the complexity of sociocultural and international diversity.
- Develop insight into their own and others' behavior and mental processes and apply effective strategies for self-management and self-improvement.
- Pursue realistic ideas about how to implement their psychological knowledge, skills, and values in occupational pursuits in a variety of settings that meet personal goals and societal needs.

- PSY2410 Psychology of Aging
- PSY2420 Psychology of Death & Dying
- PSY2450 Developmental Psychology

Social Science (BA)
The Bachelor of Arts is conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work. This program is designed to meet two major objectives: to provide students with a solid introduction to the social sciences and to allow students (through judicious use of their electives) the flexibility to combine those studies with their vocational or avocational interests. This joining of diverse fields of study is at the heart of the traditional liberal arts curriculum, a curriculum which seeks to lead the student to develop a broad information background, an ability to make sense out of a complex world, and to articulate clearly and succinctly one’s thoughts to others, both orally and in written form.

Program Requirements:
General Education Requirements, plus:
*Multi-Discipline Concentrations
Concentration I Twelve (12) credits in selected social science
Concentration II Twelve (12) credits in selected social science
Concentration III Six (6) credits in selected social science

*Approved Concentrations: economics, history, political science, psychology, sociology

**Sociology (BA)**
Sociology is the study of human groups. A discipline within the social sciences, sociology increases the awareness of the impact that group behavior has on the individual. A major and a minor in sociology is offered as preparation for graduate studies or for careers in applied sociology, business, social work, law, and teaching, among others. Course offerings include cultural anthropology and social work.

*Learning Outcomes:*
- Students will know sociological concepts and assumptions, demonstrate use of sociological explanations, and demonstrate ethical understanding around cultural relativism and social justice.
- Students will understand how institutions and culture influence behavior and self-identity.
- Students will be able to produce multidimensional descriptions of social situations, identify structural and interactional processes, and explain structural influences on events.
- Students will be able to identify the basic approaches used in sociological research, assess the quality of research findings, critically read research articles, and design an empirical research study.

*Program Requirements:*

**Major**
- SOC1100 Introduction to Sociology
- SOC1400 Social Problems
- SOC2631 Sociological Research Methods
- SOC2800 Classical Sociological Theory

Plus six (18 credits) additional upper-level sociology courses

**Minor**
- SOC1100 Introduction to Sociology
- SOC1400 Social Problems
- SOC2631 Sociological Research Methods
- SOC2800 Classical Sociological Theory

Plus two additional upper-level sociology courses

**Sports and Recreation Management (BSBA)**
This course of study applies management theory and business concepts to the challenges facing organizations dedicated to the sports entertainment and recreation industry. These areas include, but are not limited to, marketing, communication and public relations, legal issues, economics and finance, business operations for sport and recreation organizations. Students also gain on-the-job experience.
with a sports organization through internships that are arranged with a variety of sport organizations, including public and private facilities, professional sports, intercollegiate athletics, youth and community sport, sport management and marketing agencies, and sporting goods industry.

**Learning Outcomes:**
- Understand the principles of business management and how they apply to the sports industry.
- Understand how each business discipline contributes to building effective business models and best practices in the industry.
- Develop the core skills and competencies of successful managers and learn their application to sport.
- Demonstrate effective critical thinking as applied to analysis of the sports industry.

**Program Requirements:**

- SRM4899 Sports and Recreation Practicum

**Theater Arts (BA)**

The theater arts program at American International College offers a Bachelor of Arts degree and a minor in theater arts. The courses offered in the program give students the opportunity to work in the areas of performance, technical theater, theory, and history of theater. The program is focused on developing well-rounded artists that can work in a variety of areas in the competitive business of theater. The program produces two major productions each year and also offers internship and summer theater opportunities to students. The theater arts minor enables students to gain confidence, presence, poise, and a basic knowledge of theater arts. The goal of the theater program is to give students the opportunities, knowledge, and necessary credentials to compete in the highly competitive world of theater as artists and scholars.

**Program Requirements:**

**Major**

- THR1400 Introduction to Theater
- THR1420 Fundamentals of Acting
- THR1430 Theater Workshop I (may be taken multiple times for 3 credits total)
- THR2420 Styles of Acting
- THR2430 Theater Workshop II (may be taken multiple times for 3 credits total)
- THR2500 Scene Study
- THR2600 Movement for the Actor
- THR2610 Costume, Hair and Makeup Design, with laboratory
- THR2620 Play Production, with laboratory
THR3200 Voice and Articulation
THR3210 Theater History I (Ancient Greeks – 1750)
THR3430 Theater Workshop III
THR3610 Theater History II (1750 – Present)
THR4610 Theater and Society
THR4810 Directing
THR4899 Theater Arts Internship (taken twice)

Plus a minimum of 9 credits from the following:
COM1212 Video Production
ENG3800 Shakespeare
MUS1010 American Musical Theater
MUS1030 Opera Appreciation
THR3820 Dramaturgy
THR3830 Stage Management

Minor

The Theater minor consists of 21 hours:
THR1400 Introduction to Theater
THR1420 Fundamentals of Acting
THR1430 Theater Workshop I (3 credits)

Choose one from the following courses:
THR2610 Costume, Hair and Makeup Design, with laboratory
THR2620 Play Production, with laboratory

Choose two from the following courses:
THR2420 Styles of Acting
THR2500 Scene Study
THR2600 Movement for the Actor
THR3200 Voice and Articulation
THR4610 Theater and Society

Visual and Digital Arts (BA)
The Visual and Digital Arts (VDA) major prepares students for creative careers in a wired world. Contemporary digital tools allow VDA majors to not only conceptualize and create content but also produce and publish multimedia visual communications projects. Along with developing these digital skills, students will engage in tactile art making experiences, as there is no substitute for what the hands can teach the brain about creativity. By choosing the Visual and Digital Arts major, students will come to see the world as artists and develop the ability to imagine what does not yet exist. The goal is not to “think outside of the box”, but rather, to create the box itself. Many of the courses in the VDA program emphasize creative problem solving and invention and prepare students with an adaptable mindset.
These students will be ready to embrace new employment opportunities that will surely emerge in the current climate of fast-paced workplace evolution.

ADULT AND CONTINUING EDUCATION
Pamela Robinson, Associate Dean

Mission
The mission of Adult and Continuing Education is to serve persons of all ages and backgrounds who seek access to higher education. By utilizing the flexibility and the focus of the adult learner, Adult and Continuing Education strives to extend the resources of the College to the community and the region. Degree programs at the baccalaureate level are offered to meet the educational needs of the public.

Accelerated Degree Completion Program
Adult & Continuing Education offers cohort programs of accelerated degree completion in 20 months. Students can choose to earn a baccalaureate degree in General Business and Social Science. Students must possess either 60 applicable transfer credits or an applicable associate’s degree to begin a cohort.

Majors
General Business (BSBA)
Social Science (BA)
PROGRAMS

General Business (BSBA)

The Bachelor of Science in Business Administration is conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work. The General Business major stresses business fundamentals, technology agility, leadership, teamwork, and opportunity recognition in a dynamic, global marketplace.

Learning Outcomes:

- Apply the methods used in the social sciences, arts, and humanities to the study and practice of business
- Understand and describe each business discipline and the role of management in integrating each discipline into a coherent strategy
- Develop core management skills and demonstrate an ability to apply key concepts to business practice
- Demonstrated effective critical thinking as applied to the analysis of business problems

Major Requirements:

ACC2210 Managerial Accounting
BUS3000 Business Law
FIN2003 Managerial Finance
FIN__ Upper Level Finance Elective
MGT2400 Organizational Behavior
MGT3200 Labor & Industrial Relations
MGT3202 Leadership
MGT3213 Human Resource Management
MGT/BUS Elective
MGT3661 Project Management
MKT2600 Consumer Behavior
MKT__ Upper Level Marketing Elective
MKT4800 Senior Policy Seminar

General Education Requirements:

ENG2213 Public Speaking
ENG__ English Literature Elective
General Elective
MIS1210 Introduction to Management Information Systems
PHI1400 Philosophy through Literature
PHI2010 World Religions
Social Awareness Elective
Social Science (BA)
The Bachelor of Arts is conferred upon students who have satisfactorily completed a minimum of 120 semester hours of academic work. This program is designed to meet two major objectives: to provide students with a solid introduction to the social sciences and to allow students the flexibility to combine those studies with their vocational or avocational interests.

Learning Outcomes:
- Articulate concepts from a broad background of information in liberal arts
- Identify, describe, and analyze key concepts of human behavior, social influences and societal issues in the study of human sciences
- Compare and contrast key concepts in a complex world and identify interdependencies
- Articulate clearly and succinctly one’s thoughts to others, both orally and in written form

Major Requirements:
ECO1000 Survey of Economics
ECO1010 World Economic Geography
ECO3300 Urban & Regional Economics
HST1520 U.S. History from 1877
HST3413 The American Radical Tradition
POL1400 Introduction to American Politics
POL1500 Comparative Politics
PSY1501 General Psychology II
PSY2302 Statistics
PSY3607 Social Psychology
SOC1010 Introduction to Anthropology
SOC1400 Social Problems
SOC2400 Crime & Delinquency
SOC2600 Class, Status & Power

ENG2213 Public Speaking
ENG__ English Literature Elective
General Elective
MIS1210 Introduction to Management Information Systems
PHI1400 Philosophy through Literature
PHI2010 World Religions

Admissions Requirements:
- Application and $25.00 application fee
- Official high school diploma or equivalent
• Official college transcripts

Recommended for admission
• Interview with Associate Dean for Adult & Continuing Education
• Resume

SCHOOL OF HEALTH SCIENCES
Cesarina Thompson, PhD, Dean

Majors:
Nursing (BSN)
Occupational Therapy (BSOS)
Physical Therapy (BS)
Public Health (BS)

Criminal Offender Record Information (CORI)
Sex Offender Registry Information (SORI)
Prior to being accepted into school of health sciences courses and degree programs that require the student to work directly with vulnerable populations (such as children, the elderly, or the infirm), or in other fieldwork experiences at agencies that require such, a student will be subject to a CORI and/or SORI check. The results of this report may or may not disqualify a student from entering or completing a program. Specific details and a complete copy of the college policy and the authorization form are available at the Office of the Dean, Lissa Building.

Nursing (BSN)
Consistent with the mission of American International College, the faculty of the Division of Nursing believes that nursing education encompasses the intellectual, social, and professional preparation of each student. The mission of the Division of Nursing is to provide a high quality education without regard to race, color, religion, ethnic background, nationality or sexual orientation. The curriculum is designed to enable students to think logically, act creatively, and communicate effectively.

The degree of Bachelor of Science in Nursing is conferred upon students who have satisfactorily completed 122 semester hours of prescribed academic work. Upon completion of the nursing program, the graduate will be eligible to sit for the National Council Licensing Examination for Registered Nurses (NCLEX-RN). Upon passing this examination, the graduate will be qualified to practice as a professional registered nurse in a variety of settings.
Admissions Requirements:
Please see Admissions section for freshmen and transfer admission requirements.

Learning Outcomes:
• Demonstrate synthesis of practice theories and evidence based concepts form nursing and the arts, sciences, humanities to provide comprehensive nursing care in a variety of settings.
• Demonstrate leadership skills in evidence based practice to promote continuous improvement in quality and safety of health care.
• Integrate nursing research findings in planning, implementing, and evaluating nursing practice and patient centered outcomes.
• Incorporate knowledge and skills related to information management and patient care technologies to deliver safe and effective care.
• Incorporate legislative, regulatory, ethical and professional standards to define a professional identity and scope of nursing practice.
• Organize and facilitate the delivery of comprehensive, efficient and appropriate patient centered care across the health care continuum.
• Communicate, collaborate and negotiate using effective communication as a member of the interprofessional health team.
• Demonstrate personal and professional responsibility and accountability for safe and effective nursing practice incorporating health promotion and illness prevention.
• Participate in the discipline of nursing to promote its contribution to society through professional organizations, political process, collegiality, collaboration and continual growth toward expert clinical practice.

Note:
PSY 1401, SOC 1000 and SPA 1200 fulfill nine credits of the general education requirements. A minimal grade of C+ must be achieved in all nursing courses, as well as in BIO1200,1340, , and 1300/1301, CHE1210, ENG 1201/1601 and 1202/1602, PSY1401 and 2420 and SOC1000.

RN-BSN Program
The Division of Nursing offers an RN-BSN completion program that acknowledges the experience and needs of working professionals. The program consists of 30 credits of nursing coursework designed to broaden RNs knowledge and skills related to healthcare informatics, health promotion for vulnerable populations, evidence-based practice, leadership, and interprofessional collaboration. Registered nurses who have completed associate degree programs are admitted as transfer students with advanced standing. RNs may transfer up to 90 credits of coursework; additional non-nursing coursework may be required to complete the 120 credit undergraduate program.

Admissions Requirements:
Please see admission information elsewhere in this catalog.

Learning Outcomes:
• Demonstrate synthesis of practice theories and evidence based concepts form nursing and the arts, sciences, humanities to provide comprehensive nursing care in a variety of settings.
• Demonstrate leadership skills in evidence based practice to promote continuous improvement in quality and safety of health care.
• Integrate nursing research findings in planning, implementing, and evaluating nursing practice and patient centered outcomes.
• Incorporate knowledge and skills related to information management and patient care technologies to deliver safe and effective care.
• Incorporate legislative, regulatory, ethical and professional standards to define a professional identity and scope of nursing practice.
• Organize and facilitate the delivery of comprehensive, efficient and appropriate patient centered care across the health care continuum.
• Communicate, collaborate, and negotiate using effective communication as a member of the interprofessional health team.
• Demonstrate personal and professional responsibility and accountability for safe and effective nursing practice incorporating health promotion and illness prevention.
• Participate in the discipline of nursing to promote its contribution to society through professional organizations, political process, collegiality, collaboration and continual growth toward expert clinical practice.

Program Requirements:
NUR5300  Interprofessional communication and collaboration for health professionals
NUR3600  Ethics and Law of Health Care for Nursing
NUR3650  Advanced Concepts in Nursing Practice
NUR3680  Applications of Statistics for Health Professionals
NUR4200  Health Promotion and Care of Vulnerable Populations
NUR4250  Nursing in a Global Society
NUR4400  Evidence-based Practice
NUR4600  Leadership and Management in Nursing
NUR6140  Healthcare Informatics
NUR4999  Capstone Seminar

Occupational Therapy (BSOS)
Occupational therapy requires a master’s degree for entry-level, generalist practice. The School of Health Sciences offers both undergraduate and graduate entry tracks. The Track One undergraduate option allows students to earn a Bachelor of Science degree in Occupational Science and a Master of Science degree in Occupational Therapy in a five-year program (BSOS/MSOT) and requires 151 credits for graduation. Credit totals include 24 weeks of full-time Level II Fieldwork within the United States or in international facilities where the supervising therapist has graduated from a program approved by the World Federation of Occupational Therapists.

BSOS/MSOT students enter the program as first-year or transfer occupational therapy students. Traditional freshmen complete general education requirements and professional foundation courses in the first three years and then progress to professional courses in the fourth year. Transfer students generally enter the program at advanced standing and may take up to three years to complete the undergraduate phase of the program. Upon completion of the requirements for a BSOS degree, students attain graduate status and progress into the fifth year to complete graduate coursework that includes
Level II Fieldwork. Upon completion of fifth year requirements, students are awarded the MSOT degree.

Admission Requirements:
Please see Admissions section for details on freshmen and transfer admissions.

Learning Outcomes:
At the completion of the five-year program (BSOS/MSOT), students will be able to:

- Demonstrate knowledge and understanding of the biological, physical, social and behavioral sciences as applied to occupations across the lifespan.
- Evaluate/Apply OT history, philosophy, and theoretical perspectives from parent disciplines, OT models of practice and frames of reference, and emerging theory, to support the OT Process.
- Understand and apply the various contexts such as social, cultural, political, economic and ecological influences in which Occupational Therapy services are provided.
- Exhibit an attitude of scholarly curiosity and inquiry by demonstrating an understanding of the research process including proposal writing, critiquing the literature, designing studies, collecting and analyzing data, and interpreting findings.
- Demonstrate clinical reasoning including scientific, narrative, procedural, pragmatic, ethical and interactive reasoning.
- Articulate and apply Occupational Therapy Practice Frameworks (OTPF) to the process of evaluation, intervention and outcomes to individuals, organizations and/or populations.
- Communicate in a variety of formats and effectively collaborate with other professionals (e.g. nurses, COTA’s, physicians, social workers, physical therapists).
- Demonstrate knowledge of and uphold the American Occupational Therapy Association’s (AOTA) Code of Ethics, Ethics Standards and Standards of Practice as the basis for ethical decision making in all aspects of professional practice. Also, to promote professional development and demonstrate professional advocacy by participation in professional organizations (e.g. WFOT, AOTA, state OT associations).
- Articulate the professional and supervisory roles of the OTR, and the professional responsibilities and competencies related to liability issues that are grounded in knowledge of systems/structures and the principles of leadership and management theory.

OTR3700  Comprehensive Exam

Fieldwork

In addition to academic coursework, occupational therapy (OT) students are required to successfully complete fieldwork experiences to effectively apply knowledge within the environmental contexts of therapeutic practice. Students participate in course-related Level I Fieldwork experiences beginning in the third year and continuing through the final year in the graduate program.

Level I fieldwork experiences are designed to enrich didactic coursework through directed observation and participation in selected aspects of the occupational therapy process. In addition, it provides opportunities for students to demonstrate professional behavior and to develop interpersonal skills including understanding and respect for diversity and effective communication. The Academic Fieldwork Coordinator and other faculty members are responsible for arranging Level I Fieldwork
experiences in local hospitals, rehabilitation clinics, schools, supported employment sites and community-based programs, and for ensuring that sites meet AOTA accreditation standards and program goals. Students are supervised by faculty and/or site supervisors. Students are responsible for transportation to and from Level I Fieldwork sites.

After completing the third year of course requirements for the occupational therapy program, students enter the professional phase and complete a fourth year of graduate level coursework to qualify for a BSOS degree followed by a fifth year of graduate coursework and Level II Fieldwork to qualify for a MSOT degree. During the fourth year students begin to attend professional level graduate coursework with students in the Track Two graduate option. Refer to the graduate portion of the catalog (p128) for specific courses, program completion requirements and academic regulations relating to the graduate professional phase of the occupational therapy program.

**Physical Therapy (BS)**

Physical Therapy requires a doctoral degree for entry into practice. The School of Health Sciences offers two options to earn the Doctorate in Physical Therapy (DPT): a six-year program for entering freshmen and a three-year post-baccalaureate program for individuals who have already earned a bachelor’s degree and completed the prerequisites for the program.

Students entering the DPT program as traditional freshmen or undergraduate transfer students, complete the curriculum in two phases: the first three years of undergraduate study (pre-professional phase) consist of completing general education and program core requirements in preparation for entry into the professional (doctoral) phase. Upon successful completion of four years of the program, students are awarded a bachelor of science degree in health sciences and then must complete two more years to earn the DPT (see graduate catalog for requirements).

**Admission Requirements:**
Please see Admissions section for details on freshmen and transfer admissions.

</table>
In the three-year undergraduate phase, a cumulative grade point average of 3.2 and a grade point average of 3.0 in core physical therapy requirements must be attained to enter the professional phase of the physical therapy program. The above requirements must be completed by the end of the spring semester prior to entering the professional phase of the physical therapy program.

Public Health (BS)
A bachelor of science in public health prepares graduates to work in a variety of settings, public and private, and engage in a wide range of population-based health promotion, health protection, and disease prevention activities. Public health professionals may be employed in healthcare organizations and community-based agencies. In addition to major requirements, students must select a concentration (15 credits) in consultation with the program advisor.

Learning Outcomes:
• Describe the role of public health, its history, core values and its functions across the globe and in society.
• Use data to understand public health problems and assess interventions, applying knowledge of data collection and principals of epidemiology and biostatistics.
• Explain the use and importance of evidence-based public health in solving public health problems.
• Explain the concepts of population health, and the basic processes, approaches, and interventions used to identify and address health-related needs of populations in the U.S. and the world.
• Identify opportunities for promoting and protecting health across the life course based on an understanding of the underlying science of human health and disease.
• Critically examine and recognize the socio-economic, behavioral, biological, environmental, and other factors that impact human health and contribute to health disparities.
• Apply project implementation skills, including planning, assessment, and evaluation toward public health problems.
• Compare and contrast the effects of different health policies in the U.S and elsewhere, in terms of both the economic impacts and effects on the public’s health.
• Explain the roles of various agencies of government and private sector organizations in the regulatory, health care delivery, and health care financing system.

Apply communication skills including those in oral presentation, technical and professional writing, and use of mass media and technology to public health issues.
Program Requirements:

- PCH1030  Introduction to Public Health
- PCH2030  Global Health
- PCH2031  Program Planning & Evaluation
- PCH3030  Epidemiology in Public Health
- PCH3031  Public Health Policy
- PCH3036  Internship in Public Health
- PCH3630  Community Health Promotion
- PCH4430  Seminar in Public Health
- PCH4839  Capstone in Public Health
- PSY2610  Health Psychology
- HCM2200  American Healthcare System
- HCM3230  Ethical and Legal Issues in Healthcare

A course in healthcare finance and additional science courses relevant to the student’s career goals are required. Students work closely with the program director to select specific courses that will meet program requirements and career goals.

Licensure Programs in Education
Entrance Requirements and Procedures
Graduate programs are open to individuals with baccalaureate degrees in all academic disciplines, and in some cases a master’s degree, from a regionally accredited four-year college or university. Unless otherwise specified, eligibility for admission is based upon an individual evaluation of the applicant's prior academic record, standardized test scores and including cumulative undergraduate and pre-requisite coursework GPAs as stipulated by each graduate degree program, letters of recommendation, and, if applicable, career performance.

Program specific admission requirements are below. Achieving minimum requirements for admission is not a guarantee of acceptance.

Characteristics of a Strong Application
The graduate admissions committee considers a holistic approach of each candidate’s application in assessing their potential to successfully complete the program. Candidates should have both the ability and desire to thrive within a demanding and stimulating environment. Qualities sought include: academic preparedness, intellectual curiosity, and communication skills.

Application for Admission
An application for graduate admission may be obtained in person from the Office of Graduate Admissions, located in DAR, 1000 State Street, Springfield, MA 01109, by telephone at (413) 205-3700 or (800) 242-3142, or through email: graduate.admissions@aic.edu., or via our website at www.aic.edu/admissions/graduate.

How to Apply For Admission
Completed applications, official transcripts for all undergraduate and graduate work, if any, letters of recommendation, and standardized test scores, if applicable, may be submitted as a single package or by separate cover to: American International College, Office of Graduate Admissions, 1000 State Street, Springfield, MA 01109. NOTE: This is for all graduate degree programs except those related to the Graduate Education.

Candidates will be reviewed for admission based on the strength of their ability for graduate study and the receipt of the following documentation:
- Completed and signed application
- Official sealed transcript(s) of all previous academic work, undergraduate and graduate
• Letters of recommendation
• Personal goal statement or essay, if applicable
• U.S. $50 non-refundable application fee
• Current resume, if applicable
• Clinical Observation or Volunteer Experience forms (required for Doctor of Physical Therapy and Master of Science in Occupational Therapy programs)

Transcripts
Official transcripts from all previous academic work, undergraduate and graduate, are required. International candidates must also submit an official English translation of academic credentials for evaluation. If you are currently a student, please include your current classes, even if you have not received your final grades. If admitted, you will be required to submit a final, official transcript that highlights your final grades and degree conferred. Official documents must bear the actual signatures of the registrar and the official seal or stamp of the institution.

Recommendations
Letters of recommendation should come from professors under whom the candidate has studied or, when appropriate, from supervisors or colleagues with whom the candidate has worked. Please choose individuals who can provide an objective and frank appraisal of your capacity for graduate study and your potential for professional success. All recommendations need to be signed by the referring individual. The standard requirement for graduate admissions is two letters of recommendation. However, certain graduate degree programs require three letters of recommendation. Please consult the appropriate graduate degree program for specific details.

Personal Goal Statement
As a graduate degree candidate you must submit a personal goal statement highlighting your desire to pursue an advanced degree and its benefits to you, both personally and professionally. The personal statement should be at least one-page, typed, on a separate sheet and submitted along with the application for graduate admission. Please note that our doctoral programs require the candidate to submit an essay. Please consult the appropriate doctoral program for specific details.

Application Fee
Applications must be accompanied by a U.S. $50 non-refundable application fee. An additional fee may be assessed for the evaluation of official transcripts from colleges and universities outside of the United States. The candidate will be so notified.

Graduate Credit Earned Prior to Admission
All master’s degree programs permit the transfer of up to ten semester hours of graduate credit taken at another college or university for graduate courses that are substantially similar in content to the degree
program courses at the college. At minimum, an earned grade of B or better for the equivalent semester hours of credit is required. Please consult the appropriate graduate degree program for specific details. Qualified students may earn up to ten semester hours at American International College prior to acceptance into the graduate program, but such enrollment does not constitute or guarantee formal acceptance into the degree program. Students must apply for admission and provide unofficial transcripts before proceeding with initial nine credit non-matriculated course work. Any qualified student interested in taking graduate-level coursework as a non-matriculated student is encouraged to contact the Office of Graduate Admissions at 413.205.3700 for more information.

Admissions Deadlines
To be considered for admission, applicants are responsible for garnering and submitting all necessary application materials by the designated graduate program application deadlines. Many programs offer various entry points and will accept applications for fall, spring, and summer admission. In some instances, the Office of Graduate Admissions employs a “rolling” admissions deadline whereby admissions applications are received throughout the year and up to two weeks before the first day of classes. However, few graduate degree programs only accept applications for fall admission.

Please be sure to consult specific graduate program requirements or refer to our website at http://www.aic.edu/admissions/graduate/application_deadlines for more information regarding program options and admission requirements.

Acceptance Deposit
Upon acceptance into a graduate program, candidates who intend to enroll are required to send a non-refundable deposit of (amount varies by graduate program) to the Office of Graduate Admissions, American International College, 1000 State Street, Springfield, MA 01109. Enrolled students will have their deposits credited to their student accounts.

Non-Degree Status
An individual, qualified for graduate study, may file for “Non-Degree Status” if he or she desires to take one or more specific graduate-level courses, but does not plan to follow a graduate degree program. Permission will generally be granted provided the applicant meets the admission requirements and possesses the necessary background for the desired courses.

CORI/SORI Screening
Criminal Offender Record Information (CORI)
Sex Offender Registry Information (SORI)
Prior to being placed or accepted into certain programs that require the student to work directly with vulnerable populations (such as children, the elderly, or the infirm), or in other fieldwork experiences at
agencies that require such, a student will be subject to a CORI and/or SORI check. The results of this report may or may not disqualify a student from entering or completing a program. Specific details and a complete copy of the college policy and the authorization form are available at the Office of the Provost, Adams Hall.

Financial Aid
We encourage all students to apply for financial assistance when they apply for admission. Qualified graduate students are eligible to borrow up to $20,500 in student loans to cover tuition and living expenses. Students who wish to receive aid must complete the Free Application for Federal Student Aid (FAFSA). Please remember to enter AIC’s code of 002114. In addition, students must be formally accepted into a graduate program and enrolled for six credits per semester before financial aid can be awarded to them. International students are not eligible for financial aid. To learn more about financial aid, please visit our website at www.aic.edu/financialaid for more details.

International Students
American International College has welcomed international students to its campus. The college is authorized under federal law to enroll non-immigrant alien students. It is the international student's responsibility to submit all records of academic work and the letters of recommendation. It is advised that international candidates send the completed application with all supporting materials in a single package to the Office of Graduate Admissions. This approach will result in avoiding delays in the processing of an application. Please note that international students are not eligible for financial aid. International students who are proficient in the English language, and who wish to be considered for admission, must provide the Office of Graduate Admissions with the following items:

- A completed and signed application
- Official sealed transcript(s) of all previous academic work, undergraduate and graduate properly evaluated
- Letters of recommendation
- Personal goal statement or essay, if applicable
- Declaration and Certification of Finances form
- Official Test of English as a Foreign Language (TOEFL) or ESL International score
- U.S. $50 non-refundable application fee
- Clinical Observation or Volunteer Experience forms, if applicable

Students whose native language is not English are required to demonstrate English language proficiency through acceptable TOEFL scores. The TOEFL score is valid for two years from the exam date. Applicants will be granted an automatic TOEFL waiver if they have earned an undergraduate degree in a country whose official language is English.
GRADUATE PROGRAMS

Master of Business Administration (MBA)
The MBA program practices “rolling admissions” where admission applications are received throughout the year and up to the start of the orientation for each cohort. Decisions are rendered within two weeks once we are in receipt of the completed application. The Graduate Admissions Committee carefully assesses each individual’s ability to successfully complete the program. Candidates should have both the ability and desire to thrive within a demanding and stimulating environment. Qualities sought include: academic preparedness, intellectual curiosity, and communication skills.
The program requires an undergraduate GPA of 2.75 or better, a personal goal statement, two letters of recommendation, and the ability to contribute to the classroom setting. Students whose native language is not English are also required to submit a TOEFL score. In the event an individual wishes to apply to the program but does not have a 2.75 GPA, the individual will be required to be interviewed by the graduate advisor, after which depending on the outcome of the interview and review of all other application materials, the individual may be granted a full or conditional acceptance into the program.
In addition to the required GPA of 2.75 (on a 4.0 scale), students need to have taken one semester of the following undergraduate courses to satisfy the program’s prerequisite requirements: Economics, Accounting, and Finance. Students who have not taken these prerequisite courses will be required to take the MBA Boot Camp course to satisfy the course prerequisite requirement.

Master of Science in Accounting and Taxation (MSAT)
The MSAT program practices “rolling admissions” where admission applications are received throughout the year up to the start of each term. Students may start their program in the fall or spring semesters or during the summer sessions. Decisions are rendered within two weeks once we are in receipt of the completed application. The Graduate Admissions Committee carefully assesses each individual’s ability to successfully complete the program. Candidates should have both the ability and desire to thrive within a demanding and stimulating environment. Qualities sought include: academic preparedness, intellectual curiosity, and communication skills.
The program requires an undergraduate GPA of 2.75 or better, a personal goal statement, two letters of recommendation, and the ability to contribute to the classroom setting. Students whose native language is not English are also required to submit a TOEFL score. In the event an individual wishes to apply to the program but does not have a 2.75 GPA, the individual will be required to be interviewed by the graduate advisor, after which depending on the outcome of the interview and review of all other application materials, the individual may be granted a full or conditional acceptance into the program.

Master of Public Administration (MPA)
The MPA program practices “rolling admissions” where admission applications are received throughout the year up to the start of each term. Decisions are rendered within two weeks once we are in receipt of the completed application. The Graduate Admissions Committee carefully assesses each individual’s
ability to successfully complete the program. Candidates should have both the ability and desire to thrive within a demanding and stimulating environment. Qualities sought include: academic preparedness, intellectual curiosity, and communication skills.

The program requires an undergraduate GPA of 2.75 or better, a personal goal statement, two letters of recommendation, and the ability to contribute to the classroom setting. Students whose native language is not English are also required to submit a TOEFL score. In the event an individual wishes to apply to the program but does not have a 2.75 GPA, the individual will be required to be interviewed by the graduate advisor, after which depending on the outcome of the interview and review of all other application materials, the individual may be granted a full or conditional acceptance into the program.

In addition to the above requirements, students need to have taken one semester of an undergraduate course in the subject of Political Science or American Government.

Leadership (MS)
The Leadership program practices “rolling admissions” where admission applications are received throughout the year and up to the start of the orientation for each cohort. Decisions are rendered within two weeks once we are in receipt of the completed application. The Graduate Admissions Committee carefully assesses each individual's ability to successfully complete the program. Candidates should have both the ability and desire to thrive within a demanding and stimulating environment. Qualities sought include: academic preparedness, intellectual curiosity, and communication skills.

The program requires an undergraduate GPA of 2.75 or better, a personal goal statement, two letters of recommendation, and the ability to contribute to the classroom setting. Students whose native language is not English are also required to submit a TOEFL score. In the event an individual wishes to apply to the program but does not have a 2.75 GPA, the individual will be required to be interviewed by the graduate advisor, after which depending on the outcome of the interview and review of all other application materials, the individual may be granted a full or conditional acceptance into the program.

Clinical Psychology (MA)
The Clinical Psychology program offers rolling admissions, accepting applications throughout the year and allowing individuals to begin their studies in any one of our fall, spring, or summer terms. Decisions are rendered within two weeks of receipt of the completed admissions materials. The following items are necessary for candidacy to be considered:

- Completed Graduate Admission Application form.
- Payment of a $50.00 non-refundable application fee.
- Two letters of recommendation, of which one must be academic
- Sealed, official transcripts of all previous academic work from a regionally-accredited institution, minimum 2.75 cumulative GPA. Transcripts from non-US countries must be evaluated through a recognized evaluation service. We accept all evaluations from all active members associated
Forensic Psychology (MS)
The Forensic Psychology program offers rolling admissions, accepting applications throughout the year and allowing individuals to begin their studies in any one of our fall, spring or summer semesters.

Decisions are rendered within two weeks of receipt of the completed admissions materials. The following items are necessary for candidacy to be considered:

- Completed Graduate Admission Application form.
- Payment of a $50.00 non-refundable application fee.
- Two letters of recommendation, of which one must be academic
- Sealed, official transcripts of all previous academic work from a regionally-accredited institution, minimum 2.75 cumulative GPA. Transcripts from non-US countries must be evaluated through a recognized evaluation service. We accept all evaluations from all active members associated with the NACES organization (www.naces.org).
- A one-page personal goal statement highlighting your desire to pursue this degree and its benefits to you, both personally and professionally. Current resume, if applicable.
- Official TOEFL scores. Students whose native language is not English are required to demonstrate English language proficiency through acceptable TOEFL scores. The TOEFL score is valid for two years from the exam date. Applicants will be granted an automatic TOEFL waiver if they have earned an undergraduate degree in a country whose official language is English.

General Psychology (MA)
The General Psychology program offers rolling admissions, accepting applications throughout the year and allowing students to begin their studies in the fall, spring, or summer semesters. Decisions are rendered within two weeks of receipt of completed admissions documents. The following are necessary for candidacy to be considered:

- Completed Graduate Admission Application form.
- Payment of a $50.00 non-refundable application fee.
- Two letters of recommendation (at least one academic)
- Sealed, official transcripts of all previous academic work from a regionally accredited
institution indicating a minimum 2.75 GPA.

- Students should possess an undergraduate degree or significant course work in psychology or a related field. Transcripts from non-US countries must be evaluated through a recognized evaluation service. We accept evaluations from all active members associated with NACES (www.naces.org).
- A one-page personal goal statement highlighting your intent and desire to pursue this degree and its benefit to you both personally and professionally. Current resume, if applicable, should also be included.
- Official TOEFL scores. Students whose native language is not English are required to demonstrate English language proficiency through acceptable TOEFL scores. TOEFL scores are valid for two years from the exam date. Applicants will be granted an TOEFL waiver if they earned an undergraduate degree in a country whose official language is English.

**Doctor of Education in Educational Psychology (EdD)**

Candidates must hold a bachelor’s degree in psychology, or a closely related field. Preference will be given to those who have already proven themselves at the graduate level (i.e., holders of MA or MS degrees). Undergraduate and graduate transcripts must be submitted. A GPA of 3.25 is recommended. Students admitted with a bachelor’s degree will be awarded an MA in Educational Psychology upon completion of 30 specific graduate credits. These are designated with # in the Curriculum Components section.

Candidates must submit a completed application for graduation admission form, along with the non-refundable application fee.

Candidates must submit three letters of recommendation.

Candidates must submit a curriculum vitae.

No more than 33 hours of transfer credit will be accepted from another institution provided that these are graduate level hours and relevant to specific courses in the doctoral program. The student, however, is entirely responsible for the content of the transferred course(s) in terms of meeting the requirements of the doctoral program in educational psychology. Accordingly, the student is held solely responsible for the competencies covered by the course(s) whether such competencies are addressed in other courses, practicums, exams, or other academic endeavors.

**Doctor of Education (Low Residency EdD)**

*Admission Requirements:*

- An earned master’s degree or higher from a regionally accredited institution or a recognized international institution of higher education
- A grade point average of 3.0 or better (on a 4.0 scale) in the major field of study (under special circumstances, a candidate with an extensive work history or other overriding qualifications may be admitted with a slightly lower GPA)
- An interview with the director or a member of the faculty, if deemed necessary
• A completed application detailing personal, academic and professional goals and reasons for pursuing doctoral study
• Chosen academic concentration
• Several key questions for inquiry that guide the development of the degree plan
• Three professional recommendations, one of which should be from individuals qualified to evaluate the candidate’s academic and practitioner skills, as well as suitability for mentored study
• A minimum TOEFL score of 550 for applicants whose native language is not English.

**Counseling Psychology (MA)**

*Admission Requirements:*

• An earned bachelor’s degree from a regionally accredited institution or a recognized international institution of higher education
• A grade point average of 3.0 or better (on a 4.0 scale) in the major field of study (under special circumstances, a candidate with an extensive work history or other overriding qualifications may be admitted with a slightly lower GPA)
• A completed application including personal and career goals
• Three professional recommendations, one of which should be from individuals qualified to evaluate the candidate’s academic and practitioner skills, as well as suitability for mentored study
• A minimum TOEFL score of 550 for applicants whose native language is not English.

**Master of Fine Arts in Creative Writing (MFA)**

*Admission Requirements:*

• An earned bachelor’s degree from a regionally accredited institution or a recognized international institution of higher education
• A grade point average of 3.0 or better (on a 4.0 scale) in the major field of study (under special circumstances, a candidate with an extensive work history or other overriding qualifications may be admitted with a slightly lower GPA)
• A completed application including personal and career goals
• Three professional recommendations, one of which should be from individuals qualified to evaluate the candidate’s academic and practitioner skills, as well as suitability for mentored study
• A minimum TOEFL score of 550 for applicants whose native language is not English.

**Graduate Programs in Education**

*Admission Requirements:*

• The candidate must be a graduate of an accredited four-year college to be considered for the master's level program. Candidates for the Certificate of Advanced Graduate Study must possess an M.Ed. or a master’s degree in a field related to their licensure from an accredited institution.
• For teacher and school guidance/adjustment counselor candidates: A cumulative grade point average of 2.67 in undergraduate course work. For school leadership candidates: A cumulative
grade point average of 3.0 in undergraduate course work.
- Passage of the Communication and Literacy portion of the Massachusetts Tests for Educator Licensure (MTEL) for admission to the licensure track.
- Two letters of recommendation
- Statement of Career Goals and Objectives
- Other requirements indicated in each program, such as completion of coursework in Psychology.

Applications for admission into the master’s degrees and licensure programs in education are processed by the Office of Extended Campus Programs. Applications may be obtained at: www.aic.edu/requestinfo/graduate or by writing to:
Office of Extended Graduate Admissions
American International College
1000 State Street, Box 2A
Springfield, MA 01109

This is also the address to which the completed application is sent with the $50 application fee. For further information or assistance, you may call 413-205-3525.

Nursing (MSN)

Admission Requirements:
- Application (with $50 dollar application fee)
- 2 letters of recommendation (preferably one professional and one academic)
- One page personal statement
- Official transcripts from all colleges attended
- A minimum GPA of 3.0
- International students must have their transcripts evaluated by a member of www.naces.org, a declaration of finances (with bank statement) and TOEFL or IELTS scores.
- Applications are accepted on a rolling admissions basis for both fall and spring terms. All application materials must be received no later than 1 week prior to the start of each semester.

Occupational Therapy (MSOT)

Admission requirements are designed to select qualified students who are likely to successfully complete this professional program of study. There are two application deadlines for graduate applications to the MSOT program. The early decision deadline is December 1st and the second deadline is April 1st. Late applications will be reviewed on a space-available basis.

Graduate students applying to the MSOT program must have earned a BS or BA degree from an accredited four-year institution. A minimum GPA of 3.00 (on a 4.00 scale) is preferred. Applicants must also have a minimum GPA of 2.85 for the 23 credits of prerequisite coursework, and a minimum grade of B- in each course. Prerequisite courses must have been completed within the last 3 years prior
to applying to the program. GRE’s are required for any candidate with a GPA that is below the minimum. Percentile ranking scores of 50% or higher are preferred. Admission decisions will consider both undergraduate BS/BA GPA and GRE Scores.

International students must submit Test of English as a Foreign Language (TOEFL) score documentation. Minimum score requirements are as follows: 577 Paper; 91 Internet; 233 Computer-based.

Prerequisite Courses
- Human Anatomy & Physiology
- General Psychology I
- Abnormal Psychology
- Developmental Psychology
- Introduction to Sociology or Anthropology
- Physics or Chemistry
- Statistics (Biological, Psychological or Educational)

**Physical Therapy (DPT)**

Applicants to the DPT program must have earned a BS or BA from an accredited institution and it is strongly recommended that they have a cumulative GPA of at least 3.2 or higher and a GPA of at least 3.0 in DPT prerequisite courses which include 1 year each of biology or anatomy & physiology, chemistry, and physics (all with labs) and 1 semester of statistics. Official transcripts must be submitted to the Office of Graduate Admissions; transcripts from non-US countries must be evaluated through a recognized evaluation service. We accept all evaluations from all active members associated with the NACES organization (www.naces.org). Applicants must submit evidence of completing clinical observation hours (two clinical observations at a minimum of 10 hours each), three letters of recommendation, and a one-page, typed personal statement highlighting the reasons for pursuing this degree and how you will benefit, both personally and professionally from the program.

The early decision deadline is December 1st and the second deadline is April 1st. Late applications will be reviewed on a space available basis.
GRADUATE ACADEMIC REGULATIONS

All students are expected to be familiar with the Graduate Academic Regulations of American International College, a separate publication, which can be found at the AIC Student Information System Portal. Major elements of that publication include the following:

Student Advising
All students are assigned an academic advisor who takes an active interest in the academic development of the student. This includes aiding and making decisions regarding course registration, offering support, and referring those needing any type of help to the appropriate resources.

Matriculation
Matriculation is accorded to full-time and part-time students who are officially recognized candidates for a degree.

Academic Status
Full-time status is determined by the student's program.
All international students certified by American International College with the U.S. Department of Immigration must carry a full-time course load as defined by the program.

The Credit System
The basic unit of credit at the college is the semester hour. All courses have an assigned semester hour value, as listed in this catalog and related official publications.

Grading System
The letter grades and their significance:

<table>
<thead>
<tr>
<th>Letter</th>
<th>Percentage</th>
<th>Grade Points</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>≥93.00</td>
<td>4.00</td>
</tr>
<tr>
<td>A-</td>
<td>90.00-92.99</td>
<td>3.67</td>
</tr>
<tr>
<td>B+</td>
<td>87.00-89.99</td>
<td>3.33</td>
</tr>
<tr>
<td>B</td>
<td>83.00-86.99</td>
<td>3.00</td>
</tr>
<tr>
<td>B-</td>
<td>80.00-82.99</td>
<td>2.67</td>
</tr>
<tr>
<td>C+</td>
<td>77.00-79.99</td>
<td>2.33</td>
</tr>
<tr>
<td>C</td>
<td>73.00-76.99</td>
<td>2.00</td>
</tr>
<tr>
<td>F</td>
<td>≤72.99</td>
<td>0.00</td>
</tr>
</tbody>
</table>

A graduate degree candidate must have a minimum cumulative grade point average of “B” (3.00) to be eligible for graduation.
**Academic Standing**
Graduate students must attain and maintain a 3.00 cumulative grade point average (CGPA) on all credits earned at AIC, and no grade below a B-. A cumulative GPA is based on a scale of 4.0.

The academic standing of each student shall be determined at the end of each term by the Provost and the Academic Deans. A student who falls into unsatisfactory academic standing due to a CGPA below a 3.0 is considered to be in probationary status, and will be informed of this status in writing by the Dean of the respective School or the appropriate Graduate Program Director. If the student does not raise the CGPA to a 3.0 or better by the end of the subsequent term, the student may be dismissed from the graduate program.

**Report of Grades**
The Registrar’s Office makes student grades available to students via the student information system at the end of each term.

**Course Grade Appeal Process**
This appeals process provides an opportunity for the student to initiate a review of a perceived injustice in the final determination of a course grade.

**Incomplete Work**
A grade of “Incomplete” (I) is applied to work of acceptable quality when all of the coursework has not been completed because of illness or other legitimate reasons.
A “Contract for Incomplete Grades” form must be submitted to the dean/director of the school in which the course is offered and to the Registrar by the end-of-term deadline for submission of grades. An “Incomplete” (I) must be completed by the last day of examinations of the following term. If the student has not completed the work, the Registrar will change the grade to “IE” for the course.

**Final Exams**
A student may not miss a final examination without first obtaining the written permission of the appropriate faculty member. Exceptions to this rule may be allowed, under special circumstances, by the director/dean.

**Course Changes**
Changes in course selection may be made at any time up to the end of the first week of any term and shall be processed through the Office of the Registrar with the use of a printed form entitled (Add/Drop Card) or email from the student’s advisor. The signature of the student and the faculty advisor or the dean of the school is required.
Withdrawal from Individual Courses
Withdrawal from individual courses shall be processed through Office of the Registrar with the use of the appropriate form.

Withdrawal from the College
A student must initiate formal withdrawal from the college with the Office of the Registrar.

Leave of Absence
A student may apply to their Graduate Program Director/Advisor for a leave of absence. At its conclusion, the student may request an extension if necessary. Students who discontinue attending the College without having obtained a formal leave of absence shall be considered withdrawn from the program. Any student considered withdrawn from the program who wishes to re-enter must reapply for admission.

Statute of Limitations
The student must complete the requirements for the degree within seven years of matriculation for a master’s degree; ten years for a doctorate. The student may apply to the Graduate Program Director for an extension of the Statute of Limitations.

Academic Integrity
American International College is firmly committed to students understanding the value of their education. Students are expected to perform their own academic work according to the standards set by the faculty, departments, schools, and the college.

Graduation
Candidates for graduation must satisfy the academic requirements as outlined by the program and institution. Commencement exercises are held in May of each year.
GRADUATE REGISTRATION

Degree Programs
Registration for all degree programs may be completed with admissions or the student’s advisor. It is advisable to register early for all graduate courses. Courses that do not have a minimum number of five students are subject to cancellation.

The Office of Graduate Admissions is open Monday through Friday, 8:30 a.m. to 4:30 p.m. Holiday hours will be posted at the appropriate time.

Last Date for Course Withdrawal
Students are permitted to withdraw from course(s) up to the 75% mark of the term. For financial responsibilities associated with withdrawn courses, see “Refund Policy.”

Student Identification Cards
All new students are issued identification cards soon after classes start and financial arrangements have been made with the Student Accounts Office. The student ID entitles the student to full use of the library and campus center. Returning students will have their old identification cards validated upon completing financial arrangements with the Student Accounts Office each term.
SCHOOL OF GRADUATE AND ADULT EDUCATION

GRADUATE BUSINESS
Gregory T. Schmutte, PhD, Dean

Description
The business environment in the early 21st century is complex, fast-paced, and diverse. Leaders who succeed and thrive will possess innovative, practical, and nimble approaches to this dynamic environment. At American International College our programs emphasize current, real-world applications that enhance our students’ breadth of knowledge, as well as their grasp of both management and technical skills.

Our credentialed and experienced graduate business faculty provides a balance of full-time and adjunct staff brings extensive business, teaching, consulting, and research backgrounds to the classroom.

American International College focuses on the education of its customer: the student. Personal, individualized attention is the norm. The student benefits from frequent contact with the faculty and the graduate business advisor. This individualized contact is a core tenet of our programs’ success.

Master of Business Administration (MBA)
American International College takes pride in its MBA program, which is designed to develop future managers through an emphasis on academic excellence and business effectiveness. The MBA curriculum provides our students with an understanding of the economic, functional, behavioral, legal, ethical and quantitative aspects of the practice of business administration in a competitive market economy. Students are exposed to the common body of knowledge and the concepts and techniques involved in the various areas of business. The program stresses development of decision-making skills, analytical approaches to solving business problems, and an appreciation of the relationships between technology and people in profit-seeking and non-profit organizations. The curriculum prepares students for managerial positions and enhances the managerial skills of senior or general managers.

The MBA program is a structured 12-course, 36-credit program that operates on a cohort-based model. Students enter the program as a group or cohort in September or January and will attend classes with the same group of students until they graduate from the program. Our students typically complete the MBA program in two years. The culmination of the program is the MBA Capstone where students pull together the knowledge gained in the program by creating a comprehensive business plan to start their own business. Students who lack adequate undergraduate preparation will be required to complete selected foundation courses in economics, accounting, and finance as determined by the graduate
advisor.

Admissions Requirements:
Please see the Graduate Admissions section of this catalog.

Learning Outcomes:
- Students will be able to demonstrate and apply the knowledge gained in the functional areas of management including following ethical standards and practices incorporating the global dimensions of business.
- Students will be able to demonstrate and apply the knowledge gained in the areas of target marketing selection, market segmentation, branding and marketing communications including social media.
- Students will be able to demonstrate and apply quantitative decision support tools incorporated in the disciplines accounting, economics, finance and quantitative analysis in decision making processes.
- Students will be able to apply the appropriate knowledge, tools and models to demonstrate both individual and team-based advanced problem solving skills including the ability to recognize the root cause of problems, analyze uncertain situations, interpret and use data in drawing conclusions, develop alternative solutions, and adapt and innovate in new settings.
- Students will be able to demonstrate well-developed and effective organizational, leadership, oral and written communication skills.
- Students will be able to demonstrate well-developed practical skill sets including the use of the internet, research databases, report writing software, presentation software, spreadsheet software, quantitative tools and project management tools.

Program Requirements:
- MGT6410 Strategic Management
- MGT5210 Organizational Behavior
- ACC5300 Managerial Accounting
- MKT5210 Marketing Management
- MGT5240 Operations Management
- IBS6110 International Business
- MGT5250 Human Resource Management
- MGT5230 Quantitative Analysis for Decision Making
- FIN5210 Managerial Finance
- ECO5210 Managerial Economics
- MGT5270 Information Systems for Business Strategy
- MGT6999 The MBA Capstone

MBA in Resort and Casino Management
The AIC Master of Business Administration program provides comprehensive learning in the key areas of business knowledge necessary for success in the global economy of the 21st century. It combines
theory with practice to develop a full understanding of the ways that each business discipline can be integrated into a broad-based approach to effective organizational leadership.

The program is designed for recent college graduates, current business professionals and experienced, mid-career managers who seek a graduate business degree to advance their careers. The MBA Program at AIC is a structured, 12 course, 36 credit program that operates on a cohort-based model. Students enter the program as a group or cohort in September or January and will attend classes with the same group of students until they graduate from the program. This fosters a close, team-based working relationship between the students within each cohort.

Students must successfully complete graduate course work in six core business disciplines. Additionally students must successfully complete five courses specific to the resort and casino industry. The culmination of the program is the MBA Capstone where students pull together the knowledge gained throughout program by creating a comprehensive business plan to start their own business or developing a comprehensive plan to address a significant business problem or issue within the resort and casino industry.

Admission Requirements:
Same as the requirements for the MBA.

Learning Outcomes:
Upon successful completion of the program, student will be able to:
- Demonstrate and apply the knowledge gained in the functional areas of management including following ethical standards and practices incorporating the global dimensions of business and resort and casino operations.
- Demonstrate and apply the knowledge gained in the areas of target marketing selection, market segmentation, branding and marketing communications including social media.
- Demonstrate and apply quantitative decision support tools incorporated in the disciplines accounting, economics, finance and quantitative analysis in decision making processes.
- Apply the appropriate knowledge, tools and models to demonstrate both individual and team-based advanced problem solving skills including the ability to recognize the root cause of problems, analyze uncertain situations, interpret and use data in drawing conclusions, develop alternative solutions, and adapt and innovate in new settings.
- Demonstrate well-developed practical skill sets including the use of the internet, research databases, report writing software, presentation software, spreadsheet software, quantitative tools and project management tools.

Program Requirements:
Program is 36 credits; 7 MBA core courses and 5 Resort and Casino Management courses.

MBA Core Courses
- MGT5210 Organizational Behavior
- MKT5210 Marketing Management
- ECO5210 Managerial Economics
- FIN5210 Managerial Finance
MGT5230  Quantitative Analysis for Decision Making  
MGT5250  Human Resource Management  

Resort and Casino Specialized Courses  
MGT5320  Financial Reporting, Analysis and Risk Management in the Gaming Industry  
MGT5360  Casino and Gaming Operations Management  
MGT5450  Casino, Gaming and Hospitality Industry Laws and Regulations  
MGT5460  Exposition and Event Management  
MGT5480  Hotel, Food and Beverage Operations Management  

Required MBA Capstone Course  
MGT6999  MBA Capstone  

**Master of Science in Accounting and Taxation (MSAT)**  
The Master of Science degree program in Accounting and Taxation (MSAT) has been designed to comply with the standards of the American Institute of Certified Public Accountants (AICPA). All AICPA members are required to complete 150 semester hours of college education, 30 semester hours beyond a baccalaureate degree. The MSAT program fully meets AICPA requirements in the three mandated areas: general knowledge, organizational and business knowledge, and accounting and auditing knowledge.  

*Admissions Requirements:*  
Please see Graduate Admissions section of this catalog.  

*Learning Outcomes:*  
• Students will be able to demonstrate and apply the knowledge gained in the functional areas of Generally Accepted Accounting Principles.  
• Students will be able to demonstrate and apply the knowledge gained in the functional areas of Generally Accepted Auditing Standards.  
• Students will be able to demonstrate and apply knowledge gained in the functional areas of Federal tax law.  
• Students will be able to apply the appropriate knowledge, tools and models to demonstrate both individual and team-based advanced problem solving skills including the ability to recognize the root cause of problems, analyze uncertain situations, interpret and use data in drawing conclusions, develop alternative solutions, and adapt and innovate in new settings.  
• Students will be able to demonstrate well-developed and effective organizational, leadership, oral and written communication skills.  
• Students will be able to demonstrate well-developed practical skill sets including the use of the internet, research databases, report writing software, presentation software, and spreadsheet software.
Program Requirements:

Core Courses (Six Courses, 18 Credit Hours)
- ACC5205 Advanced Accounting I- Consolidations, International and Partnership
- ACC5225 Advanced Accounting II-Governmental and Not-for Profit
- ACC5305 Tax I
- ACC5325 Tax II
- LAW5202 Contemporary Issues in Business Law
- ACC6999 Seminar in Contemporary Accounting Issues (Capstone Course)

Elective Courses (Four Courses, 12 Credit Hours)
- ACC5300 Managerial Accounting
- ACC5505 Advanced Issues of Partnership and Corporate Taxation
- ACC5605 Fraud Examination
- ACC6610 Business Valuation
- ACC6650 Prevention and Detection of Fraud in Financial Reporting
- ACC5510 Managerial Tax Planning
- ACC5515 Employee Benefits and Retirement
- ACC5610 Computer Security and Audit
- ACC5520 Estate and Gift Taxation
- ACC6630 Controllership
- ACC6640 International Taxation and Accounting

One, and only one, 5200 level or higher non-accounting graduate business elective.

Candidates for the MSAT degree program who qualify for admission to the program but lack the appropriate preparation courses in accounting, economics, finance, management, marketing and statistics are required to complete the business foundation courses as defined by the graduate advisor. Candidates who have an undergraduate accounting degree may be able to waive ACC5205, 5225, 5305, 5325 and take four elective courses in their place as determined by the graduate advisor.

Master of Public Administration (MPA)
The Master of Public Administration program responds to the 21st century conviction that public administrators can and must perform efficiently and effectively with an emphasis on outcomes. It reflects the conviction that the administrator in public service must possess the knowledge and skills of a strategic manager and visionary leader with sensitivity to the political, social and cultural elements that impinge upon the public organization. The Master of Public Administration is a professional degree primarily for those who want to pursue a career in public service.

The Master of Public Administration is a 12-course, 36-credit program. Our students typically complete the MPA program in two years. The culmination of the program is the MPA Capstone where students pull together the knowledge gained in the program by preparing a master’s thesis on a research
topic of interest to the student applicable to the field of public administration or plans and implements a substantial project in the field of public administration.

Admissions Requirements:
Please see Graduate Admissions section of this catalog.

Learning Outcomes:
- Students will be able to demonstrate and apply the knowledge gained in the functional areas of management including following ethical standards and practices incorporating the global dimensions of governmental organizations.
- Students will be able to demonstrate and apply the knowledge gained in the areas of target marketing selection, market segmentation, branding and marketing communications including social media.
- Students will be able to demonstrate and apply quantitative decision support tools incorporated in the disciplines economics, finance and quantitative analysis in decision making processes.
- Students will be able to apply the appropriate knowledge, tools and models to demonstrate both individual and team-based advanced problem solving skills including the ability to recognize the root cause of problems, analyze uncertain situations, interpret and use data in drawing conclusions, develop alternative solutions, and adapt and innovate in new settings.
- Students will be able to demonstrate well-developed and effective organizational, leadership, oral and written communication skills.
- Students will be able to demonstrate well-developed practical skill sets including the use of the internet, research databases, report writing software, presentation software, spreadsheet software, quantitative tools and project management tools.

Master of Science in Leadership (MS)
In the Master of Science in Leadership program students will learn the concepts and theories of leadership, the qualities that effective leaders possess, and the impact these leaders have on their
organizations. The focus of this program is on the student as leader. To this end, students will participate in self assessments and reflect on their personal and professional skill set in the role of leader with the goal of enhancing their effectiveness as a leader. Throughout subsequent courses students will use the knowledge of themselves as a leader along with leadership concepts to explore and refine their leadership skills within various aspects of leading an organization – developing and motivating others, building effective teams, planning, leading change and innovation, and analyzing organizations for optimal effectiveness. An overarching construct of this program is entrepreneurial leadership—thinking and acting in new ways to lead organizations to their potential and beyond. The students will be guided toward thinking and strategizing using new and innovative ways to consider leadership. Upon successful completion of the program, graduates will be prepared to serve as a highly effective entrepreneurial leader in their organization.

Two concentrations in Leadership are available: Higher Education Leadership and Executive Leadership. The Higher Education Leadership concentration is designed to develop and enhance the skills of future leaders in the collegiate arena while the Executive Leadership concentration is intended for those who aspire for top leadership roles in corporate and not-for-profit environments. Each concentration of four courses is intended to hone the personal and professional skills of individuals who wish to pursue leadership roles in the respective area.

Learning Outcomes:
Upon successful completion of the program, students will be able to:

• Identify, describe and analyze traditional and contemporary leadership theories and concepts and their relevance in a variety of organizations.
• Assess, reflect, and enhance one’s personal and professional skills and traits as a leader with the potential to effective change and positive outcomes in an organization.
• Recognize the value of a diverse work force and demonstrate knowledge of how to enhance diversity in organizations.
• Explain the significance of ethics in leadership and demonstrate an ability to apply ethical decision-making techniques in a variety of settings.
• Define human capital needs in an organization and show competence in how to select, develop, and motivate employees and groups to their maximum potential.
• Identify, describe and analyze the internal and external issues facing leaders in higher education and other fields and recommend new and proven entrepreneurial leadership best practices for organizational success.
• Recognize opportunities and challenges within an organization and execute one’s effective leadership skills and traits via an action research project to move the organization in a positive, forward direction utilizing the concepts of change management, innovation, and entrepreneurial strategy.

Admissions Requirements:
Please see the Graduate Admissions section of this catalog.
Program Requirements:

Required Core Courses
- LDR 6020 Leadership Theory and Practice
- MGT 5001 Organizational Behavior (MBA course)
- LDR 6115 Personal and Professional Development of Leaders
- LDR 6125 Ethical Leadership
- LDR 6150 Leading in Multicultural and Global Organizations
- LDR 6200 Research Methods and Program Evaluation

Higher Education Leadership Concentration
- LDR 6310 Foundations in Higher Education Administration
- LDR 6330 College Student Development
- LDR 6350 Leadership in Institutions of Higher Education
- LDR 6370 Entrepreneurial Leadership in Higher Education

Executive Leadership Concentration
- LDR 6410 Creating and Leading Highly Effective Teams
- LDR 6420 Managing Financial and Human Resources
- LDR 6440 Leading Change and Innovation
- LDR 6460 Strategic and Entrepreneurial Leadership

Capstone Course
- LDR 6959 Leadership in Action

GRADUATE EDUCATION
Esta D. Sobey, MA, MPhil, Associate Dean

The education department at American International College offers many programs to further the professional development of educational practitioners today (teachers, school leaders, and school guidance/adjustment counselors). All current AIC educator preparation programs are approved for licensure by the Massachusetts Department of Elementary and Secondary Education. For further information, contact the director of each program.

The programs in education are aligned with the National Association of State Directors of Teacher Education and Certification (NASDTEC). As such, these programs come under the Interstate Certification Contract that provides licensure reciprocity with all participating states.

Programs
INITIAL teaching licensure programs in early childhood, elementary education, moderate disabilities, ten subject areas on the middle/secondary level*, and reading specialist; Initial licensure programs in school guidance counseling, school adjustment counseling; and three school administration programs:

a. For undergraduates, the Five-Year BA-BS/MEd program provides undergraduates with an opportunity to complete the AIC teacher preparation program with both licensure and a
master’s degree in five years. (The successful completion of the appropriate Massachusetts Tests for Educator Licensure is required for all candidates prior to placement in the student teaching practicum.)

b. Post-baccalaureate candidates who already possess a bachelor’s degree apply to the two-year XCP program for Initial licensure and a MEd or MAEP or CAGS in the above named fields. PROFESSIONAL licensure programs for teachers with Initial licensure in certain fields. Early Childhood Education (MEd or CAGS) Elementary Education (MEd or CAGS) Moderate Disabilities PreK-8 (MEd or CAGS) Teachers in other licensure fields may take this program for Professional licensure (without endorsement).

The “SILO” program (Second Initial License Opportunity) for Initial licensed teachers or administrators who wish to add a second Initial license.

Local school districts require candidates undertaking pre-practicum or practicum experiences through the program to undergo a criminal history offender information (CORI) check.

Admissions Requirements:  
The candidate must be a graduate of an accredited four-year college to be considered for the master’s level program. Candidates for the Certificate of Advanced Graduate Study must possess an M.Ed. or a master’s degree in a field related to their licensure from an accredited institution.

For teacher and school guidance/adjustment counselor candidates: A cumulative grade point average of 2.67 in undergraduate course work. For school leadership candidates: A cumulative grade point average of 3.0 in undergraduate course work.

Passage of the Communication and Literacy portion of the Massachusetts Tests for Educator Licensure (MTEL) for admission to the licensure track.

Two letters of recommendation
Statement of Career Goals and Objectives
Other requirements indicated in each program, such as completion of coursework in Psychology.

Please note: Up to nine (9) graduate credits at American International College may be taken prior to formal program acceptance.

A cumulative GPA of 3.0 and the successful completion of the appropriate MTELs are required for all candidates prior to placement in the student teaching practicum or field-based research project. Up to nine credit hours of relevant graduate course work (15 credits in the professional program for
teachers in fields other than Early Childhood, Elementary, and Moderate Disabilities) may be transferred to the AIC graduate program from other accredited institutions of higher education in certain circumstances.

**Four + One (4+1) BA-BS/MEd Program**

This program is for undergraduates who wish to pursue a master’s degree with or without teacher licensure.

Undergraduates complete a dual major consisting of an arts and sciences subject (appropriate to their licensure field) with Education Transfer students may enter at the junior level. Candidates receive their BA/BS after four years (upon completing an appropriate major with Education coursework, and 120 credits). Upon admission to the fifth-year (students must have a GPA of 2.67 to be accepted), an online summer session for nine graduate credits follows, and then students complete a fifth (graduate-level) year for the MEd degree. The practicum or field-based research project (for non-licensure candidates) takes place during the final term in the spring of their fifth year. A cumulative GPA of 3.0 is a prerequisite for the final six credits. For licensure, candidates must pass all appropriate MTELs prior to the practicum experience.

**Program Requirements:**

**Freshman Year:**
Student focuses on Gen Ed requirements and selects appropriate major

**Sophomore Year:**
- EDU2103
- EDU2102*
- PSY1401, 1501
- Continue focus on Arts & Sciences

**Junior Year:**
- EDU3200*/EDU3201*
- EDU3321
- PSY2450
- EDU2103+ EDU2102* for transfer students
- Continue taking courses in major

**Senior Year:** Students take courses appropriate to their licensure field (not each listed).
- EDU4300* and/or EDU4320*
- EDU4301* or EDU4311*
- EDU4302
- EDU4341
- PSY2408
- PSY2620
BA/BS degree awarded (120 credits)

Summer after Senior Year:
- EDU6460 (OL)
- EDU6610 (OL)
- EDU6850 (OL)
(9 graduate credits)

The Fifth Year

Fall Term:
- EDU6674* or EDU6547
- EDU5400* or EDU6600*
- EDU6654
- EDU6625
(12 credits)

Spring Term:
- EDU6620
- EDU6719, EDU6729, EDU6739, EDU6749, EDU6759, EDU6769* or EDU6819,
  EDU6829, EDU6839, EDU6849, EDU6859, EDU6869* (if all MTELs required for the
  license are passed) OR
- EDU6629*/EDU6669*/EDU6639* (if non-licensure)
(9 credits)

*Field experience required

M.Ed. awarded (after 30 credits)

Students are eligible for Initial teacher licensure upon completion of the above licensure program, which includes passage of the appropriate MTELs, field experiences, the practicum, and the program portfolio.

**Early Childhood—Initial license**

The program in early childhood education is intended for individuals who have a bachelor’s degree and wish to obtain an Initial license to teach young children, with or without disabilities, from Pre-K through grade 2. An individual transcript review by the dean will be conducted to evaluate fulfillment of subject matter knowledge requirements for the license. Students study the foundations and principles of early childhood education to better formulate a developmental framework which provides a safe and nurturing environment promoting the physical, social, emotional, and cognitive development of young children. A prior course in Developmental or Child Psychology is required before enrolling in EDU6595. The licensure program meets requirements for Initial teacher licensure in the Commonwealth of Massachusetts for this field. Students completing the non-licensure option are not required to complete the MTELs.
Program Requirements:

EDU5400* The Reflective Practitioner
EDU5410 Introduction to Special Education
EDU5520* Teaching Reading and Language Arts: EC, Elementary, Moderate Disabilities (PreK-8)
EDU5530* Teaching of Mathematics: Early Childhood, Elementary, Moderate Disabilities
EDU5540 Multisensory Teaching of Language Skills
EDU6595 Assessment and Curriculum for Early Childhood
EDU6600 Assessment, Methods and Materials for Teaching Special Education
EDU6610 Behavior Management
EDU6625 Sheltered English Immersion
EDU6729 Student Teaching Practicum
or EDU6829 Practicum in Education
or EDU6629 Field Based Research (non-licensure)

Candidate is endorsed for Initial teacher licensure and is employable upon successful completion of the course sequence, all MTEL requirements, the practicum (which requires logging hours on two levels, PreK-K and in grade 1 or 2) and the program portfolio. On one practicum level, there must be students with disabilities.

Master of Education degree or CAGS awarded
Total Credits: 33 *Field experience required.

Elementary Education—Initial License
This program is designed for those with a bachelor's degree who wish to obtain an Initial license to teach at the elementary level (grades 1-6). An individual transcript review by the dean will be conducted to evaluate fulfillment of subject matter knowledge requirements for the license. Coursework is designed to develop curriculum knowledge and provide practical experiences for planning and implementing instruction in the regular education setting to meet the needs of diverse learners including children with disabilities, English language learners, and children from low income families. The licensure program meets the requirements for Initial teacher licensure in the Commonwealth of Massachusetts for this field. Students completing the non-licensure option are not required to complete the MTELs.

Program Requirements:

EDU5400* The Reflective Practitioner
EDU5410 Introduction to Special Education
Candidate is endorsed for Initial teacher licensure and is employable upon successful completion of the course sequence above, all MTEL requirements, the practicum, and the program portfolio.

Master of Education Degree or CAGS awarded

Total Credits: 33

*Field experience required

**Middle/Secondary Education—Initial license**

This program is designed for those with a bachelor’s degree with an arts and science or business major who wish to obtain an Initial teaching license on the middle or secondary level in the following fields: biology; business; chemistry; English; foreign language: French; foreign language: Spanish; general science; history; mathematics; or political science/political philosophy. The licensure program meets the requirements for Initial licensure in the Commonwealth of Massachusetts for teaching in grades 5-8, 5-12 or 8-12, depending on the field of licensure. Students completing the non-licensure option are not required to complete the MTELs.

Additional prerequisites include an earned baccalaureate degree from an accredited institution with a background in the subject planned to teach. An individual transcript review by the dean will be conducted for candidates who do not have a major corresponding to the subject area they wish to teach.

**Program Requirements:**

- EDU5400*  The Reflective Practitioner
- EDU5410  Introduction to Special Education
- EDU6664*  Reading and Communication in the Secondary and Middle Schools
- PSY5350  Adolescent Psychology
- EDU6610  Behavior Management
- EDU6674*  Secondary and Middle School Methods
Candidate is endorsed for Initial teacher licensure and is employable with the successful completion of the course sequence above, MTEL requirements, the practicum and the program portfolio.

Master of Education degree or CAGS awarded
Total Credits: 33
*Field Experience Required

**Moderate Disabilities—Initial License**
This program is designed for those with a bachelor's degree who wish to obtain an Initial license as a teacher of students with moderate disabilities, either in grades PreK-8 or grades 5-12. An individual transcript review by the dean will be conducted to evaluate subject matter knowledge requirements specific to the desired level of licensure. A prior course in General Psychology is a prerequisite to the practicum experience. The licensure program meets the requirements for Initial licensure in the Commonwealth of Massachusetts for these fields. Students completing the non-licensure option are not required to complete the MTELs.

**Program Requirements:**

- EDU5400* The Reflective Practitioner
- EDU5410 Introduction to Special Education
- EDU5520* Teaching Reading and Language Arts
- EDU5530* Teaching Mathematics
- EDU5540 Multisensory Teaching of Language Skills
- EDU6654 Classroom Assessment
- or EDU6664 Reading and Communication in the Secondary and Middle School (5-12 candidates only)
- EDU6600 Assessment, Methods and Materials for Teaching Special Education
- EDU6610 Behavior Management
- EDU6625 Sheltered English Immersion
- EDU6739 (C) Student Teaching Practicum
- or EDU6839 (C) Practicum in Education

or EDU6678* Teaching Math: Secondary/Middle (for Math 8-12 or 5-8 candidates only)
EDU6654 Classroom Assessment
EDU6625 Sheltered English Immersion
EDU 6759 (F), EDU 6769 (G) Student Teaching Practicum
or EDU6859 (E), EDU6869 (F) Practicum in Education
or EDU6669 Field Based Research (non-licensure)
EDU6620 Education Seminar
or EDU6639 Field Based Research (non-licensure)

Candidate is endorsed for Initial teacher licensure and is employable upon successful completion of the course sequence above, MTEL requirements, the practicum (which requires hours logged in an inclusion setting) and the program portfolio.

Master of Education degree or CAGS awarded
Total Credits: 33-36
*Field Experience Required

**Reading Specialist—Initial license**

**Prerequisites**

Students in the reading program are required to have a prior Initial or Professional teaching license and have taught for at least one year under that license.

The core of the reading program trains students to use scientifically based research strategies while in the roles of reading teacher and diagnostician, writing instructor, and literacy leader/coach. Students apply theory in their courses as they complete projects designed to help them to synthesize literacy skills related to teaching, assessing, collecting, and analyzing data while designing programs to meet individual and group needs. Universal Design is used as a tool for teaching literacy program development. Key assessments and instructional approaches to meet the needs of ELL students and other diverse learners are threaded throughout each course. Twenty-First century skills are woven into the program through Internet inquiry-based projects and use of key diverse media and technological tools. Candidates are required to shadow a reading specialist for 30 hours prior to the practicum.

The program is composed of three major elements: the theoretical perspective that explores the process of reading as it relates to the other language components of listening, speaking, and writing in regular education; the diagnostic component that gains insight into a child’s reading process through in-depth training in literacy assessments and analysis; and an application component, in which research and assessment data are related to practice. Reading-strategy instruction will be applied and refined in direct contact with children. A variety of print, technology, and other media will be incorporated into the format of each course. All candidates (even veteran teachers) must successfully pass the Communication and Literacy portions of the MTEL and the Reading Specialist MTEL prior to completing a 150-hour practicum in a school under the supervision of a college supervisor and supervising practitioner.

Successful completion of the licensure program will entitle candidates to be endorsed for Initial licensure as a reading specialist for all levels in Massachusetts. The program will also serve to elevate Initial licenses in Early Childhood, Elementary, and Moderate Disabilities (PreK-8, 5-12) to the Professional level (after the candidate has taught for three years under their first Initial license). There is a non-licensure opportunity for those not seeking the license. Students completing the non-licensure option are not required to complete the MTELs.

Total Credits: 33

### The “SILO” Program (Second Initial License Opportunity)

This program is for teachers or administrators who have an Initial license and wish to add a second Initial license. Candidates work with their student advisor to determine course work, MTELs, and practicum requirements, which vary depending upon the field of licensure. No endorsement is needed for a second Initial teaching or administrator license (except for the Reading license, which requires a separate 33-credit program).

### School Leadership—Initial Licenses

The program is designed to prepare educators for a role in school leadership. Three tracks are currently offered: school principal ASSISTANT PRINCIPAL, administrator of special education and superintendent/assistant superintendent. AIC has received ESE re-approval for these leadership preparation licensure programs.

Master’s Degree or CAGS Leading to Professional Teacher Licensure
This 30-credit graduate program is designed for educators with an Initial teaching license in early childhood, elementary education, or moderate disabilities (PreK-8) who are seeking Professional licensure in the same field and at the same level. Teachers on the middle/secondary level and moderate disabilities (5-12), according to current MA Department of Elementary and Secondary Education regulations, will qualify for Professional licensure by earning a master's degree with 12 graduate credits in their field of knowledge (e.g. biology) and three years of successful teaching under their Initial license. Such teachers may transfer into the AIC professional program graduate credits in their field in lieu of credits in advanced reading and/or in STEM Education and will apply individually to the state for their license upon completion. Please see below for more specifics.
Teachers who already hold a Professional license are welcome to apply to this program for the degree only.

Prerequisites
Possession of an Initial teaching license in the same field/level as the professional program sought.

Early Childhood, Elementary, Teacher of Students with Moderate Disabilities (PreK-8)—Professional License
Program Requirements:

EDU5703  Advanced Developmental Reading
EDU6460  Applications of Technology in the Classroom
EDU5725  Specialized Practices in Reading
EDU5913  STEM Education in the 21st Century
EDU5815  Advanced Analysis of Reading and Language Arts
EDU6345  Teaching Language Arts and the Writing Process
EDU6486  Diagnostic Teaching
EDU6850  Issues of Urban Education
EDU6609  Professional Seminar I
EDU6619  Professional Seminar II
Candidate is endorsed for Professional licensure (in Early Childhood, Elementary or Moderate Disabilities, PreK-8) upon successful completion of the course sequence above.

Master of Education degree or CAGS awarded
Total Credits: 30

**Teacher of Students with Moderate Disabilities (5-12)—Professional License**
Candidates in this licensure field may take the above program and apply individually to the MA Department of Elementary and Secondary Education for licensure upon completion (without endorsement).

Master of Education degree or CAGS awarded
Total Credits: 30

**Teachers with Middle or Secondary Licenses (5-8, 8-12, 5-12)—Professional License**
Candidates with Initial license on this level will work individually with a student advisor to finalize their program and apply individually to the MA Department of Elementary and Secondary Education for licensure upon completion (without endorsement).

**Program Requirements:**

- EDU6460 Application of Technology in the Classroom
- EDU6486 Diagnostic Teaching
- EDU6850 Issues of Urban Education
- EDU6609 Professional Seminar I
- EDU6619 Professional Seminar II

**Additional courses:**
Depending upon field of licensure, the remaining 15 credits of the program will consist of:
- taking the remaining courses in the professional program listed above (if applicable to the field of licensure), or
- transferring in 15 graduate credits (from an accredited institution) in the field, or
- combination of a and b, above.*

*In some areas, candidates could take the STEM course or the advanced reading courses and transfer in fewer credits. A total of 30 graduate credits must be completed for the degree.

Master of Education degree or CAGS awarded
Total Credits: 30

**Twelve Credit Hour Program for Professional Licensure**
This program is for candidates who already possess a master’s degree, an Initial license in teaching, and are seeking Professional Licensure in early childhood, elementary education, or teacher of students with moderate disabilities (PreK-8 or 5-12):
EDU5703  Advanced Developmental Reading
EDU5815  Advanced Analysis of Reading and Language Arts
EDU5725  Specialized Practices in Reading
EDU5913  STEM Education in the 21st century

For middle and secondary licenses, 12 graduate credits of course work in the academic discipline or pedagogy of the license (i.e., history, English, math), is required to meet state regulations for Professional licensure. American International College does not offer graduate-level arts and sciences course work.

**School Guidance Counseling**

The program in School Guidance Counseling is designed to prepare candidates for MA state licensure as a School Guidance Counselor. Two levels of licensure are available: PreK-8 or grades 5-12. After completing course requirements, the individual chooses the practicum experience on the level for which they intend to pursue licensure. Emphasis is on the development of effective counseling, assessment skills, consultation, transition planning, and collaboration skills.

Candidates are prepared to sensitively serve the needs of a culturally diverse group of children in the public school setting. In addition, the individual will be trained to keep abreast of current research in order to apply appropriate, up-to-date, and empirically valid research findings to effective educational, counseling, and treatment practices.

**Initial License**

Candidates are required to submit documentation of successful completion of the Communication and Literacy Skills Test, from the Massachusetts Tests for Educator Licensure (MTEL), before being accepted into graduate programs. This is a requirement for Initial license by the MA Department of Elementary and Secondary Education.

PSY6850 Diagnostic Psychoeducational Assessment
PSY6689 Advanced Practicum with Seminar ***
PSY6845 Advanced Counseling Theory and Practice
PSY6855 Group Testing
PSY5305 Occupational Information
PSY6819 Clinical Experience in Guidance

Total – 30 credits
CAGS awarded

*** Candidates are eligible for endorsement for Initial licensure in School Guidance Counseling to the MA Department of Elementary and Secondary Education upon completion of all course work through PSY6689, Advanced Practicum with Seminar. The candidate is then eligible for employment as a school guidance counselor. Candidates must apply directly to the MA Department of Elementary and Secondary Education for their license. The Initial license expires at the end of five (5) years.

The Professional license requires a total of sixty graduate credits which is achieved by completing the course sequence listed above and three years working in the field as a school guidance counselor, as noted in MA Department of Elementary and Secondary Education regulations.

School Adjustment Counseling
The program in school adjustment counseling is designed to prepare candidates for a role as a practitioner in the school setting as a School Adjustment Counselor, with those skills necessary for working with community agencies and the juvenile court system. Emphasis is on effective counseling and consultation skills necessary for individuals to sensitively serve the needs of culturally diverse groups of children and families. While emphasis is on interpersonal and counseling skills, knowledge of the use of technology to facilitate effective practice and the use of data collection and analysis to refine interventions is necessary. The school adjustment counselor will be prepared to help students make a transition from alternative schools or juvenile facilities back to the regular public school.

Finally, the individual will be trained to keep abreast of current research in order to apply appropriate and up-to-date, and empirically valid research findings to effective educational practice.
Initial License
Candidates are required to submit documentation of successful completion of the Communication and Literacy Skills Test of the Massachusetts Tests for Educator Licensure (MTEL) before being accepted into the graduate programs leading to licensure. This is a requirement for an Initial license by the MA Department of Elementary and Secondary Education.

A Master of Arts in Educational Psychology (MAEP) degree is awarded after 30 credits. With completion of the course work, the program portfolio, and the Advanced Practicum, the candidate is eligible for an Initial license. With the Initial license, the individual is employable as a School Adjustment Counselor and has five years to finish the CAGS which is necessary for the Professional license. In addition to the CAGS, the candidate must work for three years as a School Adjustment Counselor in order to be eligible for the Professional license under the MA Department of Elementary and Secondary Education.

LOW RESIDENCY GRADUATE PROGRAMS
Nicholas Young, PhD, EdD, Dean of Low Residency Programs

Educational Leadership and Supervision (EdD)
This program is designed to prepare scholar practitioners to become effective advocates who can successfully operate within the social, cultural, organizational, political, and educational contexts of their institutions and communities. Students will advance their scholarly knowledge and refine their skills as scholar-practitioners utilizing a non-traditional delivery model. The program is not designed to aid students in earning an educator license.

Admissions Requirements:
Please see the section on graduate admissions in this catalog.

Program Requirements:
Common Core Requirements (48 credits)
- EDU7751 Ethics in Educational Practice
- EDU7752 Inclusive Leadership
- EDU7753 Adult Development and Transformation
- EDU7750 Individual and Institutional Change
- EDU7760 Reflective Practice, Mentoring, and Professional Self-Renewal
- EDU7762 Social and Cultural Influences
- EDU9980 Educational Research Methods
- EDU9981 Action Research for Educators
- EDU9982 Individualized Research Design
- EDU9509 Dissertation Research I
- EDU9519 Dissertation Research II
- EDU8806 Applied Field Work/Internship
- EDU9499 Professional Portfolio
- EDU9529 Dissertation I
- EDU9539 Dissertation II
- EDU9549 Dissertation III

Concentration Requirements (15 credits)
- EDU8870 Advanced School Finance
- EDU8871 Advanced Educational Leadership
- EDU8872 Advanced Instructional Supervision
- EDU8873 School Law
- EDU8862 Human Resources in Educational Settings

Electives (9 credits)
Teaching and Learning (EdD)
This program is designed to prepare scholar-practitioners to function effectively within a chosen educational area such as special education, elementary/middle/secondary school education, adult learning, global or alternative education. Students will advance their scholarly knowledge and refine their skills as scholar-practitioners utilizing a non-traditional delivery model. The program is not designed to aid students in earning an educator license.

Admissions Requirements: (see Educational Leadership and Supervision)

Program Requirements:
Common Core Requirements (48 credits) (See Educational Leadership and Supervision)
Concentration Requirements (15 credits)
   EDU8850  Teaching in a Diverse Society
   EDU8851  Interaction of Classroom Management and Instruction
   EDU8852  Educational Implications of Learning and Developmental Theories
   EDU8853  Thinking about Teaching
   EDU860   Advanced Curriculum Practices and Models
Electives (9 credits)

Individual and Institutional Development (EdD)
The Doctor of Education Program is designed to emphasize the importance of the scholar-practitioner philosophy and a set of values that undergird the entire program. All doctoral candidates are viewed as scholars and future leaders within their profession. This doctoral program is designed for working adults in light of changes confronting professional requirements that seek educators at all levels with increased academic qualifications. This concentration in Individual and Institutional Development is designed to prepare scholar practitioners with an understanding of the developmental and change processes and to become effective agents of change in institutions and communities.

Admissions Requirements: (see Educational Leadership and Supervision)

Program Requirements:
Common Core Requirements (42 credits)
   PSY8730  Advanced Topics in Adult Development
   PSY7220  Advanced Social and Cultural Foundations
   PSY7230  Promoting Individual and Institutional Resiliency
   PSY7240  Collaboration, Colleagueship and Reflective Practice
   PSY8208  Applied Fieldwork/Internship
   PSY7440  Research and Program Evaluation
   PSY7510  Survey of Research Methods in the Social Domain
Concentration Requirements (15 credits)

- PSY7520 Adult Learning, Motivation and Transformation
- PSY7330 Individuals and Groups in Organizations
- PSY7435 Leadership, Creativity and Change
- PSY7325 Organizational Theory and Development
- PSY7425 Interpersonal and Institutional Communication

Electives (15 credits)

- PSY7320 Advanced Professional Orientation and Ethics
- PSY8031 Advanced Theory and Practice of Career and Lifestyle Development
- PSY8009 Organizational and Human Flourishing
- PSY8209 Appreciative Inquiry
- PSY8012 Human Resource Management in Organizations
- PSY8016 Advanced Appraisal (Tests and Measurement)
- PSY7465 Advanced Counseling Theory and Practice
- PSY8020 Advanced Group Work – Theory and Methodology
- PSY8024 Leadership and Politics in Organizations
- EDU8864 Directed Study

**Professional Counseling and Supervision (EdD)**

The Doctor of Education Program is designed to emphasize the importance of the scholar-practitioner philosophy and a set of values that undergird the entire program. All doctoral candidates are viewed as scholars and future leaders within their profession. This doctoral program is designed for working adults in light of changes confronting professional requirements that seek educators at all levels with increased academic qualifications. This concentration in Professional Counseling and Supervision is designed to prepare practitioners for either national certification as a professional counselor and state licensure as a clinical mental health counselor and/or national certification as an Approved Counselor Supervisor.

*Admissions Requirements:* (see Educational Leadership and Supervision)

*Program Requirements:*
Common Core Requirements (42 credits) (see Individual and Institutional Development)
Concentration Requirements (15 credits)

- PSY7465 Advanced Counseling Theory and Practice (Helping Relationships)
- PSY7410 Advanced Group Work: Theory and Methodology
- PSY7430 Advanced Theory and Practice of Career and Lifestyle Development
- PSY7420 Advanced Appraisal (Tests and Measurements for Individuals and Groups)
- PSY8001 Advanced Professional Orientation and Ethics

Electives (15 credits)

- PSY7210 Advanced Human Growth and Development
- EDU8864 Directed Study
- PSY8635 Abnormal Psychology
- PSY8645 Biological Bases of Behavior
- PSY8650 Family Therapy
- PSY8655 Human Sexuality for Counselors
- PSY8418 Internship 1,2 &3
- PSY8660 Personality Theory and Development
- PSY8665 Positive Psychology
- PSY8670 Psychology of Learning
- PSY8675 Psychopharmacology
- PSY8680 Spirituality in Counseling
- PSY8685 Substance Abuse & Addictive Disorders
- PSY8690 Ethics in Supervision
- PSY8695 Group Supervision
- PSY8705 Challenges in Supervision
- PSY8700 Honoring Clinician’s Values in Supervision
- PSY8710 Positive Approaches to Supervision
- PSY8715 Supervision in Family Therapy
- PSY8720 Supervisor Authenticity
- PSY8725 Supporting Beginning Therapists in Supervision
- PSY8006 Theory Orientation: Supervision within Specific Theoretical Orientations

**Psychology (EdD)**

The Doctor of Education Program is designed to emphasize the importance of the scholar-practitioner philosophy and a set of values that undergird the entire program. All doctoral candidates are viewed as scholars and future leaders within their profession. This doctoral program is designed for working adults in light of changes confronting professional requirements that seek educators at all levels with increased academic qualifications. This concentration in Psychology is designed to provide an opportunity for seasoned professionals in the field of psychology to pursue their doctorate degree while continuing to work.

Counseling Psychology (MA)
The MA degree in Counseling Psychology is designed for learners with aspirations to become licensed as professional counselors at state and national levels. The core objective of the MA in Counseling Psychology is to address the knowledge base and skills necessary to qualify for licensure as a Clinical Mental Health Counselor, and related clinical practice. The academic focus of this program includes extensive in-depth studies in counseling theory and practice, applied psychology concepts and principles, theories of human development and personality development across the lifespan, family and group therapy principles, applied social and cultural foundations, biological basis of behavior, and professional orientation and ethics. The program also includes formal internship components consistent with national and most state requirements for clinical mental health counseling licensure.

Admissions Requirements:
Please see graduate admissions section in this catalog.
Program Requirements:

Common Core Requirements

PSY6899   Professional Portfolio (Capstone)
PSY5640   Research Methods & Program Evaluation
PSY5510   Counseling Theory & Practice**
PSY5520   Psychology of Human Growth & Development
PSY5530   Social & Cultural Bases of Behavior
PSY5540   Helping Relationships
PSY5550   Group Work and Therapy
PSY5560   Career and Lifestyle Development**
PSY5610   Appraisal and Diagnostic Techniques
PSY5620   Abnormal Psychology
PSY5630   Human Sexuality for Counselors
PSY5710   Professional Orientation and Ethics
PSY5720   Practicum in Counseling Psychology I (one credit)
PSY5738   Internship in Counseling Psychology I
PSY5838   Internship in Counseling Psychology II **
(in some states, students may need to take a third internship)
PSY5938   Internship in Counseling Psychology III
PSY6110   Biological Bases of Behavior
PSY 6210  Personality Theory & Development
PSY6220   Family Therapy
PSY6310   Psychopharmacology
PSY6410   Substance Abuse and Addictive Disorders
PSY6510   Crisis Intervention

(Depending upon internship requirements, some students may take all 6 of these courses, (6110, 6210, 6220, 6310, 6410, 6510), while others will take five of the six.)

Master of Fine Arts in Creative Writing (MFA)

This program consists of a series of Common Core courses, Concentration courses, professional seminars, and structured, mentored study carried out by the student under the watchful eye of an assigned team of advisors. The overall program will encompass two full years of study. In the first year, students will take a series of required courses and during the second year, they will continue their studies, take a 4-credit Applied Field Experience, and work on their individual Creative Thesis and Final Professional Presentation. Five times a year, students will travel to campus to attend residencies.

Between residencies students will be required to remain in communication with their advisors and peer group through a variety of means, to include those that are technologically mediated.
The Creative Nonfiction Concentration allows students to delve into such forms as the essay, memoir, or other more experimental forms of nonfiction writing. Within the chosen subgenre, each student is free to explore experience within such contexts as nature, the family, travel, sense of place, cultural landscapes, the world of work, or other contexts of personal and professional interest. In addition to continuous writing and revising of their own work, students will read assigned works of nonfiction and essays on nonfiction writing.

Students selecting the Fiction Concentration will focus on writing for adults, writing for children, or writing for young adults. In each sub-specialization, they will create original works appropriate to their chosen sub-specialization, as well as read assigned works and essays related to writing in their chosen field.

Admissions Requirements:
Please see the graduate admissions section of this catalog.

Program Requirements:
Common Core Courses
- ENG5570 Creative Writing in the Social Realm
- ENG5580 Writing Shared with Others
- ENG5590 Entrepreneurship and Creative Writing
- ENG6809 Applied Field Experience
- ENG6819 Final Professional Presentation
- ENG6829 Creative Thesis and Portfolio I
- ENG6839 Creative Thesis and Portfolio II

Creative Nonfiction Concentration
- ENG6600 Creative Nonfiction Writing
- ENG6610 Form and Theory of Creative Nonfiction Writing
- ENG6620 The Craft of Creative Nonfiction
- ENG6630 Advanced Creative Nonfiction Writing: Exploring Genres

Graduate study in psychology is based on a commitment to intellectual freedom, personal integrity, and respect for the freedom and integrity of others. The graduate program strives to maintain a high standard of excellence and seeks to instill in its students a desire for continuing self-education for both personal and professional development. Each of the school’s graduate psychology programs has been developed in accordance with the highest national standards in its respective field. They are designed to develop educational depth, as well as skills and the creative independence that prepares graduates to both practice and contribute to their professions. This is accomplished by requiring students to demonstrate an understanding of specified subject matter areas, apply the theory and methodology of their fields, use appropriate bibliographic techniques, and to be aware of the role of research and methodology by which research is conducted. Each is aimed at fostering a concern for helping people. All of the graduate psychology programs are people oriented: all designed to provide training for the student who is truly concerned with human problems and the quality of human life.

American International College takes seriously its trust of providing only the highest level of training to those students whose goal is to become service providers. The college views the service-provider role within a broad context, from direct person-to-person intervention, to the production of basic research in areas of human growth and development. The objective is the same for all programs: to produce competent professionals whose skills and knowledge will produce a difference in someone’s life.

Programs
The psychology department offers master’s programs and a doctoral degree. Specializations include:
- Clinical Psychology (MA)
- Forensic Psychology (MS)
- General Psychology (MA)
- Doctoral Program in Educational Psychology (EdD)

Clinical Psychology (MA)
This program is based on an integrated curriculum intended to produce clinicians trained in theory, research, and clinical skills. Students accepted into the Master of Arts program can elect to specialize in mental health or forensic psychology.

The Mental Health Concentration is designed to meet the educational requirements for a licensed mental health counselor (LMHC) in the Commonwealth of Massachusetts, and similar professional designations in other states. The 60 semester hour mental health concentration includes coursework in research, assessment, counseling, psychopathology, human development, and ethics. A pre-internship clinical practicum is required, and is followed by a 600 hour clinical internship.
The Forensic Psychology Concentration is also designed to meet the educational requirements for an LMHC. This concentration is a 66 semester hour program that incorporates courses from the mental health concentration. The forensic psychology concentration also includes six semester hours of forensic psychology coursework, along with a pre-internship practicum and a 600 hour forensic internship.

Students are responsible for ensuring that they meet all state licensing requirements as promulgated by the Massachusetts Board of Registration of Allied Mental Health Professionals or by the appropriate board in the state in which they wish to practice.

Learning Outcomes:

- To develop in every candidate competencies in their knowledge of psychological assessment, diagnosis, case conceptualization and treatment planning.
- To develop in every candidate knowledge of individual/cultural differences as well as ethical and legal standards so they gain the skills and develop the ethical commitment to provide quality services to culturally diverse clients and organizations.
- To develop in every candidate competencies in their knowledge of psychotherapeutic intervention and effective clinical skills.
- To develop in every candidate competencies in their knowledge of scientific methodology and its application to relevant practice as well as the skills necessary for effective application of that knowledge.
- To develop in every candidate personal and interpersonal competency and skills which are essential for mental health counselors to conduct themselves in a professional manner.

An abbreviated 48 semester hour program is available for those who do not wish to pursue licensure. With this option, students are exempt from taking PSY5305, PSY5315, PSY6505, PSY6615 #Forensic Concentration only.

Forensic Psychology (MS)
This program is designed for students with a baccalaureate degree in psychology, criminal justice or a closely related field. The forensic psychology program is primarily concerned with the application of psychological principles and skills to the understanding and functioning of the legal and criminal justice system.

The primary focus of the master's degree program in forensic psychology at American International College is to prepare students for future graduate study. Upon completion of the degree, however, many students choose to obtain positions in a wide variety of public and private agencies and institutions, including prisons, juvenile facilities, social service and mental health agencies. Careers as forensic researchers and positions with Federal and State agencies are also possible.

**Learning Outcomes:**
- To develop in every candidate a solid base of theoretical knowledge of psychological principles and skills they need in order to be able to effectively apply them to the problems that people have in their lives and then in their interactions within the legal, correctional and law enforcement systems.
- To develop in every candidate a current and comprehensive understanding of the functioning of the mental health, legal, correctional and law enforcement systems.
- For every candidate to develop the ethical commitment and professional interpersonal skills needed to provide quality services to culturally diverse clients and organizations.
- To develop every candidate’s forensic practice competencies appropriate for entering the forensic psychology field.

General Psychology (MA)
The Master's in General Psychology program at American International College prepares students for doctoral or other graduate level study in psychology and related fields. The 30 credit program provides instruction in core competency areas but also allows students to structure a program that meets their interests.

Our program offers courses in abnormal psychology, human development, counseling theory and techniques, social psychology, and statistics and research methodology. Beyond these core courses students can choose to focus in other areas of interest such as forensic psychology, learning disabilities, or mental health counseling.

The primary purpose of the M.A. in General Psychology is to prepare students for future graduate study. Upon completion of the degree, however, students may choose to obtain employment in a variety of social service, mental health, and psychiatric institutions and settings.

Learning Outcomes:
• To develop in every candidate a solid theoretical foundation of core competency areas in general psychology.
• To develop the necessary knowledge and skills to critically evaluate, analyze, and interpret psychological literature and research.
• To obtain the necessary knowledge and skills to seek further graduate level education in a doctoral program in psychology or advanced program in a related field.
• To obtain the necessary knowledge and skills to enhance employment opportunities for master’s level individuals
• To develop in every candidate a solid theoretical foundation of core competency areas in general psychology.
• To develop the necessary knowledge and skills to critically evaluate, analyze, and interpret psychological literature and research.
• To obtain the necessary knowledge and skills to seek further graduate level education in a doctoral program in psychology or advanced program in a related field.
• To obtain the necessary knowledge and skills to enhance employment opportunities for master’s level individuals.

**Program Requirements:**
The General Psychology Program requires the completion of 6 required courses and 4 electives for a total of 30 credits. The required courses are as follows:

**Required Courses**
- PSY5036 Behavioral Statistics
- PSY5205 Applied Research Methods
- PSY5215 Counseling Theory and Practice
- PSY5345 Advanced Abnormal Psychology
- PSY5415 Psychology of Development
- PSY6615 Social Bases of Behavior

**Elective Courses**
Students can choose 4 graduate level psychology courses that meet their interests. This should be done in collaboration with the student’s advisor.

**Plan of Study (full-time students)**

*Students can also attend part-time and create an individualized program with their advisor.
**Students can elect to enroll in Summer courses as an alternative to this Fall semester.

**Doctor of Education in Educational Psychology (EdD)**
The EdD program in Educational Psychology provides professional preparation in applied educational/school psychology with an emphasis on learning disabilities and child development. The program is based on a balanced sequential scientist/practitioner model and emphasizes the interrelatedness of theory, research, and practice. Students may be able to design a program of study that may lead to certification or licensure in various professional areas.
Those who are interested in pursuing certification or licensure will generally meet academic, experiential, and other requirements depending on the type of certification/licensure sought, however, each state or jurisdiction may have additional requirements. For specific information, your state or provincial certification/licensing board should be contacted.

Learning Outcomes:
- Development of psychological and psychoeducational competencies in assessment, diagnosis, case conceptualization, treatment and educational planning.
- Development of competencies in individual/cultural differences, and ethical and legal standards in order to provide ethical and culturally sensitive services to culturally diverse populations and organizations.
- Development of competencies in psychotherapeutic strategies, clinical skills, educational remediation, and consultation.
- Development of competencies in scientific methodology and the application of these competencies to psychoeducational and clinical practice and other scholarly activities.
- Development of personal and interpersonal competencies and skills essential for clinician, educators, researchers to conduct themselves in a competent and professional manner.

Learning Disability/Child Development Component

- PSY6225 Psychology of Behavior Management for Special Needs Children #
- PSY6330 Theories of Learning Disabilities *
- EDU8520 Seminar in Learning Disabilities *
- PSY5325 Psychology of Development *
- PSY6230 Psychology of the Exceptional Child #
- PSY9118 Directed Study in Learning Disabilities (optional and by permission)

Research Component

- PSY5036 Behavioral Statistics *
- PSY5205 Applied Research Methodology *
- PSY9220 Multivariate Research Methods
- PSY9989 Dissertation in Educational Psychology (12 Credits)

Total: 90 Credits Minimum. The number of credits can vary depending upon practicum/internship hours needed for certification/licensure and State where certification/licensure is sought (if pursuing certification/licensure).

* Indicates courses required for Qualifying Exam
# See section on Admissions Requirements
** Various certifications can be pursued and a CAGS is also available in Guidance and Adjustment Counseling for selected students.

Students wishing to obtain a license in School Adjustment Counseling (SAC) or Guidance Counseling through the Department of Elementary and Secondary Education (DESE) in Massachusetts will need the following additional courses (that do not count toward the doctorate):

SAC
- PSY5230 Principles and Practices of Guidance
- PSY5241 The Juvenile Justice System
- CRJ5660 Substance Abuse Issues in Criminal Justice
- PSY6845 Advanced Counseling Theory and Practice II

Guidance
PSY6855  Group Testing  
PSY5230  Principles and Practices of Guidance  
PSY 6845  Advanced Counseling Theory and Practice II

A six (6) credit, six hundred (600) hour practicum is required in the area in which the student would like a license. This can be done as the required doctoral program practicum.

Students who complete all requirements for the SAC or Guidance license will need to receive a certificate of advanced graduate study (CAGS) which is also considered a specialist-level degree. The CAGS must be at least thirty (30) credits beyond the master’s degree in the same or related area. (These students would need to apply through the Graduate Psychology Dept. to get the CAGS.) These students will be eligible for endorsement by the college and will be ready to apply for and receive their license in SAC or Guidance.
GRADUATE SCHOOL OF HEALTH SCIENCES PROGRAMS
Cesarina Thompson, PhD, Dean

Divisions/Programs
Nursing (MSN)
Occupational Therapy (MSOT)
Physical Therapy (DPT)

Nursing (MSN)
The Division of Nursing is committed to preparing competent and compassionate educators and leaders in nursing who will advance nursing practice and nursing education though the generation, transmission, and creative use of knowledge. The 36-credit, online program, offers students the opportunity to discuss, analyze, and evaluate a wide range of critical and emerging issues in nursing and healthcare and develop the necessary knowledge and skills to advance the profession of nursing.

Concentrations
Nursing Education
Nursing Administration

Admission Requirements:
Please see Admission Section on for details on admission requirements.

Learning Outcomes:
• Apply knowledge gained from theoretical and empirical knowledge in nursing and related disciplines to inform and/or initiate change in nursing education and nursing administration.
• Demonstrate the use of scholarly inquiry to inform educational and administrative practices
• Apply ethical decision-making in research, evaluation, nursing education, and nursing management
• Analyze the effect of health policy, finance, healthcare technologies, and organizational structure on the development and implementation of quality educational programs and healthcare delivery systems
• Demonstrate the use of leadership strategies that advance the design and implementation of quality education programs and improve clinical practice
• Analyze the effect of sociopolitical and cultural influences on nursing education and healthcare practices
• Integrate advances in healthcare technology into nursing education and healthcare
• Demonstrate a commitment to ongoing personal and advanced professional development through professional involvement, lifelong learning, and appreciation of doctoral study
• Apply leadership strategies to contribute to the ongoing development of the profession of nursing and nursing education

*Program Requirements:*

**Core Courses**

- NUR5040 The Art and Science of Nursing for Advanced Practice
- NUR5041 Seminar in Nursing Research
- NUR5042 Policy, Politics, and Organization of Healthcare
- NUR5043 Concepts of Healthcare Transformation
- NUR6040 Advanced Concepts of Pathophysiology
- NUR6041 Advanced Concepts of Pharmacology
- NUR6042 Advanced Concepts of Health Assessment

**Nursing Education**

- NUR6141 Evidenced-based Practice for Nursing Education
- NUR6149 Nursing Education Practicum

**Nursing Administration**

- NUR6142 Nursing Leadership and Management
- NUR6249 Nursing Administration Practicum

**Electives: 6 credits**

**Occupational Therapy (MSOT)**

According the American Occupational Therapy Association (http://www.aota.org) occupational therapists (OTs) help people to live life to the fullest. Guided by a belief in the power of being physically, mentally, spiritually and socially active, OTs assist people who are at risk for medical/psychological problems to prevent injury or health conditions by leading healthy and productive lives. The School of Health Sciences offers two tracks to achieve a master of science degree in occupational therapy: a 5-year combined BSOS/MSOT degree (see undergraduate catalog) for students entering the program as freshmen or undergraduate transfers and a direct-entry option for individuals who have already earned a bachelor’s degree. The post-baccalaureate option requires 95 credits for graduation with a Master of Science in Occupational Therapy (MSOT) degree. Credit totals include 24 weeks of full-time Level II Fieldwork within the United States or in international facilities where the supervising therapist has graduated from a program approved by the World Federation of Occupational Therapists. The Program is committed to the academic preparation of practitioners who will advance occupation-based, client-centered, and evidence-driven occupational therapy within the medical, educational and social service delivery systems.
Admission Requirements:
Please see Admission Section for details on admission requirements.

Learning Outcomes:
- Demonstrate knowledge and understanding of the biological, physical, social and behavioral sciences as applied to occupations across the lifespan.
- Evaluate/Apply OT history, philosophy, and theoretical perspectives from parent disciplines, OT models of practice and frames of reference, and emerging theory, to support the OT Process.
- Understand and apply the various contexts such as social, cultural, political, economic and ecological influences in which Occupational Therapy services are provided.
- Exhibit an attitude of scholarly curiosity and inquiry by demonstrating an understanding of the research process including proposal writing, critiquing the literature, designing studies, collecting and analyzing data, and interpreting findings.
- Demonstrate clinical reasoning including scientific, narrative, procedural, pragmatic, ethical and interactive reasoning.
- Articulate and apply Occupational Therapy Practice Frameworks (OTPF) to the process of evaluation, intervention and outcomes to individuals, organizations and/or populations.
- Communicate in a variety of formats and effectively collaborate with other professionals (e.g. nurses, COTA’s, physicians, social workers, physical therapists).
- Demonstrate knowledge of and uphold the American Occupational Therapy Association’s (AOTA) Code of Ethics, Ethics Standards and Standards of Practice as the basis for ethical decision making in all aspects of professional practice. Also, to promote professional development and demonstrate professional advocacy by participation in professional organizations (e.g. WFOT, AOTA, state OT associations).
- Articulate the professional and supervisory roles of the OTR, and the professional responsibilities and competencies related to liability issues that are grounded in knowledge of systems/structures and the principles of leadership and management theory.

Program Requirements:
Prerequisite Courses (courses marked with an asterisk* must be completed within 5 years of application)
- Human Anatomy & Physiology
- General Psychology I
- *Abnormal Psychology
- *Developmental Psychology
Introduction to Sociology or Anthropology
*Physics or Chemistry

Professional Foundation Phase

Fall Term
- OTR2210 Introduction to Occupational Therapy
- OTR2230 Medical Terminology
- OTR2410 Professional Communication
- OTR2430 Occupational Science
- OTR2432 Neuroscience
- OTR2630 Task & Activity Analysis

Spring Term
- OTR3210 Foundations of Occupational Therapy
- OTR3230 Evidence-Based Practice
- OTR3430 Group Dynamics
- OTR3431 Gross Anatomy with Laboratory
- OTR3630 Kinesiology with Laboratory
- OTR3700 Comprehensive Exam

Graduate Professional Phase

Fall Term – Childhood/Adolescence
- OTR4230 Psychosocial Occupations 1
- OTR4231 Physical Occupations 1
- OTR4232 Assistive Technology 1
- OTR4233 Fieldwork/Service Delivery 1
- OTR4240 Research 1
- MAT2004 Biostatistics

Spring Term – Adults/Elders
- OTR4430 Psychosocial Occupations 2
- OTR4431 Physical Occupations 2
- OTR4432 Assistive Technology 2
- OTR4433 Fieldwork/Service Delivery 2
- OTR4525 Program Development in Health/Wellness
- OTR4531 Supervision/Management
- OTR4600 Comprehensive Exam

Fall Term
- OTR6030 Occupational Therapy Process: Pediatrics
- OTR6031 Occupational Therapy Process: Mental Health
- OTR6032 Occupational Therapy Process: Adults
Fieldwork
In addition to academic coursework, occupational therapy (OT) students are required to successfully complete fieldwork experiences to effectively apply knowledge within the environmental contexts of therapeutic practice. Students participate in course-related Level I Fieldwork experiences beginning in the professional foundation phase and continuing through the final year in the program. The fieldwork experiences differ by site type and population served, and progress in expectations for student learning outcomes.

Level I fieldwork experiences are designed to enrich didactic coursework through directed observation and participation in selected aspects of the occupational therapy process. In addition, it provides opportunities for students to demonstrate professional behavior and to develop interpersonal skills including understanding and respect for diversity and effective communication. The Academic Fieldwork Coordinator and other faculty members are responsible for arranging Level I Fieldwork experiences in local hospitals, rehabilitation clinics, schools, supported employment sites and community-based programs, and for ensuring that sites meet AOTA accreditation standards and Program goals. Students are supervised by faculty and/or site supervisors. Students are responsible for transportation to and from Level I Fieldwork sites.

Students are also required to successfully complete twenty four weeks of full-time, supervised, Level II Fieldwork (12 credit hours) during the second year of the graduate phase to fulfill the academic requirements for graduation. These advanced field experiences provide students with opportunities for skill and task mastery, and demonstration of their role as practitioners. Level II Fieldwork experiences must be completed within one year of completing didactic coursework, unless otherwise approved by the program director. Level II Fieldwork courses (OTR896 and OTR897) are graded on a Pass/Fail basis. Students must earn the minimum criterion score based upon performance in the areas of fundamentals of practice, basic tenets, evaluation and screening, intervention, management of OT services, communication and professional behaviors, as assessed on AOTA’s Fieldwork Performance Evaluation for the Occupational Therapy Student.

The School of Health Sciences requires annual CORI (Criminal Offender Registry Information) reviews on students. Students admitted to its programs. Students who subsequently refuse to permit a CORI review will be dismissed from the Program. Students with a negative CORI who are denied the ability to participate in academic fieldwork will be dismissed from the Program.

Program Completion
Following the successful completion of the academic and fieldwork components of the Program, a graduate of the Occupational Therapy Program will be qualified to sit for the national certification examination as a candidate for occupational therapist, as administered by the National Board for Certification in Occupational Therapy (NBCOT). Upon passing the certification examination administered by the NBCOT, the individual will be qualified to practice as a professional Occupational Therapist, Registered (OTR). Most states, Massachusetts included, require licensure in order to practice. State licenses are usually based upon the results of the NBCOT Certification Examination. Information regarding NBCOT’s procedures can be obtained by contacting the NBCOT at 800 S. Frederick Avenue, Suite 200, Gaithersburg, MD 20877-4150; phone (301) 990-7979; or on-line at www.nbcot.org.

**Physical Therapy (DPT)**
The Doctorate of Physical Therapy program prepares students to practice autonomously, effectively, and with integrity in the contemporary, multifaceted, and culturally diverse healthcare environments. In concert with the mission of the College and the School of Health Sciences, the physical therapy faculty facilitate a teaching-learning environment focused on interactive and collaborative learning experiences. Students graduate with the cognitive, psychomotor, and professional skills that enable them to assume the diverse role of healthcare practitioner, which includes being an effective clinician, advocate, manager, teacher, learner, researcher, and leader. In addition, the program facilitates the development of compassionate practitioners through academic and community service experiences. The professional phase of the program consists of 3 three years of study, including summers.

*Admission Requirements:*
Please see Admission Section for details on admission requirements.

*Program Requirements:*
**YEAR ONE**

**Summer Term**
- PTR7030 Scientific Inquiry in Physical Therapy
- PTR7031 Gross Anatomy I

**Fall Term**
- PTR7130 Gross Anatomy II
- PTR7131 Scientific Inquiry I (on-line)
- PTR7132 Fundamentals of Patient Management I
- PTR7133 Foundations of Clinical Medicine
- PTR7140 Fundamentals of Patient Management II
- PTR7141 Kinesiology
- PTR7142 Professional Foundations I

Clinical Experience Requirements:
Each physical therapy student is required to complete three 12-week clinical experiences. The student will work closely with the academic coordinator of clinical education (ACCE) to choose sites that will meet the requirements of the program and the needs of the student. A variety of healthcare institutions, agencies, and practice settings are utilized for clinical educational experiences on local, regional and national levels. Clinical Education is an integral component of the student’s educational experience and comprises three different 12-week clinical internships in a variety of settings.

COURSE DESCRIPTIONS

ACCOUNTING – (Undergraduate)

ACC1012L  Personal Income Taxation (3)

Pre-Requisites: ACC1201L or permission of the instructor
Co-Requisite courses: ACC1201L
Equivalent courses: ACC312L Personal Income Taxation

The primary focus of this course is the preparation of federal and state income tax returns for the individual. Topics covered include calculation of gross income, deductions, tax computations, and tax credits. Practical problems and preparation of returns are emphasized so as to give the student a working knowledge of the field. Offered periodically. For non-accounting majors. Pre-Requisites: ACC1201 or permission of the instructor

ACC1100L  Accounting Principles (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ACC100L Accounting Principles

Topics in this course include: basic structure and principles of accounting; the nature and classification of accounts; the accounting cycle and the preparation of financial statements for both service and merchandising enterprises; and coverage of accounting systems and practices. Offered periodically. Pre-Requisites: None

ACC1201L  Principles of Accounting I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ACC101L Principles of Accounting I

Topics include the basic structure, principles, and practices of accounting; the nature and classification of accounts; the accounting cycle and the preparation of financial statements for both service and merchandising
enterprises; design of accounting systems, including special journals and subsidiary ledgers; and coverage of cash, receivables, inventories, deferrals, accruals, plant assets, intangible assets, and current liabilities. Lecture classes and laboratory sessions meet at least four times per week. Laboratory fee. Pre-Requisites: None

ACC1601L  Principles of Accounting II (3)

Pre-Requisites: ACC1201L
Co-Requisite courses: None
Equivalent courses: ACC102

This course continues the study of basic concepts and principles, as well as accounting for the partnership and corporate forms of business organizations; coverage of plant assets, intangible assets, and current liabilities, long-term liabilities, investments financial statement analysis, and the Statement of Cash Flows. Lecture classes and laboratory sessions meet at least four times per week. Laboratory fee. Pre-Requisites: ACC1201

ACC2016L  Computers in Accounting (3)

Pre-Requisites: ACC1601L
Co-Requisite courses: None
Equivalent courses: ACC316L Computers in Accounting

This course is designed to provide the student with a working knowledge of the use of microcomputers in accounting. Topics covered include an introduction to operating systems, bookkeeping, and computerized tax preparation. Computer accounting systems and the audit of such systems are discussed. Offered periodically. Pre-Requisites: ACC1601

ACC2210L  Managerial Accounting (3)

Pre-Requisites: ACC1601L
Co-Requisite courses: None
Equivalent courses: ACC207L Managerial Accounting

This course is a study of accounting as it serves the needs of management, principally in planning operations, controlling activities, and making decisions. Course emphasis is on the use of accounting by those seeking careers in other areas of business. Topics covered include cost terms, concepts, and classifications; job-order costing; process costing; cost behavior analysis and use; cost-volume-profit relationships; profit planning; standard costs; flexible budgets and overhead analysis; and relevant costs for decision making. Pre-Requisites: ACC1601

ACC2401L  Intermediate Accounting I (3)

Pre-Requisites: ACC1601L
Co-Requisite courses: ACC2402LAB
Equivalent courses: ACC202L Intermediate Accounting I

This course expands on the topics of elementary accounting with a more comprehensive study of the principles and practices of accounting. It includes a review of the accounting process and a study of the design and content of financial statements. Detailed coverage is given to the areas of cash, receivables, and inventories. Pre-Requisites: ACC1601

ACC2601L  Intermediate Accounting II (3)
Pre-Requisites: ACC2401L
Co-Requisite courses: ACC2602LAB
Equivalent courses: ACC203L Intermediate Accounting II

This course provides further detailed coverage of accounting principles and practices in the areas of investments in stocks and bonds, plant assets, intangible assets, current and long-term liabilities, and stockholders’ equity. Other areas covered in detail include financial statement analysis and the Statement of Cash Flows. Pre-Requisites: ACC2401

**ACC3350L  Computer Auditing (3)**

Pre-Requisites: Junior or Senior Standing or Permission of Instructor
Co-Requisite courses: None
Equivalent courses: ACC350L Computer Security and Control

Types of controls are identified and their effectiveness is evaluated. Emphasis is on the prevention and detection of both intentional and unintentional computer abuse. Existing and proposed legislation in this area will be discussed. Pre-Requisites: Junior or Senior Standing or Permission of Instructor

**ACC3402L  Auditing (3)**

Pre-Requisites: ACC2601L
Co-Requisite courses: None
Equivalent courses: ACC302L Auditing

This course examines the fundamental theory, primary objectives, and working procedures of auditing. The course is designed to familiarize the student with the ethics and duties of the independent certified public accountant. The major focus of the course centers around the examination, review, and compilation of financial statements and their supporting accounts and financial records, and the rendering of an accountant's report. Pre-Requisites: ACC2601

**ACC3411L  Cost Accounting (3)**

Pre-Requisites: ACC2601L
Co-Requisite courses: None
Equivalent courses: ACC304L Cost Accounting

This course is a study of accounting as it serves the needs of management, principally in planning, controlling, decision making, and determining product cost for pricing, inventory valuation, and income determination. Course emphasis is on the use of this information by those seeking careers in management accounting. Topics covered include cost terms, concepts, and classifications; job-order costing; process costing; cost behavior analysis and use; cost-volume-profit relationships; profit planning with the master budget; standard costs; flexible budgets and overhead analysis; measuring managerial performance; pricing and services; and relevant costs for decision making. Pre-Requisites: ACC2601

**ACC3422L  Advanced Accounting I (3)**

Pre-Requisites: ACC2601L
Co-Requisite courses: ACC3423LAB
Equivalent courses: ACC307L Advanced Accounting I
This course focuses on advanced accounting principles and practices. Topics covered include mergers and acquisitions, partnerships, international accounting and foreign currency transactions, and other topics of an advanced nature. Pre-Requisites: ACC2601 or permission of the instructor

**ACC3431L  Advanced Accounting II (3)**

Pre-Requisites: ACC2601L  
Co-Requisite courses: ACC3432LAB  
Equivalent courses: None

This course continues the study of advanced accounting principles and practices as they relate to nonprofit entities, including municipal governments, hospitals, universities, and voluntary health and welfare organizations. Current topics in accounting are also discussed. Pre-Requisites: ACC2601

**ACC3440L  Federal Income Taxation (3)**

Pre-Requisites: ACC2601L or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: ACC310L Federal Income Taxation

This course reviews the Federal Income Tax Law and Regulations as they relate to individuals. Topics covered include calculation of gross income, business and personal deductions, tax computations, and tax credits. Practical problems and preparation of returns are also discussed. Pre-Requisites: ACC2601 or permission of the instructor

**ACC3510L  Fraud Examination (3)**

Pre-Requisites: ACC1201L and ACC1601L and CRJ1400L  
Co-Requisite courses: None  
Equivalent courses: ACC330L Fraud Examination

This interdisciplinary course begins with the exploration of the nature of fraud, its costs, and why it occurs. Emphasis then shifts to the analysis of the accounting and legal procedures used to fight or prevent the different types of fraud such as detection, investigation, and the dispositions or resolutions available. Pre-Requisites: ACC1201, ACC1601, CRJ1400

**ACC3520L  Financial Statement Fraud (3)**

Pre-Requisites: ACC1100L and ACC1602L and CRJ1400L and CRJ3420L and ACC3510L  
Co-Requisite courses: None  
Equivalent courses: ACC331L Financial Statement Fraud

This type of white-collar crime is also known as “cooking the books” where various schemes are used to manipulate, misstate, or omit financial information to deceive financial statement users. This in depth study focuses on the detection and investigation of revenue-based, asset-based, liability-based, and other financial statement fraud, schemes, as well as the auditor’s liability in these criminal activities. Pre-Requisites: ACC1100, ACC1601, ACC3520, CRJ1400, CRJ3420
ACC3611L  Advanced Federal Taxation (3)
(Continued)
Pre-Requisites: ACC3440L
Co-Requisite courses: None
Equivalent courses: ACC311L Advanced Federal Taxation (Continued)

This course continues the study of the Federal Income Tax Law and Regulations. Topics covered include basis and determination of gain or loss, tax credits, capital gains and losses, regular and "S" corporations, partnerships, and research methods in taxation. Pre-Requisites: ACC3410

ACC4010L  CPA Examination Review (3)

Pre-Requisites: Senior Status or permission of the instructor
Co-Requisite courses: None
Equivalent courses: ACC314L CPA Examination Review

This course is an orientation to the Uniform Examination for Certified Public Accountants. Topics include: the structure and content of the examination; coverage of suggested examination approaches and techniques to maximize potential for successful results; review of multiple-choice questions, essay questions, and problems from past examinations, including the unofficial answers provided by the examining organization. Pre-Requisites: Senior standing or permission of the instructor.

ACC4403L  Advanced Auditing (3)

Pre-Requisites: ACC3402L
Co-Requisite courses: None
Equivalent courses: ACC303L Advanced Auditing

This course is an advanced consideration of auditing procedures. Topics include: study of statistical sampling and electronic data processing and their impact on the audit; further coverage of audit reporting; practical use of audit programs and preparation of working papers; references to publications of the American Institute of Certified Public Accountants and to materials from the Uniform CPA examination. Offered periodically. Pre-Requisites: ACC3402

ACC4875L  Accounting Capstone (3)

Pre-Requisites: Senior Status
Co-Requisite courses: None
Equivalent courses: ACC379L Accounting Capstone

This course familiarizes the student with the resources available to professionals in the fields of financial reporting, auditing, and taxation. Topics discussed include Generally Accepted Accounting Principles, Generally Accepted Auditing Standards, the Internal Revenue Code, Internal Revenue Regulations, Revenue Rulings, and court cases. The primary focus of the course is the completion of a major research project to serve as a capstone to the student's study in the accounting program. Pre-Requisites: Limited to accounting majors in their senior year.

ACC4899L  Accounting Practicum (3)

Pre-Requisites: Open to juniors and seniors in the School of Business Administration, with permission of the instructor.
Co-Requisite courses: None  
Equivalent courses: ACC395L Accounting Practicum

This program will provide business majors with the opportunity to gain practical experience in the operations of accounting/business. The student will participate in managerial activities under the supervision of experienced executive and managerial personnel. Upon completion of the program, students must participate in a terminating seminar and submit a written report. An evaluation of the student's effort will be obtained from the supervisor in the organization where he or she interned. Pre-Requisites: Open to juniors and seniors in the School of Business Administration with permission of the instructor.

ACCOUNTING – (Graduate)

ACC5000L Principles of Accounting (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GAT601L Principles of Accounting

This course continues the study of basic concepts and principles, as well as accounting for the partnership and corporate forms of business organizations; coverage of plant assets, intangible assets, and current liabilities, long-term liabilities, and investments in stocks and bonds; a study of financial statement analysis, and the Statement of Cash Flows. Lecture classes and laboratory sessions meet at least four times per week. Laboratory fee.

ACC5001L Intermediate Accounting I (3)

Pre-Requisites: ACC5000L  
Co-Requisite courses: None  
Equivalent courses: GAT602L Intermediate Accounting I

This course includes a more comprehensive study of the principles and practices of accounting, a review of the accounting process, and a study of the design and content of financial statements. Detailed coverage is given to the areas of cash, receivables, and inventories. Pre-Requisites: ACC5000

ACC5010L Intermediate Accounting II (3)

Pre-Requisites: ACC5000L and ACC5001L  
Co-Requisite courses: None  
Equivalent courses: GAT603L Intermediate Accounting II

This course covers detailed accounting principles and practices in the areas of investments in stocks and bonds, plant assets, intangible assets, current and long-term liabilities, and stockholders equity. Other areas covered in detail include financial statement analysis and the statement of cash flows. Pre-Requisites: ACC5000, ACC5001

ACC5013L Auditing (3)

Pre-Requisites: ACC5000L  
Co-Requisite courses: None  
Equivalent courses: GAT613L Auditing
This course examines the fundamental theory, primary objectives, and working procedures of auditing. This course is designed to familiarize the student with the ethics and duties of the independent certified public accountant. The major course focus centers around the examination of financial statements, their supporting accounts and financial records, and the rendering of the audit report. Pre-Requisites: ACC5000

**ACC5020L  Cost Accounting (3)**

Pre-Requisites: ACC5000L
Co-Requisite courses: None
Equivalent courses: GAT614L Cost Accounting

This course covers the study of accounting as it serves the needs of management, principally in planning, controlling, decision making, and determining product cost for pricing, inventory valuation and income determination. Course emphasis is on the use of this information by those seeking careers in management accounting. Topics covered include cost terms, concepts and classifications; job-order costing; process costing; cost behavior analysis and use; cost-volume-profit relationships; profit planning with the master budget; standard costs; flexible budgets and overhead analysis; measuring managerial performance; pricing and services; and relevant costs for decision making. Pre-Requisites: ACC5000

**ACC5205L  Advanced Accounting I - Consol., (3) Inter., & Partn.**

Pre-Requisites: ACC5000L and ACC5001L and ACC5010L
Co-Requisite courses: None
Equivalent courses: GAT707L Advanced Accounting I - Consol., Inter. & Partn.

This course is a study of advanced accounting principles and practices. Topics include mergers and acquisitions, partnerships, international accounting and foreign currency transactions, and other topics of an advanced nature. Pre-Requisites: ACC5000, ACC5001, and ACC5010

**ACC5225L  Advanced Accounting II – Governmental and Not-for-Profit (3)**

Pre-Requisites: ACC5000L and ACC5001L and ACC5010L and ACC5205L
Co-Requisite courses: None
Equivalent courses: GAT708L Advanced Accounting II -Governmental and Not-for-Profit

This course further studies advanced accounting principles and practices as they relate to nonprofit entities, including municipal governments, hospitals, universities, and voluntary health and welfare organizations. Current topics in accounting are also discussed. Pre-Requisites: ACC5000, ACC5001, ACC5010 and ACC5205

**ACC5300L  Managerial Accounting (3)**

Pre-Requisites: ACC5000L
Co-Requisite courses: None
Equivalent courses: GAT710L Managerial Accounting and MBA505L Managerial Accounting

This course studies accounting as it pertains to the needs of management; principally planning, controlling and decision making. Topics covered include: financial statement analysis; funds flow; cost terms, concepts, classifications, and behavior patterns; cost-volume-profit
relationships; job order, process and standard costing; flexible budgets, profit planning, non-routine
decision-making; pricing; and capital budgeting. Pre-Requisites: ACC5000

**ACC5305L  Tax I (3)**

Pre-Requisites: ACC5000L  
Co-Requisite courses: None  
Equivalent courses: GAT720L Tax I

This course examines the Federal Income Tax Law and Regulations as they relate to individuals. Topics covered include calculation of gross income, business and personal deductions, tax computations and tax credits. Practical problems and preparation of returns are also discussed. Pre-Requisites: ACC5000

**ACC5325L  Tax II (3)**

Pre-Requisites: ACC5305L  
Co-Requisite courses: None  
Equivalent courses: GAT721L Tax II

This course continues the study of the Federal Income Tax Law and Regulations. Topics covered include basis and determination of gain or loss, capital gains and losses, regular and S corporations, partnerships and research methods in taxation. Pre-Requisites: ACC5305

**ACC5505L  Advanced Issues in Partnership and Corporate Taxation (3)**

Pre-Requisites: ACC5000L and ACC5305L and ACC5325L  
Co-Requisite courses: None  
Equivalent courses: GAT810L Advanced Issues in Partnership and Corporate Taxation

This course examines the various forms of business entity and the tax implications of each. Covered forms of business include C Corporations, S Corporations, Partnerships and Limited Liability Companies. The course also covers the formation, operation and liquidation of each, with particular emphasis on comparing and contrasting the strengths and weaknesses of each. Pre-Requisites: ACC5000, ACC5305 and ACC5325

**ACC5510L  Managerial Tax Planning (3)**

Pre-Requisites: ACC5000L and ACC5020L OR ACC5300L  
Co-Requisite courses: None  
Equivalent courses: GAT820L Managerial Tax Planning

This course brings out the interrelationships between business operations and tax liability. Emphasis will be placed on an understanding and appreciation of tax factors in everyday decision making, tax planning, and possibilities of legitimate tax avoidance. Topics also include: definition of a corporation for tax purposes; tax problems incident to the formation of a corporation; survey of tax problems; and planning in the areas of non-liquidating distributions, redemptions, liquidations, accumulated earnings, compensation and fringe benefits, and gratuitous transfers of property. Pre-Requisites: ACC5000, ACC5020, ACC5300

**ACC5515L  Employee Benefits and Retirement (3)**

Pre-Requisites: ACC5000L and ACC5305L and ACC5325L  
Co-Requisite courses: None
Equivalent courses: GAT830L Employee Benefits and Retirement

This course is an introduction to the tax treatment of deferred compensation arrangements covering the formation and operating requirements of pension, profit sharing and stock option plans. Qualified plans, including Defined Benefit and Defined Contribution, are covered as well as 401(K), SIMPLE, and Simplified Employee Plans, as are non-qualified deferred compensation arrangements. Individual Retirement Accounts, both Roth and regular, are also discussed. Pre-Requisites: ACC5000, ACC5305, and ACC5325

ACC5520L  Estate and Gift Taxation (3)

Pre-Requisites: ACC5000L and ACC5305L and ACC5325L
Co-Requisite courses: None
Equivalent courses: GAT860L Estate and Gift Taxation

This course is a study of the federal system of estate and gift taxation. Topics include calculation of the gross estate, utilization of the unified credit, wealth transfer planning, income taxation of estates and trusts, and the responsibilities of executors, administrators, and trustees. Pre-Requisites: ACC5000, ACC5305, ACC5325

ACC5605L  Fraud Examination (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT814L Fraud Examination

This course will develop an understanding of the elements of fraud and financial crimes, including fraud prevention, detection and investigation. It will examine consumer fraud and fraud against organizations.

ACC5610L  Computer Security and Audit (3)

Pre-Requisites: ACC5013L
Co-Requisite courses: None
Equivalent courses: GAT850L Computer Security and Audit

Types of controls are identified and their effectiveness is evaluated. Emphasis is on the prevention and detection of both intentional and unintentional computer abuse. Existing and proposed legislation in this area will be discussed. Pre-Requisites: ACC5013

ACC6610L  Business Valuation (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT815L Business Valuation

This course is designed to give the student a comprehensive understanding of business valuation processes through top to bottom analysis of firm characteristics using various valuation techniques. These include the income, asset, and market approach. The course will also cover capital budgeting techniques as they apply to the valuation process. These include weighted average cost of capital, the capital asset pricing model, and the buildup method. The course will use case studies and current examples of valuations to illustrate current trends in this field. Pre-Requisites: None

ACC6620L  Accounting for Non-Profit Organizations (3)
Pre-Requisites: ACC5000L
Co-Requisite courses: None
Equivalent courses: GAT870L Accounting for Non-Profit Organizations

Not-for-profit activities are a significant portion of the economy of the United States. This course discusses the accounting of the activities for federal, state and local government units, as well as colleges and universities, hospitals, and voluntary health and welfare organizations. The list of nonprofit organizations also includes social clubs, philanthropic foundations, civil and religious groups, and professional organizations. Pre-Requisites: ACC5000

ACC6630L   Controllership (3)

Pre-Requisites: ACC5000L and ACC5020L OR ACC5300L
Co-Requisite courses: None
Equivalent courses: GAT875L Controllership

This course is a study of the function and approach to the problems of collecting, analyzing and presenting information to be used by corporate executives in making decisions governing company plans and policies. It shows how the controller can supply a reliable fact basis for the planning, direction, coordination, and control of the company organizations. Pre-Requisites: ACC5000, ACC5020 or ACC5300

ACC6640L   International Taxation and Accounting (3)

Pre-Requisites: ACC5000L and ACC5305L and ACC5325L
Co-Requisite courses: None
Equivalent courses: GAT878L International Taxation and Accounting

This course enables the student to understand current accounting and reporting systems of various countries. The international dimensions of accounting for multinational organizations and attempts to harmonize diverse accounting and reporting systems will be discussed. Pre-Requisites: ACC5000, ACC5305 and ACC5325

ACC6650L   Prevention and Detection of Fraudulent Financial Reporting (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course will examine the various types of fraud that involve accounting information, financial fraud related to major business processes, as well as the common techniques used to assess the risk of financial statement fraud. Specific topics may include off balance sheet financing, fraudulent sales, asset valuations, conditional sales, understatement of liabilities, income-smoothing and expense capitalization.

ACC6999L   Seminar in Contemporary Accounting Issues Capstone (3)

Pre-Requisites: ACC5000L and ACC5305L and ACC5325L
Co-Requisite courses: None
Equivalent courses: GAT890L Seminar in Contemporary Accounting Issues

This course familiarizes the student with the resources available to the professional in the areas of financial reporting and taxation. The hierarchy of the sources of generally accepted accounting principles is discussed in the
financial reporting area, while the Internal Revenue Code, regulations, rulings, and court cases are covered in the taxation area. The primary focus of the course is the completion of a major research project to serve as a capstone to the students study in the Master of Science in Accounting and Taxation program. Pre-Requisites: ACC5000, ACC5305, and ACC5325

AMERICAN INTERNATIONAL COLLEGE – (Undergraduate)

AIC1100L  Introduction to ACE (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: AIC101L Introduction to ACE

This course is designed to help facilitate your success in college by helping you master the skills necessary to reach your personal and educational goals. The opportunity is provided to enhance your ability to participate in and benefit from your total college experience. Learning Objectives: 1) Acquire effective learning and study skills such as time management, note taking, reading and study systems, test-taking skills, library research and writing skills, listening and communication skills. 2) Applying strategies that facilitate making a successful adjustment to college life such as understanding developmental tasks in college, understanding campus culture, policies and procedures, clarifying personal values and beliefs, understanding civility and civic responsibility, exploring educational and career interests, developing stress management skills and making healthy choices, understanding and appreciating individual and group differences, exploring other issues of importance to college students. Pre-Requisites: None

AIC1120L  College Skills Review (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: AIC102L College Skills Review

This course meets one hour per week for one semester and is intended for adult learners who are returning to college to complete their degrees and for certain non-traditional transfer students. The course is intended to help students readjust to academic pursuits. Skills to be reviewed include, but are not limited to: time management, note-taking, reading and study systems, test-taking, organization, and paper-writing. It will also familiarize new students with some of the academic resources and facilities available to them on campus. Open to Continuing Education and non-traditional transfer students upon recommendation of the appropriate dean. Pre-Requisites: None

AIC1130L  Introduction to Career Development (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: AIC103L Introduction to Career Development

This course will focus on career planning and decision making for students who are undecided as to a major. It is designed to engage students in goal setting and self-assessment of interests, values and skills. The course will introduce students to activities related to the exploration of career choices, the job outlook in specific career fields, and the professionalism required for the world of work. Pre-Requisites: None

AIC1140L  The Undergraduate Experience (1)
The First Year Seminar is an academic course designed around the core goal of helping students successfully transition to college by meeting their educational, career, and personal goals. Students will be provided with information, skills and strategies necessary to fully engage and participate in their learning experiences both inside and outside the classroom. Focus is given to the areas that are critical for success in college: academic and career preparation; understanding the learning and development process; adjusting to the responsibilities of being an active member of the AIC community.

AMERICAN STUDIES – (Undergraduate)

AMS4800 American Studies Seminar (3)

Pre-Requisites: International Studies major or permission of instructor and Program Director.
Co-Requisite courses: None
Equivalent courses: ASM300L American Studies Seminar

A weekly seminar for American Studies majors, with readings, discussion, and research/writings on topics that explore the interdisciplinary connections among the various courses taken for the program during individual semesters. Course is repeatable for additional credit when topics vary. Pre-Requisites: International Studies major or permission of instructor and Program Director.

ART – (Undergraduate)

ART1000L History of Art (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ART201L History of Art

This course traces world cultural development through the arts of architecture, sculpture and painting. The emphasis is on the social, economic, political, and geographic influences on the stylistic characteristics, subject matter and art forms of various world sites from the earliest prehistoric through the Modernist eras. The cultures of Africa, Australia, Oceania, the Near East, Greece, Rome, India, China, Japan, Europe (England, Ireland, Germany, Austria, Netherlands, France, Spain, Italy) and the Americas will be considered. Field Trip and fee required. Pre-Requisites: None

ART1010L Aesthetic Experience in the Contemporary Visual Arts (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ART202L Aesthetic Experience in the Contemporary Visual Arts

The primary objective of this course is the development of sensitive taste in the comprehension of the contemporary arts for further enjoyment. The course will present an aesthetic approach to the appreciation of the
visual arts of architecture, sculpture, and painting, with emphasis on the critical analysis and appraisal of art from recent and contemporary eras. Field trip and laboratory fee may be required. Pre-Requisites: None

**ART1030L  Art Appreciation Through Drawing (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ART203 Art Appreciation Through Drawing

This introductory course in art appreciation examines mark making as the essential and primary means of expression. Lecture, visual aids, research writing and units of drawing explore the creative impulse of artists like Leonardo da Vinci, Paul Klee, Pablo Picasso and untrained outsider artists. The student will develop a primary vocabulary of form, materials, and methods for creative expression through studio work. Creativity and creative problem solving strategies are considered in the context of everyday life. Lab fee required. Pre-Requisites: None

**ART1100L  Art Appreciation Through Painting (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ART204L Art Appreciation Through Painting

This course considers painting as it has developed from the early 19th century to the present through text, written assignments and studio exercises. Visual aids, slides and other resources familiarize the student with various Modernist artistic movements and individual artists. Studio work allows the student to better understand the formal principles of design, the nature of paint as a medium and the characteristics of creative endeavor. Field trip and Lab fee required. Pre-Requisites: None

**ART1110L  Studio Painting (3)**

Pre-Requisites: None  
Co-Requisite course: None  
Equivalent courses: ART205L Studio Painting

This is a studio arts course wherein the student will develop technical and expressive skills in the medium of acrylic paint. The student will explore realistic and conventionalized rendering in a pop idiom. They will gain understanding of the creative processing of an idea to result in a tangible product. Background information on pop art will be provided through slides, visual aids, and video from which the student will develop their own ideas. Students will learn about the relationship of pop art to commercial culture and the postmodern age in which we live. Lab fee required. Pre-Requisites: None

**ART1120L  Craft and Design (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ART206L Craft and Design

This is a course that develops an appreciation of the arts from the aesthetic and contextual appreciation of the utilitarian, practical, and sometimes not so practical, objects most frequently referred to as crafts. The course will examine the relationship of fine art to craft, the craft object as product of particular cultures, the utilitarian and ritual purposes to which these objects are put to use and how their creation corresponds to these purposes. The course will demonstrate how craft reflects the age in which it was created and craft as it relates to industry and
contemporary society. There will be opportunities to learn how these crafts are made through hands on practice. Lab fee required. Pre-Requisites: None

SIGN LANGUAGE – (Undergraduate)

ASL1201L American Sign Language I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: SLS101L American Sign Language I

An introduction to American Sign Language and deaf culture. The course will emphasize basic ASL communication skills, vocabulary, and grammatical structures, as well as applications in daily commerce. Pre-Requisites: None

ASL1202L American Sign Language II (3)

Pre-Requisites: ASL1201L
Co-Requisite courses: None
Equivalent courses: SLS102L American Sign Language II

A continuation of ASL1201. Pre-Requisites: ASL1201 or permission of the instructor.

BIOLOGY – (Undergraduate)

BIO1010L Biology of AIDS and Sexually Transmitted Diseases (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: BIO110L Biology of AIDS and Sexually Transmitted Diseases

This course studies the life cycle of HIV Retrovirus, its transmission, immunological consequences, clinical effects, control, and epidemic potential. The biology of other sexually transmitted diseases such as Gonorrhea, Syphilis, Genital Herpes, Candidiasis, and their consequences will be explored. This course does not satisfy the general education requirement for scientific awareness. Pre-Requisites: None.

BIO1020L Animal Diversity in Massachusetts (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: BIO109L Animal Diversity in Massachusetts

This course covers the animals of Massachusetts with a focus on the mammals, birds, reptiles, and amphibians, as well as some freshwater fishes. The species found in western Massachusetts are emphasized. Diversity, Conservation, and human interactions with these animals are investigated. Pre-Requisites: None

BIO1030L Introduction to Biology I (3)

Pre-Requisites: None
Co-Requisite courses: None  
Equivalent courses: BIO112L Introduction to Biology I  

This course provides an introduction to the principles of biological science. Topics covered will include the process of scientific inquiry, cell chemistry, cell structure and function, genetics and inheritance. The relevance of biology to everyday life will be emphasized. This course is intended for non-science majors, and does not satisfy the general education laboratory science requirement for scientific awareness. Pre-Requisites: None

**BIO1040L    Introduction to Biology II (3)**

Pre-Requisites: BIO1030L  
Co-Requisite courses: None  
Equivalent courses: BIO113L Introduction to Biology II  

This course continues an investigation into the principles of biological science. Topics covered include animal organization and diversity, microbial and plant biology, ecology, and the relationship of organisms to the environment. The relevance of biology to everyday life will be emphasized. This course is intended for non-science majors, and does not satisfy the general education laboratory science requirement for scientific awareness. Pre-Requisites: BIO1030 recommended

**BIO1050L    Scientific Awareness of the Environment (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: BIO115L Scientific Awareness of the Environment  

This course investigates a variety of topics that are applicable to everyday life. Environmental issues will be analyzed with a focus on how different fields of study play a role in determining outcomes. Scientific background presented includes: the scientific method, basic chemistry and physical science, basic ecology. Topics covered will include: populations, communities, ecosystems, energy, water, soil and air as well as the legislation that exists pertaining to topic areas. This course is intended for non-science majors. This course has no lab component and does not satisfy the general education requirement for scientific awareness. Pre-Requisites: None

**BIO1100L    General Biology I (4)**

Pre-Requisites: None  
Co-Requisite courses: BIO1101LAB  
Equivalent courses: BIO101L General Biology  

This is a survey course of the basic physical and chemical principles essential to an understanding of molecular biology and its applications to the basic concepts of cellular morphology, physiology, cellular behavior, modern genetics, evolution, and ecology. One two-hour laboratory period per week with laboratory fee. This course is intended for non-science majors and may be used to satisfy the general education requirement for scientific awareness. Pre-Requisites: None

**BIO1110L    General Biology II (4)**

Pre-Requisites: BIO1100L or permission of instructor  
Co-Requisite courses: BIO1111LAB  
Equivalent courses: BIO102L General Biology II
The basic concepts of BIO1100 are used as background to develop an understanding of the structure and function of mammalian organ systems and their evolutionary development. One two-hour laboratory period per week with laboratory fee. This course is intended for non-science majors and may be used to satisfy the general education requirement for scientific awareness. Pre-Requisites: BIO1100 or permission of instructor

**BIO1120L  Human Biology (4)**

Pre-Requisites: None  
Co-Requisite courses: BIO1121LAB  
Equivalent courses: BIO107L Human Biology  

This course presents human biology and current biological concerns, including biological organization, investigation of selected organ systems, diseases, and current issues of human health and function. This course is intended for non-science majors and may be used to satisfy the general education requirement for scientific awareness. One two-hour laboratory period per week with laboratory fee. Pre-Requisites: None

**BIO1130L  Environmental Biology (4)**

Pre-Requisites: None  
Co-Requisite courses: BIO1131LAB  
Equivalent courses: BIO105L Environmental Biology  

This is an introductory course that emphasizes the biological aspects of environmental science. It is usually taken by non-science majors to meet the general education requirement for scientific awareness, or by students who would like to consider the biology major and are interested in an ecology/environmental science focus. The course examines how ecosystems function, and covers the issues of natural resource management, population dynamics, and pollution control throughout the world. Pre-Requisites: None

**BIO1150L  Introduction to the Health Professions (1)**

Pre-Requisites: BIO1400L OR CHE1600L  
Co-Requisite courses: None  
Equivalent courses: BIO152L Introduction to the Health Professionals  

This course is designed to instruct the student in the options available as the student considers postgraduate training for a career in the health professions, including medical school, veterinary school, dental school, physician’s assistant programs, optometry school, podiatry school, or even a graduate program with application to human health. Emphasis will be placed on maximizing the resources available at AIC to develop a resume and academic preparation. This course is recommended to freshmen intending to enter the health professions. Pre-Requisites: BIO1400 or CHE1600

**BIO1200L  Human Anatomy and Physiology I (4)**

Pre-Requisites: None  
Co-Requisite courses: BIO1201LAB  
Equivalent courses: BIO103L Human Anatomy and Physiology  

This course presents the basic patterns and organizational theories of the human body, including topics of interest for students seeking careers in the health sciences, using a systems approach from cellular levels and support
systems to control and regulation. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: None

**BIO1210L** Human Anatomy and Physiology II (4)

Pre-Requisites: BIO1200L or permission of instructor  
Co-Requisite courses: BIO1211LAB  
Equivalent courses: BIO104L Human Anatomy and Physiology II

This course continues the systematic exploration of the human body, including clinical considerations of the endocrine, cardiovascular, immune, respiratory, digestive, urinary, and reproductive systems. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO 1200 or permission of instructor

**BIO1300L** Principles of Microbiology (4)

Pre-Requisites: None  
Co-Requisite courses: BIO1301LAB  
Equivalent courses: BIO213L Principles of Microbiology

This course introduces the student to the biology of microorganisms and viruses. The course is geared toward students in the health science fields and covers human pathogens and their control and the immune response. Laboratory exercises cover microbial diversity and techniques used to identify bacteria. One 3 1/2-hour laboratory period per week with laboratory fee. Pre-Requisites: None

**BIO1400L** Biology I (4)

Pre-Requisites: None  
Co-Requisite courses: BIO1401LAB  
Equivalent courses: BIO201L Biology I

This course is intended for students majoring in biology. It is an introduction to living organisms through the topics of molecular biology, biochemistry, cell biology, and genetics. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: None

**BIO1500L** Biology II (4)

Pre-Requisites: None  
Co-Requisite courses: BIO1501LAB  
Equivalent courses: BIO202L Biology II

This course is intended for students majoring in biology. It is an introduction to living organisms through the topics of taxonomy, evolution, the diversity of life, and physiology. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: None

**BIO1850L** Writing for the Health Professions (1)

Pre-Requisites: BIO1400L OR CHE1600L and ENG1202L OR ENG1602L  
Co-Requisite courses: None  
Equivalent courses: BIO252L Writing for the Health Profession
This course is designed to instruct students in how to write well on their application essays when they apply to a post-graduate school in the health professions and to learn the types of writing that are normally part of a career in that profession. This course is recommended to sophomores intending to enter the health professions. Pre-Requisites: BIO1400 or CHE1600 and ENG1202 or ENG1602

**BIO2200L Pathophysiology (3)**

Pre-Requisites: BIO1200L and BIO1210L and BIO1300L OR BIO2430L and CHE1210L or CHE1600L and CHE1700L
Co-Requisite courses: None
Equivalent courses: BIO209L Pathophysiology

A study of concepts and information about disease as it occurs in the individual, this course involves the study of pathologies pervading all systems, and those unique to specific organ systems. Pre-Requisites: BIO1200, BIO1210, and BIO1300 or BIO2430, CHE1210 or CHE1600 and CHE1700

**BIO2400L Comparative Vertebrate Anatomy (4)**

Pre-Requisites: BIO1400L and BIO1500L
Co-Requisite courses: BIO2401LAB
Equivalent courses: BIO302L Comparative Vertebrate Anatomy

A comparative study of the classes of vertebrates, this course emphasizes the evolution of morphological characteristics. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO1400 and BIO1500

**BIO2410L Animal Histology (4)**

Pre-Requisites: BIO2400L OR BIO1200L and BIO1210L
Co-Requisite courses: BIO2411LAB
Equivalent courses: BIO312L Animal Histology

This course includes a comprehensive presentation of mammalian microscopic anatomy. The organization of tissues, organs, and organ systems will be examined. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO2400 or BIO1200 and BIO1210

**BIO2420L Botany (4)**

Pre-Requisites: BIO1400L and BIO1500L
Co-Requisite courses: BIO2421LAB
Equivalent courses: BIO304L Botany

This is an introductory course in botany and includes study of algal, fungal, and plant diversity, as well as plant physiology. Laboratory sessions investigate taxonomic diversity, anatomy and physiology, and experiments in plant growth and reproduction. One three-hour laboratory period per week with laboratory fee, and one required field trip. Pre-Requisites: BIO1400 and BIO1500

**BIO2430L Microbiology (4)**

Pre-Requisites: CHE1210 or CHE1600 and 1700(CHE1210 and CHE1700 may be taken concurrently with BIO2430), and either BIO1200 and BIO1210, or BIO1400
Co-Requisite courses: BIO2431LAB
Equivalent courses: BIO305L Microbiology

The student will study the biology of representative microorganisms and viruses with emphasis on prokaryotic structure, metabolism, genetics, and diversity. Food microbiology is also covered. The laboratory focuses on the diversity and identification of bacteria. One 3-1/2 hour laboratory period per week with laboratory fee. Pre-Requisites: CHE1210 or CHE1600 and 1700(CHE1210 and CHE1700 may be taken concurrently with BIO2430, and either BIO1200 and BIO1210 or BIO1400.

**BIO3150L  Review of Basic Science (1)**

Pre-Requisites: CHE1600L and Junior Status
Co-Requisite courses: None
Equivalent courses: BIO352L Review of Basic Science

This course is designed as a review of basic sciences topics for students who intend to apply to a health professional school, including medical school, dental school, veterinary school, physician's assistance programs, and graduate programs focusing on a field with impacts on human health. The intent of the course is to provide a refresher course for advanced students who may require knowledge of basic science in order to advance to professional school. This course is recommended to juniors and seniors who have completed at least two years of introductory science courses and intend to enter the health professions. Pre-Requisites: CHE1600 and Junior Status

**BIO3400L  Cell Biology (4)**

Pre-Requisites: BIO1300L OR BIO1400L and BIO1500L and CHE1600L and CHE1700L
Co-Requisite courses: BIO3401LAB
Equivalent courses: BIO349L Cell Biology

Course Description: This course is an ultra-structural examination of cellular organelles, with emphasis placed on molecular activity and the communication between the internal and external environments of the cell. The laboratory includes exercises and experiments illustrating lecture topics. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO1300 or BIO1400, BIO1500, CHE1600, CHE1700.

**BIO3410L  Immunology (4)**

Pre-Requisites: BIO1400L and BIO1500L and BIO1300L and BIO2430L and CHE1600L and CHE1700L
Co-Requisite courses: BIO3411LAB
Equivalent courses: BIO315L Immunology

The principles of immunology are presented, including the general properties of the immune response, lymphocyte specificity and activation, immunogenetics, antigen-antibody interactions, congenital and acquired immunodeficiency, the functions of cytokines and serology. The laboratory includes exercises and experiments illustrating the lecture topics. One 3-1/2 hour laboratory period per week with laboratory fee. Pre-Requisites: BIO201, BIO1300, BIO1400, BIO1500 or BIO2430, CHE1600 and CHE1700 or permission of the instructor.
BIO3420L  Comparative Embryology (4)

Pre-Requisites: BIO2400L or BIO1200L and BIO1210L
Co-Requisite courses: BIO3421LAB
Equivalent courses: BIO311L Comparative Embryology

This course presents the general principles and concepts of comparative vertebrate embryology accompanied by an evaluation of pertinent advances in developmental biology. One 3 1/2-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO2400 or BIO1200 and BIO1210.

BIO3430L  Animal Physiology (4)

Pre-Requisites: BIO2400L or BIO1200L and BIO1210L and CHE1600L and CHE1700L or permission of the instructor.
Co-Requisite courses: BIO3431LAB
Equivalent courses: BIO314L Animal Physiology

Physiological control mechanisms are examined on cellular and organismal levels. The laboratory includes experiments and exercises illustrating principles of homeostasis, muscle action, nerve transmission, and sensory function. One three-hour laboratory period per week with laboratory fee. Pre-Requisite: BIO2400 or BIO1200 and BIO1210; CHE1600, CHE1700 or permission of the instructor

BIO3440L  Ecology (4)

Pre-Requisites: BIO1400L and BIO1500L
Co-Requisite courses: BIO3441LAB
Equivalent courses: BIO321L Ecology

This course covers the fundamental concepts of how organisms interact with each other and with their environment. There is use of taxonomy and practice in finding key characteristics of organisms to focus on keying and identifying organisms in the lab and in the field. Also, quantitative analysis of data is performed regarding basic ecological concepts in the lab, in the field, and through the use of software. One three-hour laboratory period per week with laboratory fee and three field trips per semester. Pre-Requisites: BIO1400 and BIO1500

BIO3450L  Genetics (4)

Pre-Requisites: BIO1400L and BIO1500L and BIO1300L or BIO2430L and CHE1600L and CHE1700L
Co-Requisite courses: BIO3451LAB
Equivalent courses: BIO331L Genetics

This course covers the principles of genetics from Mendel to modern genetic techniques used in biotechnology. One three-hour laboratory period per week with laboratory fee. Pre-Requisites: BIO1300, BIO1400, BIO1500 or BIO2430; CHE1600, CHE1700

BIO3460L  Environmental Microbiology (4)

Pre-Requisite: BIO1300L OR BIO2430L and BIO3440L and CHE1600L and CHE1700L
Co-Requisite courses: BIO3461LAB
Equivalent courses: BIO307L Environmental Microbiology
A study of the activities, interactions, and distribution of microorganisms in the environment, this course emphasizes the biogeochemical cycles, importance of microorganisms in ecosystems, and microbial degradation of pollutants and other substances. The laboratory will introduce students to the techniques of isolation, identification, and enumeration of microbes from nature. One three-hour laboratory period per week with laboratory fee. Pre-Requisite: BIO1300, BIO2430, BIO3440, CHE1600, CHE1700

**BIO3800 Special Topics (3)**

Pre-Requisite: BIO1400L and BIO1500L  
Co-Requisite courses: None  
Equivalent courses: None

This course would provide an opportunity for the Biology department to present varied topics of interest in modern biological science. It would also allow for an advanced treatment of topics introduced in foundation coursework. The course is listed for variable credit to allow for flexibility of topic selection, and the option to run the course with a laboratory component. It is likely to run most frequently as either a 3 credit lecture/discussion or a 4 credit lecture/discussion/lab course. Pre-Requisite: BIO1400 and BIO1500 and permission of instructor.

**BIO4030L Molecular Biology (4)**

Pre-Requisite: BIO1400L and BIO1500L and CHE1600L and CHE1700L and BIO3450L  
Co-Requisite courses: BIO3431LAB  
Equivalent courses: BIO332L Molecular Biology

This course explores the foundations of molecular biology, and surveys many applications of molecular biology in academic, medical, industrial, and agricultural fields. Throughout the course, ethical and social concerns related to these applications are highlighted. The laboratory portion of the course emphasizes hands-on training in recombinant DNA techniques and computational analysis of data. Recent advances in large-scale genomic sequencing, whole-genome functional analysis, computational molecular biology, and Bioinformatics topics are also covered. A laboratory fee is charged. Pre-Requisite: BIO1400, BIO1500 and CHE1612 and CHE1700, BIO450 is recommended.

**BIO4200L Wildlife Biology and Conservation (4)**

Pre-Requisite: BIO1400L and BIO1500L or permission of instructor  
Co-Requisite courses: BIO4201LAB  
Equivalent courses: BIO345L Wildlife Biology and Conservation

This course will introduce the student to the biology of wildlife management, including a brief history of conservation management and current issues in wildlife management. The primary emphasis is on techniques used in the study of vertebrate populations and their interactions with humans. Principles of vertebrate population ecology/dynamics will be investigated. Pre-Requisite: BIO1400 and BIO1500 or permission of instructor.

**BIO4210L Mammalogy (4)**

Pre-Requisite: BIO2400L  
Co-Requisite courses: BIO4211LAB  
Equivalent courses: BIO348L Mammalogy

An in-depth review of anatomical and physiological adaptations is comparatively applied to a study of the mammalian orders. The evolution, geographic distribution, and taxonomy of local mammals are emphasized, and
topics of particular interest to students will be examined. One three-hour laboratory period per week with laboratory fee. Pre-Requisite: BIO2400 or instructor’s permission

**BIO4220L  Vertebrate Zoology (4)**

Pre-Requisite: BIO2400, restricted to juniors and seniors majoring in biology  
Co-Requisite courses: BIO4221LAB  
Equivalent courses: BIO4221LAB, BIO405L Vertebrate Zoology

This course involves the in-depth study of the classes of vertebrates, with emphasis placed on morphological and physiological grades of organization. The evolution, geographic distribution, and taxonomy of local vertebrates are also stressed. Independent student investigations will be designed, performed, and presented. One three-hour laboratory period per week with laboratory fee. Pre-Requisite: BIO 2400, restricted to juniors and seniors majoring in biology

**BIO4350L  Evolution (3)**

Pre-Requisite: BIO1300, BIO2400, BIO2430, minimum junior standing as a biology major or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: BIO350L Evolution

Mechanisms of variation and adaptation in individuals and populations will be examined, with emphasis on historical and current concepts of speciation and systematics. Pre-Requisites: BIO1300, BIO2400, BIO2430, minimum junior standing as a biology major or permission of instructor.

**BIO4698L  Directed Study (3)**

Pre-Requisite: Permission of the department  
Co-Requisite courses: None  
Equivalent courses: BIO398L Directed Study

Students wishing to pursue directed study in advanced or specialized areas in any of the 300-level courses may do so with departmental permission. A thesis and final oral presentation is required. Laboratory work within the area of independent studies may be pursued under the provisions of BIO333 or BIO334 with laboratory fee. Pre-Requisite: permission of the department

**BIO4798L  Directed Study (3)**

Pre-Requisite: BIO4698L  
Co-Requisite courses: None  
Equivalent courses: BIO399L Directed Study

This is a continuation of BIO4698. Pre-Requisite: BIO4698

**BIO4803L  Senior Seminar in Biology (3)**

Pre-Requisites: Restricted to seniors majoring in biology  
Co-Requisite courses: None  
Equivalent courses: BIO403L Senior Seminar in Biology
The student will present seminars on current topics of biological research. Oral presentation techniques will be emphasized and a term paper is required. Pre-Requirements: Restricted to seniors majoring in biology.

**BIO4804L  Senior Seminar in Human Biology (3)**

Pre-Requisites: Restricted to seniors majoring in biology

Co-Requisite courses: None

Equivalent courses: BIO404L Senior Seminar in Human Biology

The student will present seminars on current topics of biological research. Oral presentation techniques will be emphasized and a term paper is required. Pre-Requisite: Restricted to seniors majoring in biology.

**BIO4833L  Research Problems (1-4) (1)**

Pre-Requisite: Permission of department chair

Co-Requisite courses: None

Equivalent courses: BIO333L Research Problems (1-4)

Biology majors will have the opportunity to conduct supervised research on individual research problems or to assist staff members in their research. Laboratory hours, credits, and fees will be determined on an individual basis. A research paper and presentation is required. Pre-Requisite: Permission of department chair.

**BIO4834L  Research Problems (3)**

Pre-Requisite: BIO4833L

Co-Requisite courses: None

Equivalent courses: BIO334L Research Problems

A continuation of BIO4833 with same stipulations. Pre-Requisite: BIO4833

Business – (Undergraduate)

**BUS1407L  Business Communications (3)**

Pre-Requisite: None

Co-Requisite courses: None

Equivalent courses: BUS207L Business Communications

This course provides students with the tools and techniques to effectively communicate and present reports and ideas in the business environment. Included in the course is the proper construction of business reports, letters, memos and other communiqués. Also included is the proper construction of a business presentation complete with visual aids (presentations tools such as PowerPoint). The course also provides the student with the use of information research techniques to find, analyze, and evaluate published business information and properly cite references. The student is given the opportunity to develop a recommendation to a business scenario and present it both in writing and orally.

**BUS3000L  Business LAW (3)**

Pre-Requisite: Junior or senior status

Co-Requisite courses: None

Equivalent courses: LAW300L Business Law
This course introduces students to the fundamentals of law and the legal system as these apply to business transactions. Specific topics covered in the course are: contracts, agency, intellectual property rights, negotiable instruments, forms of business ownership, personal property, and real property. Pre-Requisite: Junior or senior status

CHEMISTRY - (Undergraduate)

CHE1100L Chemistry and Society I (4)

Pre-Requisite: None
Co-Requisite courses: CHE1101LAB
Equivalent courses: CHE1101LAB, CHE103L Chemistry and Society I

This course is an introduction to some basic concepts in chemistry in the context of major issues of concern in today's world. Topics related to the environment will be covered and include: the chemistry of air pollution, ozone depletion, the greenhouse effect and climate change, energy, acid rain, and water pollution. The laboratory presents experiments that support the topics discussed in class to illustrate how chemistry is practiced and to demonstrate how chemists solve problems. One two-hour laboratory session per week with laboratory fee. The course is intended for non-science majors and may be used to satisfy the general education requirement for scientific awareness. Pre-Requisites: None

CHE1110L Chemistry and Society II (4)

Pre-Requisite: None
Co-Requisite courses: CHE1111LAB
Equivalent courses: CHE104L Chemistry and Society II

This course is an introduction to some basic concepts in chemistry in the context of major issues of concern in today's world. Topics related to the health and well-being of humans will be covered and include plastics and polymers, nutrition, medicines and drugs, genetic engineering and DNA, forensic chemistry, and art and science. The laboratory presents experiments that support the topics discussed in class to illustrate how chemistry is practiced and to demonstrate how chemists solve problems. One two-hour laboratory session per week with laboratory fee. The course is intended for non-science majors and may be used to satisfy the general education requirement for scientific awareness. Pre-Requisites: None

CHE1200L Introduction to Chemistry (4)

Pre-Requisite: None
Co-Requisite courses: CHE1201LAB
Equivalent courses: CHE101L Introduction to Chemistry

This course surveys the fundamentals of chemical science, including the structures of elements and compounds, states of matter, properties of some important substances, and the chemistry of aqueous solutions. The laboratory introduces the use of basic chemical apparatus in observing chemical phenomena and making scientific measurements. One three-hour laboratory per week with laboratory fee. This course is not accepted toward a science major. Pre-Requisites: None

CHE1210L General, Organic, and Biological Chemistry (4)
This course provides the very basic principles of inorganic and organic chemistry and an in-depth understanding of the basic biological molecules that make up the cell and the biochemical reactions that allow it to function. General chemistry topics include ionic and molecular compounds, properties of liquids and solutions, and acids and bases. The organic chemistry material includes the basic principles of the major families of organic compounds, their properties, nomenclature and chemical reactions. The biological portion presents proteins and amino acids, enzyme and coenzyme chemistry, carbohydrates, and lipids. This is a one-semester course intended primarily for nursing majors. One three-hour laboratory per week with laboratory fee. Pre-Requisite: CHE1200 or a recent high school chemistry course.

**CHE1600L General Chemistry I (4)**

Pre-Requisite: MAT1840 or concurrent enrollment in MAT1840  
Co-Requisite courses: CHE1601LAB  
Equivalent courses: CHE211L General Chemistry I

This course presents fundamental principles of chemistry, including a study of atomic and molecular structure, stoichiometry, and the states of matter. It is an introductory course for science majors, and is the course required for admission to medical school. It may also be used to satisfy the college's general requirement in science. Co-enrollment in CHE211R (review) is required. Pre-Requisite: MAT1840 or concurrent enrollment in MAT1840

**CHE1700L General Chemistry II (4)**

Pre-Requisite: CHE1611L  
Co-Requisite courses: CHE1701LAB  
Equivalent courses: CHE212L General Chemistry II

A continuation of CHE1600, this course includes a study of chemical kinetics, acids and bases, equilibrium, thermodynamics, electrochemistry, and the chemistry of aqueous solutions. Co-enrollment in CHE212R (review) is required. Pre-Requisite: CHE1600

**CHE2200L Introduction to the Scientific Literature (1)**

Pre-Requisite: CHE1700L  
Co-Requisite courses: None  
Equivalent courses: CHE241L Introduction to the Scientific Literature

This course provides an introduction to the ways scientists communicate their theories and findings, including scientific journals, seminars, poster sessions, etc. Students will assess the quality of journal articles, write papers in the scientific idiom, and make oral presentations. The library and computer databases will be covered. Pre-Requisite: CHE1600 or permission of the instructor.

**CHE2400L Organic Chemistry I (3)**

Pre-Requisite: CHE1700L  
Co-Requisite courses: CHE2401LAB  
Equivalent courses: CHE311L Organic Chemistry I
This course is an integrated study of the bonding and structure of organic compounds, with emphasis on reactions, reaction mechanisms, and synthesis, with an introduction to organic spectroscopy. Pre-Requisite: CHE1700

**CHE2500L Organic Chemistry II (3)**

Pre-Requisite: CHE2400L  
Co-Requisite courses: CHE312L Organic Chemistry II  
Equivalent courses: CHE2501LAB

This course is a continuation of CHE2400. Pre-Requisite: CHE2400

**CHE2600L Analytical Chemistry (4)**

Pre-Requisite: CHE2500L  
Co-Requisite courses: CHE2601LAB  
Equivalent courses: CHE313L Analytical Chemistry

This course presents a comprehensive examination of electrolytic solutions, including acid-base, oxidation-reduction, and solubility equilibria, and provides an introduction to modern analytical methods. The laboratory consists of analysis of representative inorganic unknowns by gravimetric, volumetric, and spectrometric methods. One three-hour laboratory session per week. Pre-Requisite: CHE2500

**CHE3400L Physical Chemistry I (3)**

Pre-Requisite: CHE1700L and MAT2500L  
Co-Requisite courses: CHE3401LAB  
Equivalent courses: CHE315L Physical Chemistry I

A mathematical approach to chemical laws and theories is presented, including a study of the properties of gases, chemical thermodynamics, chemical equilibrium, phase equilibrium, and electrochemistry. Pre-Requisite: CHE1700 and MAT2500

**CHE3500L Physical Chemistry II (3)**

Pre-Requisite: CHE3400L  
Co-Requisite courses: CHE3501LAB  
Equivalent courses: CHE316L Physical Chemistry II

This course is a study of chemical kinetics and an introduction to quantum mechanics and statistical mechanics with applications to chemical systems. Pre-Requisite: CHE3400

**CHE3600L Advanced Inorganic Chemistry (3)**

Pre-Requisite: Four semesters of college chemistry  
Co-Requisite courses: CHE3601LAB  
Equivalent courses: CHE321L Advanced Inorganic Chemistry
Studies of atomic and molecular structure are applied to representative non-metal compounds and coordination compounds and topics of current interest such as inorganic reaction mechanisms, catalysis, solid-state, and bioinorganic chemistry. Pre-Requisite: Four semesters of college chemistry

The principles of physical chemistry will be applied to systems of biochemical interest, including a study of the solution properties, transport, and thermodynamic and optical properties of biochemical systems. Pre-Requisites: CHE3400 or permission of instructor

**CHE4698L Directed Study (3)**

Pre-Requisite: Permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: CHE399L Directed Study

The student will conduct individual laboratory or theoretical work under the supervision of a staff member. Laboratory hours and fees will be arranged on an individual basis. Pre-Requisite: Permission of the instructor

**CHE4840L Senior Seminar (2)**

Pre-Requisite: This course is limited to biochemistry and chemistry majors in their senior year  
Co-Requisite courses: CHE4841LAB  
Equivalent courses: CHE342L Senior Seminar

In this course, each student conceives and develops a laboratory project. The investigation will be an extension of techniques and skills acquired in previous chemistry courses, ending with a written research paper and oral presentation. This course serves as the culminating experience for the biochemistry and chemistry majors. Pre-Requisite: This course is limited to biochemistry and chemistry majors in their senior year.

**CHE4899L Internship (3)**

Pre-Requisite: Permission of the department chair  
Co-Requisite courses: None  
 Equivalent courses: CHE395L Internship

Student internships provide professional learning experiences in positions relevant to the field of chemistry. Credit assignments will be determined on an individual basis. Pre-Requisite: Permission of the department chair

**CHE4900L Chemistry Research (3)**

Pre-Requisite: Junior or Senior status only, with at least 4 semesters of chemistry, and permission of the Chair  
Co-Requisite courses: None  
Equivalent courses: CHE398L Chemistry Research

This course is designed for a student, working with a faculty member, to develop, plan, and execute an individualized laboratory research project in biochemistry or chemistry. The student and faculty member will hold, minimally, one meeting per week to discuss the student’s progress on the project. At the end of the semester, the student will submit a written research paper and give an oral presentation to the members of the department. The course may be taken a maximum of two times for a maximum of 6 total credits. Lab fee required. Pre-Requisite: Junior or Senior status only, with at least 4 semesters of chemistry, and permission of the Chair

**CHINESE – (Undergraduate)**

**CHN1201L Introduction to Mandarin Chinese I (3)**
Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: CHN101L Introduction to Mandarin Chinese I

This course emphasizes an integrated approach to basic language skills: listening, speaking, reading, and writing. The Pinyin Romanization, basic grammar, and the development of reading skills of simple texts and character writing will be covered. Pre-Requisites: None

**CHN1202L Introduction to Mandarin Chinese II (3)**

Pre-Requisite: CHN1201L
Co-Requisite courses: None
Equivalent courses: CHN102L Introduction to Mandarin Chinese II

An introduction to Mandarin Chinese. This course emphasizes an integrated approach to basic language skills: listening, speaking, reading, and writing. Reading and writing skills are developed to a greater extent. Pre-Requisite: CHN1201

**COMMUNICATION – (Undergraduate)**

**COM1201L Introduction to Journalism I (3)**

Pre-Requisite: ENG1201L OR ENG1601L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: COM 101L Introduction to Journalism I

An introduction to the basics of print Journalism, including reporting, editing, newsroom management, news judgment, news writing and an overview of ethical and legal concerns. Students will analyze the way different local media cover breaking and feature news. The course provides the basic skills required for identifying, gathering, writing and editing news stories for newspapers. Co-Requisites: ENG1201 or ENG1601 or permission of instructor.

**COM1202L Introduction to Journalism II (3)**

Pre-Requisite: COM1201L
Co-Requisite courses: None
Equivalent courses: COM 102L Introduction to Journalism II

Building on the skills taught in COM101, students will learn to develop news sources, cover beats, such as the courts and local politics, and write feature length news stories including breaking news, obituaries, and government. Students will learn the rights of reporters and use of the Freedom of Information Act to gain access to public records. Pre-Requisite: COM1201

**COM1212L Introduction to Video Production (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM112L Introduction to Video Production
Course Description: This course is based on the theoretical and practical exploration of design and production techniques for video as a medium of communication. Students will learn the basics of video production, including writing scripts and treatments, developing storyboards, using digital video cameras, directing and producing, sound and light direction and on-camera performance. This class utilizes in the College’s state-of-the-art digital television production facility, as well as classroom and field work. Lab fee charged. Pre-Requisite: None

COM1281L  **Introduction to Mass Communication** (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM 381L Introduction to Mass Communication

Students will study theories of mass communication and the role that mass communicators play in modern society. The rise of print and electronic media will be discussed in detail. Special attention will be given to the rights, responsibilities and practices of mass media and merging trends.

COM1400L  **Introduction to Broadcasting** (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM 104L Introduction to Broadcasting

The Communication Department programs and operates 91.9 WAIC FM as a learning laboratory for our students. This course provides an overview of the broadcasting business and provides training in various aspects of broadcasting, including scheduling, traffic, advertising and ratings, basic engineering, announcing and practice in news and informational radio. Pre-Requisites: None

COM1410L  **Digital Photography** (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM 110L Digital Photography I

Fundamental visual art principles constitute the basis of effective visual communication. The course explores these fundamentals while applying the creative approaches unique to digital photography. Students will use the college’s digital darkroom (Adobe Photoshop) to refine and enhance the images they create for weekly assignments. In addition, students will develop a framework to analyze and evaluate photographs, whether created by themselves or others.

COM2200L  **Information and Technology** (3)

Pre-Requisite: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: COM105L Information and Technology

This course will provide students with the foundational knowledge and skills in the use of library resources and common computer tools. It will be broad enough in scope to enable students to continue learning independently as well as to build discipline-related knowledge and skills both within and beyond the college curriculum. Legal and ethical considerations will be addressed. Pre-Requisite: ENG1202 or ENG1602

COM2220L  **Classic Films of Sci-Fi, Horror and the Super Natural/Occult** (3)
Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM220L Classic Films of Sci-Fi, Horror and the Supernatural/Occult

An appreciation and examination through lecture and discussion of classic science fiction, horror and supernatural/occult films. Will focus on legendary directors, actors, composers and special effects technicians from the 1920's through recent release. Screened films will include: 'The Lost World' (1925), 'King Kong' (1933), James Whale's 'Frankenstein' (1931), 'The Invisible Man' (1933), Tod Browning's 'Dracula' (1931), and 'Freaks' (1932), 'Nosferatu' (1922), 'The Thing' and 'The Day the Earth Stood Still' (both 1950's), 'The Ghost and Mrs. Muir' and 'Blithe Spirit' (both 1940's), 'M' (1931), 'The Cabinet of Dr. Caligari' (1919), 'Rosemary's Baby' (1968), The British classic thrillers, 'Rebecca' (1940) and 'Dead of Night' (1945) and 'Dr. Jekyll and Mr. Hyde' with Barrymore, March or Tracey.

COM2401L Radio Programming and Production (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM201L Radio Programming and Production

This course provides students with the production techniques and programming applications necessary to work at a music radio station. In addition to learning different music programming formats, students will gain hands-on experience on the air at 91.9 WAIC. Student training includes writing and producing station liners, stagers and positioning statements using state of the art digital audio editing systems, producing live broadcasts and phone drops, as well as discussion of taste and sensibility issues, FCC requirements, interpreting ratings data and developing an on-air personality. Pre-Requisites: None

COM2402L Informational Broadcasting (3)

Pre-Requisite: ENG1202L OR ENG1602L and COM1400L and ENG1202L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: COM202L Informational Broadcasting

This course provides students with the production techniques and programming applications necessary to work at a news/talk/sports broadcasting. In addition to learning different news, sports and talk formats, students will gain hands-on experience on the air at 91.9 WAIC. Student training includes writing and producing programming using state-of-the-art digital audio editing systems. Students will also participate in live AIC Sports and Talk programming. Pre-Requisite: ENG1201, ENG1202, COM1400, or permission of instructor.

COM2411L Digital Photography II (3)

Pre-Requisite: COM1410L  
Co-Requisite courses: None  
Equivalent courses: COM237L Digital Photography II

This course builds on and deepens work with the fundamental visual art principles introduced in Digital Photography I. Students will employ advanced techniques using digital cameras and the college's digital darkroom (Adobe Photoshop). Students will enhance their online portfolios, as well as create hands-on communication projects that benefit the college community. The framework for analyzing and evaluating images will be expanded. Pre-Requisite: COM1410
COM2460L  History of Photojournalism (3)

Pre-Requisite: ENG1201L or ENG1601L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: COM260L History of Photojournalism

This course is a survey of photojournalism, tracing the development from Civil War origins to contemporary practice. Changes in photographic technology and the resulting impact on the craft will be examined. Students will discuss the role of photojournalists who record history in a society built on images. Pre-Requisite: ENG1201 or ENG1601 or permission of instructor.

COM2500L  Newspaper/Publishing Lab (1)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM225B Newspaper/Publishing Lab

Students will learn the skills necessary to produce editions of the college newspaper (bi-monthly) as well as additional publications including the Criterion literary magazine, print flyers and advertising utilizing the Mac In Design package which includes Photoshop, In Design (layout and design) and other graphic applications. This course would be required for students working on the Yellow Jacket.

COM2501LAB  Video Laboratory (1)

Pre-Requisite: COM1212L
Co-Requisite courses: None
Equivalent courses: COM226B Video Lab

Students will learn the skills necessary to produce television and other video projects at professional standards. The college is aggressively pursuing opportunities to broadcast and/or cablecast college events ranging from sports, campus events, video on demand, as well as developing additional TV content. Students will participate in these projects as videographers, writers, editors, directors, and lighting and sound technicians. Pre-Requisite: COM1212

COM 2502LAB  Broadcasting Laboratory (1)

Pre-Requisite: COM1400L
Co-Requisite courses: None
Equivalent courses: COM227 B Broadcasting Lab

Students will learn the skills necessary to produce professional quality radio programming including production values, building personality through bumpers, liners and station IDs; as well as practice in digital audio editing. Pre-Requisite: COM1400

COM2603L  Broadcast Speaking (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM203L Broadcast Speaking
Students sharpen their public speaking and radio and television speaking skills using digital audio technology. Students participate in a range of activities from simple ‘stand ups’ in videos, newscasts for radio and television and even doing play by play or color for the over 100 webcasts of AIC sporting events the department produces each year.

**COM2630L  Writing for Media (3)**

Pre-Requisite: COM1202L
Co-Requisite courses: None
Equivalent courses: COM230L Writing for Media

An introduction to the basic principles and techniques of writing for the media. Formats include informational, persuasive and entertainment content for a variety of audiences across multi-media - traditional media like radio, TV and print as well as web sites, bulletin boards and even e-mail and text messages. Students will write copy for news (print and broadcast), the web, advertising, public relations, television and the screen as well as personal and professional correspondence. Pre-Requisites: COM1202

**COM2631L  Visual Communications (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM235L Visual Communications

This course focuses on issues specific to forms of visual communication. A physiological and theoretical background on visual perception will be given to students who will learn how to analyze visual messages using techniques similar to those used to evaluate written works. Students will discuss various media (including typography, graphic design, informational graphics, photography, television, cinema, video and interactive media such as video games and web sites) and the very visible role they play in our lives. Pre-Requisite: None

**COM2840L  Internet Communication (3)**

Pre-Requisite: COM2200L or MIS1202L
Co-Requisite courses: None
Equivalent courses: COM240L Internet Communication

A production course that focuses on social aspects of Internet communication and the implications of digital media on the World Wide Web. Students explore the history, structure, function and social impact of the Internet and the web. Students will critique web sites, learn Hypertext Markup Language and other appropriate codes, construct simple web pages and integrate multimedia and streaming media into their websites. Pre-Requisite: COM2200 or MIS1220

**COM2870L  Writing Television Comedy (3)**

Pre-Requisite: ENG1202L OR ENG1602L
Co-Requisite courses: None
Equivalent courses: COM270L Writing Television Comedy

This course examines television comedy with an emphasis on writing scripts for half hour sitcoms and shorter format comedies. Pre-Requisite: ENG1202 or ENG1602

**COM2890L  Radio and Television Sports (3)**
This course addresses critical issues in sports media in a number of different collegiate sports. Students will discuss the differences between sport and mediated sport and the symbiotic relationship between sport and media. Students participate in college sports webcasts and broadcasts operating cameras, editing clips and telescopes, creating dynamic audience-driven promotions and understanding the relationship between communities of fans and conventional and new media. In their final project, the student will be required to plan, produce and deliver a professional sports broadcast and/or webcast. Laboratory fee charged.

COM3200L Film as Literary Narrative (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM305L Film as Literary Narrative

In this course, the basis of our study is comprised of the careful viewing and detailed intensive analysis of five (5) contemporary American classics. Students analyze technique and content, as well as artistic vision, linking dramatic action to technical elements that define film as an art form.

COM3201L Public Relations (3)

Pre-Requisite: COM1202L and COM2200L
Co-Requisite courses: None
Equivalent courses: COM306L Public Relations

Students will explore theories of Public Opinion, Mass Communication and Audience Research and apply that learning toward creating targeted messages in media such as print, direct mail, broadcast and cable television, web and mobile phone applications. Pre-Requisite: COM1202 and COM2200

COM3202L Advertising (3)

Pre-Requisite: MKT1450L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: COM302L Advertising

Emphasis is placed on practical use of advertising in the operation of the ordinary business, including the study of the various media available and their use. Sufficient time is spent on the role of advertising in the marketing mix and its effects upon our economy. Included is the study of the fundamentals of advertising creation: research, appeals, copy, illustration, layout, and reproduction. A study of the advertising agency includes analyses of current advertising campaigns and types of media chosen for such campaigns. Pre-Requisite: MKT1450 or Permission of Instructor.

COM3260L Introduction to Screen Writing (3)

Pre-Requisites: Permission of the instructor
Co-Requisite courses: None
Equivalent courses: COM368L Introduction to Screen Writing
This course will teach students how to write screenplays. Topics covered include plot and story development, concept, and character. Students will be required to complete the first act of a feature length screenplay as part of their course work. Other topics include writing for television and marketing screenplays. Pre-Requisite: Permission of the instructor.

**COM3261L Interactive Media (3)**

Pre-Requisite: COM1400L and COM1410L and COM2630L and COM2840L and COM2631L
Co-Requisite courses: None
Equivalent courses: COM369L Interactive Media

Digital multimedia projects in mass communication will be developed from among advertising, journalism, public relations, radio and television genres. The purpose of this course is for students to produce multimedia projects. In the process, students will use their individual writing, reporting, photographic and audio/video skills to develop a concept, produce separate elements and finally assemble the project. This project, whether burned to a DVD or posted on the web, will include text, graphics, photos, audio and video. Laboratory fee charged. Pre-Requisite: COM1400, COM1410, COM2630, COM2840 and COM2631

**COM3280L Interpersonal Communications (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM384L Interpersonal Communication

This course studies major theorists in interpersonal communication. The course establishes communication as the process by which individuals define themselves and by which they are defined. Focus will be on such theorists as Sapir, Worf, Phillipsen and Hymes.

**COM3290L Great Directors (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM395L Great Directors

One approach to cinematic studies is to consider the films of certain recognized great directors. Among the directors to be considered in this course are Alfred Hitchcock, Spike Lee and Francois Truffaut.

**COM3400L Radio Station Management (3)**

Pre-Requisite: COM2401L
Co-Requisite courses: None
Equivalent courses: COM229L Radio Station Management

Students will learn the basics of managing a commercial radio station. Among the topics to be covered will be traffic, promotions, programming and ratings and administration of various radio station departments. Pre-Requisite: COM2401

**COM3401L Feature Writing (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM316L Feature Writing

Students will learn to write feature stories for newspapers and magazines. In addition to learning the elements of good feature writing, this course shows how to take story ideas and turn them into published articles for newspapers, magazines and literary journals. Current feature stories will be discussed.

**COM3402L Investigative Reporting (3)**

Pre-Requisite: COM1201L and COM1202L  
Co-Requisite courses: None  
Equivalent courses: COM317L Investigative Reporting

Students learn how to research and write investigative journalistic pieces. Particular attention will be paid to sources, public records and global searches, as well as privacy and ethical issues. Students will be required to write a lengthy investigative reporting project. Pre-Requisite: COM1201, COM1202

**COM3403L Editorial and Opinion Writing (3)**

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM318L Editorial and Opinion Writing

This course is an introduction to writing the various journalistic forms that express personal opinions, including news analysis editorials and personal opinion columns. Current examples from local and national press will be discussed.

**COM3410L Sports Writing (3)**

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM319L Sports writing

This course presupposes the student's ability to write clear and concise stories of publishable quality under deadline pressure. Topics covered include the elements of a good sports story, newspaper, television and radio coverage, and developing sources of sports information. Topical sports issues such as salary caps, women's sports, and pseudo-sports such as the WWF will be discussed. Students will also explore participatory sports such as fishing and are free to pursue their own sports interests in print and broadcast media.

**COM 3411 Documentary Photography Projects (3)**

Pre-Requisite: COM1410L and COM2411L  
Co-Requisite courses: None  
Equivalent courses: COM359L Documentary Photography Projects

This course is an advanced level course for students who want to pursue in-depth photography projects. The interdisciplinary projects combine image making with areas of student academic focus. The projects often include documenting community activities and organizations. Final work will be presented in a variety of digital and analog formats. Lab fee charge. Pre-Requisite: COM1410 and COM2411

**COM3461L Photojournalism (3)**
Pre-Requisite: COM1410L  
Co-Requisite courses: None  
Equivalent courses: COM361L Photojournalism

Students will learn how to find news stories, cover the issues and present the results. From creating single images with captions to photo essays with text, students will combine the disciplines of photography and journalism to become visual storytellers. Ethics, integrity and accuracy will be emphasized, along with creating content for The Yellow Jacket. Lab fee charged. Pre-Requisite: COM1410

COM3462L  Advanced Photography (3)

Pre-Requisite: COM1410L and COM2411L  
Co-Requisite courses: None  
Equivalent courses: COM365L Advanced Photography

This course cultivates the development of a student’s personal photographic style. Students will consciously explore a range of genres, such as nature photography, abstract photography, commercial photography and landscape photography. Students will also investigate a variety of tools, ranging from shooting film to using studio lighting. Culminating projects that benefit the college community will be created. Lab fee charged. Pre-Requisite: COM1410 and COM2411

COM3492L  Representation in American Cinema: The Gangster Myth (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM394L Representation in American Cinema: The Gangster Myth

This course considers the idea that media is a teacher of social ideas and behavior. Specifically considered in this course is the presentation of Italian-Americans in gangster films ranging from Public Enemy to the Godfather series. Other genres of film, Nature films for example, may also be offered if they consider the topic of representation in film.

COM3493L  History of Cinema (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM393L History of Cinema

The cinema has emerged as one of the most powerful socializing forces in modern society. This survey course traces the development of modern film in the 20th Century.

COM3500L  Reviewing the Arts (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM314L Reviewing the Arts

Students will learn to critique television, film, theater, music, dance, art and photography. Students will review plays, movies and television programs or other art and entertainment forms each week, developing the skills needed to write professional reviews. In addition to learning the necessary terminology, print and media reviews will be analyzed.
COM3600L  Seminars in Communication: Women in Media (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM300L Seminars in Communication (3)

The department offers a wide range of special interest seminars on topics in Communication ranging from African roots in contemporary music to the role of Women in media.

COM3601L  Seminars in Communication: History of Film Comedy (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM300L Seminars in Communication (3)

The department offers a wide range of special interest seminars on topics in Communication ranging from African roots in contemporary music to the role of Women in media.

COM3620L  Mass Media LAW(3)

Pre-Requisite: ENG1202 or ENG1602 and COM2200
Co-Requisite courses: None
Equivalent courses: COM320L Mass Media Law

The rights and responsibilities of mass media practitioners such as reporters, editors, etc., as well as the impact of conglomeration on mass media, will be discussed. Guest lecturers include journalists, attorneys and judges. Pre-Requisite: ENG1202 or ENG1602 and COM2200

COM3621L  Media Ethics (3)

Pre-Requisite: COM2200L and ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: COM321L Media Ethics

What are a reporter’s moral obligations to his sources, readers and employer? This course looks at the values of those who work in the news business and the moral dilemmas they face in an increasingly complex and litigious society. The course includes lectures, case studies and guest speakers. Topics covered include privacy and an overview of libel law, and the impact of conglomeration on the news business in general. Pre-Requisite: ENG1202 or ENG1602 and COM2200

COM3623L  Sports Marketing (3)

Pre-Requisite: MKT1450L
Co-Requisite courses: None
Equivalent courses: COM328L Sports Marketing

This course acquaints students with the sports marketing field, with emphasis on marketing mix and basic marketing functions as they apply to the sports industry. Specific strategies in sports promotion, sporting goods, and health and fitness markets are explored. Pre-Requisite: MKT1450
COM3631L Radio Music Programming (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM331L Radio Music Programming

An advanced course in targeting music programming to specific demographic groups. Student will assess actual and hypothetical markets, target opportunities for new stations and using Pandora, actually create a new radio station with promos, liners and a music play list based on the audience research and listenership goals. Students will gain experience interpreting ratings.

COM3632L Radio & TV News Programming (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM332L Radio & TV News Programming

An advanced course in targeting broadcast news and informational programming to specific demographic groups. Student will assess actual and hypothetical markets, target opportunities for new programs and develop research based pitches for their programming projects. Laboratory fee charged.

COM3650L Marketing Communication Strategies (3)

Pre-Requisite: MKT1450L
Co-Requisite courses: None
Equivalent courses: COM350L Marketing Communication Strategies

This course introduces a model of the IMC (integrated marketing communications) planning process and the steps taken in developing a marketing communications program. Research-based examinations of organizations needs for programs that can meet the global challenges and their impact. Promotions Management, Communication Process, and Ethical Issues will be discussed. Pre-Requisite: MKT1450

COM3660L Television News Production (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM367L Television News Production

Expanding upon the basic video skills learned in COM 3661, students will produce television news segments. Special emphasis will be placed on news judgment, script writing, production values such as sound and lighting, and the use of maps, graphics and video footage to enhance reportage. Students will gain practical experience behind and in front of the camera in the College’s state-of-the-art digital television production facility. Students will learn how to direct and produce television news segments, write scripts and, ultimately, produce a half-hour television news broadcast. Laboratory fee charged.

COM3661L Advanced Video Production (3)

Pre-Requisite: COM1212L
Co-Requisite courses: None
Equivalent courses: COM366L Advanced Video Production
Building on the skills learned in COM112, students will write, produce and edit short narrative films, documentaries and feature length, broadcast quality video productions. Pre-Requisite: COM1212

**COM3662L  Newspaper Layout and Design (3)**

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: COM362L Newspaper Layout and Design

This course will give students hands-on experience in the design and production of newspapers, newsletters and magazines. In addition to the basics of layout and design, desktop publishing, headline writing and the selections of graphics and images for publication will be discussed.

**COM3670L  Editing and Producing Video (3)**

Pre-Requisite: Permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: COM370L Editing and Producing Video

Students will create, write, produce and edit video content for television and the web. Pre-Requisite: Permission of the instructor.

**COM3680L  Communication Research (3)**

Pre-Requisites: COM1201, COM1202 and COM1400. Students should have also completed their general education requirements in statistics. Students must have at least junior standing.  
Co-Requisite courses: None.  
Equivalent courses: COM385L Communication Research

This course explains the basic concepts of media research. Included are measurement and methodologies for measuring the effectiveness and impact of mass mediated messages (from radio, newspaper and TV to web site hits). Recognition tests, recall and association tests, opinions and attitude ratings, projectile methods, laboratory testing, and content analysis are each explained and studied. Research applications focus mainly, but not entirely, on consumers of mass media. Quantitative as well as qualitative methods are discussed in detail. Pre-Requisite: COM1201, COM1202 and COM1400. Students should have also completed their general education requirements in statistics. Students must have at least junior standing.

**COM3682L  Mass Media Effects (3)**

Pre-Requisite: COM1281L  
Co-Requisite courses: None  
Equivalent courses: COM382L Mass Media Effects

Expanding on the theoretical background provided in COM 1281, the students will consider current topics in mass media effects such as violence, mean world syndrome, gender and race portrayals, the breakdown of regional diversity in the U.S., and international media trends. In addition to the dominant role played by television in contemporary American society, emerging technologies such as the Internet and interactive media will be explored. Pre-Requisite: COM 1281

**COM3695L  Special Topics Seminars (3)**
Periodically, the department offers special seminars in specific timely subject areas. Typically, these are film courses that focus on a special topic such as Independent Films, Documentaries and Film Noire. Although other seminars have been offered from African Music to Women’s issues. Students can take different seminars for credit.

**COM3830L Digital Media Applications (3)**

Pre-Requisite: COM1400L and COM1410L and COM2630L and COM2631L and COM2840L
Co-Requisite courses: None
Equivalent courses: COM330L Digital Media Applications

This course provides an introduction to the convergence of video, audio and computers and wireless and other transmission methods. The course covers the technical and creative aspects of digital video photography, editing and sound, emphasizing the potential of multiple platform presentation including television, cable, video on demand, the web and fixed and emerging media. Compression, non-linear editing, burning to media such as DVD or CD and developing seamless interfaces are also taught. Laboratory fee charged. Pre-Requisites: COM1400, COM1410, COM2630, COM2840 and COM2631

**COM4400L Convergence: The Communication Revolution (3)**

Pre-Requisites: COM1281L and at least one other media theory course in communication or social sciences methods. The students should have also completed their general education requirement in statistics.
Co-Requisite courses: None
Equivalent courses: COM400 Convergence: The Communication Revolution

This course is an upper level seminar focused on emerging communication technologies and their potential applications. Students will engage in self-driven investigations of emergent technologies and their attendant social consequences. Students will use research tools such as secondary analysis of social surveys, interviews, focus groups, and experiments to develop presentations, debates, and discussions centered on the increasing significance of communication technologies in modern life as well as concerns about dependence on and access to these technologies. Pre-Requisites: COM 1281 and at least one other media theory course in communication or social sciences methods. The students should have also completed their general education requirement in statistics.

**COM4470L The Broadcast Commercial (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: COM376L The Broadcast Commercial

Development of radio and television scripts and storyboards for advertising and promotional commercials. Research data and information for assignments provided by national TV and radio industry sources. Students will gain experience using accepted commercial formats and prepare broadcast "spots" that comply with professional standards and contemporary practice. Student teams will prepare television/radio campaigns for national brands. Students will also conduct audience research to identify targeted demographics and underlying social attitudes using national research such as NORC. Laboratory fee charged.

**COM4899L Internships (3)**
Pre-Requisite: Permission of the department chair and approval of the dean of the School of Arts, Education and Sciences.
Co-Requisite courses: None
Equivalent courses: COM498L Internships

One of the strengths of the communication program is the close relationship the program enjoys with the local, regional, and national media. Communication students are required to take at least three credits of professional learning experience in the media and are encouraged to take as many as 12 credits. Students document their professional learning through a compilation of published stories, radio air checks, and television demo tapes; this, combined with their resume and a practice interview, are the basis of the student capstone learning experience in communication. Students have completed internships at 91.9, WAIC, WWLP TV-22, WGGB TV-40, WAQY Rock 102, WHDH and WBZ in Boston, and NY1 in New York City. Summer internships can be arranged so that students continue their professional growth during recess, and the program already has a proud record of graduates being placed in media jobs. Pre-Requisite: Permission of the department chair and approval of the dean of the School of Arts, Education and Sciences.

CRIMINAL JUSTICE – (Undergraduate)

CRJ1400L Introduction to the Criminal Justice System (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: CRJ200L Introduction to the Criminal Justice System

An introductory survey course designed to provide the student with an overview of the system. Theories of criminal behavior, criminal law, and procedures are introduced and studied as they apply to the criminal justice components of law enforcement, the courts, and corrections. Pre-Requisites: None

CRJ2224L Corrections (3)

Pre-Requisite: CRJ1400L and ENG1100L
Co-Requisite courses: None
Equivalent courses: CRJ324L Corrections

This meets the requirement as a writing intensive course in the major. An overview of the correctional system. Topics for study and discussion include historical development, theories of punishment, sentencing structures, the functions of different types of institutions, management techniques, and problems in today's correctional operations. Pre-Requisite: CRJ1400 and ENG1100

CRJ2295L Substance Abuse Issues in Criminal Justice(3)

Pre-Requisite: CRJ1400L
Co-Requisite courses: None
Equivalent courses: CRJ295L Substance Abuse Issues in Criminal Justice

This course examines the impact of drugs and alcohol use and abuse on the individual, society, and criminal justice system. The course will focus on the various categories of abusable substances, their physical and psychological effects, and the continuum of treatment modalities used in combating chemical dependency. Because drug and alcohol use account for the single largest category of criminal arrests and convictions in the
U.S., specific focus will be on the criminal justice system’s responses to drug and alcohol related crimes; law enforcement; innovative treatment approaches; and drug testing technologies. Pre-Requisite: CRJ1400

**CRJ2302L. Statistics (3)**

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: CRJ302L Statistics

This course is an introduction to statistical methods as they are used in the social sciences. Both descriptive and inferential statistics are covered, including sampling, probability, and hypothesis testing. Specific parametric and non-parametric analyses include analysis of variance, the t-test, Chi-square, and correlation. Pre-Requisites: None

**CRJ2322L. Law Enforcement (3)**

Pre-Requisite: CRJ1400L  
Co-Requisite courses: None  
Equivalent courses: CRJ322L Law Enforcement

This course presents an overview of the development of law enforcement within the criminal justice system. Study and discussions will focus on such topics as roles and responsibilities, departmental organization, and in-depth consideration of the law enforcement functions associated with modern enforcement agencies. Pre-Requisite: CRJ1400

**CRJ2350L. Criminal Justice Research (3)**

Pre-Requisite: CRJ2302L  
Co-Requisite courses: None  
Equivalent courses: CRJ350L Criminal Justice Research

This course introduces students to scientific methodology as it is related to criminal justice, in order for students to become sophisticated research consumers and producers. This course provides students with an understanding of the methods of research available to criminologists, the connection between theory and data, and the ability to comprehend the logic behind statistical tests of significance. Understanding the development and testing of hypotheses, data collection, data analysis, and presentation of findings according to professional standards is the underlying theme of the course. Pre-Requisite: CRJ2302

**CRJ2421L. The Juvenile Justice System (3)**

Pre-Requisite: CRJ1400L  
Co-Requisite courses: None  
Equivalent courses: CRJ329L The Juvenile Justice System

An in-depth look at the juvenile justice system from its historical origins to current practices. Special emphasis is placed on juvenile justice terminology, landmark legal cases, and procedures used with juveniles and their families. Pre-Requisite: CRJ1400

**CRJ2426L. Probation and Parole (3)**

Pre-Requisite: CRJ1400L and ENG1100L  
Co-Requisite courses: None
Equivalent courses: CRJ326L Probation and Parole

This meets the requirement as a writing intensive course in the major. The course examines the development and professional practice of federal and state probation and parole systems. Emphasis is placed on organization, roles, and responsibilities of these systems, as well as the significant impact of court decisions on delivery of services. Pre-Requisite: CRJ1400 and ENG1100

**CRJ2451L  Legal Aspects of the Criminal Justice System (3)**

Pre-Requisite: CRJ1400L
Co-Requisite courses: None
Equivalent courses: CRJ351L Legal Aspects of the Criminal Justice System

The course is designed to give an overview of legal principles, which provide a framework for the criminal justice system. An analysis of cases and statutes, pertinent to areas under consideration, is emphasized together with a coverage of fundamental aspects of legal research. Areas covered include investigation, initial appearance, arraignment, preliminary examination, trial, guilty pleas or conviction, sentence, and release. Pre-Requisite: CRJ1400

**CRJ3240L  Criminal Procedures (3)**

Pre-Requisite: CRJ1400L and CRJ2322L and CRJ2451L
Co-Requisite courses: None
Equivalent courses: CRJ340L Criminal Procedures

This course examines the rights of those accused of criminal wrongdoing, from the time they become suspects, through incarceration. Topics covered include issues surrounding search and seizure, right of counsel, right against self-incrimination, use of force, right to medical treatment, sentencing guidelines, identification procedures, and protection from cruel and unusual punishment. Additionally, topics include court rules governing trial procedures and the roles the defense and prosecuting attorneys play in the adjudication of criminal cases. Pre-Requisite: CRJ1400, CRJ2322 and CRJ2451

**CRJ3434L  Interpersonal Violence (3)**

Pre-Requisite: CRJ1400L
Co-Requisite courses: None
Equivalent courses: CRJ334L Interpersonal Violence

An examination of domestic violence and its interaction with the criminal justice system. Areas of focus include causative factors, legal issues, substance abuse correlations, victim advocates, and behavior modification programs. Particular emphasis will be placed on in-depth chronic offender profiles. Pre-Requisite: CRJ1400

**CRJ3441L  Criminal LAW (3)**

Pre-Requisite: CRJ1400L and CRJ3451L
Co-Requisite courses: None
Equivalent courses: CRJ341L Criminal Law

This course explores the body of written law that defines crimes and specifies punishment. Substantive criminal law emphasizes the nature, history, and purpose of criminal law; its constitutional limits; general principles of
criminal liability; the defenses of justification and excuse; and the specific elements of crimes. Pre-Requisite: CRJ1400 and CRJ2451

CRJ3520L  Criminal Investigation (3)

Pre-Requisite: CRJ1400L
Co-Requisite courses: None
Equivalent courses: CRJ320L Criminal Investigation

The course will introduce the student to basic criminal investigation theories and techniques. The development of contemporary criminal investigation and criminalistics will be examined, as well as crime specific investigative technology. Pre-Requisite: CRJ1400

CRJ3530L  Victims and Witnesses in the Criminal Justice System (3)

Pre-Requisite: CRJ1400L
Co-Requisite courses: None
Equivalent courses: CRJ330L Victims and Witnesses in the Criminal Justice System

This course focuses on the plight of victims and witnesses of crime from legal, social, and psychological perspectives. Topics include the history of victimology, victim experiences, victim's rights, and official criminal justice system responses to victims and witnesses. Restorative justice concepts are explored throughout this study. Pre-Requisite: CRJ1400

CRJ3632L  Women in the Criminal Justice System (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: CRJ332L Women in the Criminal Justice System

A course designed to explore the roles of women in the system. Study will focus on the theories and myths about women as criminals, as victims, and as criminal justice professionals.

CRJ3636L  Community Relations and the Criminal Justice System (3)

Pre-Requisite: CRJ1400L and SOC1100L and PSY1401L
Co-Requisite courses: None
Equivalent courses: CRJ336L Community Relations and the Criminal Justice System

A course designed to explore the interpersonal expectations and relationships between criminal justice practitioners and community members. The content will focus on basic psychological and sociological principles (including attitudes, perception, self-image, stereotypes, subcultures, and rumor), as well as discretion, and their application to the interaction between criminal justice practitioners and community members. Pre-Requisites: CRJ1400, SOC1100, PSY1401

CRJ3641L  Comparative Criminal Justice System (3)

Pre-Requisite: CRJ1400, CRJ2322, CRJ2224, CRJ2451 and Junior/Senior Majors only
Co-Requisite courses: None
Equivalent courses: CRJ348L Comparative Criminal Justice Systems
This meets the requirement as a writing intensive course in the major. This course compares the U.S. criminal justice system with selected foreign systems. A cross-cultural overview will study the nature, theories, and mechanisms for fighting crime and dealing with criminals in different societies. An end goal will attempt to discover innovative ways that may deal with crime in the United States. Pre-Requisite: CRJ1400, CRJ2322, CRJ2224, CRJ2451 and Junior/Senior Majors only.

CRJ3842L  Criminology (3)

Pre-Requisite: CRJ1400L and PSY1401L and SOC1100L  
Co-Requisite courses: None  
Equivalent courses: CRJ342L Criminology

This course examines the nature and complexity of crime as a social problem. The measurement, techniques of data collection, and patterns of crime are explored as well as various classical, biological, psychological, and sociological theories of crime causation. Throughout the course, policy implications of the content matter will be considered. Pre-Requisite: CJR1400, PSY1401 and SOC1100

CRJ3844L  Ethics in Criminal Justice (3)

Pre-Requisite: CRJ1400L  
Co-Requisite courses: None  
Equivalent courses: CRJ344L Ethics in Criminal Justice

The ethics curriculum is designed to further the goals of professionalization of the criminal justice system. The course is designed to lay a foundation for our students to better make moral decisions as they face inevitable ethical dilemmas as practitioners in the field of criminal justice. Students will first be required to analyze various theories of moral decision making, including, but not limited to, the theories of moral imperatives and utilitarianism. Throughout the semester, students will be applying these theories to practical situations. This will be accomplished by presenting hypotheticals to the class, and requiring the class to analyze the hypotheticals individually and in-group discussions. Pre-Requisite: CRJ1400

CRJ4438L  Psychological Aspects of the Criminal Justice System (3)

Pre-Requisite: CRJ1400L  
Co-Requisite courses: None  
Equivalent courses: CRJ338L Psychological Aspects of the Criminal Justice System

This course looks at the behavior of people in the system and seeks to help students better understand their own values and behavior. Coverage will include the impact of roles played by people in courts, corrections, law enforcement, probation, parole, and rehabilitation. An important segment will deal with the developing use of hypnosis in recall enhancement. As time permits, issues such as child abuse and rape will be included. Pre-Requisite: CRJ1400

CRJ4539L  Counseling Skills for Criminal Justice Professionals (3)

Pre-Requisite: CRJ1400L and CRJ2224L and CRJ3434L  
Co-Requisite courses: None  
Equivalent courses: CRJ339L Counseling Skills for Criminal Justice Professionals

The purpose of this course is to provide the student with an understanding of counseling theory and specific skills as they relate to criminal justice professionals. The focus will be on the use of these skills with offenders who have
been referred to agencies as an alternative to incarceration. Emphasis will be placed on rapport development, listening skills, and communication skills. Consideration will be given to problem-solving strategies, decision making and stress management. Some attention will be given to a review of vocational tests and interest inventories with emphasis on proper interpretation and use of results. Pre-Requisite: CRJ1400, CRJ2224, CRJ3434

**CRJ4860L  Senior Seminar (3)**

Pre-Requisite: Senior status
Co-Requisite courses: None
Equivalent courses: CRJ360L Senior Seminar

This meets the requirement as a writing intensive course in the major. A course designed as a culminating experience for criminal justice majors. Students will be involved in library research and discussion of critical aspects of the criminal justice system. Position papers on various questions will be prepared, presented, and defended in the course of the semester. Pre-Requisite: Senior status

**CRJ4880L  Directed Study (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: CRJ399L Directed Study

An individualized program of reading, library research, and interviewing, under direction of a faculty member. Pre-Requisites: None

**CRJ4979L  Criminal Justice Practicum  (3-6)**

Pre-Requisite: Senior status and permission of practicum director. Minimum 2.0 GPA
Co-Requisite courses: None
Equivalent courses: CRJ371L Criminal Justice Practicum

This meets the requirement as a writing intensive course in the major. A supervised work experience for majors in criminal justice. Students will have the opportunity to observe professionals in action and to take part in the activities of the agency, thereby utilizing and improving skills learned through that observation along with those from classroom study. Pre-Requisite: Senior status and permission of practicum director. Minimum 2.0 GPA

**CRIMINAL JUSTICE – (Graduate)**

**CRJ5240L  The Juvenile Justice System (3)**

Pre-Requisite: Seniors may take with permission
Co-Requisite courses: None
Equivalent courses: CRJ429L The Juvenile Justice System

An in-depth look at the juvenile justice system from its historical origins to current practices. Special emphasis is placed on juvenile justice terminology, landmark legal cases and procedures used with juveniles and their families. Pre-Requisite: Seniors may take with permission

**CRJ5310L  Interpersonal Violence (3)**
An examination of domestic violence and its interaction with the criminal justice system. Areas of focus include causative factors, legal issues, substance abuse correlations, and victim advocate and behavior modification programs. Particular emphasis will be placed on in-depth chronic offender profiles. Pre-Requisite: Seniors may take with permission.

CRJ5410L  Ethics in Criminal Justice (3)

Pre-Requisite: Seniors may take with permission
Co-Requisite courses: None
Equivalent courses: CRJ444L Ethics in Criminal Justice

This course is designed to explore various ethical dilemmas facing the criminal justice professional. The content will focus on applying various theories of moral decision making, including moral rationalism, utilitarianism, and Kant’s categorical imperative to hypothetical situations confronting the criminal justice practitioner. Pre-Requisite: Seniors may take with permission.

CRJ5420L  Counseling Skills for Criminal Justice Professionals (3)

Pre-Requisite: Seniors may take with permission
Co-Requisite courses: None
Equivalent courses: CRJ493L Counseling Skills for Criminal Justice Professionals

The purpose of this course is to provide the student with an understanding of counseling theory and specific skills as they relate to criminal justice professionals. The focus will be on the use of these skills with offenders who have been referred to agencies as an alternative to incarceration. Emphasis will be placed on rapport development, listening skills, and communication skills. Consideration will be given to problem-solving strategies, decision making, and stress management. Some attention will be given to a review of vocational tests and interest inventories with emphasis on proper interpretation and use of results. Pre-Requisite: Seniors may take with permission.

CRJ5510L  Legal Aspects of the Criminal Justice System (3)

Pre-Requisite: Seniors may take with permission
Co-Requisite courses: None
Equivalent courses: CRJ451L Legal Aspects of the Criminal Justice System

The course is designed to give an overview of legal principles, which provide a framework for the criminal justice system. An analysis of cases and statutes, pertinent to areas under consideration, is emphasized together with instruction in fundamental aspects of legal research. Areas covered include investigation, initial appearance, arraignment, preliminary examination, trial, guilty pleas or conviction, sentence, and release. Pre-Requisite: Seniors may take with permission.

CRJ5610L  Psychological Aspects of the Criminal Justice System (3)

Pre-Requisite: Seniors may take with permission
Co-Requisite courses: None
Equivalent courses: CRJ438L Psychological Aspects of the Criminal Justice System

This course looks at the behavior of people in the system and seeks to help students better understand their own values and behaviors. Coverage will include the behaviors of professionals in the courts, corrections, law enforcement, probation, and parole. An important segment of the course will deal with causes of criminal behavior especially as to the causes of child abuse, domestic violence, and rape. Pre-Requisite: Seniors may take with permission.

CRJ5660L Substance Abuse Issues in Criminal Justice (3)

Pre-Requisite: Seniors may take with permission.
Co-Requisite courses: None
Equivalent courses: CRJ495L Substance Abuse Issues in Criminal Justice

This course examines the impact of drugs and alcohol use/abuse on individual, society and the criminal justice system. The course will focus on various categories of abusable substances, their physical and psychological effects, and the continuum of treatment modalities used in combating chemical dependency. Since drug and alcohol use account for the single largest category of criminal arrests and convictions in the United States, specific focus will be on the criminal justice’s responses to drug/alcohol related crimes: law enforcement, innovative treatment approaches and drug testing technologies. Pre-Requisite: Seniors may take with permission

ECONOMICS – (Undergraduate)

ECO1000L Survey of Economics (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: ECO100L Survey of Economics

This is a survey course developed for the non-economic and non-business school major, designed to explore in a non-technical manner economic issues of importance to both the macro and micro economy. Potential topics to be covered include: an examination of the workings of a market system, inflation, economic growth, unemployment, fiscal and monetary policy, international trade, consumer demand, market structure and firm theory, income distribution and poverty, and antitrust, agricultural, and environmental policies. Pre-Requisites: None

ECO1010L World Economic Geography (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: IBS110L World Economic Geography

The course provides a systematic framework for understanding the contemporary world that we now live in. It is a world of interconnecting countries possessing special combinations of natural, cultural, social, political, and economic environments. The course will help the student to develop an appreciation of these countries and their individual impact on the rest of the world. This will lead to a better understanding of not only the old world order but, more importantly, the new world now evolving. The course breaks the world down into 12 geographical realms, each of which will be reviewed in detail. Pre-Requisites: None

ECO1401L Principles of Economics I (3)
This course is devoted to the study of the fundamental principles and processes of an economic system, with special emphasis on the coordination and control of the United States economy. Emphasis is on the macroeconomic approach. Pre-Requisites: None

**ECO1402L  Principles of Economics II (3)**

Pre-Requisite: ECO1401L  
Co-Requisite courses: None  
Equivalent courses: ECO202L Principles of Economics II

This course examines individual decision making in various applied economic environments. Areas of application include international trade, market structures, labor markets, and various U.S. institutional environments, both public and private. Basic emphasis is on the microeconomic approach. Pre-Requisite: ECO1401

**ECO2210L  Labor Economics (3)**

Pre-Requisite: ECO1401L and ECO1402L  
Co-Requisite courses: None  
Equivalent courses: ECO210L Labor Economics

This course studies the economic principles of labor markets, and human resource economics. Issues concerning labor supply and demand, wage differentials, the role of education, investment in human capital, unemployment, discrimination, income inequality, and labor unions are discussed, with emphasis on application to the U.S. institutional framework. Pre-Requisite: ECO1401 and ECO1402

**ECO2400L  International Economics (3)**

Pre-Requisite: ECO1401L and ECO1402L  
Co-Requisite courses: None  
Equivalent courses: ECO314L International Economics

This course provides an analysis of economic relationships among countries, including studies of the balance of payments, the international currency system, government adjustment policies, the pure theory of international trade, and international financial markets, as well as an examination of recent issues of national industrial trends towards protectionism. Pre-Requisite: ECO1401, ECO1402

**ECO2420L  U.S. Economic History (3)**

Pre-Requisite: ECO1401L and ECO1402L  
Co-Requisite courses: None  
Equivalent courses: ECO219L U.S. Economic History

This course is a survey of U.S. economic history from its colonial beginnings to the present, with emphasis on the interaction of economic forces and historical development. Basic economic innovations, ranging from the utilization of unique forms of U.S. transportation to the innovative American system of manufacturing, will be
analyzed. The importance of immigration policy and the status of minorities in the development of the American economy will also be examined. Pre-Requisite: ECO1401, ECO1402

ECO2440L  Economics of Public Policy Towards Business (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO216L Economics of Public Policy Toward Business

This course examines the existence and impact of concentration of economic power in the U.S. business community, and the role of the public sector in the control of influence of concentration. Special emphasis will be placed on legislative enactments, judicial enforcement of antitrust law, and the impact of government regulation on the dispersion and decentralization of economic power and influence. Pre-Requisite: ECO1401 and ECO1402

ECO2480L  Economic Issues (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO213L Economic Issues

This course allows students to apply economic knowledge and reasoning to a wide variety of important issues. Both domestic and international topics of major importance can be considered; for example, urban decay, pollution, the re-industrialization of American industry, women in the workforce, international conflict resolution through trade, and the history of minorities in U.S. economic development. Pre-Requisite: ECO1401 and ECO1402 or permission of instructor

ECO2600L  Principles of Insurance (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO309L Principles of Insurance

This course is designed to provide a broad understanding of general theory and practice, with emphasis upon those principles common to all special fields: property, life, disability, liability, workers' compensation, fidelity, and automobile insurance. Accounting majors may take this course for economics credit. Pre-Requisite: ECO1401, ECO1402

ECO2613L  Microeconomic Theory (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO313L Microeconomic Theory

This course provides the student with an opportunity to develop a thorough analysis of demand, supply, production and cost relationships, monopoly, competition, oligopoly, labor markets, and the operation of industry in the modern American economy. Individual decisions of consumption, production, and labor supply are emphasized. Pre-Requisite: ECO1401, ECO1402

ECO3200L  Money and Banking (3)
The course presents the essentials of money and banking with special reference to developments of recent years. Balanced emphasis upon both theoretical and practical aspects of the subject is the basis for interpretation of problems such as inflation, recession, the interest rate structure, and national debt. Pre-Requisite: 12 hours of economics and/or finance

ECO3210L  Macroeconomic Theory (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO316L Macroeconomic Theory

This course allows the student an opportunity to develop a thorough understanding of the macroeconomics through an analysis of the effects of fiscal and monetary policy on aggregate output, interest rates, the price level, and inflation in the domestic economy and abroad. Special emphasis is placed on recent U.S. experience with inflation and unemployment, and several new proposals designed to counter cyclical behavior and stagnant growth in the mature U.S. economy. Pre-Requisite: ECO1401, ECO1402

ECO3250L  Comparative Economic Systems (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO318L Comparative Economic Systems

This course is designed to develop comprehensive understanding of the economics of such political environments as communism, Marxism, modern socialism, fascism, and market-directed socialism. The economic systems of selected emerging countries are discussed, including the modern Russian and Eastern European economy, China, and Cuba. Comparisons are drawn with modern mixed-capitalist economic systems in the U.S., Japan, and Hong Kong and selected countries in Western Europe. Pre-Requisite: ECO1401, ECO1402

ECO3300L  Urban and Regional Economics (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO319L Urban and Regional Economics

This course covers the theory and applications of the economics of urban areas and regional forces. The importance of economic factors working to shape the physical environment is emphasized, using modern tools of economic analysis in an applied setting, with special emphasis on the Springfield area and New England in historical and modern contexts. Case studies of urban economic growth, urban planning, urban renewal, and financing of urban services are discussed. Pre-Requisite: ECO1401, ECO1402

ECO3320L  Important Economists Contributions to Economic Thought (3)

Pre-Requisite: ECO1401L and ECO1402L
Co-Requisite courses: None
Equivalent courses: ECO321L Important Economists Contributions to Economic Thought
This course presents a study of the most important individuals in the development of modern economic thought. Both early and contemporary economists will be discussed, and their specific contributions will be related to current economic theory and practice. Pre-Requisite: ECO1401, ECO1402

The course introduces the student to the practice of economic reasoning in the solution of real-world managerial decision problems. In addition to developing the theoretical and analytical tools of economic decision making, this course enables students to develop judgment skills required in the application of managerial economics. Emphasis is placed on the use and application of economic analysis in clarifying problems, in organizing and evaluating information, and in comparing alternative courses of action. Pre-Requisite: ECO1401, ECO1402 and MGT1400. Open to juniors and seniors.

**ECO4220L  Econometrics (3)**
Pre-Requisite: ECO1401, ECO1402, MAT1250, MAT1430 or Junior or senior status preferred
Co-Requisite courses: None
Equivalent courses: ECO342L Econometrics

The purpose of this course is to introduce the theory and practice of econometric analysis to undergraduate students. Topics include basic probability theory and statistics, distribution theory, estimation and inference, bivariate regression, introduction to multivariate regression, introduction to statistical computing (using Excel). Pre-Requisite: ECO1401, ECO1402, MAT1250, MAT1430 or Junior or senior status preferred

**ECO4894L  Directed Study (3)**
Pre-Requisite: Senior standing and the permission of the Instructor
Co-Requisite courses: None
Equivalent courses: ECO398L Directed Study

Selected readings chosen in accordance with the student's interests. Pre-Requisite: Senior standing and the permission of the Instructor

**ECONOMICS – (Graduate)**

**ECO5000L  Economics (3)**
Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: GAT610L Economics

Topics include essentials of microeconomics and macroeconomics as an explanation of how contemporary free enterprise systems function. Students will also learn about the development of an understanding of major concepts, and their analysis and relevance to the real world of economic activity. Pre-Requisites: None

**ECO5210L  Managerial Economics (3)**
Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: MBA550L Managerial Economics

This course reviews major topics in microeconomics in combination with recent mathematical developments examined as aids to the decision maker in the solution of problems faced by both public and private enterprise. It introduces to the student to an analysis of demand, supply cost, prices and market structure from the point of view of the firm and the industry operating in a mixed enterprise system. The principles of intelligent economic
planning involving the determination of the most economical combination of productive inputs and outputs are examined in detail.

**ECO5234L** Public Finance (3)

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: MPA529L Public Finance

This course presents an economic analysis of the revenue and expenditure activities of governments. Emphasis is placed on the effects of government policies of expenditure, budget, and debt on the performance of the economy. Pre-Requisites: None

**EDUCATION – (Undergraduate)**

**EDU2102L** Introduction to Education: Fieldwork (Sophomore Status) (1)

Pre-Requisite: ENG1201, ENG1202 and Sophomore status required.  
Co-Requisite courses: None  
Equivalent courses: EDC105L Introduction to Education: Fieldwork (Sophomore Status)

A one-credit course offered for sophomores (and junior transfer students) in the fall for undergrad Education minors. This course is designed to introduce students to public school settings in suburban and rural locations. Partnerships are established with five school districts and students will take fieldtrips to the various locations for classroom observations (early pre-practicum fieldwork). A lab fee will be charged to cover transportation costs. Pre-Requisite: ENG1201, ENG1202 and Sophomore status required.

**EDU2103L** The MTEL Prep Course (Sophomore Status) (1)

Pre-Requisite: ENG1201L and ENG1202L  
Co-Requisite courses: None  
Equivalent courses: EDC103L The MTEL Prep Course

The MTEL preparatory course is a seven-week, one-credit course that prepares students for the communication and literacy portion of the Massachusetts Test for Educator Licensure (MTEL). While the course focuses on writing, reading, and the various types of MTEL questions, emphasis is placed on writing fundamentals (grammar, mechanics, punctuation) and on reading comprehension. Students write and edit essays, read and summarize passages, learn test-taking strategies, and take practice exams. Students take the Communication and Literacy MTELs at the conclusion of the course. Lab fee is charged. Pre-Requisite: ENG1201, ENG1202

**EDU3200L** Principles of Education: EC, Elem., Mod. Dis. (PreK-8) (3)

Pre-Requisite: Junior status  
Co-Requisite courses: None  

An introduction to teaching that examines the dispositions, knowledge and skills of the 21st century educator. An overview of American education will focus on historical and contemporary trends in teaching, learning, and curriculum. Diversity in American classrooms, including students with special needs, limited English proficiency, economic or social disadvantage, gifted and talented, etc., will be examined in keeping with current practices such
as, inclusion, differentiated instruction, ELL support, and response to intervention. Students will engage in initial lesson plan construction selecting topics in science, Massachusetts geography and social studies. Reference to the principles and learning standards of the Massachusetts Curriculum Frameworks (CCSS) is required. Field experience required. Pre-Requisite: Junior status

EDU3201L  Principles of Education: Middle/Secondary (3)

Pre-Requisite: Junior status
Co-Requisite courses: None
Equivalent courses: EDC201L Principles of Education: Middle / Secondary

An introduction to teaching that examines the dispositions, knowledge and skills of the 21st century educator. An overview of American education will focus on historical and contemporary trends in teaching, learning, and curriculum. Diversity in American classrooms, including students with special needs, limited English proficiency, economic or social disadvantage, gifted and talented, etc., will be examined in keeping with current practices such as, inclusion, differentiated instruction, ELL support, and response to intervention. Students will engage in initial lesson plan construction selecting topics in science, Massachusetts geography and social studies. Reference to the principles and learning standards of the Massachusetts Curriculum Frameworks (CCSS) is required. Field experience required. Pre-Requisite: Junior status

EDU3210L  Child Growth and Development (3)

Pre-Requisite: PSY1401L
Co-Requisite courses: None
Equivalent courses: EDC210L Child Growth and Development

This course is an introduction to the study of the child from conception to the onset of adolescence. Basic concepts of child development, especially those related to learning and social development are stressed, with special emphasis on pre-school and kindergarten age groups. Pre-Requisite: PSY1401

EDU3321L  Introduction to Special Education (3)

Pre-Requisite: Junior status
Co-Requisite courses: None
Equivalent courses: EDC321L Introduction to Special Education

The purpose of this course is to investigate developmental factors and influences that impact child growth and learning for the special needs child. The course will provide students with the necessary knowledge and skills to identify those children who have special needs and study the ways and means that may be used to aid these children. Students will explore current early identification strategies and techniques as well as Response To Intervention (RTI) procedures used to facilitate struggling learners in the educational setting. State regulations (Chapter. 766) and Federal requirements (IDEA) will be covered in depth, as well as information about services provided and/or available to students by other agencies. An analysis of local/district/state data will be included. Students will acquire knowledge of how to use technology and assistive technology with special needs students and its curriculum implications. This includes Autism and Attention Deficit Disorder (w/wo hyperactivity). Course participants will gain an understanding of the educational problems which mild, moderated or severe handicaps imposes on a special needs child or youth and how this applies to the preparation and implementation of the Individual Educational Plan (IEP). Pre-Requisite: Junior status

EDU4300L  Teaching Reading and Language Arts, EC, Elem, Mod. Dis. (3)
Pre-Requisite: EDU3200/3201, EDU3321, senior status
Co-Requisite courses: None
Equivalent courses: EDC317L Teaching Reading and Language Arts: EC, Elem, Mod. Dis.

A survey of theories, practices, and techniques of reading instruction for children in grades preK-8. Various methods and materials used in the teaching-learning process will be examined, including the informal diagnosis and assessment of reading skills. The Massachusetts English Language Arts Curriculum Frameworks, as well as related documents for English language learners and guidelines for special education students will be central to developing and presenting reading strategy lessons. Instructional accommodations for diverse learners will explore methods in sheltered English language immersion, special education, gifted and talented enrichment, and compensatory strategies for rural and urban poverty populations. Field work experiences and a diagnostic case-study assignment will integrate all course components. On-line research of the National Reading Panel Report and other professional sources will supplement course learning. Field experience is required. Pre-Requisite: EDU3200/3201, EDU3321, senior status

EDU4301L Teaching Mathematics: EC, Elem., Mod. Dis, (3)

Pre-Requisite: MAT1200/1201 or equivalent, EDU3200/3201, EDU3321, Senior status
Co-Requisite courses: None

Prospective educators will examine theoretical and developmental models of mathematics instruction in order to plan and implement effective instruction based on the diverse cognitive, language, and developmental needs of students. Using technology to access national and local district assessment data, students will analyze and identify areas of need within the mathematics curriculum and engage in instructional decision-making. Demonstrations and micro-teaching will reference the Massachusetts Mathematics Curriculum Framework. Field experiences are required for initial licensure. Pre-Requisite: MAT1200/1201 or equivalent, EDU3200/3201, EDU3321, Senior status.

EDU4302L Multisensory Teaching of Language Skills (3)

Pre-Requisite: EDU3200/3201, EDU3321 and Senior status
Co-Requisite courses: None
Equivalent courses: EDC302L Multisensory Teaching of Language Skills

This course will examine the basics of a multisensory, structured language curriculum for teaching reading, writing, spelling, comprehension and composition to diverse groups of students including those with reading problems, language disorders, cognitive disabilities, mild and moderate specific learning disabilities, and English Language Learners. There will be hands-on experience as well as exemplary lessons exploring best practice strategies to facilitate the development of reading and language skills. The students will learn how and where the sounds of English are made; how to introduce phonemic awareness activities; and how to teach sound-symbol associations in a logical, scientific way according to latest research. Students explore the qualities of children’s and adolescent literature, including the various genres, meaning, voices, and visual elements that are central to engaging learners through literature. Students will become proficient with regard to terminology relating to instructional standards and techniques in the areas of reading, written language, and content areas such as Science and Social Studies. They will become familiar with the use of identified best practice strategies for use in both specialized and the general education inclusive settings. Pre-Requisite: EDU3200/3201, EDU3321 and Senior status.

EDU4311L Teaching Mathematics: Secondary and Middle (3)
Pre-Requisite: EDU3201, EDU3321, math course work, senior status
Co-Requisite courses: None
Equivalent courses: EDC311L Teaching Mathematics: Secondary and Middle

This course provides a study of secondary and middle mathematics curricula and various methods for planning instruction for all learners and evaluation in the classroom. A survey of current textbooks, instructional materials, and testing materials will be included. Changes and developments in the area of teaching mathematics will be addressed utilizing the Massachusetts Curriculum Frameworks and current professional literature. Field experience is required. Pre-Requisite: EDU3201, EDU3321, math course work, senior status

EDU4320L  Reading & Communication in the Middle and Secondary Schools (3)

Pre-Requisite: EDU3200/3201, EDU3321, senior status
Co-Requisite courses: None
Equivalent courses: EDC320L Reading & Communication in the Middle and Secondary Schools

This course addresses the developmental reading and language needs of the middle and high school student in the content area classroom spanning from "learning to read" to "reading to learn." The strategic use of multiple texts, including 21st century technology literacies, will be presented using micro-teaching lessons to demonstrate effective practice. Using technology to access national and local assessment data, students will analyze and identify areas of need within the English language arts and their intended subject area to guide instructional decision-making. Instructional accommodations for diverse learners will explore methods in sheltered English language immersion, special education, gifted and talented enrichment, and compensatory strategies for rural and urban poverty populations. Field work experiences and a diagnostic case-study assignment will integrate all course components. On-line research of the National Reading Panel Report and other professional sources will be integral to course learning. Field experience is required. Pre-Requisite: EDU3200/3201, EDU3321, senior status

EDU4340L  Teaching Children's and Adolescent Literature (3)

Pre-Requisite: EDU3200L and EDU3201L
Co-Requisite courses: None
Equivalent courses: None

The course involves a general study of the field of literature for children and adolescents, plus ways to encourage the reading of literature by children. Picture books, traditional literature, non-fiction, historical fiction, poetry, and fantasy will be explored to help promote the reader's understanding of children and adolescents and their literature. Pre-Requisite: EDU3200 or EDU3201

EDU4341L  Assessment and Curriculum for Early Childhood (3)

Pre-Requisite: EDU3200, EDU3321, EDU300, PSY2450 and Senior status
Co-Requisite courses: None
Equivalent courses: EDC395L Assessment and Curriculum for Early Childhood

This course examines a full range of effective early childhood programs and curriculum. State curriculum documents, along with a variety of assessments, materials and teaching strategies are examined for their effectiveness in addressing the diverse cognitive, language, and developmental characteristics of young learners. Particular consideration is given to special needs of children with limited English proficiency, cognitive or language deficits, learning disabilities, economic or social disadvantage, etc. The administration and interpretation of informal and formal screening and evaluation procedures will be used to assess individual
students. Assessment findings are used to plan instruction for young children with and without special needs. Pre-Requirement: EDU3200, EDU3321, EDU300, PSY2450 and Senior status.

EDUCATION FOR THE EdD

EDU5010L Essentials of Quality Educations (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: None

This course focuses on the elements of effective teaching: theories of learning, practical applications for educating all children, meeting the emotional needs of children, understanding the different learning styles, instructional planning, strategies for teaching, classroom management, and student assessment. Pre-Requisites: None

EDU5030L Foundations of Administrative Leadership (3)

Pre-Requisite: Enrollment in graduate program in School Administration.
Co-Requisite courses: None
Equivalent courses: None

The course is designed to study the philosophical, sociological, historical, and psychological domains and basic issues facing education today by applying this knowledge to such issues as regular, vocational, business, technical, compensatory, and special education. Researching a current educational issue is required. Pre-practicum exercises are embedded within the assignments. 15 hours of pre-practicum fieldwork is required. Pre-Requisites: enrollment in graduate program in School Administration.

EDU5100L Curriculum Development and Design (3)

Pre-Requisite: Enrollment in graduate program in School Administration.
Co-Requisite courses: None
Equivalent courses: None

In an era of standards-based instruction, administrators must have a sound working knowledge of the principles of curriculum design, development, and implementation. Educational leaders will gain knowledge on how to make important decisions regarding the content of curriculum, the selection of appropriate instructional materials, and the modification of teaching strategies to accommodate the needs of ALL learners. 15 hours of pre-practicum fieldwork is required. Pre-Requisite: Enrollment in graduate program in School Administration.

EDU5400L The Reflective Practitioner (3)

Pre-Requisite: Enrollment in graduate education program.
Co-Requisite courses: None
Equivalent courses: EDC400L The Reflective Practitioner

Candidates for initial teacher licensure will examine the dispositions, knowledge and skills of the 21st century educator. A study of American education will explore the historical, economic, and political trends underpinning our current approaches to instruction, curriculum and assessment. Diversity in the classroom and the implications for teaching students with special needs, English Language learners, and students from low income families will
be studied. A related investigation of district-based demographic and assessment data will be conducted, followed by the analysis of current practices, such as, inclusion, differentiated instruction, and response to intervention. The Common Core Curriculum Frameworks (MCF) will be incorporated into instructional mini-lesson demonstrations. A concentrated ELL module will develop in-depth understanding of the demographic, cultural, language and educational characteristics of these unique learners. Lesson plan development with instructional considerations for ELLs will align with ELL case study activities. Field experience required. Pre-Requisite: Enrollment in graduate education program.

**EDU5410L  Introduction to Special Education (3)**

Pre-Requisite: Enrollment in graduate program in School Administration.
Co-Requisite courses: None
Equivalent courses: EDC521L Introduction to Special Education

The purpose of this course is to investigate developmental factors and influences that impact child growth and learning for the special needs child. The course will provide students with the necessary knowledge and skills to identify those children who have special needs and study the ways and means that may be used to aid these children. Students will explore current early identification strategies and techniques as well as Response To Intervention (RTI) procedures used to facilitate struggling learners in the educational setting. State regulations (Chapter 766) and Federal requirements (IDEA) will be covered in depth, as well as information about services provided and/or available to students by other agencies. An analysis of local/district/state data will be included. Students will acquire knowledge of how to use technology and assistive technology with special needs students and its curriculum implications. This includes Autism and Attention Deficit Disorder (w/wo hyperactivity). Course participants will gain an understanding of the educational problems which mild, moderated or severe handicaps impose on a special needs child or youth and how this applies to the preparation and implementation of the Individual Educational Plan (IEP). Pre-Requisite: Enrollment in graduate program in School Administration.

**EDU5520L  Teaching Reading and Language Arts: EC, Elem., Mod. Dis. (3)**

Pre-Requisite: EDC5410 and Enrollment in graduate education program.
Co-Requisite courses: None
Equivalent courses: EDC516L Teaching Reading and Language Arts: EC, Elem., Mod. Dis.

A survey of theories, practices, and techniques of reading instruction for children in grades preK-8. Various methods and materials used in the teaching-learning process will be examined, including the informal diagnosis and assessment of reading skills. The Massachusetts English Language Arts Curriculum Frameworks, as well as related documents for English language learners and guidelines for special education students will be central to developing and presenting reading strategy lessons. Instructional accommodations for diverse learners will explore methods in sheltered English language immersion, special education, gifted and talented enrichment, and compensatory strategies for rural and urban poverty populations. Field work experiences and a diagnostic case-study assignment will integrate all course components. On-line research of the National Reading Panel Report and other professional sources will supplement course learning. Field experience is required. Pre-Requisite: Enrollment in graduate education program EDC5410.

**EDU5523L  Child and Adolescent Development (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: EDC523 Child and Adolescent Development
This course is designed to give the students general knowledge of the typical course of development in children and adolescents in the major areas: physical, cognitive, and social-emotional. The ages from 3 to 21 will be the focus of the information provided in this course since teachers, school counselors, and school psychologists work within this age group primarily. The relative contribution of heredity and environment are considered when describing and explaining behavior. Specific focus is on the impact of early childhood education, poverty, abuse, and technology on development as well as on the educational process. Cultural, English language learning and socioeconomic factors are also addressed within the context of contemporary times.

**EDU5530L  Teaching Mathematics: EC, Elem., Mod. Dis. (3)**

Pre-Requisite: EDU5410L and Enrollment in graduate education program.
Co-Requisite courses: None

Prospective educators will examine theoretical and developmental models of mathematics instruction in order to plan and implement effective instruction based on the diverse cognitive, language, and developmental needs of students. Using technology to access national and local district assessment data, students will analyze and identify areas of need within the mathematics curriculum and engage in instructional decision-making. Demonstrations and micro-teaching will reference the Massachusetts Mathematics Curriculum Framework and the NCTM standards. Field experience is required. Pre-Requisite: EDC5410L and Enrollment in graduate education program.

**EDU5532L  Short Bridge Course for Sheltered English Instruction (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: EDC532L Short Bridge Course for Sheltered English Instruction

Like the SEI Teacher Endorsement course, the Short Bridge Endorsement Course focuses on current theories and evidence-based instructional practices related to the teaching of ELLs. This course is designed to promote continuous improvement in educator practice and to build teachers' confidence and familiarity with research-proven practices for working with ELLs. Throughout the course, teachers have opportunities to practice effective, research-based strategies, to analyze their practice, to provide and receive feedback, and to reflect on their experiences. Though this cycle of reflective practice, teachers build on the skills, knowledge, and dispositions necessary for the education of English learners that they gained in the Category trainings. Assignments are designed to reinforce key concepts and practices. As participants proceed through the course, assignments will include a paper drawing on classroom data and information, classroom tryouts of modeled strategies which teachers will assess using a tool provided for the purpose; and the development, implementation, and presentation of instructional segments. Throughout, participants will be asked to reflect upon the impact of the course material and activities on their practice.

**EDU5533L  Long Bridge Course for Sheltered English Instruction (3)**

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: None

The purpose of this course is to prepare the Commonwealth’s teachers with the knowledge and skills to effectively shelter their content instruction so that our growing population of English language learners (ELLs) can access curriculum, achieve academic success, and contribute their multilingual and multicultural resources as participants and future leaders in the 21st century global economy.
EDU5540L  Multisensory Teaching of Language Skills (3)

Pre-Requisite: EDU3321L or EDU6664L or EDU5520L and Enrollment in graduate education program.
Co-Requisite courses: None
Equivalent courses: EDC 402L Multisensory Teaching of Language Skills

This course will examine the basics of a multisensory, structured language curriculum for teaching reading, writing, spelling, comprehension and composition to diverse groups of students including those with reading problems, language disorders, cognitive disabilities, mild and moderate specific learning disabilities, and English Language Learners. There will be hands-on experience as well as exemplary lessons exploring best practice strategies to facilitate the development of reading and language skills. The students will learn how and where the sounds of English are made; how to introduce phonemic awareness activities; and how to teach sound-symbol associations in a logical, scientific way according to latest research. Students explore the qualities of children’s and adolescent literature, including the various genres, meaning, voices, and visual elements that are central to engaging learners through literature. They will become familiar with the use of identified best practice strategies for use in both specialized and the general education inclusive settings. Pre-Requisite: Enrollment in graduate education program, EDU3321, EDU6664 or EDU5520.

EDU5541L  Multicultural Communications for Educators (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: None

An introduction to basic issues of intercultural communication, with emphasis on their applicability to educators. Topics include Communication and Intercultural Competence, Cultural Differences in Communication, Coding Intercultural Communication and Communicating in Intercultural Relationships. Relationships with students, parents and community stakeholders, as well as implications for learning and teaching expectations as they relate to cultural background will be explored.

EDU5601L  Introduction to School Leadership and Management for the 21st Century (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: None

The course is designed to provide the student with an introduction to the perspectives of elementary/middle/secondary school and central office administration and management, as well as historical and current theories and practices in the field. Readings, case studies, on-site visitations, analysis of current legislative reform and situational discourse are part of the course activities. State Curriculum Frameworks will be reviewed in light of Curriculum, Instruction and Assessment in a Learning Community. Coursework will reflect upon the Professional Standards for Administrators which are embedded in the course expectations and will be demonstrated in the pre-practicum/practicum experiences. The school administrator has many roles within the school community and the community at large. The person holding this position is expected to be knowledgeable about curriculum, instruction, and assessment, to be a leader with vision and the skills to work collaboratively with many different constituencies. In addition to those rigorous expectations, the administrator must successfully manage the day-to day operations of the building. School administrators must be knowledgeable about current legislative changes including the Education Reform Act of 1993 (MA); the federal ESEA/No Child Left Behind Law, 2001; Closing the Achievement Gap, (MA) 2010; Race To The Top Initiative. Significant elements of the
pre-practicum experience will be infused throughout the course. Students will use readings, review of research, data collected from the field, case studies, class discussions, and personal reflections to analyze the work of the school administrator. The final project for the course will integrate the knowledge and skills acquired through EDC601, Introduction to School Administration and Management for the 21st Century. This course requires 25 hours of Field Based/Pre-Practicum Experience through Observing and Assisting an administrator in his/her daily tasks up through the development of the Data Analysis Project.

**EDU5602L  Practical Applications in Planning for School Leaders (3)**

Pre-Requisite: None  
Co-Requisite courses: None  
Equivalent courses: None

This course will expand upon the learning and applications that took place in EDC 601 – Introduction to School Administration and Management. The candidates will be able to utilize research skills and technology to gather data, analyze data and draw conclusions using the data to understand and solve educational issues. This will be the first phase of the seminar. The students will then apply the knowledge gained in the collection of data from EDC 601 to the work in this course for the development of an Entry Plan. The candidates will present their work to a target audience role played by the classmates. In this seminar fifty hours are embedded during which the candidates will be able to utilize their skills as a developing administrator to write an Entry Plan.

**EDU5612L  Educational Organizations, Leadership & Institutional Change (3)**

Pre-Requisite: EDU7601L and enrolment in graduate program in school leadership.  
Co-Requisite courses: None  
Equivalent courses: None

The essential question to be answered in this course is: What are the qualities and skills needed to become effective leaders? This course is for prospective administrators. Students will gain knowledge that will prepare them for the important role of change agents in a school or district. A critical examination is made of the typical organizational structures found in organizations today, especially in regards to leadership and ways in which the educational leader can facilitate meaningful change. This course specifically addresses Standard 1. Instructional Leadership and Standard 4. Professional Culture. Pre-Requisite: EDU5601 enrollment in graduate program in school leadership.

**EDU5618L  Leadership for Professional Development (4)**

Pre-Requisite: EDU7601L and enrolment in graduate program in school leadership.  
Co-Requisite courses: None  
Equivalent courses: None

This course emphasizes the knowledge, skills, techniques and approaches needed by administrators to promote the growth of staff in ways leading to the establishment or continued development of a professional learning community. Leadership practices and strategies consistent with research on successful professional learning communities will be examined. Staff and student safety and well-being will be reviewed as one major component of a legally and ethically comprehensive professional development program. Laws, regulations, policies, practices and research will be examined with respect to enhancing school, family, and community relations, with a particular emphasis on practices leading to greater participation of all constituencies regardless of race, color, gender, religion, national origin, sexual orientation or disability. Field experiences will include the collection and review of data applicable to administrative leadership that is expected to lead to recommendations for modifications of teaching techniques and strategies to improve student achievement. The provision of appropriate
programs for more fully addressing the educational experiences of English Language Learners and Special Education students will be reviewed and analyzed. Pre-Requisite: Enrollment in graduate program in school leadership EDU5601

EDU5620L  Leadership for Professional Development (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: EDC620L Leadership for Professional Development

EDU5624L  Curriculum Design, Development, Implementation & Evaluation (4)

Pre-Requisite: EDU5601L and enrollment in graduate program in school leadership.
Co-Requisite courses: None
Equivalent courses: None

In an era of standards-based instruction, administrators must have a sound working knowledge of the principles of curriculum design, development, and implementation. Administrators must make important decisions regarding the content of curriculum, the selection of appropriate instructional materials, and the modification of teaching strategies to accommodate the needs of ALL learners. Educational Leaders must also be skilled in the ability to disseminate that information to the stakeholders in the educational community. This course will examine curriculum content, models of design, development, and implementation. Students will critically evaluate existing curricula and develop recommendations that respond to contemporary educational needs, new developments in knowledge and information, and new trends in teaching and learning. Significant elements of the Practicum experience will be infused throughout the course. Pre-Requisite: Enrollment in graduate program in School Leadership EDU5601

EDU5669L  Half Practicum (3)

Pre-Requisite: None
Co-Requisite courses: None
Equivalent courses: None

As part of the SILO program, this is the 150-hour practicum for licensed teachers wishing to complete the requirements for an initial license in a new licensure field. Pre-Requisites: Completion of a prior initial teaching licensure program at AIC, all required coursework, passage of all MTELs for the new license, GPA of 3.0, approval of local school district and AIC’s Office of Field Experience.

EDU5703L  Advanced Developmental Reading (3)

Pre-Requisite: EDU5300L or an introductory reading course, enrollment in the graduate education program
Co-Requisite courses: None
Equivalent courses: EDC403L Advanced Developmental Reading

This course provides an overview of literacy development for K-12 students. Current research related to the five components of reading and effective literacy instruction for English Language Learners (ELLs) will be reviewed. Potential impact of poverty on students’ readiness for learning to read will be discussed. Issues related to brain-based reading and language development and acquisition will be introduced. An in-depth study of scientifically-based instructional approaches and assessment practices related to phonological awareness, phonics and advanced decoding will be presented and will serve as the foundation for designing differentiated instruction to meet the needs of diverse learners. Students will be required to collect, analyze and interpret data for their case
study students using specific literacy assessments appropriate for first and second English language learners. Using the Universal Design Model, students will develop an instructional plan for their case study students. 21st Century internet research approaches will be presented to hone students' understanding of how to implement effective instruction for primary, elementary and adolescent readers. Pre-Requisite: EDU5300 or an introductory reading course, enrollment in the graduate education program.

**EDU5715L Speech and Language Development (3)**

Pre-Requisite: EDU6403L and enrollment in graduate education program  
Co-Requisite courses: None  
Equivalent courses: None

Course materials relate to each of the components of reading and to the writing process. Research-based language and literacy instructional approaches will be studied. Stages of first and second language development will be presented and special attention will be paid to the needs of English language learners and diverse populations in relation to each of the elements of language (phonetics, morphology, semantics, syntax, discourse and pragmatics). Language-based disabilities will be studied in terms of their impact on literacy development. Assessment approaches will be presented as they relate to diagnostic techniques and remedial instructional strategies. Program development and evaluation will be discussed in terms of language and literacy components. Issues related to the historical roots of English and dialect will be explored in terms of their potential impact on student performance. Students will utilize recommended websites while studying language development and literacy connections. Using Universal Design methods, they will apply their newly gained knowledge as they develop instructional plans for students who need reading remediation due to language difficulties that relate to literacy. Pre-Requisites: EDC5703, enrollment in graduate education program.

**EDU5725L Specialized Practices in Reading (3)**

Pre-Requisite: EDU5703L and enrollment in graduate education program  
Co-Requisite courses: None  
Equivalent courses: EDC498L Specialized Practices in Reading

A survey of current research and theories of literacy development will be presented. An in-depth study of scientifically-based instruction related to vocabulary, fluency and comprehension will be presented and the relationship between effective language and writing development and reading will be explored. This course provides the student with knowledge of significant programs and practices for teaching reading and language arts to diverse populations including English language learners, young children, adolescents and students with special needs. Students will gain proficiency in using specific reading strategies through modeling lessons and analyzing student work. Screening and diagnostic assessments will be used to identify specific strengths and weaknesses of struggling, proficient and advanced readers by analyzing and utilizing collected data. 21st Century inquiry approaches will be emphasized when teaching comprehension and writing connections and specific Web 2.0 tools will be recommended to aid remediation. The selection and use of appropriate programs, materials, and technology will be central to addressing the diverse needs in today's classroom. Pre-Requisite: EDC5703, enrollment in the graduate education program.

**EDU5815L Advanced Analysis of Reading and Language Arts (3)**

Pre-Requisites: EDU5703L and EDU5725L  
Co-Requisite courses: None  
Equivalent courses: EDC485L Advanced Analysis of Reading and Language Arts
Through use of informal and formal assessments, students will learn how to effectively collect, analyze, and interpret data, as well as plan appropriate programs for diverse populations such as special needs students, English language learners and struggling readers. RtI, intervention approaches and progress monitoring strategies are studied in light of scientifically based reading research on effective literacy instructional practices for struggling readers. Training will include methods to evaluate and select the best literacy assessments to diagnose specific reading difficulties and ways to use technology to aid in data collection and analysis. While working on case studies, students will learn how to develop a hypothesis, develop assessment and progress monitoring plans and analyze data. Using Universal Design, students will create an instructional plan which includes a method to determine their students’ responses to intervention. Pre-Requisites: EDU5703 and 6480 or an equivalent reading course, enrollment in the graduate education program.

**EDU5850L  Eff. Lit. Coaching Strategies to Improve Student Achievement (3)**

Pre-Requisites: EDU5703L  
Co-Requisite courses: None  
Equivalent courses: EDC442L Effective Literacy Coaching Strategies to Improve Student Achievement  

This course prepares students to assume literacy coaching responsibilities in a school. Research theory related to effective models for coaching teachers, school reform and professional development will be applied throughout the course as students plan literacy professional development modules designed to improve student achievement and teacher capacity to meet the needs of all learners. Pre-Requisites: EDU5703 or permission of the Program Director.

**EDU5913L  STEM Education for the 21st Century (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDC513L STEM Education for the 21st Century  

Students will analyze and critique current developments in research and theory in Science and Technology/Engineering content and pedagogy, and relate these changes to their population of practice and to broader changes in education. The course will emphasize the Framework for K-12 Science Education: Practices, Crosscutting Concepts, and Core Ideas published by the National Research Council. Pedagogical strategies, such as discourse, modeling, representation, scientific investigations, and engineering design will be emphasized as means to facilitate students’ conceptual development. Pre-Requisites: None.

**EDU6244L  Org, Admin & Superv. of Reading Programs in Elem/Sec Schools (3)**

Pre-Requisites: EDU5703L  
Co-Requisite courses: None  
Equivalent courses: EDC444L Organization, Administration and Supervision of Reading Programs in Elementary and Secondary Schools  

This course prepares students to assume responsibilities for literacy programs in K-12 diverse school districts. Study will include research-based approaches that will help literacy leaders train teachers and administrators to better meet the needs of English language learners, special education students and other diverse learners. Training in the development of effective differentiated professional development programs will include Universal Design curriculum development, 21st Century inquiry approaches and ways to maximize participants’ learning while working in study groups that analyze student work and data. Theory and training related to being an effective literacy supervisor, consultant, in-service trainer, coach and mentor will be utilized during case study work throughout the course. Effective methods for supporting school wide literacy improvement, evaluating literacy programs and assessments and implementing RtI (Response to Intervention) will be presented. Use of technology
will be required as part of the students’ final project. Pre-Requisites: EDC5703, Enrollment in the graduate education program.

**EDU6330L Theories of Learning Disabilities (3)**

Pre-Requisites: Enrollment in graduate education program, prior coursework in special education. Co-Requisite courses: None Equivalent courses: EDC517L Theories of Learning Disabilities

This course is designed to familiarize the student with the field of learning disabilities and acquaint graduate students with the various concepts of learning disability and the changing and developing perspectives during the past 20 years. Included will be a review and evaluation of the evidence for the existence of a social learning disability and nonverbal learning disabilities. The evidence for a neurological basis of learning disabilities is explored. Definitions and terms are introduced and discussed. Particular emphasis is placed on the concept that a learning disability is not a single entity that will respond to a single remedial strategy, but exists rather as a multi-dimensional phenomenon basically occurring in the context of school-related tasks. Pre-Requisites: Enrollment in graduate education program, prior coursework in special education.

**EDU6345L Teaching Language Arts and the Writing Process (3)**

Pre-Requisites: EDU5703L and EDU5725L and enrollment in the graduate education program. Co-Requisite courses: None Equivalent courses: None

This course prepares students to plan specific practical strategies for challenging and extending student writing, spelling, and grammar usage. Students will be training in utilizing data from writing assessments in order to better plan instruction for diverse learners and for promoting 21st Century critical thinking and research skills when reading and writing. Specific consideration will be paid to instructional methods that are effective for English language learners including use of technology and Web 2.0 tools. The relationship between reading, language and writing skill development will be studied. Universal Design will be utilized when planning instruction for a case study student. Effective approaches for standards-based writing instruction will be studied. Students will be encouraged to use specific web resources to expand their knowledge of the needs of writers from all grade level and to use technological resources to motivate student writers. Pre-Requisites: EDU5703, EDU5725 and enrollment in the graduate education program.

**EDU6460L Applications of Technology in the Classroom (3)**

Pre-Requisites: Enrollment in graduate education program Co-Requisite courses: None Equivalent courses: EDC460L Applications of Technology in the Classroom

This course gives the classroom teacher a working knowledge of technology resources for designing lessons that will enhance student achievement throughout the curriculum. The course will include training in word processing, spreadsheet software, database software, presentation software, and more. Using content from the Massachusetts Curriculum Frameworks, participants will explore hands-on applications with a variety of computer hardware, including handheld computers, laptops, workstations, and projection devices. Experiences in a fully electronic classroom will be included. Teachers will leave with a portfolio of valuable lessons, hotlinks, and other technology tools suitable for a full range of learning styles and needs. Pre-Requisites: Enrollment in graduate education program.
EDU6486L  Diagnostic Testing (3)

Pre-Requisites: Enrollment in graduate education program
Co-Requisite courses: None
Equivalent courses: EDC486L Diagnostic Teaching

This course will develop a basis for creating a personal theory of instruction through knowledge of brain functions, cognitive functions, learning styles, and motivation. Skill will be developed in the use of formal and informal measures for diagnosing problems, prescribing learning tasks, and generating corrective means for solving them. Pre-Requisites: Enrollment in graduate education program

EDU6511L  Literacy for Students Achievement: Reading in the Content (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC519L Literacy for Student Achievement: Reading In the Content

The objective of this course will be to focus on the foundations of content literacy and the literacy design principles as they impact teaching practices and student learning. Participants will familiarize themselves with literacy practices which connect to the Massachusetts Curriculum Frameworks. Participants will explore, analyze, and discuss literacy practices through a series of readings and written responses and observe model lessons taught in major content areas. Participants will interact as learners as they work together in a small group format to plan units and lessons. Participants will use literacy practices in connection with the local school district lesson development materials provided to guide and deepen their knowledge of the district curricula and to improve teacher effectiveness and student achievement.

EDU6547L  Teaching Children's and Adolescent Literature (3)

Pre-Requisites: EDU5725L and EDU6345L and enrollment in the graduate education program.
Co-Requisite courses: None
Equivalent courses: None

This course involves a general study of the field of literature for children and adolescents in addition to promoting students' love of reading. Research theory related to engaging struggling or reluctant readers and increasing accessibility to literature for English language learners will be reviewed and applied while working on projects. Critical criteria for selection of picture books, multi-cultural literature and books from different genre will be studied. Texts will be discussed in terms of genre, literary elements, author's craft, cultural themes and integration into the curriculum. Foundation knowledge from EDC498 and EDC545 related to English language learners, struggling readers and writers, comprehension, vocabulary, and using assessment data to determine reading level will be applied when discussing all topics. Emphasis will be placed on the integration of pairing expository texts with fiction and embedding instruction in reading comprehension strategies while exploring literature. Multi-cultural curriculum projects will require students to use Universal Design and to synthesize knowledge gained in current and prior courses. 21st Century inquiry and technological skills will be employed while utilizing website and Web 2.0 tools to deepen K-12 students' engagement with text. Pre-Requisites: EDU5725, EDU6345, and enrollment in the graduate education program.

EDU6551L  Introduction to Learning Disabilities (3)

Pre-Requisites: EDU3321 or EDU5410
Co-Requisite courses: None
Equivalent courses:
This course is a survey of the general field of learning disabilities. It will include current theories, definitions, and exclusions in the diagnosis and treatment of learning disabilities. In-depth studies of the various constructs proposed by leaders in the field will be pursued. Pre-Requisites: EDU3321 or EDU5410

**EDU6595L**  
Assessment and Curriculum for Early Childhood (3)

Pre-Requisites: Enrollment in graduate education program, prior education coursework in the program, a course in Developmental or Child Psychology  
Co-Requisite courses: None  
Equivalent courses: None

This course examines a full range of effective early childhood programs and curriculum. State curriculum documents, along with a variety of assessments, materials and teaching strategies are examined for their effectiveness in addressing the diverse cognitive, language, and developmental characteristics of young learners. Particular consideration is given to special needs of children with limited English proficiency, cognitive or language deficits, learning disabilities, economic or social disadvantage, etc. A research paper and presentation designed around one exceptionality is required. The administration and interpretation of informal and formal screening and evaluation procedures will be used to assess individual students. Assessment findings are used to plan instruction for young children with and without special needs. Pre-Requisites: Enrollment in graduate education program, prior education coursework in the program, a course in Developmental or Child Psychology

**EDU6600L**  
Assessment, Methods and Materials for Teaching in Special Ed. (3)

Pre-Requisites: EDU5410L and enrollment in the graduate education program  
Co-Requisite courses: None  
Equivalent courses: EDC406L Assessment, Methods and Materials for Teaching in Special Ed.

This course involves learning techniques for teaching and assessing students with special needs both in and out of the general education environment. Class sessions will be devoted to lectures, demonstrations, discussions, audio-visual material, and topics of particular interest within the area of assessment. Course content will focus on learners (PK through adults) who are not experiencing success within the standard academic situation and on identified special needs students in need of (re)evaluation. Students are expected to become familiar with standardized assessments, interpretation of evaluation data, and acquire an understanding of regulations governing the assessment and evaluation process. Students will demonstrate an understanding of laws, regulations, and ethical concerns related to services for special needs students and regular education students relating to assessment and evaluation. Students will become proficient in communicating assessment data fluently through oral and written forms. Students will use information relating to child and adolescent development to develop instructional recommendations and ensure appropriate assessment application. Knowledge of Massachusetts Curriculum Frameworks will be used to construct and evaluate authentic classroom assessment(s). Application of evaluative information to the IEP process will addressed as related to determination of special education eligibility criteria as outlined in Massachusetts and federal regulations and construction of IEP elements. Course participants will be proficient in the areas of: identifications of Specific Learning Disabilities using methodology outlined in current State regulations. Field experience is required. Pre-Requisites: Enrollment in graduate education program, EDU5410.

**EDU6609L**  
Professional Seminar I (3)

Pre-Requisites: Initial teaching license, all prior coursework in professional program, and 3.0 GPA  
Co-Requisite courses: None  
Equivalent courses: EDC446L Professional Seminar I
The Professional Seminar I is designed in conjunction with the Professional Seminar II as a culminating requirement for Professional Teacher Licensure. The development of an individual teaching philosophy emerges from a review of philosophical and theoretical positions. The educator conducts a self-assessment of subject matter knowledge and pedagogical skills based on professional teaching standards. An assessment of student learning and achievement must use current local, district and state assessment data to identify area(s) of student need. This analysis will include sub-group populations within the teaching district to include ELL, special education, low economic students among others. An action research topic and professional development plan emerges from these analyses. The educator designs a plan for professional development in the identified area of need to prepare for the research project. A site visit from the college supervisor will facilitate this process. Pre-Requisites: Initial teaching license, all prior coursework in professional program, and 3.0 GPA

**EDU6610L Behavior Management (3)**

Pre-Requisites: EDU5410L and enrollment in the graduate education program.
Co-Requisite courses: None
Equivalent courses: EDC412L Behavior Management

Students will engage in a survey of current practices of classroom management for regular and special needs students. Theory, materials, and practical applications will be included. Special attention is given to communication, observation, group and class management skills. Students will master terminology relative to cognitive behavioral programming and educational applications. Students will become familiar with classroom management techniques and demonstrate the ability to identify specific target behaviors, develop positively based programming strategies, establish manageable data collection methods, and analyze data using empirically based strategies. Federal and State regulatory mandates will be studied with a focus on the implementation of Functional Behavioral Assessments within the naturalistic setting. Students will become familiar with strategies that reduce or eliminate disruptiveness, aggressiveness, and defiance. They will learn practical ways of achieving better home-school relations and become familiar with services of the resource staffs as well as services provided by other (State and private agencies) in order to meet the needs of exceptional students. Pre-Requisites: Enrollment in graduate education program, EDU5410

**EDU6619L Professional Seminar II (3)**

Pre-Requisites: EDU6609L
Co-Requisite courses: None
Equivalent courses: EDC503L Professional Seminar II

The individual seeking Professional Teacher Licensure will work as a teacher-researcher in the classroom (school system) with the goal of improving students’ subject area learning and achievement based on specific, data and evidence collected in Professional Seminar I. The educator develops a research topic, creates a hypothesis, selects methods and materials for the intervention procedure, and carries out the research plan using a pre-post design. Data collection, control-group comparisons, observation and informal measures are used to analyze the results of the intervention. A formal, written research paper will be submitted documenting all phases of the research process. Pre-Requisites: EDU6609

**EDU6620L Education Seminar (3)**

Pre-Requisites: All prior course work in graduate education program.
Co-Requisite courses: None
Equivalent courses: None
The seminar sequence is arranged across the culminating semester to integrate specific topics and competencies with the teaching experience. Various areas of study will include health, media and technology, education of diverse populations (including ELL), data collection and analysis, development and implementation of IEPs, and legal issues. There will also be opportunities for peer mentoring. Students will generate products for inclusion in their portfolios by extending seminar concepts into classroom applications. Two research papers and a PowerPoint presentation are required. Pre-Requisites: All prior course work in graduate education program.

**EDU6625L  Sheltered English Immersion (SEI): Endorsement Course Teachers (3)**

Pre-Requisites: Prior coursework in education  
Co-Requisite courses: None  
Equivalent courses: EDC500L Sheltered English Immersion (SEI): Endorsement Course Teachers

This course will provide a comprehensive model for instruction for preparing teachers to work with English language learners, (preK-12) in all classrooms. Using a structured immersion approach (SEI), such as the SIOP Model, students will practice the cycle of assessment, lesson design and implementation of instructional strategies that provide access to grade level content for ELL learners. Students will plan, design and present a model lesson following the SIOP Model. Pre-Requisites: Prior coursework in education

**EDU6629L  Field-Based Research: Elementary/Early Childhood (3)**

Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.  
Co-Requisite courses: None  
Equivalent courses: EDC477L Field-Based Research: Elementary / Early Childhood

Students majoring in one of the above specialty areas may opt for the appropriate field experience which will satisfy the degree requirement for a culminating experience. Candidates will have the opportunity to delve into data collection and analysis, designing program for diverse populations, technology, developing 21st century skills, as examples, and/or other principles learned in their coursework to the end of increasing student achievement in the classroom. An action based research project is the central activity for this course. Employed teachers may utilize their own classrooms for this culminating experience [40 clock hours per credit]. Students who complete their degree with this culminating project are not eligible for licensure as a teacher or administrator in Massachusetts nor will they receive the NASDTEC stamp for reciprocity with other states. Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.

**EDU6630L  Supervision and Evaluation of Instruction (4)**

Pre-Requisites: EDU5601L and Enrollment in graduate program in School Leadership  
Co-Requisite courses: None  
Equivalent courses: EDC630L Supervision and Evaluation of Instruction

Principles and practices utilized in the supervision of educational personnel and programs as defined by both traditional and current supervisory practices will be examined in this course. The impact of the Massachusetts Education Reform Act of 1993, the No Child Left Behind Act of 2001 and the Massachusetts Department of Elementary and Secondary Education Standards and Indicators for the Evaluation of Teachers and Administrators will be studied as part of institutional reform. Multiple approaches to classroom observations and evaluations that are both informative and instructive will be central to the course. Model supervision and evaluation district programs, consistent with state guidelines, will be reviewed. Attention will also focus on action plans developed by schools and school districts to address the achievement gap existing between and among high need student groups in the schools particularly gaps affecting SEI/ELL students, and other student subgroups. Educator improvement plans to address the effectiveness of teachers whose performance is less than satisfactory.
according to state and contractual guidelines will also be considered in depth. The Massachusetts Department of Elementary and Secondary Education's five step continuous learning process will also be studied by class members. Pre-Requisites: EDU5601, enrollment in graduate program in School Leadership

EDU6635L  School Personnel Administration (4)

Pre-Requisites: EDU5601L and Enrollment in graduate program in School Leadership
Co-Requisite courses: None
Equivalent courses: EDC514L School Personnel Management

The course will prepare for the planning and operation of the personnel functions in a school district. Emphasis will be placed on practices and issues, system operations and effectiveness, and knowledge of the different aspects of the human resource system. This course will focus for individual and group functions in the administration of school personnel and provide theory and content of practices and issues applicable to personnel administration. Pre-Requisites: Enrollment in graduate program in School Leadership EDU 5601

EDU6639L  Field-Based Research: Moderate Disabilities (3)

Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.
Co-Requisite courses: None
Equivalent courses: EDC479L Field-Based Research: Moderate Disabilities

Students majoring in one of the above specialty areas may opt for the appropriate field experience which will satisfy the degree requirement for a culminating experience. Candidates will have the opportunity to delve into data collection and analysis, designing program for diverse populations, technology, developing 21st century skills, as examples, and/or other principles learned in their coursework to the end of increasing student achievement in the classroom. An action based research project is the central activity for this course. Employed teachers may utilize their own classrooms for this culminating experience [40 clock hours per credit]. Students who complete their degree with this culminating project are not eligible for licensure as a teacher or administrator in Massachusetts nor will they receive the NASDTEC stamp for reciprocity with other states. Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.

EDU6649L  Field-Based Research: Reading (3)

Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.
Co-Requisite courses: None
Equivalent courses: None

EDC 480L  Field-Based Research: Reading

Students majoring in one of the above specialty areas may opt for the appropriate field experience which will satisfy the degree requirement for a culminating experience. Candidates will have the opportunity to delve into data collection and analysis, designing program for diverse populations, technology, developing 21st century skills, as examples, and/or other principles learned in their coursework to the end of increasing student achievement in the classroom. An action based research project is the central activity for this course. Employed teachers may utilize their own classrooms for this culminating experience [40 clock hours per credit]. Students who complete their degree with this culminating project are not eligible for licensure as a teacher or administrator in Massachusetts nor will they receive the NASDTEC stamp for reciprocity with other states. Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.
EDU6654L  Classroom Assessment (3)

Pre-Requisites: Enrollment in graduate education program, prior education coursework, fluency with instructional technology, and experience in constructing Instructional Lesson Plans
Co-Requisite courses: None
Equivalent courses: None

This course will examine the substantial variety of student-centered evaluation practices and their importance in instructional planning for diverse student populations. Beyond the consideration of various standardized measures and traditional classroom testing and grading techniques, students will study 21st century assessment practices such as performance-based assessment, formative assessment strategies, open-ended questions, portfolios, and affective assessment, all of which emphasize higher-order critical thinking. The development of checklists, rubrics, and other methods of data collection will be emphasized. This technology-intensive course requires a unit plan created according to the principles of backwards design. Pre-Requisites: Enrollment in graduate education program, prior education coursework, fluency with instructional technology, and experience in constructing Instructional Lesson Plans.

EDU6664L  Reading & Communication in the Middle and Secondary Schools (3)

Pre-Requisites: EDU5410L and enrollment in graduate education program
Co-Requisite courses: None
Equivalent courses: None

This course addresses the developmental reading and language needs of the middle and high school student in the content area classroom spanning from "learning to read" to "reading to learn." The strategic use of multiple texts, including 21st Century technology literacies, will be presented using micro-teaching lessons to demonstrate effective practice. Using technology to access national and local assessment data, students will analyze and identify areas of need within the English language arts and their intended subject area to guide instructional decision-making. Instructional accommodations for diverse learners will explore methods in sheltered English language immersion, special education, gifted and talented enrichment, and compensatory strategies for rural and urban poverty populations. Field work experiences and a diagnostic case-study assignment will integrate all course components. Online research of the National Reading Panel Report and other professional sources will be integral to course learning. Field experience is required. Pre-Requisites: Enrollment in graduate education program, EDC5410.

EDU6669L  Field-Based Research: Secondary/Middle (3)

Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.
Co-Requisite courses: None
Equivalent courses: EDC478L Field-Based Research: Secondary/Middle

Students majoring in one of the above specialty areas may opt for the appropriate field experience which will satisfy the degree requirement for a culminating experience. Candidates will have the opportunity to delve into data collection and analysis, designing program for diverse populations, technology, developing 21st century skills, as examples, and/or other principles learned in their coursework to the end of increasing student achievement in the classroom. An action based research project is the central activity for this course. Employed teachers may utilize their own classrooms for this culminating experience [40 clock hours per credit]. Students who complete their degree with this culminating project are not eligible for licensure as a teacher or administrator in Massachusetts nor will they receive the NASDTEC stamp for reciprocity with other states. Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.
EDU6674L  Secondary and Middle School Methods (3)

Pre-Requisites: EDU3201L OR EDU5400L and enrollment in graduate education program
Co-Requisite courses: None
Equivalent courses: EDC504L Secondary and Middle School Methods

This course offers an analysis and a practical look at the most effective methods of planning and teaching in a middle and/or secondary classroom. The major emphasis of the course is the development of a subject-area instructional unit appropriate to their teaching situation (urban, suburban or rural) that will include activities and strategies is such areas as cross-curricular, differentiated instruction, cooperative learning, integration of technology and indirect teaching methods. Micro-teaching experiences within the student's discipline area will focus on specific components of lesson planning and lesson presentation in keeping with the Massachusetts Curriculum Frameworks. Field experience is required. Pre-Requisites: Enrollment in graduate education program, EDC3201 or 5400

EDU6678L  Teaching Mathematics: Secondary and Middle (3)

Pre-Requisites: EDU5400L, Math course work, enrollment in the graduate education program
Co-Requisite courses: None
Equivalent courses: EDC512L Teaching Mathematics: Secondary and Middle

This course provides a study of mathematics curricula and various methods for planning instruction and evaluation in the secondary or middle school classroom. A survey of current textbooks, instructional materials, and testing materials will be included. Changes and developments in the area of teaching mathematics will be addressed through current professional literature. Field experience is required. Pre-Requisites: Math coursework, enrollment in the graduate education program, EDC 5400.

EDU6719L  Student Teaching: Elementary (3)

Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.
Co-Requisite courses: None
Equivalent courses: EDC439AL Student Teaching: Elementary

The practicum for initial licensure in MA involves 150-300 hours of observation, assisting and taking on the full role of classroom teacher under the direction of a college supervisor and a supervising practitioner in a school setting. A program portfolio and additional paperwork to meet state regulations is required. Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.

EDU6729L  Student Teaching: Early Childhood (3)

Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.
Co-Requisite courses: None
Equivalent courses: EDC439B L Student Teaching: Early Childhood

The practicum for initial licensure in MA involves 150-300 hours of observation, assisting and taking on the full role of classroom teacher under the direction of a college supervisor and a supervising practitioner in a school setting. A program portfolio and additional paperwork to meet state regulations is required. Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.

EDU6739L Student Teaching: Moderate Disabilities (3)

Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.
Co-Requisite courses: None
Equivalent courses: EDC439CL Student Teaching: Moderate Disabilities

The practicum for initial licensure in MA involves 150-300 hours of observation, assisting and taking on the full role of classroom teacher under the direction of a college supervisor and a supervising practitioner in a school setting. A program portfolio and additional paperwork to meet state regulations is required. Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.

EDU6745L Legal Issues for School Leaders (3)

Pre-Requisites: EDU5601L and Enrollment in graduate program in School Leadership
Co-Requisite courses: None
Equivalent courses: EDC645L Legal Issues for School Leaders

The study and analysis of school law will be undertaken from both historical and current perspectives. Constitutional amendments will be studied as they relate to administrative practice. Federal, state and local laws and regulations will be analyzed with respect to their importance and impact on schools and districts. Emphasis will be placed on Massachusetts State Law. Local policy development and implementation will also be reviewed. Precedent-setting federal and state court cases will be studied including their philosophical underpinnings and their implications for a framework for administrative decision making. Technology will be used to research a variety of case law. Pre-Requisites: Enrollment in graduate program in School Leadership EDU 5601

EDU6749L Student Teaching: Reading (3)

Pre-Requisites: A prior initial teaching license, one year experience teaching under that license, successful completion of all prior coursework in program including shadowing a reading specialist, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Education.
Co-Requisite courses: None
Equivalent courses: EDC439EL Student Teaching: Reading

257
The practicum for initial licensure as a Reading Specialist in MA involves 150 hours of teaching under the direction of a college supervisor and a supervising practitioner in a school setting. A program portfolio and additional paperwork to meet state regulations is required. Pre-Requisites: A prior initial teaching license, one year experience teaching under that license, successful completion of all prior coursework in program including shadowing a reading specialist, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Education.

EDU6755L  **Financial and Asset Management for School Leaders (3)**

Pre-Requisites: EDU5601L and Enrollment in graduate program in School Leadership  
Co-Requisite courses: None  
Equivalent courses: EDC655L Financial and Asset Management for School Leaders

The economics of education with regard to budget and finance at all levels of a school district will be studied. The focus will include revenue sources, state and federal school aid, budget preparation, use of technology in the budget process, school building construction and alternative funding. Use of data to support budgets and budget requests will be examined. This course is designed for future superintendents/assistant superintendents and principals/assistant principals. It provides administrators with the tools they need to carry out fiscal policy in the public school system. Pre-Requisites: Enrollment in graduate program in School Leadership EDU 5601.

EDU6759L  **Student Teaching: Secondary (3)**

Pre-Requisites: A successful completion of all prior coursework in program, pre-practicum experiences, passage of all MTELs required for the license, a 3.0 cumulative grade point average, approval of candidate’s school district, and approval of AIC’s Office of Field Experience. PSY1401 is required for Moderate Disabilities; Developmental or Child Psychology is required for Early Childhood.  
Co-Requisite courses: None  
Equivalent courses: EDC439FL Student Teaching: Secondary

The practicum for initial licensure in MA involves 150-300 hours of observation, assisting and taking on the full role of classroom teacher under the direction of a college supervisor and a supervising practitioner in a school setting. A program portfolio and additional paperwork to meet state regulations is required. **EDU6890L Seminar Contemporary Issues for the Superintendency (3)**

Pre-Requisites: None

Co-Requisite courses: None

Equivalent courses: EDC690L Seminar Contemporary Issues for the Superintendency

This course will provide in–depth learning in a seminar format utilizing presentations, videos and experts in the field to enhance and advance the learning that has taken place through the coursework. This seminar will drill down into those issues that face the Superintendent in his or her daily work. The candidate will be able to undertake the position of Superintendent of Schools with a realistic idea of the expectations before them. This course will cover the myriad of legal, ethical and mandated regulations and will include: Facilities and Planning (working with the MSBA), The Politics of the Superintendency (Local, State and Federal Issues), Effective Communication with a variety of groups, Public Relations, Media Relations, Collective Bargaining, Strategic
Thinking and Planning and Balancing a Professional and Personal Life. All topics will look at the range of conditions that can be dealt with in a variety of settings such as Urban, Suburban and Rural School districts.

**EDU6979L  Field-Based Research: School Leadership (3)**

Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director

Co-Requisite courses: None

Equivalent courses: EDC481L Field-Based Research: School Leadership

Students majoring in one of the above specialty areas may opt for the appropriate field experience which will satisfy the degree requirement for a culminating experience. Candidates will have the opportunity to delve into data collection and analysis, designing program for diverse populations, technology, developing 21st century skills, as examples, and/or other principles learned in their coursework to the end of increasing student achievement in the classroom. An action based research project is the central activity for this course. Employed teachers may utilize their own classrooms for this culminating experience [40 clock hours per credit]. Students who complete their degree with this culminating project are not eligible for licensure as a teacher or administrator in Massachusetts nor will they receive the NASDTEC stamp for reciprocity with other states. Pre-Requisites: All prior coursework in program and acceptance of research proposal by the director.

**EDU6989L  The Practicum Experience: Principal, SPED Admin, Supr/Direct (3)**

Pre-Requisites: All prior coursework in program, completion of pre-practicum hours, passage of Communication and Literacy MTELs, approval of candidate’s school district, approval of AIC’s Office of Field Experience, and cumulative grade point average of 3.0

Co-Requisite courses: None

Equivalent courses: EDC710L The Practicum Experience: Principal, SPED Admin, Supr/Direct

This activity is the culminating requirement for candidates seeking licensure as a School Administrator or Director. Students engage in a 300-hour activity in the schools, working with a principal or director in the level and role appropriate for their specialization area. Supervision is provided by college faculty during this activity. Pre-Requisites: All prior coursework in program, completion of pre-practicum hours, passage of Communication and Literacy MTELs, approval of candidate’s school district, approval of AIC’s Office of Field Experience, and cumulative grade point average of 3.0.

**EDU6999L  The Practicum Experience: Superintendent Track (3)**

Pre-Requisites: All prior coursework in program, completion of pre-practicum hours, passage of Communication and Literacy MTELs, approval of candidate’s school district, approval of AIC’s Office of Field Experience, and cumulative grade point average of 3.0.

Co-Requisite courses: None

Equivalent courses: EDC720L The Practicum Experience: Supt. Track

This activity is the culminating requirement for candidates seeking licensure as a School Administrator or Director. Students engage in a 300-hour activity in the schools, working with a principal or director in the level and role appropriate for their specialization area. Supervision is provided by college faculty during this activity. Pre-Requisites: All prior coursework in program, completion of pre-practicum hours, passage of Communication and Literacy MTELs, approval of candidate’s school district, approval of AIC’s Office of Field Experience, and cumulative grade point average of 3.0.
EDU7701L  Action Research in the Schools (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC701L Action Research in the Schools

This course serves as an introduction to the process of action research, as well as to the PDARP program. Students will review the major techniques and paradigms in social science research, particularly as applied within education. Legal and ethical issues will be addressed, including those related to intellectual property and human subjects research. Examples of various types of research will be analyzed. Particular attention will be given to action research as presented and published. The application of research results and conclusions to the improvement of classroom practice will be addressed. An introduction to statistical analysis will be provided.

EDU7702L  Advanced Research with Technological Enhancement (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC702L Advanced Research with Technological Enhancement

This course explores in more detail the research paradigms used in education research, with a focus on those most useful in action research. Students will develop hypothetical research protocols for several types of studies. They will also review the technological support for research and its dissemination, including the use of statistical software, rich media and submitting to online journals.

EDU7703L  Contemporary Issues in Education (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC703L Contemporary Issues in Education

This course is focused upon the development of a research problem and the completion of a literature search. Current issues in education will provide the context for individual projects that link important questions with professional practice. The course products will be a research question and a literature review; these products will provide the foundation for the rest of the program.

EDU7710L  Action Research Data Collection and Analysis (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC704L Action Research Data Collection and Analysis

Students in this course work with the support of research advisors to develop a research plan for their action project, based on the products of EDU7703. Students will secure the necessary permissions (including that of an IRB, if applicable), collect the data, and analyze the data according to the plan.

EDU7711L  Action Research Product (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDC705L Action Research Product
With the ongoing support of the research advisor, students will write a formal paper, in the form of a professional journal article, describing the project and reporting the results and conclusions, along with the implications for classroom practice. They will also prepare a presentation for a Professional Development Academy, and a separate document in which they focus on the potential impact on the home/school system as the insights and information gained from the project are fed back into the system.

**EDU7750L  Individual and Institutional Change (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU754L Individual and Institutional Change

This course focuses on examining the use of reflective practice to improve instruction and leadership techniques and to engender professional dialogue among colleagues. Facilitating one’s own critical reflection, as well as encouraging that in others, is a key component of teaching, learning, and leading. The course content also explores the concept of self-renewal and resilience as indicators of health and wellness in individuals and educational institutions. Pre-Requisites: None

**EDU7751L  Ethics in Educational Practice (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU751L Ethics in Educational Practice

This course focuses on an examination of the ethical considerations of educational practice in contemporary society. Pre-Requisites: None

**EDU7752L  Inclusive Leadership (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU752L Inclusive Leadership

This course focuses on the premise that all educators, regardless of formal title, role or position, need to assume responsibility for leadership in service of improving their institution and its members. Further, all educators must be responsible for developing the leadership capacity of those in their care. The course content addresses various theories of leadership, finding one’s own leadership style, and thinking about leadership in such populations as teachers, staff, and students. Pre-Requisites: None

**EDU7753L  Adult Development and Transformation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU753L Adult Development and Transformation

This course focuses on developing one’s understanding of adult development throughout the life span and its implications for educational practice. Regardless of role and formal job description, all educators must interact with adults, and an appreciation for the developmental tasks of personal and career cycles is essential. Course content is designed to stimulate thinking about how to promote growth and transformation in one’s own life and with others. Pre-Requisites: None
EDU7760L  Reflective Practice, Mentoring, and Professional (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU755L Reflective Practice, Mentoring, and Professional

Self-Renewal. This course focuses on examining the use of reflective practice to improve instruction and leadership techniques and to engender professional dialogue among colleagues. Facilitating one's own critical reflection, as well as encouraging that in others, is a key component of teaching, learning, and leading. The course content also explores the concept of self-renewal and resilience as indicators of health and wellness in individuals and educational institutions. The key role that mentoring can play in initiating novice educators into the profession, supporting individual growth and sustaining the enthusiasm of veteran educators also is addressed.

Pre-Requisites: None

EDU7761L  Financial Decision Making (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU761L Financial Decision Making in Higher Education

This course introduces financial aspects of higher educational institutions with an emphasis on the use of financial information for decision making. Financial decision making describes in a way that is informative and useful so that higher educational leaders can effectively manage the allocation of financial resources. Specific topics will include financial analysis, budget creation and oversight. The emphasis is on using financial data for decision making related to resource allocation, forecasting, capital initiatives, and other future planning. THIS COURSE IS NOW ASSIGNED TO A DIRECTED STUDY.

EDU7762L  Social and Cultural Influences in Education (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU756L Social and Cultural Influences in Education

This course examines the various ways in which social and cultural factors influence education. It will review sociological research findings on such topics as learning and social class, teacher and parental expectations, learning and gender, ethnicity, and the relation between learning and family rearing practices. In considering the cultural influences on contemporary education, students will study a variety of multicultural education models, the transmission of culture in a pluralistic society, and the role of education in the acculturation and assimilation process. Pre-Requisites: None

EDU7763L  Impact of Learning Styles and Teaching (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU763L Impact of Learning Styles on Learning and Teaching

This course will provide students with an understanding of current learning styles research and how this research can influence positive student academic success. The course will also include research about teaching strategies that have proven to successfully accommodate different learning styles for the typical and atypical learner. THIS COURSE IS NOW ASSIGNED TO A DIRECTED STUDY.
EDU8520L  Seminar in Learning Disabilities (3)

Pre-Requisites: EDU3321L OR EDU5410L
Co-Requisite courses: None
Equivalent courses: None

A seminar course covering current trends in the research literature. Essentially, “what’s happening now” in the field of learning disabilities. Presentations by students on individual topics will be covered in-depth. Pre-Requisites: EDU3321, or EDU5410.

EDU8806L  Applied Field/Work Internship (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU800L Applied Field/Work Internship

This course provides field-based experience that allows students to apply theoretical knowledge to professional and scholarly objectives, and arrange supervision, where necessary. Faculty approval is required before the internship can commence. Pre-Requisites: None.

EDU8840L  Global Education (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU885L Global Education

This course will encompass skill building strategies and exercises in critical thinking, listening, and identity based communication. We will explore how to negotiate, facilitate, and mediate global education. Our goal is to begin the process of understanding the theory, concepts, and skills necessary for developing the cultural mobility among participants required to successfully embrace globally diverse school populations that will yield effective value added relationships and outcomes. Pre-Requisites: None.

EDU8841L  Educational Technology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU886L Educational Technology

This course focuses on current trends and issues in the use of technology in K-12 schools. Among the topics covered are the use of technology as a tool for teaching and learning, making technologically-assisted learning meaningful, creating active learning through the use of technology, and the "digital divide" and its implications for schooling. Pre-Requisites: None.

EDU8842L  Diversity in Learning (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU889L Diversity in Learning

This course focuses on developing one's understanding of the knowledge and skills necessary to increase effectiveness in meeting the needs of diverse learners through appropriate instructional, curricular, and behavioral
strategies. It also aims to assist students in exploring the topics of race/ethnicity, religion, socioeconomic class, and language as they related to teaching to diversity. Pre-Requisites: None

EDU8850L  Teaching in a Diverse Society (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU850L Teaching in a Diverse Society

This course focuses on developing one's understanding of the knowledge and skills necessary to increase effectiveness in meeting the needs of diverse learners through appropriate instructional, curricular, and behavioral strategies. It also aims to assist students in exploring the topics of race/ethnicity, religion, socioeconomic class, and language as they related to teaching to diversity. Pre-Requisites: None

EDU8851L  Interaction of Classroom Management and Instruction (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU851L Interaction of Classroom Management and Instruction

This course focuses on theory and research about developing teacher competencies for motivating and increasing student learning through the advanced understanding of the interaction of classroom management and instructional planning. Topics include the creation of successful learning communities, approaches to discipline, and creative problem solving. Pre- Requisites: None

EDU8852L  Educational Implication of Learning & Development Theories (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU852L Educational Implication of Learning & Developmental Theories

This course is designed to help students develop an advanced understanding of how learning and developmental theories define the teacher’s role as an instructional leader, how students learn, what motivates learners, and the design and delivery of the curriculum is influenced by these factors. Pre-Requisites: None

EDU8853L  Thinking about Teaching (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU853L Thinking about Teaching

This course allow for re-examination of one’s own motivation for entering the profession, what values guide current practice, and what inspires that practice. The notion of teaching as both an "art" and a "science" will be explored, along with research on effective teaching. The course also allows for consideration of what teaching models and philosophies are most meaningful at this point in one’s career. Pre- Requisites: None

EDU8860L  Advanced Curriculum Practices and Models (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU854L Advanced Curriculum Practices and Models
This course in curriculum will provide an introduction to the foundational areas that affect the design and development of curriculum. The course will include the history, social forces, philosophy, and psychology behind many of the curriculum practices and issues that exist in schools today as well as the nature of the curriculum development process. The focus of this course will be on the process of using knowledge about curriculum and evaluation in an imaginative, creative way. Ultimately, the educator will then be able to anticipate and plan for change in an active way, rather than falling prey to every bandwagon or societal pressure that affects the school curriculum. Pre-Requisites: None

**EDU8861L  Evaluating Student Performance (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU855L Evaluating Student Performance

This course will explore the complexity of evaluating student performance in a meaningful way. A variety of philosophies, templates, constructs, guidelines, artifacts, research findings and beliefs about collecting and using student performance data to improve instruction will be examined. The course also will explore how school reform efforts have influenced or been influenced by assessment practices. Pre-Requisites: None

**EDU8862L  Human Resource for Educational Leaders (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU874L Human Resource Management for Educational Leaders

This course focuses on promoting theoretical and applied understandings of school personnel management in an ever-changing professional educational environment. Emphasis will be placed on understanding effective ways of dealing with labor relations, personnel appraisal, communication, disciplinary procedures, leadership systems and designs, and compensation structuring. Focus will be on applicable laws and the roles and responsibilities of school leaders in the area of human resource management in educational settings will be examined. Pre-Requisites: None

**EDU8863L  Positive Organizational Scholarship (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU884L Positive Organizational Scholarship

Positive Organizational Scholarship (POS) focuses on the organic whole of leadership practices from a perspective of positive thinking. This course will challenge students to engage in the core topics and foundational theories of POS and positive psychology, and to investigate their interface. Positive Organizational Scholarship (POS) investigates collective and emergent processes of optimal functioning, at the levels of individual in organization, groups in organizations, and organizations as a whole. POS focuses on the generative dynamics in organizing that enable individuals and collective resilience, thriving, creativity, compassion, and other indicators of human function. POS is not one particular theory; it does draw from the full spectrum of organizational theories. Positive psychology is a movement that challenges the field of psychology. It does not draw from the old model of deficient but instead encourages research on strengths, on building the best things in leadership practices as well as repairing the worst. Pre-Requisites: None
EDU8864L Directed Study (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU892L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

EDU8870L Advanced School Finance (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU870L Advanced School Finance

The School Finance course is essential for the school administrator. Responsible for the ethical and strategic use of resources, the administrator cannot completely delegate financial responsibility to another office. Thus this course will cover a broad range of topics designed to acquaint the students with the knowledge of: funding formulas, accounting procedures, procurement regulations, taxation principles, fiduciary oversights, audits, and general management of state and local funding formulas. Emphasis will be placed on developing skills necessary to manage the financial program of a district and, in turn, a school. Pre-Requisites: None

EDU8871L Advanced Educational Leadership (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU871L Advanced Educational Leadership

Leadership describes an individual's ability to influence. This course is a survey of selected research that addresses the development of leadership skills, the academic field of leadership studies, the roles of leadership in education, including transactional, transformational, and post-modern theory. Leadership is examined, not only from the perspective of personal development, but also in the contexts of organizational and systems theories. Moreover, since the literature relating to leadership is varied, with approaches ranging from popular, "self-help" to serious academic scholarship, this course provides the opportunity to compare and contrast this wide range of leadership analysis. Pre-Requisites: None

EDU8872L Advanced Instructional Supervision (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU872L Advanced Instructional Supervision

Methods, theories, and research applying to the supervision and evaluation of classroom instruction; includes analysis and application of research in effective teaching practices, formative and summative evaluation, staff development, data collection techniques, and alternative feedback methods. This course will focus on the role of the district administrator in the supervisory process from the legal aspects to the coaching of principals. Pre-Requisites: None

EDU8873L School LAW (3)

Pre-Requisites: None
Administrators must know the laws that govern the operation and conduct of their organizations as they face a highly litigious society. This course will study the relevant legal principles that affect the operation, organization, and administration of schools. Students will gain knowledge about legal issues that will help them in effectively performing their professional duties within the boundaries of constitutional, statutory, and case law. Pre-Requisites: None

**EDU8874L  Directed Study (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU893L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

**EDU8880L  Resiliency Theory in Educational Settings (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU880L Resiliency Theory in Educational Settings

This course provides advanced exploration of theory and research in human and institutional resiliency with an eye towards how such theory and research can be translated into educational practice. Factors that create risk and promote resiliency in students will be examined, as well as interventions to mitigate situations that put students at risk. Pre-Requisites: None

**EDU8881L  Teacher as Leader (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU881L Teacher as Leader

This course includes studies in the literature and research on encouraging teacher leadership at all levels of practice: classroom, school, district state and national leadership styles, recognizing opportunities for leadership within different forums in their professional lives, and collaborating with others to effect meaningful change. Pre-Requisites: None

**EDU8882L  Collaborative Models of School-Parent Interaction (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU882L Collaborative Models of School-Parent Interaction

The course focuses on the creation and maintenance of collaborative models of parent-school interaction that supports student achievement. Particular attention is paid to such issues as building effective partnerships with hard to reach parents, those who traditionally have been marginalized from schools, and nontraditional families. It also explores issues such as parent-teacher conferences, parents as volunteers in schools, and maintaining parental involvement as students move into secondary schools. Pre-Requisites: None
EDU8883L  Brain-Based Ways of Thinking and Learning (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU883L Brain-Based Ways of Thinking and Learning

This course focuses on an analysis of how the brain integrates, stores, and communicates information. It includes a review of research on how the brain functions and the link to effective teaching practices. The application of brain research to teaching strategies, lesson plans, and problem-solving activities will be stressed. Pre-Requisites: None

EDU8884L  Directed Study (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU894L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

EDU8890L  Leadership and Diversity (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU890L Leadership and Diversity

This course will examine issues related to equity, diversity, and their implications for educational settings. Personal and community biases will be scrutinized regarding: race, gender, socio-economic status, culture, sexual orientation, religion, second language learners, and persons with special needs. Through coursework, group work, and situational case studies, students will be challenged to examine their attitudes toward these critical issues and to become sensitive and proactively responsive to them. Students will learn of the leadership capacities needed to ensure access, and academic and social equity for all members of the extended school community. Pre-Requisites: None

EDU8891L  Planning and Organizational Change (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU891 Planning and Organizational Change

This course Planning and Organizational Change draws on a number of academic disciplines that provide a theoretical as well as practical basis for understanding change at the community and school level. We will apply planning theory from traditions of sociology, political science, and psychology to real organizations in local communities, using theories of practice of community social work and action research. Pre-Requisites: None

EDU8892L  The History of Higher Education in the United States(3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU888L The History of Higher Education in the United States
This course surveys the history of higher education in the United States with a focus on mainstream collegiate institutions and current non-traditional alternatives. The course will trace the development of traditional higher education from its liberal arts origins through the growth of the major research university. Additionally, it will explore how, over two centuries, various underrepresented groups (women, minorities, etc.) have contended for places within higher education. Pre-Requisites: None

**EDU8893L  Foundation of Higher Education (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU899L Foundation of Higher Education

This course examines major events in the development of colleges and universities in the United States and the philosophical, historical, and social forces that have influenced this development. The course examines contemporary issues in higher education by exploring the intersections of historical, philosophical, and sociological forces that have shaped and continue to shape U.S. higher education, as well as the ways in which higher education has shaped society. International/comparative higher education is also introduced. Pre-Requisites: None

**EDU8894L  Directed Study (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU895L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

**EDU9499L  Professional Portfolio (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU950L Professional Portfolio

This course provides a culminating experience that allows each student to reflect on his or her scholarly and professional growth over the program of study. In organizing the portfolio according to program competencies and values, the student provides evidence of his/her meeting those outcomes, as well as concentration-specific and individual goals laid out in the Degree plan. Pre-Requisites: None

**EDU9509L  Dissertation Research (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU983L Dissertation Research

Dissertation research 1 is the first of a two-block experience involving original doctoral research. In this course, the student will gather data to be reported in chapter four of the dissertation, using the research design developed in individualized research design. Pre-Requisites: None
EDU9519L  Dissertation Research 2 (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU984L Dissertation Research 2

Dissertation research 2 is the second of a two-block experience involving original doctoral research. In this course, the student will analyze his/her collected data, including re-engaging with the seminal scholarly literature presented in chapter 2. Data analysis will conform to the methods described in individual Research Design. In addition to analysis, the student will be able to discuss the scholarly and practitioner implications of his/her findings as well as directions for future research. Pre-Requisites: None

EDU9529L  Dissertation I: Introduction and Literature Review (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU990L Dissertation I: Introduction and Literature Review

Dissertation 1 is the first in a three-course block of final required dissertation writing. It yields the first two chapters of the dissertation: Introduction and literature Review. Credit is awarded when the students submits the fully edited and approved version of these two chapters to his/her Dissertation Committee. Pre-Requisites: None

EDU9539L  Dissertation 2 (3)

Pre-Requisites: Approval of Advisor.
Co-Requisite courses: None
Equivalent courses: EDU991L Dissertation 2

Course Dissertation 2 is the second of the three-course clock of final required dissertation writing. Dissertation research consists of conducting the approved research developed the individualized research design yields and the Research Methodology chapter of the dissertation (chapter three. Credit is awarded when the student submits the fully edited and approved version of this chapter to his/her Dissertation Committee and receives their approval; for the completed data gathering. Pre-Requisites: Approval of Advisor

EDU9549L  Dissertation 3 (3)

Pre-Requisites: Approval of Advisor.
Co-Requisite courses: None
Equivalent courses: EDU992L Dissertation 3

Dissertation 3 is the final block of required dissertation writing. It yields the last two chapters of the dissertation (chapters four or five) and completes the document. Credit is awarded when the student successfully presents his/her research findings and recommendations and submits the fully edited and approved dissertation to his/her Dissertation Committee. Pre-Requisites: Approval of Advisor.

EDU9559L  Dissertation 4 (6)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None
EDU9900L Governance and Administration of Colleges (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU900L Governance and Administration of Colleges

This course examines the governance and administration of higher and postsecondary education institutions in the United States with particular emphasis on providing an understanding of theoretical and practical approaches to leading institutions. Students will read about the functioning of higher and postsecondary institutions; the administrative practices of colleges and universities; organizational and administrative theory of higher and postsecondary education; and roles of governing boards, administrators, faculty members, and students in policy making. Pre-Requisites: None

EDU9901L Higher Education and the LAW(3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU901L Higher Education and the Law

Until recently colleges, universities, or institutions of higher learning never sought nor needed counsel on retainer. Obviously that is no longer the case. This course will discuss current legal issues and equip future higher education administrators the tools to handle them. A variety of topics will be discussed, such as the current structure of the legal court system and their recent decisions affecting higher education, distinctions between private, public and quasi-public institutions; the granting of tenure; liability for student behavior and their well-being; limitations on the power of higher education to discipline students for behavior, academic, and professional misconduct; issues of student privacy; affirmative action and other attempts at creating diversity; sexual harassment; anti-discrimination, such as Title IX, ADA, etc.; and what is the future for higher education and the law? Pre-Requisites: None

EDU9902L Higher Education's International Role (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU902L Higher Education’s International Role

This course will help students examine how US colleges and universities are responding to the challenges of the 21st Century of internationalization and globalization. The readings will provide theory and practical information about the ways colleges and universities are international, which will include discussions with leaders in the various areas of US higher education internationalization. Pre-Requisites: None

EDU9951OL Qualitative Research: Theory and Implementation (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: EDU987OL Qualitative Research: Theory and Implementation

This course provides a framework for using quantitative methods in educational research. The course will focus on a wide range of quantitative research methods including experimental, correlational and survey research among others. Additionally, students will review the different steps in quantitative research, the determination of different options for types of data collected and the ability to locate, select, and assess an instrument(s) for data.
collection. Specifying variables, reliability, validity, scales of measurement, scoring of the data, and selection of a statistical program will also be discussed

**EDU9952L  Quantitative Research for Educators (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU986OL Quantitative Research for Educators

This course focuses on the concept of qualitative research. It will aid the student in developing an understanding of what qualitative research is, what the types of qualitative research are, when to use it, and how to develop a well-designed research study using qualitative research methods. The course will go on to help the student code the findings and write a dissertation using the qualitative method of data gathering and analysis.

**EDU9970L  Qualitative Research: Theory and Implementation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU978L Qualitative Research: Theory and Implementation

This course focuses on the concept of qualitative research. It will aid the student in developing an understanding of what qualitative research is, what the types of qualitative research are, when to use it, and how to develop a well-designed research study using qualitative research methods. The course will go on to help the student code the findings and write a dissertation using the qualitative method of data gathering and analysis.

**EDU9971L  Qualitative Research for Educators (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU979L Quantitative Research for Educators

This course provides a framework for using quantitative methods in educational research. The course will focus on a wide range of quantitative research methods including experimental, correlational and survey research among others. Additionally, students will review the different steps in quantitative research, the determination of different options for types of data collected and the ability to locate, select, and assess an instrument(s) for data collection. Specifying variables, reliability, validity, scales of measurement, scoring of the data, and selection of a statistical program will also be discussed.

**EDU9980L  Educational Research Methods (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU980L Educational Research Methods

This course focuses on an introduction to the selection and construction of a research design and choice of appropriate research methods for the educational inquiry to be undertaken. A variety of research methods will be reviewed. The design and collection of data, data analysis, and ethical issues related to research with human subjects will be explored. Pre-Requisites: None
EDU9981L  Action Research for Educators (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU981L Action Research for Educators

This course provides an overview of action research theory and methods and describes how action research can be used in school improvement. The steps for conceptualizing, designing, implementing, and analyzing an action research project are explicated and examples of school-based projects are provided. Pre-Requisites: None

EDU9982L  Individualized Research Design (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: EDU982L Individualized Research Design

This course focuses on developing an appropriate research design for each student’s dissertation proposal. It includes articulating the research questions, choosing the design and being able to articulate its appropriateness to the inquiry at hand, discussing the assets and limitations of the design, human subjects and other ethical concerns, and proposed methods of data collection and analysis. Pre-Requisites: None

EDU9999L  Dissertation Extension (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None

ENGLISH – (Undergraduate)

ENG1100L  Foundations of Writing (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ENG100L Foundations of Writing

English 1100 is a course that helps students develop fluency and confidence in their writing in preparation for the demands of ENG1201. The course focuses on improving writing through application and practice with an emphasis on grammar, punctuation, mechanics, and other fundamentals. Students examine writing as a process and engage in activities such as brainstorming, drafting, revising proofreading. Enrollment in ENG1100 is determined by performance on a placement test. Pre-Requisites: None

ENG1201L  English Composition (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ENG101L English Composition

English Composition 1201 is a writing-intensive course that prepares students for all levels of academic discourse. Emphasis is placed on the art of persuasion, on the development of students’ critical thinking skills, and on key rhetorical concepts such as audience, purpose, and voice. Students learn the various steps to the writing process,
from brainstorming to final revision, and learn the importance of writing coherent, unified, and organized essays that are fundamentally and mechanically sound. Though primarily a writing course, English Composition 101 also helps students see the connection between reading and writing. In addition, students learn the art of academic research and documentation. ENG1201 is determined by performance on a placement test or by satisfactory completion of ENG1100. Pre-Requisites: None

ENG1202L Analytical Writing (3)
Pre-Requisites: ENG1201L
Co-Requisite courses: None
Equivalent courses: ENG102L Analytical Writing

ENG1202 is an advanced writing course and is designed to extend reading and writing skills developed in English 1201. Emphasis is placed on critical and analytical writing and the analysis and interpretation of texts. Students are exposed to a variety of texts from fields across the curriculum. They write essays in response to what they read by formulating and defending a thesis, by synthesizing sources, and by evaluating information and ideas from multiple perspectives. In addition, students demonstrate an ability to do research and to document their work in the major academic styles. Pre-Requisites: ENG1201

ENG1601L Advanced First-Year Composition (3)
Pre-Requisites: Approval of the English department as based on the results of the writing placement examination or on a student’s status in the Honors Program, or permission of the instructor. Note: No student who has received credit for ENG1201 may receive credit for ENG1601.
Co-Requisite courses: None
Equivalent courses: ENG103L Advanced First-Year Composition

This course is an accelerated version of ENG1201. Enrollment in ENG1601 is determined by high performance on a placement examination or invitation into the AIC Honors Program. Pre-Requisites: Approval of the English department as based on the results of the writing placement examination or on a student's status in the Honors Program, or permission of the instructor. Note: No student who has received credit for ENG1201 may receive credit for ENG1601.

ENG1602L Advanced First-Year Composition and Literature (3)
Pre-Requisites: Enrollment in ENG1602 is open only to those students who either have earned an A in ENG1201 or have earned at least a B in ENG1601. Note: No student who has received credit for ENG1202 may receive credit for ENG1602
Co-Requisite courses: None
Equivalent courses: ENG104L Advanced First-Year Composition and Literature

This course is an accelerated version of ENG1202. Pre-Requisites: Enrollment in ENG1602 is open only to those students who either have earned an A in ENG1201 or have earned at least a B in ENG1601. Note: No student who has received credit for ENG1202 may receive credit for ENG1602
ENG2213L Public Speaking (3)

Pre-Requisites: ENG1202L or ENG1602L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: ENG213L Public Speaking

This course provides practice in the construction of speeches, analysis of appeals to various audiences, and development of the speaking voice. It is a practical course offered to fit the needs of students in all fields. In cases of over-enrollment, seniors will be given preference. Pre-Requisites: ENG1202 or ENG1602 or permission of the instructor

ENG2280L Business and Technical Writing (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG384L Professionals and Technical Writing

This meets the requirement as a writing intensive course in the major. A comprehensive treatment of the theory and practice of business communication and the development of skills in presenting technical information, with emphasis on the effectiveness of expression through written correspondence, reports, technical manuals, and job resumes. Writing as a rewriting process will be stressed. Students will investigate the development of business and technical literature from idea to draft, to final product. Pre-Requisites: ENG1202 or ENG1602

ENG2400L The French Perspective (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG201L The French Perspective

Through the study of a variety of works translated into English, the student will have the opportunity to examine human behavior, motivation, and reasoning from the perspective of French writers. Selected works of Moliere, Voltaire, Flaubert, Zola, Camus, and Sartre will be the focus of discussion and written reflection. Please note that this course is conducted in English and will count toward the General Education literature requirement. Pre-Requisites: ENG1202 or ENG1602

ENG2410L Western World Literature I (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG205L Western World Literature I

This meets the requirement as a writing intensive course in the major. This is a survey of outstanding literature of the Western World from Homer to the Renaissance. There will be selections from, as well as complete works of, such authors as Homer, the Greek dramatists, Virgil, and Dante. Pre-Requisites: ENG1202 or ENG1602

ENG2420L Western World Literature II (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG206L Western World Literature II
This course surveys literature extending from Neo-Classical to modern literature. Selections include Racine, Moliere, Swift, Flaubert, Tolstoy, and Dostoyevsky. Pre-Requisites: ENG1202 or ENG1602

**ENG2430L Survey of American Literature (3)**

Pre-Requisites: ENG1202L OR ENG1602L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: ENG210L Survey of American Literature

This course provides a one-semester overview of American literature from the colonial period to the present. Authors studied may include Poe, Emerson, Thoreau, Hawthorne, Douglass, Melville, Whitman, Dickinson, Twain, Frost, Hemingway, Faulkner, O'Neil, and Williams. Pre-Requisites: ENG1202 or ENG1602 or permission of the Instructor. Note: this course may not be counted toward the requirements for the English major.

**ENG2500L Literatures of the Non-Western World (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG214L Literatures of the Non-Western World

This course includes selections of poetry, fiction, drama, and memoir - works from established and esteemed writers from around the globe: Eastern Asia, South East Asia, the Middle East, Africa, Latin America, and the Caribbean. Each piece and its author are placed within the context of his/her culture. Pre-Requisites: ENG1202 or ENG1602

**ENG2510L Survey of British Literature (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG217L Survey of British Literature

This course provides a one-term overview of British literature from the medieval period to the twentieth century. Authors may include Chaucer, Shakespeare, Donne, Swift, Wordsworth, Keats, Tennyson, Browning, Auden, Yeats, and others. Pre-Requisites: ENG1202 or ENG1602. Note: this course may not be counted toward the requirements for the English major.

**ENG2520L African American Literature (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG226L African American Literature

This course surveys highlights of African American literature. Writers include Douglass, Washington, DuBois, Hurston, Toomer, Bontemps, Hughes, Walker, Wilson, and Morrison. Pre-Requisites: ENG1202 or ENG1602

**ENG2530L Latin-American Literature in Translation (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG227L Latin-American Literature in Translation
This course provides an overview of contemporary Spanish American writers who depict the character, philosophy, social problems, attitudes towards human dignity, and the respect for human rights in Spanish-speaking countries. Such widely known and respected writers as Jorge Luis Borges, Julio Cortázar, Juan Rulfo, Luisa Valenzuela, Rosario Ferre, Gabriel García Márquez, and others are studied. Pre-Requisites: ENG1202 or ENG1602

**ENG3200L   Topics in Literature (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG300L Topics in Literature

A series of courses that concentrate on a single significant topic in literature. Representative topics include: In Search of the American Dream, Nobel Prize Winners in Literature, and the City in Literature. Pre-Requisites: ENG1202 or ENG1602

**ENG3210L   The Drama in English (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG310L The Drama in English

This survey examines the genre of drama in western culture beginning with ancient Greece, followed by a study of Roman drama. The focus then moves to the morality and mystery plays of the Middle Ages. Representative plays from the Renaissance, the Neoclassical period, and the modern era including the Theater of the Absurd will complete the course, which will explore how drama shapes and is shaped by culture and how individual dramaturgy distinguishes one playwright from another. Pre-Requisites: ENG1202 or ENG1602

**ENG3280L   The Novel in English (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG385L The Novel in English

This course is a study of representative novels by major British and American novelists since 1800. Novelists may include Austen, the Bronte’s, Eliot, Dickens, Melville, Twain, Lawrence, Woolf, Joyce, Hemingway, and Faulkner, as well as other major figures. Pre-Requisites: ENG1202 or ENG1602

**ENG3282L   Verbal and Visual Languages (3)**

Pre-Requisites: ENG1202L or ENG1602L  
Co-Requisite courses: None  
Equivalent courses: ENG382L Verbal and Visual Languages

This course explores the ways words and images function as symbol systems. The class will look at the illuminated poetry of William Blake as one site where words and images work both together and against one another. The class will also look at words and images in comic books, on film, and on the web. In addition to several written projects, each student will design and present either a PowerPoint slide show or a web site. Pre-Requisites: ENG1202 or ENG1602
ENG3290L  The Short Narrative (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG387L Short Narrative

This course explores the short story genre through reading a wide variety of short fiction, beginning with innovators such as Edgar Allan Poe and continuing through the twentieth and twenty-first centuries with writers such as D.H. Lawrence, Joyce Carol Oates, James Baldwin, Alice Walker, and Nadine Gordimer. Short fiction from various cultures, both eastern and western, will be read. The elements, unique to the short story and the challenge the genre itself presents by virtue of its brevity will be the focus. The role of the short story within the context of the societies that produce it will be discussed. Pre-Requisites: ENG1202 or ENG1602

ENG3377L  Modern Poetry (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG377L Modern Poetry

This course is a study of representative poems by major British and American poets since 1860. Poets may include Dickinson, Whitman, Browning, Hardy, Yeats, Frost, Williams, Stevens, and Lowell as well as other major figures. Some attention will be given to important critical concepts about poetry. Pre-Requisites: ENG1202 or ENG1602

ENG3380L  The Bible as Literature (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG380L The Bible as Literature

This course is a study of some of the literary qualities of the Old and New Testaments, with added attention given to the historical development of the English Bible. Pre-Requisites: ENG1202 or ENG1602

ENG3400L  Major Authors in American Literature 1492-1865 (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG303L Major Authors in American Literature, 1492-1865

This course is a historical survey of American literature and its relation to American culture from its beginnings in 1492 through the Civil War. Authors studied may include Bradford, Bradstreet, Edwards, Franklin, Jefferson, Poe, Emerson, Thoreau, Hawthorne, Douglass, Melville, Whitman, and Dickinson. Pre-Requisites: ENG1202 or ENG1602

ENG3410L  Major Authors in American Literature, 1865-Present (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG304L Major Authors in American Literature, 1865-Present
This course is a historical survey of American literature and its relation to American culture from the Civil War through the present. Authors studied may include Twain, Chopin, Frost, Hemingway, Faulkner, O’Neil, Williams, Updike, and Walker. Pre-Requisites: ENG1202 or ENG1602

ENG3430L Women Writers (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG330L Women Writers

This course surveys British and American women writers from the 19th and 20th centuries. Authors will include: Jane Austen, Emily Dickinso, Willa Cather, Virginia Woolf, Toni Morrison, and Maxine Hong Kingston. Pre-Requisites: ENG1202 or ENG1602

ENG3450L Environmental Literature (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG357L Environmental Literature

This course surveys works by such environmental writers as Henry David Thoreau, John Muir, Rachel Carson, Edward Abbey, Annie Dillard, Aldo Leopold, Bary Lopez, Terry Tempest Williams, Al Gore, William Cronon, and Bill McKibben Pre-Requisites: ENG1202 or ENG1602, or permission of the instructor.

ENG3480L Major British Authors from 800 to 1780 (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG388L Major British Authors from 800 to 1780

This course studies the founders of the British Literary Tradition. Authors include Chaucer, Spenser, Jonson, Donne, Milton, Pope, Swift, and Johnson. Pre-Requisites: ENG1202 or ENG1602

ENG3490L Major British Authors from 1780 to Present (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG389L Major British Authors from 1780 to Present

This meets the requirement as a writing intensive course in the major. This course surveys representative authors of the Romantic, Victorian, and Early Modern Period, including authors Blake, Wordsworth, Byron, Austen, Dickens, Eliot, Browning, Conrad, Lawrence, Woolf, and Joyce. Pre-Requisites: ENG1202 or ENG1602

ENG3800L Shakespeare (3)

Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG326L Shakespeare

A study of selected plays is arranged chronologically. Representative plays from Shakespeare’s comedies, tragedies, histories, and romances are studied. Pre-Requisites: ENG1202 or ENG1602
ENG4200L  Writing Seminar (3)
Pre-Requisites: ENG1201L or ENG1601L and ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG348L Writing Seminar

This is an advanced, writing-intensive course. Students will progress in a workshop setting through a series of assignments culminating in an individually chosen project. Each student will compile a portfolio of his or her writing. Students will be asked to evaluate their own work and to comment upon that of their classmates. In addition, some attention will be given to rhetorical theory. Pre-Requisites: ENG1201 or ENG1601, ENG1202 or ENG1602

ENG4375L  Approaches in Literary Study (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG375L Approaches to Literary Study

This course will acquaint students with a wide range of critical approaches to literature in order for them to become better critical readers themselves. Texts will range from such classical critics as Aristotle, Johnson, and Poe to such recent theorists as Miller, Fish, and Derrida. Pre-Requisites: ENG1202 or ENG1602

ENG4411L  History of the English Language (3)
Pre-Requisites: ENG1202L or ENG1602L
Co-Requisite courses: None
Equivalent courses: ENG311L History of the English Language

English 4411 is a study of the major trends in the development of English as it has grown from a dialect of West German to a major world language. Organized chronologically, the course will give some attention to ways in which modern linguistics has enhanced our understanding of language history. Pre-Requisites: ENG1202 or ENG16024

ENG4694L  Directed Study (1-6)
Pre-Requisites: Permission of faculty advisor, course instructor and department chair
Co-Requisite courses: None
Equivalent courses: ENG399L Directed Study

Directed study involves readings and papers. A student may take a maximum of six hours of credit in English 399 during any single term and twelve hours altogether. The course is ordinarily limited to English majors who have senior status, fifteen hours of English courses beyond ENG101 and ENG102, and a B average in English. In exceptional cases, a student who is not an English major may be allowed to take directed study. Pre-Requisites: Permission of faculty advisor, course instructor and department chair.

MASTER OF FINE ARTS IN CREATIVE WRITING

ENG5570OL  Creative Writing in the Social Realm  (4)
ENG5580OL Writing Shared with Others (4)
Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA580OL Writing Shared with Others

This course focuses on the pedagogy and andragogy of the craft, assisting students in honing the craft of teaching writing and sharing writing with others. Students will explore how to create workshops, courses, writing groups, online seminars, and other forms of teaching and mentoring others.

ENG5590OL Entrepreneurship and Creative Writing (4)
Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA590OL Entrepreneurship and Creative Writing

This course focuses on models of entrepreneurial enterprise in creative writing. Taken near the end of the program, the topic is intended to assist students in thinking about how they can find venues for supporting and promulgating their work, including publishing, grant writing, funding, teaching, forming cooperatives, and working through social media.

ENG6600L Creative Nonfiction Writing (4)
Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA600L Creative Nonfiction Writing

Creative non-fiction spans a huge array of material from personal narrative (essay, memoir, travel, nature) to inspirational and self-help books and on into professional writing, in any and all themes. This course will visit the wide array of creative non-fiction through reading, discussion, exercises and brief writing assignments, as well as writing for feedback. Writing non-fiction for young audiences will also be explored. The student will explore various genres of creative non-fiction and begin to articulate the personal goals for this field that he or she has

ENG6610L Form and Theory of Creative Nonfiction Writing (4)
Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA610L Form and Theory of Creative Nonfiction Writing

This course will move into the consideration of the field of nonfiction and its various genres through extensive reading in and about non-fiction. The variation of nonfiction writing, including narrative, expository, persuasive,
reflective and descriptive will be discussed and noted as means towards the end of creating nonfiction. Issues of ethics in the field of nonfiction will be considered, as will the overlap of fiction and nonfiction.

ENG6620L The Craft of Creative Nonfiction (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA620L The Craft of Creative Nonfiction

This course advances theory and practice with an emphasis on “work shopping”, presenting work for feedback. This course will focus more deeply on the specific craft required for different genres. The student will have chosen the nonfiction orientation that best suits personal goals and the craft required for each genre will be considered by the student though reading in that genre, writing about that genre and writing in that genre.

ENG6630L Advanced Creative Nonfiction Writing: Exploring Genres (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA630L Advanced Creative Nonfiction Writing: Exploring Genres

The course will explore a variety of non-fiction mediums, to advance student writing skills across genres, to create an authorial identification and to take ownership of writing as a professional path. Working with techniques that evoke the work of fiction: imagination, theme, character and plot, the student will learn to work from within the authority of their knowledge base and research, to create non-fiction that inspires, informs and educates the reader.

ENG6640L Writing the Truth: Becoming a Nonfiction Author (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA640L Writing the Truth: Becoming a Nonfiction Author

This course will involve the student in creating a longer nonfiction piece or compilation of pieces that will be presented, edited and revised and re-presented. The essential aspect of revision will be a strong focus of this course, as the student builds a professional orientation as a writer. The role of the nonfiction author, as one with a strong and credible voice, will be considered and practiced. The course will lead directly into the final thesis and portfolio work.

ENG6650L Writing Fiction: From Short Stories to Novels (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA650L Writing Fiction: From Short Stories to Novels

This course considers the forms of creative fiction and focuses on the experience of reading and writing fiction. Exercises and assignments will invite the student to explore the genre of adult fiction and enter into the world of writing fiction. Focusing on techniques in writing and analysis of published fiction will deepen an understanding of the field of fiction and the writer’s place within it.
ENG6660L  Form and Theory of Fiction Writing (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA660L Form and Theory of Fiction Writing

This course will move into the consideration of the field of fiction through extensive reading in and about fiction and the theory of fiction. Topics will include the elements of fiction and the variety and use of fiction strategies. The role of the fiction author and the purposes of writing fiction will be considered. Issues of ethics in the field of fiction will be included, as will the overlap of fiction and nonfiction.

ENG6670L  The Craft of the Novel (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA670L The Craft of the Novel

This course deepens an understanding of the basic principles of fiction writing including the elements and structure of a story, character, point of view, setting and description, dialogue and plot as they are applied to the writing of a novel. The aspects of constructing a novel from inspiration to development and writing will be explored, using both a firm grasp of the elements of craft and a strong orientation towards accessing inner creativity. This course advances theory and practice with an emphasis on “work shopping” or presenting work for feedback.

ENG6680L  Advanced Fiction Writing: Exploring Genres (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA680L Advanced Fiction Writing: Exploring Genres

This course will explore not only various fiction genres, from fantasy to satire to tragedy, but also the forms in which these genres exist from flash fiction (very short prose) through short stories to novels. Experimentation in writing in a variety of genres will be a key element of the course, while students begin to focus on the types of writing that they are inspired towards.

ENG6690L  Becoming the Writer: Authority and Ownership (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA690L Becoming the Writer: Authority and Ownership

This course will involve the student in creating a longer fiction piece or compilation of pieces that will be presented, edited and revised and re-presented. The essential aspect of revision will be a strong focus of this course, as the student builds a professional orientation as a fiction writer. The course will lead directly into the final thesis and portfolio work.

ENG6700L  Writing for Children (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MFA700L Writing for Children
This course will take the student into the world of children’s literature, with a direct intention to learn to see through children’s eyes. Basics of creative writing, as applied to children’s work, will be included and the class will invite a balance between the imagination that inspires children and the professional orientation that a children’s author will hold in working in the field. The practice or writing, feedback and revision will be included in a process of exercises and writing practices.

**ENG6710L  Form and Theory of Writing for Children (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA710L Form and Theory of Writing for Children

This course will move into the consideration of the field of children’s literature through extensive reading in and about children’s literature. Topics will include the elements of children’s writing, based on age group and purpose, and the variety and use of appropriate writing strategies. The role of the children’s author and the desired outcomes in writing for children will be considered. Issues of ethics in the field will be included.

**ENG6720L  From Picture Books to Stories (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA720L From Picture Books to Stories

This course will explore the variety of books for children from picture books through beginning readers to chapter books and children’s novels. The theme of compelling stories to evoke a child’s interests will be held throughout. Key elements of writing, as they are applied uniquely to children’s fiction will be included, including the overarching writing principles that apply to all writing, including, plot, story development, character, dialogue and setting. “Work shopping,” writing for feedback within the group will be an essential element of the course.

**ENG6730L  Advanced Writing for Children: Exploring Genres (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA730L Advanced Writing for Children: Exploring Genres

This course will explore various children’s fiction genres. The focus will be on children’s writing up to young adulthood and will include consideration of genre themes such as: fantasy; fairy tales; realistic and historical fiction; child related educational (counting, alphabet, informational); and drama. Experimentation in writing in a variety of genres will be a key element of the course, while students begin to focus on the types of writing that they are inspired towards. The course work will lead directly towards the thesis/portfolio work.

**ENG6740L  Children’s Development and Family Literacy (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA740L Children’s Development and Family Literacy
This course addresses the key issues of children’s developmental stages, needs and capacities, in the context of literature that will support their development. The role of family literacy, as a key to positive outcomes for children as readers will be considered and the student, preparing to be an author and/or teacher, will study and create practices that are intended to promote not only reading, but family literacy. From the classroom to the specific content of any book, the issues of development and the role of family and culture in that development are of great importance to the author, who must orient the work towards a developing child.

**ENG6750L  Writing for Young Adults (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA750L Writing for Young Adults

This course will take the student into the world of young adult literature, with an orientation towards assessing the needs and interests of this unique population, typically considered to be between 12 and 18 years of age, though often extended in both directions. Basics of creative writing, as applied to young adult work, will be included and the class will invite a consideration of how to “reach” the teenage reader, transitioning from childhood into adulthood.

**ENG6760L  Form and Theory in Young Adult Literature (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA760L Form and Theory in Young Adult Literature

This course will move into the consideration of the field of young adult literature through extensive reading in and about young adult literature. Topics will include the elements of fiction and the variety and use of fiction strategies. The unique elements of pacing, developmental comprehension and young adult engagement in literature will be included. The role of the author and the purposes of writing for this audience will be considered. Issues of ethics in the field of fiction will be included, as will the overlap of fiction and nonfiction.

**ENG6770L  Advanced Writing for Young Adults: Genres and Craft (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA770L Advanced Writing for Young Adults: Genres and Craft

This course will explore various young adult fiction genres. The focus will be on genre themes such as: fantasy; coming of age; realistic and historical fiction; and experimental. Experimentation in writing in a variety of genres will be a key element of the course, while students begin to focus on the types of writing that they are inspired towards. Forms of young adult writing, from short stories to the young adult novel will be included. “Work shopping” as an environment for sharing and receiving feedback will be a component of the course.

**ENG6780L  Pre-Adolescent and Adolescent Development and Literacy (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA780L Pre-Adolescent and Adolescent Development and Literacy

This course addresses the key issues of adolescent developmental stages, needs and capacities, in the context of literature that will support their development. The role of family literacy, as a key to positive outcomes for young
adults and adolescents will be considered and the student, preparing to be an author and/ or teacher, will study and create practices that are intended to promote not only reading, but family literacy. From the classroom to the specific content of any book, the issues of development and the role of family and culture in that development are of great importance to the author, who must orient the work towards a developing adult.

**ENG6790L Claiming The Storyteller’s Voice: Creating Access to Youth (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA790L Claiming The Storyteller’s Voice: Creating Access to Youth

This course will involve the student in creating a longer piece or compilation of pieces that will be presented, edited and revised and re-presented. The essential aspect of revision will be a strong focus of this course, as the student builds a professional orientation as a young adult writer. The unique elements of finding voice for a teenage audience will be practiced. The course will lead directly into the final thesis and portfolio work.

**ENG6809L Applied Field Experience (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA800L Applied Field Experience

The MFA in Creative Writing requires each student to participate in 4 credits of supervised field experience, spread over two trimesters. Because the MFA is often desired as a credential for faculty positions in higher education, some students may wish to do their field experience in a higher education setting. Others may wish to intern in community settings where teaching writing may be appropriate. Creating and running a writing group on a specific theme may be an appropriate placement and work with published writers in outside classes, tutorials or mentorship processes is also an option. It is possible that a student may arrange two different field experiences to fulfill the requirement. The AFE is arranged in advance and approved by both the student's Advisor. Outside support, supervision and confirmation of work will be included. This may take the form of a site supervisor, a mentor, an administrator, or class members, who will validate the work experience and give feedback for the student.

**ENG6819L Final Professional Presentation (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA810L Final Professional Presentation

Each student will make a formal presentation of the capstone project at his/her last residency. The student must have the proposal for the FPP approved prior to the final term of enrollment.

**ENG6829L Creative Thesis and Portfolio I (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA820L Creative Thesis and Portfolio I

Each student will create an 8-credit creative thesis that showcases his/her creative writing completed during the program, demonstrates social relevance, and includes scholarly references. In the thesis, the student is expected to
explore something new, demonstrate seriousness of purpose, convey a sense of depth, and communicate an act of discovery or insight. S/he should select work that represents his or her individual stamp, but must also accompany it with a pertinent scholarly essay. Thus, every final thesis and portfolio will combine an academic paper relevant to the creative work compiled by the student over the course of study. The final product will include, not only the scholarly essay, but the creative works that have been produced, creating a robust portfolio of scholarship and creative writing. For example, a learner preparing a thesis based on the novel would include a scholarly piece that puts his/her novel in an historical, literary, and/or theoretical context, while signifying how his/her contribution relates to relevant literature in the field.

**ENG6839L Creative Thesis and Portfolio II (4)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MFA830L Creative Thesis and Portfolio II

Each student will create an 8-credit creative thesis that showcases his/her creative writing completed during the program, demonstrates social relevance, and includes scholarly references. In the thesis, the student is expected to explore something new, demonstrate seriousness of purpose, convey a sense of depth, and communicate an act of discovery or insight. S/he should select work that represents his or her individual stamp, but must also accompany it with a pertinent scholarly essay. Thus, every final thesis and portfolio will combine an academic paper relevant to the creative work compiled by the student over the course of study. The final product will include, not only the scholarly essay, but the creative works that have been produced, creating a robust portfolio of scholarship and creative writing. For example, a learner preparing a thesis based on the novel would include a scholarly piece that puts his/her novel in an historical, literary, and/or theoretical context, while signifying how his/her contribution relates to relevant literature in the field.

**FINANCE – (Undergraduate)**

**FIN1000L Budgeting for Human Services (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: FIN200L Budgeting for Human Services

This course introduces students to concepts used in planning, control, and decision making in business and non-business organizations. Emphasis will be on developing, analyzing, and evaluating budget reports with a special focus on cost volume profit relationships, cost behavior, and human behavior aspects. Pre-Requisites: None

**FIN2003L Managerial Finance (3)**

Pre-Requisites: ECO1401L and ECO1402L and ACC1601L  
Co-Requisite courses: None  
Equivalent courses: FIN203L Managerial Finance

This course introduces the student to financial management, with emphasis on the identification and solution of the financial problems facing business enterprises. Basic financial analysis is examined in concert with management of working capital, management of long-term assets, cost of capital, and long-term financing. Basic modern quantitative analytic techniques are used to introduce students to improved forecasting and planning methods. Pre-Requisites: ECO 1401, ECO 1402 and ACC1601
FIN3200L  Principles of Insurance (3)

Pre-Requisites: FIN2003L
Co-Requisite courses: None
Equivalent courses: FIN309L Principles of Insurance

This course is designed to provide a broad understanding of general theory and practice, with emphasis upon those principles common to all special fields: property, life, disability, liability, workers' compensation, fidelity, and automobile insurance. Accounting majors may take this course for economics credit. Pre-Requisites: FIN2003

FIN3202L  Investments (3)

Pre-Requisites: FIN2003L
Co-Requisite courses: None
Equivalent courses: FIN306L Investments

The course presents the organization and functions of the securities markets, types of investments, investment theories relating to risk and return on investments, and an appraisal of modern techniques in bond and stock valuation. Pre-Requisites: FIN2003

FIN3210L  Spreadsheet Applications & Financial Modeling (3)

Pre-Requisites: FIN2003L and ACC1201L and ACC1601L, and knowledge of MS Excel
Co-Requisite courses: None
Equivalent courses: FIN328L Spreadsheet Applications & Financial Modeling

This course trains students in the preparation and presentation spreadsheets and financial models using MS Excel software. Topics covered include: financial functions (NPV, IRR, annuities, FV), capital budgeting, optimization of objective functions under constraints, the capital assets pricing model, forecasting, time series and regression analysis, inventory and working capital management, ratio analysis. The focus is on developing skills that are directly applicable in the current workplace environment. Pre-Requisites: FIN2003, ACC1201, ACC1601 and knowledge of MS Excel

FIN3240L  Money and Banking (3)

Pre-Requisites: 12 hours of economics and/or finance
Co-Requisite courses: None
Equivalent courses: FIN303L Money and Banking

The course presents the essentials of money and banking, with special reference to developments of recent years. Balanced emphasis upon both theoretical and practical aspects of the subject is the basis for interpretation of problems such as inflation, recession, the interest rate structure, and national debt. Pre-Requisites: 12 hours of economics and/or finance

FIN3650L  Entrepreneurship and Small Business Management (3)

Pre-Requisites: Junior or senior status or permission of the instructor
Co-Requisite courses: None
Equivalent courses: FIN354L Entrepreneurship and Small Business Management
An overview of the entrepreneurship process starting with the individual, the creativity process, the entrepreneurial idea/concept, and feasibility analysis, and concluding with the business plan. Field trip(s) and guest speakers (e.g., alumni and faculty) appropriate to venture startup and infancy are incorporated. Topics include forms of business organization, patent/copyright laws, management, finance, store layout, employee theft, and franchising. Pre-Requisites: Junior or senior status or permission of the instructor

FIN3800L Advanced Managerial Finance (3)

Pre-Requisites: FIN2003L
Co-Requisite courses: None
Equivalent courses: FIN304L Advanced Managerial Finance

The course is designed to help students master the theory and applications of financial management. Emphasis is on the analytical aspects of financial problem solving using theory and concepts applied to a business setting through the use of case examinations. The importance of advanced quantitative techniques and the useful application of capital budgeting techniques are stressed. The material covered and the cases and problems examined offer an opportunity to assess and understand daily decisions on risk and return facing the practicing manager. Pre-Requisites: FIN2003

FIN3810L Business Cycles (3)

Pre-Requisites: ECO1401L and ECO1402L and ECO3200L
Co-Requisite courses: None
Equivalent courses: FIN326L Business Cycles

This course covers a study of the forces causing fluctuations in business activity. Possible devices to stabilize the economy will be explored. Also, the course will explore ways used by economists to attempt to predict the level of economic activity. Pre-Requisites: ECO1401, ECO1402, ECO3200

FIN3840L Public Finance (3)

Pre-Requisites: FIN3240L
Co-Requisite courses: None
Equivalent courses: FIN329L Public Finance

This course studies theories and techniques used at all levels of government management of an economy. Expenditure, receipt, budget, and debt policies will be emphasized. Pre-Requisites: FIN3200

FIN4010L Commercial Banking (3)

Pre-Requisites: FIN2003L
Co-Requisite courses: None
Equivalent courses: FIN310L Commercial Banking

The student will study the structure, operations, and role of commercial banks. Attention will be given to sources and uses of funds, liquidity, earnings, capital structure, and regulation. Pre-Requisites: FIN2003

FIN4020L Fundamental Elements of Real Estate (3)

Pre-Requisites: FIN2003, open to juniors and seniors with permission of instructor
Co-Requisite courses: None
Equivalent courses: FIN311L Fundamental Elements of Real Estate

The course examines the principles and practices of land economics, forms of ownership with consideration of related areas of law, finance, insurance, taxation, investment, appraisal, and brokerage. Pre-Requisites: FIN2003, open to juniors and seniors with permission of instructor

FIN4213L  Budgeting & Financial Planning (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: FIN313L Budgeting & Financial Planning

This course covers the techniques of designing a budget and incorporating the information required to make budgets an effective tool of financial control. It also deals with spreadsheet techniques and focuses on the importance of integrating budgeting with overall financial and strategic plans. Special topics include activity based costing, zero based budgeting, variance analysis, and the integration of budgets with financial and sales forecasts.

FIN4651L  Seminar in Finance (3)

Pre-Requisites: For senior finance majors or with the permission of the instructor
Co-Requisite courses: None
Equivalent courses: FIN351L Seminar in Finance

Realistic and actual situation problems of interest to the student will be discussed on an advanced basis. Independent research on current problems and situations concerned with the various facets of finance will be directed. Pre-Requisites: For senior finance majors or with the permission of the instructor

FIN4694L  Directed Study (1-3)

Pre-Requisites: Senior status, written application setting forth objectives and reasons for the student's desire for a readings course, permission of the instructor, and approval of the dean of the School of Business Administration
Co-Requisite courses: None
Equivalent courses: FIN398L Directed Study

Selected readings are chosen in accordance with the student's interests and background. Pre-Requisites: Senior status, written application setting forth objectives and reasons for the student's desire for a readings course, permission of the instructor, and approval of the dean of the School of Business Administration

FIN4899L  Practicum in Finance (3)

Pre-Requisites: Permission of the instructor
Co-Requisite courses: None
Equivalent courses: FIN335L Practicum in Finance

A supervised work experience for major in finance. Students will have the opportunity to observe professionals in action and to take part in office activities, thereby utilizing and improving skills learned through that observation along with those from classroom study. Pre-Requisites: Permission of the instructor
FINANCE – (Graduate)

FIN5000L  Finance (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT615L Finance

This course is a survey of financial decision making within a business enterprise. Topics include examination of decision making on investments in fixed and current assets, and raising funds from suppliers of short and long-term funds. Students will examine quantitative and qualitative methods of planning and controlling investments in cash, marketable securities, receivables and inventories; bank relations and lending policies; sources of cash requirements; time-adjusted techniques of evaluating capital expenditure, cost of capital, leverage, and capital structure decision making. Pre-Requisites: None

FIN5210L  Managerial Finance (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA545L Managerial Finance

This course analyzes the internal financial problems of a business enterprise. Topics include capital budgeting; evaluation of capital projects using discounted cash flow (internal rate of return and present value) and non-time-adjusted methods under conditions of certainty and uncertainty; capital structure theory and management; determining the cost of capital; the effect of leverage and dividend policy on cost of capital and firm policy; working capital management; liquidity structure of assets and liabilities; management of cash, marketable securities, receivables and inventories; financing, investment banking and the issue of long-term debt, preferred stock, common stock, convertible securities, and warrants; short and intermediate debt and lease financing, and short and long-term financial forecasting.

FRENCH – (Undergraduate)

FRE1201L  Elementary French Language and Culture I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: FRE101L Elementary French Language and Culture I

This is a basic course designed for students who have had little or no experience with the French language. The course includes drill in pronunciation, elementary conversation, grammar, and writing, and the use of a cultural approach text. This is a comprehensive language course: teaching the four skills of reading, writing, speaking, and listening. Pre-Requisites: None

FRE1202L  Elementary French Language and Culture II (3)

Pre-Requisites: FRE1201L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: FRE102L Elementary French Language and Culture II

A continuation of FRE101. Pre-Requisites: FRE1201 or permission of the instructor
GERMAN – (Undergraduate)

GER1201L Elementary German Language and Culture I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GER 101L Elementary German Language and Culture I

This is a basic course designed for students who have had little or no experience with the German language. The course includes drill in pronunciation, elementary conversation, grammar and writing, and the use of a cultural approach text. This is a comprehensive language course: teaching the four skills of reading, writing, speaking, and listening. Pre-Requisites: None

GER1202L Elementary German Language and Culture II (3)

Pre-Requisites: GER1201L
Co-Requisite courses: None
Equivalent courses: GER102L Elementary German Language and Culture II

Course Description: A continuation of GER1201. Pre-Requisites: GER1201

GERONTOLOGY – (Undergraduate)

GSC1200L Exploring the Continuum of Care for Elders (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GSC204L Exploring the Continuum of Care for Elders

The purpose of this course is to review the continuum of care of elders. Included will be a review of the health care plans, discharge plans, and case management needs of the elderly. Pre-Requisites: None

GSC1210L Caregiving for an Aging Population (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GSC205L Caregiving for an Aging Population

As our population ages, the issue of caregiving becomes increasingly important. This mini-course examines three types of caregiving: in the home, in an institution, and by developing supportive networks. Special consideration of how to help or counsel those facing the nursing home decision, including what to look for in a nursing home placement. Pre-Requisites: None

GSC1220L HIV/AIDS and Older Adults (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GSC207L HIV/AIDS and Older Adults
The unique issues and needs of older adults living with HIV/AIDS and other older persons who are directly affected by the HIV/AIDS epidemic, including cultural factors, health/medical complications, risk factors, education, and service provision. Pre-Requisites: None

**GSC1230L  The Politics of Aging (1)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC220L The Politics of Aging

This class addresses how public policies and laws are made, the role of influential groups and how money given to candidates influences policies affecting senior citizens, and the growing antagonism between older and younger age groups. Pre-Requisites: None

**GSC1300L  Crisis Intervention: An Interdisciplinary Approach (1)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC206L Crisis Intervention: An Interdisciplinary Approach

An examination of the kinds of crises experienced by older adults, suicidality in the older population, and interventions for the helping professional. Pre-Requisites: None

**GSC2400L  The Aging Experience (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC340L The Aging Experience

An overview course that provides an introduction to the field of adult development in the later years. Topics include the psychology of aging, images of aging in literature and the media, ethnicity and aging, relationships with family and friends, the workplace and community, and the self, throughout the maturation process. Guest speakers, multimedia materials, and simulation activities are used to discuss the issues and opportunities facing individuals as our population ages. Pre-Requisites: None

**GSC2403L  Psychology of Death and Dying (3)**

Pre-Requisites: PSY1401L  
Co-Requisite courses: None  
Equivalent courses: GSC350L Psychology of Death and Dying

This course will focus on the many different aspects of death and dying. Some of the topics include: grief and bereavement, the hospice philosophy, children and death and dying, and AIDS. This course is appropriate for psychology and sociology majors, nurses and nursing students, gerontology students, and anyone interested in exploring this most fascinating subject. Pre-Requisites: PSY1401

**GSC2410L  Psychology of Aging (3)**

Pre-Requisites: PSY1401L  
Co-Requisite courses: None  
Equivalent courses: GSC346L Psychology of Aging
Life cycle studies have recently focused on the middle and older years of the life span. These studies have revealed that the declines in aging aren’t as universal, precipitous, nor inevitable as previously thought; indeed, each decade in middle years has its theme and task. It has also been found that many of the changes we associate with old age actually begin during earlier periods of life. The focus in this course is on the origin and nature of these individual changes and phases. Pre-Requisites: PSY1401

**GSC2420L  Contributors to Healthy Aging (3)**

Pre-Requisites: GSC2400L and GSC2600L  
Co-Requisite courses: None  
Equivalent courses: GSC345L Contributors to Healthy Aging

The theoretical perspectives inherent in wellness models of aging will be examined. These perspectives include: theories of aging, models of intentional change, theories of adult learning, and theories of motivation and adaptation. In addition, students will explore several biomedical and psychosocial contributors to healthy aging. Pre-Requisites: GSC2400, GSC2600

**GSC2600L  Health Aspects of Aging (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC352L Health Aspects of Aging

The process of aging will be studied from a physical point of view. Healthy vs. unhealthy lifestyles will be presented including issues in nutrition, substance use and abuse, sexuality, safety, stress, and mental health. Specific disabilities connected with the aging process will be covered. Pre-Requisites: None

**GSC2620L  Systems and Networks (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC360L Systems and Networks

This course provides students with a background in models and theories of human service development. The inter-relationship support for older people and their surrounding communities (local, state, and federal) are examined, with a special focus on specific systems and networks supporting the human development field in Massachusetts and Connecticut. Pre-Requisites: None

**GSC2640L  Legal Issues and Public Policy (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: GSC365L Legal Issues and Public Policy

This course covers legal and policy issues in areas that affect the elderly, particularly in the areas of housing, health care, taxes, and social security. Pre-Requisites: None

**GSC2650L  Current Issues in Gerontology (3)**

Pre-Requisites: GSC2400L and GSC2600L
Co-Requisite courses: None
Equivalent courses: GSC370L Current Issues in Gerontology

This course will explore several major, current issues in gerontology. Students will examine various research methodologies in human development, learn how to conduct a formal literature search using the major sources for gerontology research papers, and be able to demonstrate the ability to research a current topic in gerontology. Pre-Requisites: GSC2400, GSC2600

GSC3699L  Field Work in Human Services (3)

Pre-Requisites: 12 credits in the major
Co-Requisite courses: None
Equivalent courses: GSC390L Field Work in Human Services

This course provides the student with an opportunity to integrate the theory and practice of their human service field and gain first-hand experience in a human service setting. Students propose a project prior to the beginning of the class and discuss it at the first class. They will then meet every other week with the fieldwork instructor to discuss their experience and issues related to their project. Pre-Requisites: 12 credits in the major

HEALTHCARE MANAGEMENT – (Undergraduate)

HCM2200L  American Healthcare System (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCM300 American Healthcare System

This course provides an overview of the American healthcare system. Beginning with a historical look at healthcare in the United States, students will examine the important demographic, social, and economic issues that challenge the current healthcare delivery system, and will gain an understanding of the difficulty in meeting the needs of both providers and consumers in this nation’s quest for equal access to quality care. Pre-Requisites: None

HCM2610L  Healthcare Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCM310 Healthcare Management

This course studies the management of healthcare organizations including hospitals, ambulatory and long-term care facilities. It focuses on their organizational structures and functions as it addresses key issues pertaining to the delivery of care, services offered and their value to the community they serve. Pre-Requisites: None

HCM2620L  Healthcare Marketing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCM320 Healthcare Marketing
This course provides insight into the rapidly growing area of healthcare marketing. Building on a basic foundation of marketing principles, it focuses its attention on marketing for healthcare providers, organizations, health-related products and medical devices. Pre-Requisites: None

**HCM3230L  Ethical and Legal Issues in Healthcare (3)**

Pre-Requisites: HCM2200L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: HCM335L Ethical and Legal Issues in Healthcare

This course examines the ethical and legal framework of the healthcare system and the issues that healthcare managers must deal with in order to address effectively the concerns of stakeholders, comply with governmental regulations, and act in concert with the ethics of the medical professions. It includes analysis of the legal challenges of malpractice, patient confidentiality, and conformity to administrative guidelines. It also applies classical theories of ethical decision-making – utilitarianism, deontology, social justice – to issues faced by those managing healthcare establishments such as patient rights, use of human subjects and tissues in medical research, end of life decisions, and protection of intellectual property. Pre-Requisites: HCM2200 or permission of the Instructor.

**HCM3440L  Managing Healthcare Information (3)**

Pre-Requisites: HCM2200L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: HCM340L Managing Healthcare Information

This course introduces the student to the technology, legislation, and industry practices of the ethical management of healthcare information(Healthcare Informatics). The student will be exposed to latest trends, technologies, and best practices in managing healthcare information. The student will develop a functional understanding of HIPPA, information systems, data quality, informatics, and the value of medical databases. Legal and ethical issues related to health information technology and health information exchanges will be explored. Pre-Requisites: HCM2200 or permission of the instructor.

**HCM4240L  Healthcare Economics and Finance (3)**

Pre-Requisites: HCM2200L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: HCM345L Healthcare Economics and Finance

This course provides a comprehensive overview of the financial structure, market forces, government policies and regulations, controls and techniques that apply to the healthcare sector of the economy. It examines the perspectives of multiple stakeholders - patients, physicians, hospitals, insurance companies, and government - in allocating costs and realizing profits from the delivery of healthcare. It also provides grounding in the financial tools and techniques of needed to analyze complex healthcare problems and recommend sound solutions that maximize benefits to all parties while minimizing costs. Pre-Requisites: HCM2200 or permission of the instructor.

**HCM4899L  Healthcare Internship (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HCM395L Healthcare Internship
The purpose of the internship is to provide students with a real-world, management-related experience in the healthcare sector. Students participate in projects that have implications for organizational efficiency, cost-effective delivery of health services or improved healthcare system performance. Pre-Requisites: None

**HONORS PROGRAM – (Undergraduate)**

**HON1104L**  First Semester Honors Seminar (3)

Pre-Requisites: Enrollment is determined by participation in the Honors Program
Co-Requisite courses: None
Equivalent courses: HON101L First Semester Honors Seminar

This course introduces participants to college life, to American International College, and to the Honors Program. Issues covered include the purpose of higher education, planning a course of study, the culture and history of AIC, how to make the most of one's time at college, as well as special topics at the instructor’s discretion. Pre-Requisites: Enrollment is determined by participation in the Honors Program.

**HON2210L**  Honors Seminar in the Field of Cultural Awareness (3)

Pre-Requisites: Participation in the Honors Program or invitation from the instructor.
Co-Requisite courses: None
Equivalent courses: HON201L Honors Seminar in the Field of Cultural Awareness

This seminar explores a special topic in the humanities and liberal arts. Subjects will vary each semester. Pre-Requisites: Participation in the Honors Program or invitation from the instructor.

**HON2220L**  Honors Seminar in the Field of Social Awareness (3)

Pre-Requisites: Participation in the Honors Program or invitation from the instructor.
Co-Requisite courses: None
Equivalent courses: HON202L Honors Seminar in the Field of Social Awareness

This seminar explores a special topic in the social sciences. Subjects will vary each semester. Pre-Requisites: Participation in the Honors Program or invitation from the instructor.

**HON4601L**  Honors Thesis Preparation (1)

Pre-Requisites: Participation in the Honors Program or invitation from the instructor.
Co-Requisite courses: None
Equivalent courses: HON301L Honors Thesis Preparation

Under supervision of a faculty advisor, students will devise a plan for an honors thesis and do exploratory research and reading for this purpose. The faculty advisor will specify the requirements for successfully completing the course, which may include producing a prospectus or outline for the thesis and an annotated bibliography of relevant scholarly works on the topic. Students will then write the actual thesis in HON399, which is normally taken the following semester. Pre-Requisites: Participation in the Honors Program or invitation from the instructor.
HON4899L  Honors Thesis (3)

Pre-Requisites: HON4601L
Co-Requisite courses: None
Equivalent courses: HON399L Honors Thesis

The thesis represents the capstone for the Honors Program and will require each student to work in close conjunction with a faculty advisor to produce an independent work of scholarship in their discipline. Standards will vary from major to major, but students are expected to produce a substantial piece of written work or its equivalent. Pre-Requisites: HON 4601

HUMAN RESOURCE DEVELOPMENT/HUMAN SERVICES – (Undergraduate)

HRD2000L  Introduction to Human Relations

Pre-Requisites: ENG1201L or ENG1602L
Co-Requisite courses: None
Equivalent courses: HRD200 Introduction to Human Relations

This course introduces students to a conceptual model and the skill techniques that characterize an effective interpersonal interaction. The course provides students with an understanding of the dimensions of individual and interpersonal functioning that contribute to constructive relationships at home, school, and work within the community. It involves brief supervised practice sessions of the research-tested interpersonal skills related to these dimensions. Students will be provided with assistance in understanding the application of the skills to the fulfillment of professional responsibilities in corrections, counseling, nursing, business, and management. Pre-Requisites: ENG1201 or ENG1602.

HRD2210L  Career Development as Life Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HRD310L Career Development as Life Management

The student experiences training in practical career development skills of expanding career options, gathering career information, values development, decision making, and planning for career achievement. This course studies the major theories of career development and examines current issues in the field of education and management. Recommended for students interested in personal career development, counseling, guidance, and personnel management. Pre-Requisites: None

HRD2601L  Human Relations and Human Effectiveness (3)

Pre-Requisites: HRD2000L
Co-Requisite courses: None
Equivalent courses: HRD201L Human Relations and Human Effectiveness

Advanced training in the basic interpersonal skills learned in HRD2000. Special emphasis will be given to the skills of problem definition, goal definition, decision making, program development, and program implementation, and application of these skills to personal, organizational, and community development. Recommended for any student who is interested in a human contact career. Pre-Requisites: HRD2000
HRD3070L  Major Sources of Human Productivity (3)

Pre-Requisites: HRD2000L
Co-Requisite courses: None
Equivalent courses: HRD370L Major Sources of Human Productivity

The seminar will survey the skills, models, and systems needed to maximize individual and organizational development. Discussions and presentations will include an introduction to productivity intervention designs and training as a major ingredient for managing human resources. Focus will be on functionally relating policy, management, supervision, and delivery to information resource development. Students will design a productivity system in their specialty area. Open to all juniors and seniors. Pre-Requisites: HRD2000

HISTORY-(Undergraduate)

HST1400L  Western Civilization I (to 1500) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST101L Western Civilization I (to 1500)

An introductory survey of the historical evolution of Western civilization from its ancient origins to AD1500. This course introduces students to methods of and issues in historical investigation. Its comprehensive approach includes the study of social and economic elements, religion, philosophy, literature, art, politics, and institutional developments. Pre-Requisites: None

HST1410L  Western Civilization I (since 1500) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST102L Western Civilization II (since 1500)

An introductory survey of the historical evolution of Western civilization from AD 1500 to the present. This course introduces students to methods of and issues in historical investigation. Its comprehensive approach includes the study of social and economic elements, religion, philosophy, literature, art, politics, and institutional developments. Pre-Requisites: None

HST1420L  World History I (to 1500) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST107L World History 1 (to 1500)

This course will provide a survey of World History from the origins of humanity to the Fifteenth Century, just before the European “voyages of discovery” that brought the Americas and Pacific into contact with the rest of the world. It will focus on the development of major civilizations around the globe with a special interest in the political, economic, cultural and other ties between these civilizations. Pre-Requisites: None

HST1430L  World History II (since 1400) (3)
This course will provide a survey of World History from the Fifteenth Century to the present. It will focus on the global contacts and connections created since Columbus’s voyage in 1492 as well as on important political, economic, social and cultural trends that have contributed to the creation of the modern world. Pre-Requisites: None

**HST1500L**  **World History (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HST200L World History

A one-semester, sophomore-level survey of world history, comprehensive in both chronology and geography. Principal concepts in geography, political science, economics, and the history of science will be featured. Designed specifically for Massachusetts state teacher certification needs, this course will emphasize Western civilization, including United States history and Massachusetts state history. Pre-Requisites: None

**HST1510L**  **U.S. History to 1877 (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HST201L U.S. History to 1877

A survey of the evolution of the United States from its colonial origins to the end of Reconstruction, this course explores the significant social, economic, intellectual, and political developments, including state history of Massachusetts. Pre-Requisites: None

**HST1520L**  **U.S. History Since 1877 (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HST202L U.S. History since 1877

A survey of the evolution of the United States from the late 19th century to the early 21st, this course explores the significant social, economic, intellectual, and political developments during "the American Age" of global history, including state history of Massachusetts. Pre-Requisites: None

**HST2420L**  **Presidency and Congress (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HST215L Presidency and Congress

The powers, function, and inherent conflicts of the Congress and the presidency are examined with emphasis placed on the historical development of institutions. Pre-Requisites: None
HST2440L Civilization of the Ancient Mediterranean (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST246L Civilization of Ancient Mediterranean

A survey of major themes in the cultural history of the Ancient Mediterranean world, beginning with the near east and continuing through Greek and Roman civilization. These cultures were remarkable for the scope of their intellectual achievements, ambition and power. As a result, the study of classical civilization is the traditional basis of a liberal education, providing a vital understanding of the moral and intellectual roots of current ideas on morality, politics, language and literature. This course explores the history of the Mediterranean world from the time of Homer to the fall of the Roman Empire. Topics include: Greek and Roman mythology, the philosophy of Plato and Aristotle, Greek and Roman theater, Latin classics (Seneca, Cato, Caesar, Tacitus, Livy) and major styles of art and architecture. Pre-Requisites: None

HST2500L American National Elections (3)

Pre-Requisites: POL1400 any 1000- or 2000-level history course, or permission of instructor
Co-Requisite courses: None
Equivalent courses: HST275L American National Elections

This course examines the structure of both presidential and congressional elections and the resultant consequences of those structures. The historical development of elections is emphasized. A case study of either the presidential or congressional midterm election will be analyzed with special attention given to campaign strategies. Pre-Requisites: POL1400 any 1000- or 2000-level history course, or permission of instructor.

HST2601L Knights, Popes, and Ladies: The Middle Ages (3)

Pre-Requisites: Any 1000- or 2000-level history course, or permission of instructor
Co-Requisite courses: None
Equivalent courses: HST301L Knights, Popes, and Ladies: The Middle Ages

A study of medieval Europe. This course will focus on the institutional, intellectual, and cultural aspects of the period, especially as they became the foundation for the Western heritage of today's world. Covering from late antiquity to the Italian Renaissance, the topics will include social and economic study as well. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor

HST2610L European Integration (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST211L European Integration

This course will explore the topic of European integration from a variety of perspectives, including those of history, political science and sociology. The first half of the course will concentrate on the pre-history and history of the European communities leading to the creation of the European Union in November 1993. Then, it will look at the European Union's institutions and how they function, the relationship between the member states and the EU, and special issues that face the EU today. Pre-Requisites: None
HST2631L Introduction to Historical Research and Writing (3)

Pre-Requisites: At least one 1000- or 2000-level history survey course plus sophomore standing or higher. Students must earn a grade of C- or better for this course to count towards their history major or minor degree requirements. Permission of instructor required if not a history major or minor.
Co-Requisite courses: None
Equivalent courses: HST231L Introduction to Historical Research and Writing

This seminar will introduce students to the basic issues and methods involved in the academic discipline of history. It will require them to write a paper based on independent research on a topic related to the theme chosen by the instructor for the seminar. Pre-Requisites: At least one 1000- or 2000-level history survey course plus sophomore standing or higher. Students must earn a grade of C- or better for this course to count towards their history major or minor degree requirements. Permission of instructor required if not a history major or minor.

HST2690L Twentieth-Century Global History (3)

Pre-Requisites: Any 1000- or 2000-level history course, or permission of instructor
Co-Requisite courses: None
Equivalent courses: HST390L Twentieth-Century Global History

A systematic examination of world history from the international rivalries leading to World War I through the early twenty-first century. Emphasis will be on the political, economic, and cultural evolution of global society and the forces that unify as well as fragment that society. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3401L The Cold War (3)

Pre-Requisites: POL2401L or any 1000- or 2000-level history course, or permission of instructor
Co-Requisite courses: None
Equivalent courses: HST308L The Cold War

This course will examine the international history of the Cold War. Special emphasis will be placed not only on the rivalry between the United States and the Soviet Union, but also on how the entire world between 1945 and 1991 was influenced by the competition between the different ideologies and socio-economic systems that those countries represented. It also will suggest how the Cold War has continued to influence our present era. Pre-Requisites: Any 1000- or 2000-level history course or POL2401 or permission of instructor.

HST3402L Modern Germany (3)

Pre-Requisites: Any 1000- or 2000-level history course, or permission of instructor.
Co-Requisite courses: None
Equivalent courses: HST307L Modern Germany

This course will focus on German history from the late nineteenth century to the present. Topics covered include the creation of a German nation state in the form of the Second Empire in 1870-71; politics and society in imperial Germany; the origins of the first world war and the collapse of the empire in 1918; Germany's first experiment with democracy between 1918 and 1933; the rise of national socialism with its devastating consequences; the era of two German states after 1945, one on each side of the Cold War; and the unexpected peaceful reunification of 1989-90. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
HST3403L  The Italian Renaissance (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST303L The Italian Renaissance

A study of the cultural movement known as the Renaissance. Focus is on the Italian version of this movement; specific features to be examined include humanism, "new" scholarship, literature, and art. Though medieval in its origins, the Italian Renaissance marks the beginning of modernity; emphasis will be on its heritage today. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3411L  History of Warfare (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST311L History of Warfare

A general survey of the practices and purposes of war through the ages. Special attention will be given to theories of aggression and to reasons for war. Tactics, strategy, and major battles of great military commanders will be covered. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3413L  The American Radical Tradition (3)

Pre-Requisites: POL1400L or Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST313L The American Radical Tradition

This course will examine the nature and significance of the American radical tradition from the American Revolution to the present day. Among the radical philosophies and movements to be covered will be the American Revolution; abolitionism; utopian experiments; women’s rights; the labor movement; populism; socialism and communism; civil rights; Black power; feminism; the New Left; environmentalism; the gay and lesbian movement; and the global justice movement. Examination of the American radical tradition suggests that radicalism has been a persistent and significant feature of American history. Pre-Requisites: Any 1000 or 2000 level History course or POL1400 or permission of the instructor.

HST3415L  Special Topics: World War I (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor
Co-Requisite courses: None
Equivalent courses: HST315 Special Topics

An offering of topics that vary. Examples of past or anticipated future subjects include: Classical Mythology; Augustine to Chaucer; Medieval Literary Culture; Three Crowns: Dante, Bocaccio, and Petrarch; Women in Medieval and Renaissance Italy; The Scientific Revolution; The History of Italy. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3421L  Preserving Our Stories: Method & Practice of Oral History (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST321L Preserving Our Stories: Method & Practice of Oral History

This course will introduce students to the theory, methodology and practice of oral history research. As the primary requirement for the course students will record an interview with a family or community member using a standard oral history questionnaire and then transcribe and analyze their interview. With the permission of the interviewee the recording and transcribed interview will be donated to an oral history archive to be housed in the college library. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3430L African-American History Since 1619 (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST323L African-American History Since 1619

Topics to be examined will include slavery and racism, abolitionist and antislavery movements, Civil War and Reconstruction, Jim Crow, the Great Migration, the Depression and New Deal, World War Two and Cold War, Civil Rights and Black Power, and the impact of de-industrialization, unemployment and incarceration. Emphasis will be placed on the experience of African-Americans and their contributions to the development of a democratic society. Course readings will consist of relevant primary sources and recent secondary scholarship. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3470L Twentieth Century America Since 1945(3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST325L Twentieth Century America Since 1945

Topics to be examined will include the origins of the Cold War, the post-World War Two economic boom, the liberal and radical movements of the Sixties, the Conservative revival of the Seventies and Eighties, the end of the Cold War, and the impact of globalization and terrorism. Emphasis will be placed on the experience of ordinary men and women and their contributions to the development of a democratic society. Course readings will consist of relevant primary sources and recent secondary scholarship. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3480L Twentieth Century America 1900-1945 (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST327L Twentieth Century America 1900-1945

Topics to be examined will include Progressivism, World War One, the Twenties, the Crash and Great Depression, New Deal and World War Two. Emphasis will be placed on the experience of ordinary men and women and their contributions to the development of a democratic society. Course readings will consist of relevant primary sources and recent secondary scholarship. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
HST3500L  The Supreme Court in American History (3)

Pre-Requisites: POL1400L or Any 1000- or 2000-level history course or permission of the instructor
Co-Requisite courses: None
Equivalent courses: HST349L The Supreme Court in American History

A study of the historical role of the U.S. Supreme Court and its impact on American society, including an examination of issues of political theory and major court cases. Pre-Requisites: Any 1000- or 2000-level history course or POL1400 or permission of the instructor.

HST3532L  The Holocaust (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HST232L The Holocaust

An analysis of the Holocaust, including examination of its causes and the conduct of it. Emphasis will be on the political, social, and moral issues involved in war and on the impact of the Holocaust on today's Jewish experience worldwide. Pre-Requisites: None

HST3651L  Twentieth-Century United States (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor
Co-Requisite courses: None
Equivalent courses: None

An examination of the evolution of the United States from the late 19th century through the early 21st, this course explores significant social, economic, intellectual, and political developments during "the American Century" of global history. Pre-Requisites: Any 1000-or 2000-level history course or permission of the instructor.

HST3660L  History of Political Thought I (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST366L History of Political Thought I

This course surveys the ideas of leading political thinkers from ancient times to the Renaissance. Figures such as Plato, Aristotle, St. Augustine, St. Thomas, Ibu Khalduhn, and Machiavelli will be discussed. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3661L  History of Political Thought II (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor
Co-Requisite courses: None
Equivalent courses: HST367L History of Political Thought II

This course surveys the ideas of leading political thinkers from early modernity through to the present day. Figures such as Bodin, Hobbes, Locke, Montesquieu, Rousseau, Burke, Hegel, Marx, and Mill will be discussed. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
HST3700L American Political Thought (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST369L American Political Thought

This course is a study of the evolution of American political thought from 1776 to the present day, with special reference to the liberal tradition. Among the figures surveyed are Hamilton, Madison, Calhoun, Sumner, Dewey, Santayana, Skinner, Marcuse, and others. This course is not open to freshmen. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST3890L Twentieth-Century World (3)

Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: HST389L Twentieth-Century World

Designed as a reading seminar, participants will read some material in common at the beginning of the semester in order to provide a basic body of knowledge. The emphasis of the course will be independent readings on chosen topics within twentieth-century world history, to be reported on in open discussion with other participants throughout the semester. This course is repeatable for credit with an appropriate change of individual topics. Pre-Requisites: Any 1000- or 2000-level history course or permission of the instructor.

HST4697L Senior Project (3)

Pre-Requisites: Majors Only. Senior standing or permission of instructor.
Co-Requisite courses: None
Equivalent courses: HST399L Senior Project

This course is the capstone experience for all history majors. They will select a topic in conjunction with the instructor and write a substantial paper on it based on independent research. It is offered every semester and may be taken either in the fall or spring of the senior year. Pre-Requisites: Majors only. Senior standing or permission of instructor.

HST4898L Independent Study (3)

Pre-Requisites: Junior or senior status and permission of the Instructor.
Co-Requisite courses: None
Equivalent courses: HST398L Independent Study

Students may pursue supervised reading and/or research in topics they find especially interesting, for one, two, or three credit hours. Advance arrangement and permission of the department chair required. Pre-Requisites: Junior or senior status and permission of the Instructor.

HST4899L Internship (3)

Pre-Requisites: Majors or minors only, junior or Senior standing. Internship must be arranged at least one semester in advance with the sponsoring institution and approved by the history department chair.
Co-Requisite courses: None
Equivalent courses: HST395L Internship
This course allows history majors to enhance their knowledge of historical research or of public history by designing their own internship at a local museum, archive, or similar institution. They will be required to work a regular number of hours (usually ten) each week during the semester. Besides fulfilling the expectations of their on-site supervisors, they must also write regular reports for their faculty supervisor. This course is offered every semester. It also may be taken over the summer if the internship opportunity is located outside of the greater Springfield area. In this case, it is expected that the participant will work a full-time schedule covering at least several weeks for their sponsoring institution. Students may take it only once for academic credit. Pre-Requisites: Majors or minors only, junior or senior standing. Internship must be arranged at least one semester in advance with the sponsoring institution and approved by the history department chair.

INTERNATIONAL BUSINESS – (Undergraduate)

IBS1400L Introduction to International Business (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: IBS105L Introduction to International Business

The course will explain business and management concepts from an international perspective. It will focus on the social, cultural, political, legal, and economic environments that influence international business operations. The course will look at international trade theories, the evolution of regional economic integration arrangements, foreign direct investment, governmental intervention in international trade, and the importance of foreign currency exchange market. Coursework will include special research projects and/or case studies for class presentation and discussion. Pre-Requisites: None

IBS1420L Diverse Cultures of the World (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: IBS120L Diverse Cultures of the World

The course provides the student with an understanding of the many cultures that make up the world we now live in. Today's world is a global world made up of people with diverse cultural backgrounds. It is important to recognize cultural sensitivities that exist in every society. Cross-cultural awareness and understanding are critical to meaningful relationships and for success in every walk of life. The course will look at culture, verbal and non-verbal communications, religion, and roles of women, and will include a survey of geographical regions such as North America, Latin America, Asia, Europe, Middle East, and Africa. Emphasis will be placed on the contemporary issues found in today's international environment. Pre-Requisites: None

IBS2650L International Human Resources Management (3)

Pre-Requisites: IBS1400L and IBS1420L or permission of the instructor
Co-Requisite courses: None
Equivalent courses: IBS350L International Human Resources Management

The course provides an overview of international human resource management. The globalization of business is having a significant impact on human resource management. Decisions have to be made on how to staff international operations; where and how to recruit and select personnel; how to train employees for international assignments and evaluate their performance; what compensation to provide them; how to facilitate the return of international employees to their parent organization; and how to handle international labor relations. The course
will include a class project to develop an international human resource operating manual for a multinational enterprise. Pre-Requisites: IBS1400, IBS1420 or permission of the instructor.

**IBS3400L International Economics (3)**

Pre-Requisites: IBS1400L and ECO1401L and ECO1402L  
Co-Requisite courses: None  
Equivalent courses: IBS314L International Economics (ECO314)

The course provides an analysis of economic relationships among countries, including studies of the balance of payments, the international monetary system, governmental adjustment policies, the theory of international trade, and international financial markets. The course will look at international economics from both a micro- and macro-economic perspectives. The course includes research work into recent international monetary issues and trends. Pre-Requisites: IBS1400, ECO1401 and ECO1402

**IBS3401L Principles of International Law and Diplomacy (3)**

Pre-Requisites: POL1400L  
Co-Requisite courses: None  
Equivalent courses: IBS308 Principles of International Law and Diplomacy

A study is made of the fundamental concepts of international law and diplomacy. Particular attention will be devoted to the significance and application of these concepts in international relations. Pre-Requisites: POL1400

**IBS3410L International Marketing (3)**

Pre-Requisites: IBS1400L and MKT1450L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: None

**IBS316L International Marketing**

The course will provide the student with an understanding of the pertinent issues in international marketing. The course will explain the international environment (cultural, political, and legal) and the influence it has on marketing goods and services in the global marketplace. The course will look at global marketing strategies; the need for creating global products to meet consumers' tastes and preferences; pricing strategies for global marketing; global advertising and other promotional strategies; international distribution systems; and assessing global market opportunities. Course work will include special research projects and/or case studies for class presentation and discussion. Pre-Requisites: IBS1400, MKT1450 or permission of the instructor.

**IBS3620L Management of Export/Import Business (3)**

Pre-Requisites: IBS1400L or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: IBS320L Management of Export/Import Business

The course provides a comprehensive overview of the principles, concepts, and practices involved in the management of the export/import operations of a multinational enterprise. The course will enable the student to develop an in-depth understanding of the mechanics involved in exporting/importing. The course will concentrate on export/import laws and documentation; international sale/purchase agreements; use of intermediaries; payment methods, financing options; and government export/import assistance. The course will include a class project to
develop an export/import operating manual for a multinational enterprise. Open to juniors and seniors. Pre-Requisites: IBS1400 or permission of the instructor

**IBS3820L Global Supply Chain Management and International Negotiation (3)**

Pre-Requisites: IBS1400L  
Co-Requisite courses: None  
Equivalent courses: IBS325L Global Supply Chain Management and International Business

This course is divided into two major topics. The first will address global logistics and supply-chain management. Areas of interest will include international transportation modes, inventory control, packaging, storage, special trade outsourcing, logistics security, internet utilization, and the environment. Emphasis will be placed on the future challenges in managing global logistics and the supply chain. The second will address the principles and concepts involved in negotiating internationally. Areas of interest will include the stages of negotiations, cultural differences, development of business negotiation plans, and contract writing based on negotiation results. The course will include a business negotiations simulation between an American company and a foreign company. Pre-Requisites: IBS1400 or permission of the instructor.

**IBS4430L International Organization and Administration (3)**

Pre-Requisites: IBS1400L or Permission of the Instructor  
Co-Requisite courses: None  
Equivalent courses: IBS335L International Organization and Administration

This course provides an analysis of various models of international operations by focusing on the typical structures of doing business on a worldwide basis. Using the case study approach, students will look at the operational integration of various companies. Open to juniors and seniors. Pre-Requisites: IBS1400 or permission of the instructor.

**IBS4889L International Business Capstone Course (3)**

Pre-Requisites: Senior IBS status or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: IBS380L International Business Capstone Course

This is a senior-level international business capstone course. The course objective is to provide seniors with a comprehensive course to review their knowledge and understanding of international business theories, concepts, and principles, and their relationship to one another. The student will develop a system-level model of a U.S. manufacturing company entering the international marketplace with the goal of becoming a multinational enterprise. The company will identify a region of the world and a specific country within that region. The U.S. company will go through the various stages of market entry. Collaborative arrangements like joint venture, licensing, and foreign production can be employed in the model. The foreign production operation will be used to market to other countries within the region with the long-term objective of marketing globally. The model will be interactive with sub-models, controlled scenarios, and computer simulations to create a real world international business environment. Pre-Requisites: Senior IBS status or permission of the instructor

**IBS4890L Senior Specialized Course in International Business (3)**

Pre-Requisites: Senior status or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: IBS390L Senior Specialized Course in International Business
This is an advanced course dedicated to giving detailed insight into specific topics, regions or countries. Examples of topics include: doing business in Asia, Europe, Latin America, Africa, or the Middle East; big emerging markets (BEM); impact of U.S. laws on international business. Pre-Requisites: Senior status or permission of the instructor

**IBS4899L International Management Internship (3)**

Pre-Requisites: Available to seniors with the approval of the department chair  
Co-Requisite courses: None  
Equivalent courses: IBS395L International Management Internship  

An essential part of the international management program, three-credit internships will be made available to qualifying students at domestic and international organizations, where students will have the opportunity to experience and practice international business management techniques covered in the curriculum. Each internship will be individually designed in collaboration with the participating organizations. Pre-Requisites: Available to seniors with the approval of the department chair

**INTERNATIONAL BUSINESS – (Graduate)**

**IBS6110L International Business (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MBA520L International Business  

This course is an introduction to the international business environment and how it affects multi-national corporations. Topics include investigation of marketing techniques and programs as developed and implemented on an international scale; evaluation of international marketing strategies, special goals and decision-making processes that are part of marketing internationally; examination of policies and strategies of international finance, analyzing those problems confronting multi-nationals; balance of payments, foreign exchange market and risk, cash flow operations, and evaluations of international economic problems and policies.

**INTERNATIONAL STUDIES – (Undergraduate)**

**INS2400L Model United Nations (1)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: ISM105L Model United Nations  

This course is intended for students of all majors who participate in AIC's Model UN Club to represent AIC at collegiate-level Model United Nations conferences held each semester at various campuses throughout the country. Students will be required to attend all meetings of the Model UN Club that are called to prepare for a conference; to research the policies of their assigned country; to prepare a written position paper for their country covering the specific issues they will be debating at the conference; and to actively participate in a professional manner at the conference itself. Students will learn the parliamentary procedures used at conferences, including how to write a resolution, the current issues facing the United Nations, and how to conduct research on their
country and its policies. New students will also be introduced to the United Nations and how it functions. This course can be repeated each semester that the AIC Model UN participates at a conference. Pre-Requisites: None

**INS4800L**  **International Studies Seminar (3)**

Pre-Requisites: International studies major or minor in junior or senior year, or permission of instructor.
Co-Requisite courses: None
Equivalent courses: ISM300L International Studies Seminar

A reading and research seminar for international studies majors and minors on contemporary topics in world affairs that will help students make connections between the various disciplines in which they have completed course work for the program. Since the topics will change each time the course is offered, it is repeatable one time. Pre-Requisites: International studies major or minor in junior or senior year, or permission of instructor.

**INS4890L**  **Study Abroad (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ISM390 Study Abroad

Intended for students who are spending a regular semester abroad; the details are to be approved by the advisor and the dean of the School of Arts, Education and Sciences. Any requirements within the major must be approved by the appropriate chair or dean; and requirements for general education must be approved by the dean of the School of Arts, Education and Sciences Pre-Requisites: None

**INS4899L**  **Internship (3)**

Pre-Requisites: Majors or minors only, junior or senior standing. Internship must be arranged at least one semester in advance with the sponsoring institution and be approved by the director of the international studies program.
Co-Requisite courses: None
Equivalent courses: ISM398 Internship

This course allows international studies majors to deepen their understanding of international affairs by pursuing an internship with a governmental or non-governmental organization that works in an international field. They will be required to work a regular number of hours (usually 10) each week during the semester. Besides fulfilling the expectations of their on-site supervisors, they must also write regular reports for their faculty supervisor. This course is offered every semester. It also may be taken over the summer if the internship opportunity is located outside of the greater Springfield area. In this case, it is expected that the participant will work a full-time schedule covering at least several weeks for their sponsoring institution. Students may take it only once for academic credit. Pre-Requisites: Majors or minors only, junior or senior standing. Internship must be arranged at least one semester in advance with the sponsoring institution and be approved by the director of the international studies program.

**ITALIAN – (Undergraduate)**

**ITL1000L**  **Conversational Italian I (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ITL100L Conversational Italian I

This course will enable students to develop the basics of oral skills, the main goal being to become functional in the language. The course will include guided practice in conversation to enhance communicative competence, small group discussions in Italian on practical topics, and practice of colloquial and idiomatic speech patterns in Italian to emphasize correct pronunciation and intonation. Movies and other audiovisual material will be used to enrich the learning experience and acquaint students to aspects of Italian culture and society. Pre-Requisites: None

**ITL1201L. Elementary Italian Language and Culture I (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ITL101L Elementary Italian Language and Culture I

This is a basic course designed for students who have had little or no experience with the Italian language. The course includes drill in pronunciation, elementary conversation, grammar and writing, and the use of a cultural approach text. This is a comprehensive language course: teaching the four skills of reading, writing, speaking, and listening. Pre-Requisites: None

**ITL1202L. Elementary Italian Language and Culture II (3)**

Pre-Requisites: ITL1201L or Permission of the Instructor
Co-Requisite courses: None
Equivalent courses: ITL102L Elementary Italian Language and Culture II

A continuation of ITL1201. Pre-Requisites: ITL1201 or permission of the instructor

**LAW – (Graduate)**

**LAW5202L. Contemporary Issues in Business Law(3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT725L Contemporary Issues in Business Law

Topics covered in this course include development and function of common law; policy considerations; judicial procedure; survey of criminal law, torts, and contracts; Uniform Commercial Code as it relates to sales, commercial paper, and secured transactions; survey of agency; the formation, management, and financing of partnerships, corporations, and other business entities. Pre-Requisites: None

**LAW5904L. Administrative LAW(3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA405L Administrative Law

This course examines the legal basis of public management by reviewing major principles of administrative law including the doctrine of legislative delegation, Administrative Procedures Act, administrative rulemaking and adjudication, transparency, and judicial review of regulation. Students will view case law, statutes and regulations,
and proposed legislation to gain and understanding of their impact on public administration and public policy. Pre-Requisites: None

LEADERSHIP – (Graduate)

LDR6020L Leadership Theory and Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course examines leadership as a concept and process. Leadership theories and models are explored within historical context, including effective contemporary practices. Concepts such as motivation, power and influence, group dynamics, and situational forces are examined. The review of empirical research and contemporary resources provide a basis of knowledge for the exploration of leadership and followership.

LDR6115L Personal and Professional Development of Leaders (3)

Pre-Requisites: MGT5210L
Co-Requisite courses: None
Equivalent courses: None

This course provides a systematic analysis of the strategic and human functions of a business enterprise. The responsibilities of managers for anticipating changes in the business environment, for cautiously adapting goals and policies to environmental opportunities, constraints and adverse pressures, and the search for new combinations of activities that will have favorable results for the organization and the economy will be examined. Typically, successful leaders have a healthy understanding of who they are. This course explores the personal and professional development of effective leaders and focuses on each student’s enhancement of their own leadership potential. Through completion of a series of assessment instruments, students gain an understanding their personal and leadership skills and learn how to further develop these skills for maximum success. Topics include social and emotional intelligence, motivation theory, and acceptance of self and others. This course also covers the value of succession planning and talent development. Pre-Requisites: MGT5210

LDR6125L Ethical Leadership (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

In this course students are introduced to the basic concepts of ethics. Ethical frameworks, moral decision-making techniques, and major perspectives on ethical reasoning are examined. Students also explore the practical tools leaders need to help recognize and address challenging ethical decisions. Real world case studies provide an opportunity to apply the skills learned. Pre-Requisites: LDR6020 and MGT5210

LDR6150L Multicultural and Global Organizations (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None
Through readings, experiential activities, and case studies, the emphasis of this course is the understanding of how global cultural forces influence various aspects of the leadership phenomenon. Students identify and analyze culture’s effects on attitudes and behaviors, leadership styles, and decision-making processes. The topic of diversity is examined through multiple lenses including socio-economic status, ethnicity, gender, and age. The course explores practical skills for application in the workplace. Pre-Requisites: LDR6020 and MGT5210

LDR6200L  Research Methods and Program Evaluation (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The role of assessment and evaluation in developing and maintaining quality programs in an organization is covered from a leadership perspective. Students develop skills in research methodology including problem identification, information literacy, qualitative and quantitative research design, data collection and interpretation, and the reporting of results. The focus is on using data to assess programs, formulate recommendations, and make effective decisions for improving practice and policy. The proposal for the Action Research project will be developed in this course.

LDR6310L  Foundations in Higher Education Administration (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

For those who wish to pursue a career in higher education, this course covers a broad exposure to topics in student issues, higher education law, government policy, financial aid and funding, governance, and the accreditation process as viewed through the lens of leader. These topics will be covered within the context of the current landscape of higher education as well as contemporary and historical trends. Pre-Requisites: LDR6020 and MGT5210

LDR6330L  College Student Development (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The characteristics of today’s college students are explored within the historical and philosophical context of student development. Theories of student behavior are investigated as are rights, freedoms, and responsibilities of students in relation to the college. This course includes review of the various programs and services provided for students on college campuses and online. With retention as an outcome, attributes of successful students and services to retain them are investigated.

LDR6350L  Leadership in Institutions of Higher Education (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

This course explores leadership models within institutions of higher education, including the shared governance process. Students also investigate the type of decisions faced by university leaders on their campuses and how the
actions they take impact their students and institution. Change management theory and innovation concepts are surveyed to understand their role in the decision-making processes on campuses today. Career paths for leaders in higher education are explored. Pre-Requisites: LDR6020 and MGT5210

LDR6370L Entrepreneurial Leadership in Higher Education (3)

Pre-Requisites: LDR6310L and LDR6330L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

Today at the national and international level the Academy faces new challenges including tougher scrutiny from a variety of stakeholders, fewer government and private resources, and pressures from a global marketplace. New entrepreneurial ways to lead in higher education must be developed. Utilizing case study methodology, this course examines the national and global trends impacting higher education today and the creative and innovative leadership practices it will require for the next century. Pre-Requisites: LDR6310, LDR6330 and MGT5210

LDR6410L Creating and Leading Highly Effective Teams (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

At the center of this course is the understanding of how to build and lead successful teams in order to enhance organizational performance. Group dynamic and team building concepts and models will be analyzed with an emphasis on integrating these paradigms into the workplace to overcome challenges and build cohesive, highly effective and productive teams. The focus of this course is on the role of the leader in developing and leading groups to successful outcomes. Pre-Requisites: LDR6020 and MGT5210

LDR6420L Managing Financial and Human Resources (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

With a focus on understanding and applying concepts in human resource and financial management, this course will explore key leadership and management processes for organizational effectiveness. Laws, policies, and practices in both arenas will be surveyed within the context of effective leadership decision-making.

LDR6440L Leading Change and Innovation (3)

Pre-Requisites: LDR6020L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

As change is inevitable, organizational leaders need to be responsive to a variety of internal and external shifts. Organizations are most effective when leaders learn to anticipate and plan for change, understand its value, and lead others through the process. This course is designed for students to learn the theories and models of effective change, including innovation, the impact on the organization, and communication strategies. Through the use of case studies, students develop the skills to successfully identify and apply these theories and concepts in the workplace. Pre-Requisites: LDR6020 and MGT5210
LDR6460L  Strategic and Entrepreneurial Leadership (3)

Pre-Requisites: LDR6410L, LDR6420L and LDR6440L
Co-Requisite courses: None
Equivalent courses: None

Synthesizing the knowledge gained in previous coursework, this course challenges students to develop their strategic thinking about leadership theory and concepts and the application of these at the individual, group and organizational levels. Current approaches to the strategic planning process are explored, taking into consideration cultural, ethical, and financial components. The focus of this course is putting into practice a comprehensive approach to leadership on a broad scale; an ability to set the vision and mission of an organization, motivate employees, make effective decisions, and utilizing concepts of entrepreneurship, lead an organization to success

Pre-Requisites: LDR6410, LDR6420, LDR6440

LDR6959L  Leadership in Action (3)

Pre-Requisites: LDR6310L and LDR6200L and MGT5210L
Co-Requisite courses: None
Equivalent courses: None

In this course students explore the theoretical and conceptual aspects of action research and develop an action research project with a focus on leadership. After gaining approvals, the students design and carry out an action research project that includes exploration of related empirical studies, study design, data collection and analysis, and recommendations. This culminating project is based on leadership constructs learned throughout the program. Pre-Requisites: LDR6310, LDR6200, MGT5210

MATHEMATICS – (Undergraduate)

MAT1051L  Basic Algebra for Finite Mathematics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MAT151L Basic Algebra for Finite Mathematics

This course is a comprehensive study of mathematical skills which will provide a strong mathematical foundation to pursue mathematics. This course is designed to provide algebraic skills needed for the study of finite mathematics. Topics include principles and applications of equations, formulas, problem solving, inequalities, systems of equations, graphing, and the utilization of technology. Upon completion, students should be able to perform basic computations and solve relevant, multi-step mathematical problems using technology where appropriate. This course is designed to prepare students for college level mathematics and give them the confidence to pursue mathematics at a higher level.

MAT1052L  Conceptual Understanding of Statistics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MAT152L Conceptual Understanding of Statistics

This is an introduction to basic and conceptual statistics for students from all disciplines. It emphasizes the development of statistical literacy. Topics include principles and applications of statistics, order of operations,
evaluating formulas, problem solving, basic probability, logic, probability distributions, concepts and data analysis, and tables and graphs. Upon completion, students should be able to interpret data, statistical concepts, and statistical calculations. This course is designed to prepare students for more advanced statistics, and give them the confidence to pursue statistics at a higher level.

**MAT1200L  Elements of Mathematics (3)**

Pre-Requisites: Elementary algebra  
Co-Requisite courses: None  
Equivalent courses: MAT117L Elements of Mathematics

This course presents fundamental concepts about the numeration system (decimals, fractions) including meanings, applications and operations. In addition, the fundamentals of Number Theory are presented. A major goal is to understand the concepts well enough to explain the ideas in a fundamental way making use of concrete examples. Open only to elementary education majors. Pre-Requisites: Elementary algebra

**MAT1201L  Elements of Math II (License in Elementary & Moderate Dis.) (3)**

Pre-Requisites: MAT1200L  
Co-Requisite courses: None  
Equivalent courses: MAT118L Elements of Math II (License in Elementary & Moderate Dis)

This course presents selected fundamental elementary concepts in the areas of 1) Patterns, relations and algebra, 2) Geometry and 3) Measurement. Open only to those students seeking license in Elementary and Moderate Disabilities. Pre-Requisites: MAT1200

**MAT1250L  Finite Mathematics I (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MAT119L Finite Mathematics I

This course presents numbers, linear equations, linear inequalities, matrix algebra with applications, linear programming, and the simplex method. The course is designed for business administration majors. Pre-Requisites: None

**MAT1260L  Finite Mathematics II (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MAT120L Finite Mathematics II

This course examines sets, counting techniques, probability, decision theory, statistics, and Math of Finance. Pre-Requisites: None

**MAT1300L  Foundations of Algebra (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MAT135L Foundations of Algebra
This course covers the structure of arithmetic from the number line through operations on signed numbers, the language of algebra from evaluating expressions through solving linear equations, and an introduction to polynomials, which includes factoring. The solution of literal problems will play a major role in the course. This course prepares the student for entry into MAT139. Pre-Requisites: None

**MAT1310L  Statistics in Occupational Therapy (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MAT205L Statistics in Occupational Therapy

This course presents the principles of statistics that are applied to the analysis of data pertinent to the field of occupational therapy. Topics include descriptive and inferential statistics, probability distributions, hypothesis testing, estimation, analysis of variance, non-parametric statistics, and linear regression analysis. The course will make active use of technology by requiring the use of computer software. Pre-Requisites: None

**MAT1430L  Foundations of Statistics (3)**

Pre-Requisites: MIS1220L or a working knowledge of a computer spreadsheet  
Co-Requisite courses: None  
Equivalent courses: MAT335L Foundations of Statistics

This course examines the various tools and techniques used in analyzing quantitative data; including descriptive statistics, probability and random variables, sampling design, theory of estimation and hypothesis testing for parameters of a single population, student ‘t’ and normal distributions. A year of high school algebra is recommended but not required. The course will make active use of technology by requiring the use of computer software. Pre-Requisites: MIS1220 or a working knowledge of a computer spreadsheet

**MAT1630L  College Algebra (4)**

Pre-Requisites: One year of both algebra and geometry  
Co-Requisite courses: None  
Equivalent courses: MAT139L College Algebra

This course presents a survey of college algebra to include sets, field properties, solution of equations and inequalities, functions, graphing, the factor theorem, analytic geometry, and exponential and logarithmic functions. The course will make active use of technology by requiring the use of a graphing calculator. Pre-Requisites: One year of both algebra and geometry

**MAT1840L  College Algebra and Trigonometry (4)**

Pre-Requisites: MAT1630L or One year of both algebra and geometry  
Co-Requisite courses: None  
Equivalent courses: MAT140L College Algebra and Trigonometry

This course is an in-depth survey of algebraic and geometric problem solving techniques, including solutions of polynomial equations and inequalities, curve sketching techniques, and trigonometry from the triangular and functional standpoint. The course will make active use of technology by requiring the use of both a graphing calculator and computer software. Pre-Requisites: One year of both algebra and geometry, or MAT1630
MAT2004L  Biostatistics (3)

Pre-Requisites: MAT1840
Co-Requisite courses: None
Equivalent courses: MAT304L Biostatistics

Provides students with a general background in measurement theory, development of measurement tools, and appraisal of the psychometric properties of measurement tools. This course facilitates the application of this information in the selection and use of measurement tools at both the individual and program levels for research and practice in occupational therapy. Pre-Requisites: MAT1840

MAT2030L  Statistical Analysis for Business Decisions (3)

Pre-Requisites: MAT1430L, MIS1220L or a working knowledge of a computer spreadsheet
Co-Requisite courses: None
Equivalent courses: MAT336L Statistical Analysis for Business Decisions

This course stresses the application of probability and statistics in business decision-making using cross sectional and historical data. The course begins with estimation and hypothesis testing for parameters of two populations. The Chi-square distribution is applied to contingency tables and the F distribution is applied to analysis of variance with emphasis on statistical decision-making models. Time series analysis, linear regression and correlation models are constructed and estimated. The traditional tests of statistical significance are applied, and the models are examined in light of the assumptions underlying the least-squares technique. The course will make active use of technology by requiring the use of computer software. Pre-Requisites: MAT1430, MIS1220 or a working knowledge of a computer spreadsheet

MAT2400L  Calculus I (3)

Pre-Requisites: MAT1840L or permission of the instructor and the department chair
Co-Requisite courses: None
Equivalent courses: MAT207L Calculus I

This course discusses limits, continuity, derivatives, maximum and minimum problems, related rates, and Mean Value Theorem. The course will make active use of technology by requiring the use of a graphing calculator and computer software. Pre-Requisites: MAT1840 or permission of the instructor and the department chair

MAT2500L  Calculus II (3)

Pre-Requisites: MAT2400L and MAT1840L
Co-Requisite courses: MAT2501LAB
Equivalent courses: MAT208L Calculus II

This course includes the study of integration, applications of the definite integral, transcendental functions, and methods of integration. The course will make active use of technology by requiring the use of a graphing calculator. Pre-Requisites: MAT1840 and MAT2400 and enrolled in MAT2501

MAT2600L  Calculus III (3)

Pre-Requisites: MAT2500L
Co-Requisite courses: MAT2601LAB
Equivalent courses: MAT209L Calculus III
This course includes the study of hyperbolic functions, polar coordinates, vectors and parametric equations, l'Hopital's Rule, sequences, infinite series, limits, continuity, partial differentiation, optimization, and multiple integration for functions of several variables. The course will make active use of technology by requiring the use of a graphing calculator. Pre-Requisites: MAT2500

**MAT2816L Linear Algebra (3)**

Pre-Requisites: MAT2401L and permission of instructor  
Co-Requisite courses: None  
Equivalent courses: MAT316L Linear Algebra

This course includes the study of Gauss-Jordan elimination, matrices, determinants, real vector spaces, dot product, Gram Schmidt process, linear transformations, and eigenvalues. The course will make active use of technology by requiring the use of a graphing calculator. Pre-Requisites: MAT2500 and permission of instructor

**MAT2870L Discrete Structures (3)**

Pre-Requisites: MAT2500L  
Co-Requisite courses: None  
Equivalent courses: MAT270L Discrete Structures

This course covers set theory, logic, proofs, induction, recursion, relations, functions, combinatorics, algebraic structures, and graph theory. Pre-Requisites: MAT2500

**MAT3203L Differential Equations (3)**

Pre-Requisites: MAT2600L  
Co-Requisite courses: None  
Equivalent courses: MAT303L Differential Equations

This course examines ordinary and partial differential equations, particularly of the first and second orders, including geometrical interpretations and applications. Pre-Requisites: MAT2600

**MAT3601L Advanced Calculus (3)**

Pre-Requisites: MAT2600L and permission of instructor  
Co-Requisite courses: None  
Equivalent courses: MAT301L Advanced Calculus

This course covers an in-depth analysis of the fundamental properties of the real number system, including the completeness property, sequences, limits and continuity, differentiation through the Mean Value Theorem, and the Riemann integral. Pre-Requisites: MAT2600 and permission of instructor

**MAT3801L Modern Abstract Algebra I (3)**

Pre-Requisites: Two years of college-level mathematics or permission of the instructor and the department chair  
Co-Requisite courses: None  
Equivalent courses: MAT309L Modern Abstract Algebra I
This course includes the study of integers, equivalence relations, partitions, and groups. The material on groups includes subgroups, group homeomorphisms and factor groups as well as the fundamental group homomorphism theorem. Pre-Requisites: Two years of college-level mathematics or permission of the instructor and the department chair

MAT3894L Directed Study (3)

Pre-Requisites: Permission of the department chair
Co-Requisite courses: None
Equivalent courses: MAT199L Directed Study

This course provides directed study on special topics in mathematics. Pre-Requisites: Permission of the department chair

MATHEMATICS – (Graduate)

MAT5000L Statistics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT630L Statistics

Topics include: descriptive statistics theory and application of univariate frequency distributions; measures of central tendency, dispersion, skewedness and kurtosis; probability theory and theoretical probability; density functions; sampling theory; sampling distributions; confidence interval estimates; tests of statistical significance and hypothesis testing, as related to statistical estimation and decision making; decision rules and their power curves; acceptance sampling; and quality control. Pre-Requisites: None

MANAGEMENT

MGT1400L Principles of Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MGT105L Principles of Management

This course offers an introduction to the principles of management and their application to business. The basic management concepts of planning, organizing, controlling, motivating, communicating, staffing, and leading provide the basis for understanding of the management profession and a basis upon which higher level management courses can build more specialized knowledge. Pre-Requisites: None

MGT2000L Business and the Environment (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MGT205L Business and the Environment

This course will address environmental issues from management perspective by focusing on how such issues potentially impact on the corporation and how the organization should proactively deal with them. Major topics
include: laws and regulations, "green" business strategies, benefit-cost analysis, organizational design and the "triple bottom line" and competitive and international issues. Pre-Requisites: None

MGT2400L  Organizational Behavior (3)

Pre-Requisites: MGT1400L and PSY1401L or permission of instructor
Co-Requisite courses: None
Equivalent courses: MGT215L Organizational Behavior

This course provides a conceptual framework for understanding and studying the dynamics of behavior in organizational settings and for applying these concepts to improving organizational effectiveness. Included are personality, organizational theory and structure, the decision process, the communication process, group dynamics and leadership, and conflict resolution. Pre-Requisites: MGT1400 or PSY1401 or permission of the instructor

MGT3200L  Labor and Industrial Relations (3)

Pre-Requisites: MGT1400L or permission of instructor
Co-Requisite courses: None
Equivalent courses: MGT305L Labor and Industrial Relations

This course provides a broad investigation of labor-management relations. It encompasses the historical development of the labor movement, the legal environment, and the nature of labor-management relationship. Current case decisions and role-playing exercises will be utilized to illustrate the process of contract negotiations and contract administration. Pre-Requisites: MGT1400 or permission of the instructor

MGT3201L  Business and Society (3)

Pre-Requisites: Open to juniors and seniors
Co-Requisite courses: None
Equivalent courses: MGT315L Business and Society

Current issues of ethics in society as they affect business behavior will be discussed. Topics include the social responsibilities of business, environmental issues, human rights and technological progress, business ethics, and an analysis of global societal values. Pre-Requisites: Open to juniors and seniors

MGT3202L  Leadership (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MGT325L Leadership

Leadership involves change and facing up to difficult decisions and situations. The intent of this course is to give a practical understanding of leadership, its demands, its wide variety of effective styles, and both its positive and negative impacts on organization. Pre-Requisites: None

MGT3203L  Entrepreneurship and Small Business Management (3)

Pre-Requisites: Open to juniors and seniors or permission of instructor
Co-Requisite courses: None
Equivalent courses: MGT354L Entrepreneurship and Small Business Management
An overview of the entrepreneurship process starting with the individual, the creativity process, the entrepreneurial idea/concept, the feasibility analysis and concluding with the business plan. Field trip(s) and guest speakers (e.g., alumni and faculty) appropriate to venture startup and infancy are incorporated. Topics include selling, distributing, people management, cash management, time to market, time to volume, franchising, intellectual property, and dealing with risk/fear. Pre-Requisites: Junior or senior status, or permission of the instructor

MGT3210L  Economics of Managerial Decisions (3)

Pre-Requisites: ECO1401, ECO1402, MGT1400. Open to juniors and seniors
Co-Requisite courses: None
Equivalent courses: MGT358L Economics of Managerial Decisions

This course introduces the student to the practice of economic reasoning in the solution of real-world managerial decision problems. In addition to developing the theoretical and analytical tools of economic decision making, this course enables students to develop judgment skills required in the application of managerial economics. Emphasis is placed on the use and application of economic analysis in clarifying problems, organizing and evaluating information, and in comparing alternative courses of action. Pre-Requisites: ECO1401, ECO1402, MGT1400. Open to juniors and seniors

MGT3213L  Human Resource Management (3)

Pre-Requisites: MGT1400L
Co-Requisite courses: None
Equivalent courses: MGT313L Human Resource Management

This course examines the problems of personnel relationships in business and industry. Primary emphasis is placed upon the psychological factors in human relations; the purpose, organization, and functions of the personnel department; instruments of personnel control, such as interviewing, testing, the making of job analysis, classification, personnel education and training, employee incentives, retention, and similar related topics. Pre-Requisites: MGT1400

MGT3290L  Corporate Social Responsibility (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MGT390L Corporate Social Responsibility

This course will explore the concept of Corporate Social Responsibility (CSR) and its evolution in the corporate sector beginning in the late 1800s. Students will gain an understanding of the four components of corporate social responsibility: economic, legal, ethical, and philanthropic, and the difficult balancing act faced by firms who need to focus on profitability while being responsive to stakeholders and society.

MGT3661L  Project Management (3)

Pre-Requisites: Business Junior/Senior or Permission of the Instructor
Co-Requisite courses: None
Equivalent courses: MGT361L Project Management
This course introduces the techniques used to plan, manage, and complete projects in accordance with guidelines to which all participants and beneficiaries have agreed. It distinguishes project management from general management and examines the principal concepts and methods that have been developed to manage projects successfully: defining project objectives; the Critical Path Method; application of Lean/Six Sigma and other quality techniques; team building and conflict resolution; allocation of resources – human, physical, and financial; uses of probability to assess project time lines (PERT); GANNT Charts; and project control through budgeting. Students will apply software to managing their own projects. The course also covers the general principles of Management Science and Systems Theory – giving students an understanding of how models can be used to improve the quality of management decision making. Classes will introduce students to these areas of project management. Students will then apply the techniques and concepts to running an actual project so that they master these important skills by using them. Pre-Requisites: Business Junior/Senior or Permission of the Instructor.

MGT4000L Advanced Management Problems (3)

Pre-Requisites: Senior status; management majors and minors
Co-Requisite courses: None
Equivalent courses: MGT376L Advanced Management Problems

This course conducts an investigation of critical, current issues affecting the management and operation of business enterprises in today's environment. Pre-Requisites: Senior status; management majors and minors

MGT4694L Directed Study (3)

Pre-Requisites: Senior status, written application setting forth objectives and reasons for the student's desire for a readings course, permission of the instructor, and approval of the dean of the School of Business Administration
Co-Requisite courses: None
Equivalent courses: MGT398L Directed Study

Selected readings are chosen in accordance with the student's interests and background. Pre-Requisites: Senior status, written application setting forth objectives and reasons for the student's desire for a readings course, permission of the instructor, and approval of the dean of the School of Business Administration

MGT4695L Special Topics in Management (3)

Pre-Requisites: Permission of instructor
Co-Requisite courses: None
Equivalent courses: MGT300L Special Topics in Management

Descriptions change as topics vary. Pre-Requisites: Permission of the instructor

MGT4800L Senior Policy Seminar (3)

Pre-Requisites: Senior status and Business Major.
Co-Requisite courses: None
Equivalent courses: MGT378L Senior Policy Seminar

This meets the requirement as a writing intensive course in the major. This seminar is designed to provide the student with an opportunity to apply the wide array of knowledge gained through his/her academic program to various real world situations. The student's knowledge application will be assessed through the analysis of complex business case problems. Pre-Requisites: Senior status and Business Major.
MGT4899L  Management Practicum in Business or Government Admin.(3)

Pre-Requisites: Open to juniors and seniors in the School of Business Administration, with permission of the instructor
Co-Requisite courses: None
Equivalent courses: MGT321L Management Practicum in Business or Government Admin.

This program will provide business majors with the opportunity to gain practical experience in the operations of business or government. The student will participate in managerial activities under the supervision of experienced executive and managerial personnel. Upon completion of the program, students must participate in a terminating seminar and submit a written report. An evaluation of the student's effort will be obtained from the supervisor in the organization where he or she interned. Pre-Requisites: Open to juniors and seniors in the School of Business Administration, with permission of the instructor

MANAGEMENT – (Graduate)

MGT5000L  Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT620L Management

This course offers study and practice in the principles, skills, and tools of management, including planning, organizing, directing, coordinating, and controlling activities of the administrative unit. The human and technical sides of work are fitted together in developing an understanding of the manager's job of selecting, training, leading, motivating, evaluating, delegating, and introducing change. Pre-Requisites: None

MGT5210L  Organizational Behavior (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA501L Organization Behavior
MPA521L  Organizational Behavior

This course provides a systematic analysis of the strategic and human functions of a business enterprise. The responsibilities of manager for anticipating changes in the business environment, for cautiously adapting goals and policies to environmental opportunities, constraints and adverse pressures, and the search for new combinations of activities that will have favorable results for the organization and the economy will be examined. Pre-Requisites: None

MGT5230L  Quantitative Analysis for Decision Making (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA540L Quantitative Analysis for Decision Making, MPA540L Quantitative Analysis for Decision Making

This course covers the elements of statistics and management science. It deals with the principle methods that business researchers use to analyze and understand data-central tendency, variation, probability, hypothesis testing
and forecasting. It also deals with management science models and techniques for optimization, network design for project management, queuing, managing risk and uncertainty. The emphasis is on providing students with the practical skills and techniques that can be applied to improve the effectiveness of managerial decision making.

MGT5240L  Operations Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA515L Operations Management

This course shall enable the student to learn and understand the importance of operations management, both for service and production processes. The student will gain an appreciation of the scorecard of Key Performance Indicators (KPIs) for the business to build sustainable competitive advantages. Lectures include discussion of strategy, process, supply chain design and planning and controlling the supply chain. Emphasis is placed on current trends in operations – especially quality, technology and inventory management.

MGT5250L  Human Resource Management (3)

Pre-Requisites: None
Co-Requisite courses: None

Topics include executive decision making in dealing with formal employee-employer relationships; human resources development; line and staff relationships; job description and analysis; recruitment training and performance appraisal; collective bargaining process; labor-management relations; and wage and salary policies and administration.

MGT5270L  Information Systems for Business Strategy (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA555L Information Systems for Business Strategy

This course defines the information management needs of an organization in the knowledge economy. It also looks at information technology - both hardware and software - from the perspective of the manager and the customer and the key role that digitization and the Internet play in developing and implementing any successful business strategy. Special topics include: computer security, privacy, enterprise systems, e-commerce, and supply chain management.

MGT5280L  Professional Development Seminar I: Communications (1)

Pre-Requisites: Enrolled MBA candidate
Co-Requisite courses: None
Equivalent courses: None

This course provides the opportunity for students to develop professional written, oral and presentation competencies required in both the MBA degree program and professional workplace. Students will learn how to write effective case studies and graduate-level research papers using available institutional research tools, research methodologies and critical thinking skills. Students will be introduced to strategies for employing structure, style and format resulting in impactful and effective written business reports and electronic communications. This
course will also provide students with strategies and tools to generate well organized, persuasive and effective presentations. Pre-Requisites: Enrolled MBA candidate

MGT5285L  Professional Development Seminar II: Professional & Career Development (1)

Pre-Requisites: Enrolled MBA candidate
Co-Requisite courses: None
Equivalent courses: None

This course will provide students with the methodologies and skills sets required to develop and implement both personal and professional career development plans. Topics include personal skills inventory assessment tools, resume writing, videotaped practice interviewing, career search strategies, interview preparation, individual marketing communications, and salary negotiation. Additional topics include personal time management and organizational skills. Pre-Requisites: Enrolled MBA candidate

MGT5290L  Professional Development Seminar III: Projected Management & Financial Modeling (1)

Pre-Requisites: Enrolled MBA candidate
Co-Requisite courses: None
Equivalent courses: None

This course introduces the techniques used to plan, manage, and complete projects. It examines the principal concepts and methods that have been developed to manage projects successfully: defining project objectives; the Critical Path Method; application of Lean/Six Sigma and other quality techniques; allocation of resources human, physical, and financial; and project control through budgeting. This course also includes an overview of financial modeling and the use analytical tools including one- and two- variable data tables, Goal Seek, Scenario Manager, Databases, Pivot Tables, Solver, and Chart development. Pre-Requisites: Enrolled MBA candidate

MGT5320L  Fin. Reporting, Analysis and Risk Mgt. in the Game Ind. (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course studies financial reporting and analysis as it pertains to the needs of management; principally planning, controlling and decision making. Special emphasis is placed in covering casino security, financial internal control systems and risk analysis and making effective strategic decisions regarding loss prevention.

MGT5360L  Casino & Gaming Operations Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course examines the history and development of the gaming and casino operations including the examination of the processes and techniques employed in the management of casino operations including table games, slots and internet gaming. Comparisons, case studies and selected topics focus on organization and department policies, production processes, manpower development, scheduling and current trends in the casino and gaming industry.
MGT5450L  Casino Gaming & Hospitality Industry Laws and Regulations (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None  

Topics covered in this course include development and function of common law; policy considerations; judicial procedure; survey of criminal law, torts, and contracts; Uniform Commercial Code as it relates to sales, commercial paper, and secured transactions; survey of agency; the formation, management, and financing of partnerships, corporations, and other business entities. Special emphasis is placed on review of laws and regulations pertaining to the formation and ongoing operations of casinos and the hospitality industry that have significant impacts on capital expenditures and operating strategies.

MGT5460L  Exposition & Event Management (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None  

This course examines the scope of the convention industry and provides the essential skills required to plan, manage and expedite successful events. Emphasis is placed on project scheduling and planning including inception, marketing, site selection, contract negotiations, selecting suppliers, obtaining sponsorships and budgeting.

MGT5480L  Hotel, Food & Beverage Operations Management (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None  

This course examines processes and techniques employed in the management of hotel operations including housekeeping, front office management, rebranding, franchising, and facilities management. Additional emphasis is placed on the examination of the restaurant and beverage operations including multi-units operations, restaurant and bar layout, trend identification and product selection, basic production methods, costing and pricing, inventory methods and human resources management. The creation of wine lists, beer lists and cocktail menus is also discussed.

MGT5544L  Project Management (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MPA561L Project Management  

This course introduces the techniques used to plan, manage, and complete projects. It distinguishes project management from general management and examines the principal concepts and methods that have been developed to manage projects successfully: defining project objectives; the Critical Path Method; application of Lean/Six Sigma and other quality techniques; team building and conflict resolution; allocation of resources – human, physical, and financial; uses of probability to assess project time lines; and project control through budgeting. The course also covers the general principles of Management Science and Systems Theory – giving students an understanding of how models can be used to improve the quality of management decision making.

Pre-Requisites: None  

331
MGT6410L  **Strategic Management (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MBA500L Strategic Management

This course studies management as an organized body of knowledge, focusing on the role of leadership and teamwork in building organizational effectiveness. Concepts include: the nature and purpose of organizations; strategic planning; humanistic, ethical and behaviorist challenges facing modern institutions in a rapidly changing global environment; the development of leadership and teamwork skills; management dynamics of national and international companies; and the importance of CSR. The course also addresses the application of total quality methods and control systems to assure effective implementation of business plans.

MGT6999L  **MBA Capstone (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MBA560L The MBA Capstone

This course examines the process of entrepreneurship from the conception of a new idea through the steps of research and market testing to the crafting of a complete business plan. It focuses on the many ways that entrepreneurs create value and the central role of new venture creation in a free market economy. In this capstone course for the MBA program, students are asked to apply their knowledge. The capstone course for the MBA asks students to apply their knowledge of each business area to putting together and presenting, in the most persuasive but honest manner, an integrated plan for a new venture. For those students who prefer to relate the course to their current workplace, they have the option of preparing an in-depth study of a proposed solution to an existing problem.

**MANAGEMENT INFORMATION SYSTEMS – (Undergraduate)**

MIS1210L  **Introduction to Management Information Systems (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MIS101L Introduction to Management Information Systems

This meets the requirement as a writing intensive course in the major. This course provides an introduction to information systems from a business point of view. Subjects to be covered include: terminology, a survey of hardware and software, introduction to systems analysis and design, as well as an overview of the college's computer facilities. Pre-Requisites: None

MIS1220L  **Applications of Microcomputers (3)**

Pre-Requisites: MIS1210L  
Co-Requisite courses: None  
Equivalent courses: MIS102L Applications of Microcomputers

This course is a survey of microcomputers as used in today's environment. The student will become familiar with current trends and uses of microcomputers as well as hands-on exposure to spreadsheets, databases, word
processors, and operating systems. Students will be required to develop applications in each of the software areas. Pre-Requisites: MIS1210

**MIS2200L  Introduction to Structured Programming (3)**

Pre-Requisites: MIS1210L and MIS1220L suggested  
Co-Requisite courses: None  
Equivalent courses: MIS105L Introduction to Structured Programming

Topics include the concepts of hardware and software; the use of software engineering concepts of data and procedure abstraction; introduction to operating systems and utilities; and mastering a high-level computer language (currently Java Script). Lab fee. Pre-Requisites: None for majors; MIS1210, MIS1220 suggested.

**MIS2210L  Object-Oriented Programming (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MIS326L Object-Oriented Programming

This course will introduce students to object-oriented programming (OOP). Students will understand how object-oriented languages can reduce programming and maintenance time by providing a means of encapsulating behavior and ensuring data abstraction. Comprehension will be enforced by numerous programming assignments.

**MIS2520L  File Structures and Procedures (3)**

Pre-Requisites: MIS1210L and MIS1220L and MIS2200L suggested  
Co-Requisite courses: None  
Equivalent courses: MIS220L File Structures and Procedures

This course acquaints students with top-down techniques with structured modular programming using the COBOL programming language, as well as the structure of data files and their efficient access. Topics include effective data manipulation, report generation, sequential file processing, and table handling to satisfy business information needs. Lab fee. Pre-Requisites: MIS1210, MIS1220 and MIS2200 suggested.

**MIS2700L  Computer Organization and Architecture (3)**

Pre-Requisites: MIS2200L  
Co-Requisite courses: None  
Equivalent courses: MIS300L Computer Organization and Architecture

An introduction to computer organization, architecture and programming at the assembly language level. Topics include: mnemonic operations, addressing, memory organizations, data representation, interconnection structures, i/o and operating system fundamentals. Emphasis will be on the major components of a computer system, the necessary control mechanisms and explaining the various phases necessary for converting a source program into a form that can be executed by the machine. Pre-Requisites: MIS2200

**MIS2720L  Advanced Applications Development (3)**

Pre-Requisites: MIS2520L  
Co-Requisite courses: None  
Equivalent courses: MIS221L Advanced Applications Development
This course presents a formal state-of-the-art approach to application systems design and development. It is designed to reinforce the students’ existing knowledge of structured programming in COBOL by exposure to advanced table handling techniques and file maintenance through batch and online transaction/file processing. Optimization and efficiency of code and logic design will be emphasized. Interactive programming and a project-oriented environment will be utilized. Lab fee. Pre-Requisites: MIS2520

**MIS2800L  Systems Programming (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MIS305L Systems Programming

This course introduces the student to a versatile and powerful system programming language (currently "C"). Emphasis will be on flow control, data structures, and abstraction. In addition, the student will become familiar with the UNIX operating system, its functions, and the interface between the operating system and the system programming language.

**MIS3200L  Systems Analysis and Design (3)**

Pre-Requisites: MIS2520L or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: MIS311L Systems Analysis and Design

This course presents a formal approach to state-of-the-art techniques in the analysis and design of computer-based business information systems. Through the use of group projects, the process of system selection, feasibility study, and system design are covered in depth. A comparison and evaluation of file and data base requirements will be included. Students will be required to use project planning during the implementation of the project Pre-Requisites: MIS2520 or permission of the instructor

**MIS3300L  Data Communications (3)**

Pre-Requisites: A general background in MIS fundamentals is necessary  
Co-Requisite courses: None  
Equivalent courses: MIS335L Data Communications

This course will introduce the complex technology surrounding data communication networks. Numerous case studies will be reviewed to show how data communication technology supports modern data processing. The student will be required to design a data communication system by selecting appropriate communication lines, equipment, and software. Pre-Requisites: A general background in MIS fundamentals is necessary

**MIS3340L  Data-Based Management Systems (3)**

Pre-Requisites: MIS2520L  
Co-Requisite courses: None  
Equivalent courses: MIS340L Data-Based Management Systems

This course will emphasize the concepts and structures necessary to design and implement a database application through such database concepts as object-oriented modeling and entity-relationship diagrams. Review of logical vs. physical data organization is also included. A comparison of database models and definitions will round out the course. Pre-Requisites: MIS2520
MIS3350L  Computer Security and Control (3)

Pre-Requisites: Junior or Senior status or permission of Instructor.
Co-Requisite courses: None
Equivalent courses: MIS350L Computer Security and Control

Types of controls are identified and their effectiveness is evaluated. Emphasis is on the prevention and detection of both intentional and unintentional computer abuse. Existing and proposed legislation in this area will be discussed. Pre-Requisites: Junior or Senior status or permission of instructor.

MARKETING – (Undergraduate)

MKT1450L  Principles of Marketing I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MKT204L Principles of Marketing I

Marketing is a key activity that enables businesses and organizations to achieve their goals by satisfying the needs of others through mutually beneficial relationships. This course will provide students with an understanding of important marketing theory and practices, including: the marketing concept; the marketing environment; market segmentation; product positioning; product and brand strategies; pricing strategies; marketing communication strategies; distribution strategies; consumer and business buying behavior; and electronic marketing. Pre-Requisites: None

MKT2600L  Consumer Behavior (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT305L Consumer Behavior

A thorough understanding of consumer behavior is the bedrock of any successful marketing strategy. Some of the topics to be covered with respect to their effect on consumer behavior include consumer decision-making; attitudes and purchase intentions; cognition and emotion; cultural and social factors; learning theories; attention and perception of marketing stimuli; and involvement. Theories and concepts will be drawn from marketing, psychology, communication, and sociology. Pre-Requisites: MKT1450

MKT2610L  Distribution Strategies (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT303L Distribution Strategies

Store organization, operation, and control, including location, equipment, layout, buying, markup, and merchandising techniques are examined. Minor emphasis will be placed on management problems in areas of pricing, selling and promotion, personnel, credit, and inventory control. Integrated distribution strategies, the internet and social media will be examined. Pre-Requisites: MKT1450 or permission of instructor.
MKT2700L  Brand and Price Strategies (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT313L Brand and Price Strategies

Branding is endowing products and services with the power of a brand. Students will learn how to position brands and to create differences in the marketplace. Analysis of the market, competition, technology, and cultural changes are fully examined. Pre-Requisites: MKT1450

MKT2710L  Marketing Communication Strategies (IMC) (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT350L Marketing Communication Strategies (IMC)

This course introduces a model of the IMC (integrated marketing communications) planning process and the steps taken in developing a marketing communications program. Research-based examinations of organizations needs for programs that can meet the global challenges and their impact. Promotions Management, Communication Process, and Ethical Issues will be discussed. Pre-Requisites: MKT1450

MKT3210L  Sports Marketing (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT318L Sports Marketing

This course acquaints students with the sports marketing field, with emphasis on marketing mix and basic marketing functions as they apply to the sports industry. Specific strategies in sports promotion, sporting goods, and health and fitness markets are explored. Pre-Requisites: MKT1450.

MKT3400L  Professional Sales Development (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT301L Professional Sales Development

Professional sales is the primary personal communication tool used by businesses to find, create, and retain customers. Firms and individuals with superior sales skills will have a competitive advantage in the marketplace. The goal of this course is to expose students to the current state-of-the-art sales methods and skills used in business today. Students will learn through active participation and will receive the same type of professional sales training found in top corporations. Topics and methods include need-satisfaction selling, partnering skills, prospecting, SPIN questioning, handling objections, and closing. Pre-Requisites: MKT1450

MKT3410L  International Marketing (3)

Pre-Requisites: MKT1450, senior status and permission of the instructor
Co-Requisite courses: None
Equivalent courses: MKT316L International Marketing
This is an advanced course dedicated to the study of pertinent issues in international sales and marketing. The purpose is to understand the international strategy development and execution process as it affects both consumer and industrial product companies interested in global sales. Selected case studies will be reviewed. Pre-Requisites: MKT1450, senior status and permission of the instructor

**MKT3420L Hospitality and Service Marketing (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MKT306L Hospitality and Service Marketing

This is an introductory course that surveys the hospitality and service industries. The dynamic and applications of marketing strategies are studied with relation to these industries. Case studies provide an understanding of the unique problems associated with decision making. Pre-Requisites: None

**MKT3500L Advertising (3)**

Pre-Requisites: MKT1450L or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: MKT302L Advertising

Emphasis is placed on practical use of advertising in the operation of the ordinary business, including the study of the various media available and their use. Sufficient time is spent on the role of advertising in the marketing mix and its effects upon our economy. Included is the study of the fundamentals of advertising creation: research, appeals, copy, illustration, layout, and reproduction. A study of the advertising agency includes analyses of current advertising campaigns and types of media chosen for such campaigns. Pre-Requisites: MKT1450 or permission of instructor.

**MKT3510L Entrepreneurship and Small Business Management (3)**

Pre-Requisites: Junior or senior status or permission of the instructor  
Co-Requisite courses: None  
Equivalent courses: MKT354L Entrepreneurship and Small Business Management

An overview of the entrepreneurship process starting with the individual, the creativity process, the entrepreneurial idea/concept, and feasibility analysis, and concluding with the business plan. Field trip(s) and guest speakers (e.g., alumni and faculty) appropriate to venture startup and infancy are incorporated. Topics include forms of business organization, patent/copyright laws, management, finance, store layout, employee theft, and franchising. Pre-Requisites: Junior or senior status or permission of the instructor

**MKT3520L Public Relations (3)**

Pre-Requisites: MKT1450L  
Co-Requisite courses: None  
Equivalent courses: MKT320L Public Relations

Students develop a knowledge base, skill base and overall ability in the public relations domain. Course will examine strategic perspectives, evolution of public relations, measuring the success rate, and current issues and crisis management of organizations. Pre-Requisites: MKT1450
MKT3600L  Marketing Research (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT304L Marketing Research

The ability to secure and utilize market information is critical to successful decision making in business. The purpose of marketing research is to help managers make better and more profitable decisions by providing meaningful and cost-justified information. Students will learn about the role of marketing research in decision making and how firms practice marketing research by conducting their own research in group and class project(s) for real decision makers. Topics include problem definition, selecting and using secondary data, research design, qualitative research, designing surveys, sampling techniques, scaling and measurement issues, and research validity. Pre-Requisites: MKT1450

MKT3610L  Marketing Simulation (3)

Pre-Requisites: MKT1450L
Co-Requisite courses: None
Equivalent courses: MKT310L Marketing Simulation

Successful organizations and marketers must be able to craft strategies that achieve the desired marketing objectives. Students will have the chance to develop and implement their own marketing strategies in a real-time decision-making environment by competing against other students in a simulated consumer marketplace. Through this course, students will learn about conducting SWOT analyses, creating competitive advantages, collecting and leveraging market information, allocating resources across businesses and brands, market forecasting, market segmentation, and how to develop product, pricing, promotion, distribution, and research and development strategies. Pre-Requisites: MKT1450

MKT3620L  Social Media and Digital Marketing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MKT307L Social Media and Digital Marketing

Social media has changed the much of the playing field in marketing and advertising. Through social media, customers now have access to the vast experiences of other customers to guide their purchase behavior. Conversation and participation are the norms in social media and social communities. Marketers now must embrace this new relationship with customers to be successful. In this course, students will learn about the different types of social media, create social media marketing strategy, and create content and engagement strategies for various social media and sites platforms such as Facebook, Twitter, blogs, and YouTube.

MKT3691L  Introduction to Wines (21 YEARS OF AGE OR OLDER) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HSM391L Introduction to Wines (21 YEARS OF AGE OR OLDER)

STUDENTS MUST BE 21 YEARS OF AGE OR OLDER. Students will be introduced to the major wine producing regions of the world and what consumers need to know to fully enjoy and appreciate wines. Pre-Requisites: None
MKT4694L  Directed Study (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MKT399L Directed Study

Selected readings are chosen in accordance with the student's interest, as directed and approved by the instructor.
Pre-Requisites: None

MKT4810L  Strategic Marketing (3)

Pre-Requisites: MKT1450 junior or senior status preferred.
Co-Requisite courses: None
Equivalent courses: MKT315L Strategic Marketing Management

Crafting a winning superior strategy in the face of increasing global competition and turmoil in the business environment requires an approach that integrates and exploits organizational strengths to develop sustainable competitive advantage. Students will learn the process of developing marketing strategy as well as the latest developments in strategic thinking. The course will cover strategic marketing issues such as market segmentation and opportunity analysis, product and branding, pricing, marketing communications, distribution, marketing control and performance analysis. Students will explore these issues through case analyses, class and group projects, guest speakers, and by creating a comprehensive marketing plan. Pre-Requisites: MKT1450 junior or senior status preferred.

MKT4899L  Marketing Internship (3)

Pre-Requisites: The approval of the sponsoring facility, the department chair, and the dean. Junior or senior status
Co-Requisite courses: None
Equivalent courses: MKT395L Marketing Internship

The student majoring in marketing will be provided an internship earning 3 to 6 credits. Students will be placed in marketing departments, providing an opportunity to relate classroom concepts to practical applications in the business world. Pre-Requisites: The approval of the sponsoring facility, the department chair, and the dean. Junior or senior status.

MARKETING – (Graduate)

MKT5000L  Marketing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: GAT625L Marketing

This course is an analytical approach to the study of marketing, focusing on the total environment in which marketing decisions are made. Emphasis is on the managerial approach to product, price, promotion, and distribution decisions and the planning, research, and organizational aspects of marketing decision making. Buyer behavior is studied and considerable emphasis is placed upon demand analysis as a tool for marketing decisions. Examination of consumer and industrial products and services, profit, nonprofit, public, and private organizations and the social and legal implications of marketing policies are also investigated. Pre-Requisites: None
MKT5210L  Marketing Management (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MBA510L Marketing Management

This course investigates the process that organizations use to identify the needs of their customers and to create the products and services that meet these needs within the resource constraints and strategic objectives of the organization. The course examines market research, target market selection, market segmentation, position, and branding. It covers all the elements of the marketing mix, showing how they are being transformed by the Internet and the global economy.

MKT5480L  Strategic Marketing for Nonprofit Organizations (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA410L Strategic Marketing for Nonprofit Organizations

This course will track the development of an integrated marketing strategy, from setting clear measurable goals, to defining benchmarks, implementation, and evaluating its success. Students will explore the unique attributes of a mission-based marketing strategy and the special demands created by marketing efforts that are not driven by profit. Special topics will include media relations, web presence and outline of a marketing plan. Pre-Requisites: None

MUSIC – (Undergraduate)

MUS1000L  Music Appreciation I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MUS201L Music Appreciation I

The aim of this course is to increase the student's understanding and enjoyment of music, and to strengthen one's ability to benefit, as a listener, from music. The course will begin with the materials of music and introduce examples of music from the Baroque through the 20th century periods of music. Pre-Requisites: None

MUS1010L  American Musical Theater (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MUS210L American Musical Theater

A comprehensive overview of musical theater in America from its inception in the United States at the turn of the century, through the era of Rodgers and Hammer-stein, Sondheim, Andrew Lloyd Webber and the concept musical of today. Pre-Requisites: None

MUS1020L  Jazz, Its Evolution and Impact (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MUS208L Jazz, Its Evolution and Impact

This course traces the course of jazz from the African's musical heritage to the New World through work songs, spirituals, and blues; the birth of jazz in New Orleans and its dissemination to St. Louis, Chicago, Kansas City, and New York. Pre-Requisites: None

**MUS1030L Opera Appreciation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MUS209L Opera Appreciation

This course surveys and assesses our cultural heritage in the performing art of opera. Beginning with Mozart, the evolution of operatic expression is traced through examination of favorites in the Italian, French, and German traditions. A course requirement is the participation of students on a class trip by bus to the Metropolitan Opera House in New York City. A program fee is charged. Pre-Requisites: None

**MUS1040L Supernatural in Opera (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MUS221L Supernatural in Opera

A study of operas that contain elements of the supernatural based on great literature from Shakespeare, Goethe, and others. Otherworldliness is the unifying theme as witches, gods and goddesses, the theft of a person's reflection; animals that speak and dragons that do magic connect musically. A course requirement is the participation of students on a class trip by bus to the Metropolitan Opera House in New York City. A program fee is charged. Pre-Requisites: None

**MUS1050L Rock: Musical Evolution and Social Impact (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: MUS113 Rock: Musical Evolution and Social Impact

A history of rock and roll, tracing its diverse American influences from the 19th Century Blues, 20th Century pop music and Rhythm and Blues to its emergence as a recognizable style in the 1950s. In addition to a study of its musical basis, there will also be an understanding of the relationship between the music and its symbiotic relationship with 20th Century history and society. Pre-Requisites: None

**NURSING – (Undergraduate)**

**NUR2540L Introduction to Professional Nursing (3)**

Pre-Requisites: BIO1200, BIO1210, BIO1300; PSY1401; SOC1100; ENG1100; ENG1202 and CHE1210 may be taken concurrently.  
Co-Requisite courses: NUR2541LAB  
Equivalent courses: NUR101L Introduction to Professional Nursing
Introduces the components of the organizing framework of the nursing major. Various theories, e.g., health-illness continuum, Maslow’s hierarchy of needs, developmental, communication, and crisis, are presented and discussed as they relate to individual systems (client, family, community). Explores the history, definition, philosophy, and role of professional nursing. The role of the professional nurse is identified as keeping the client system stable by intervening at primary, secondary, and tertiary prevention levels. Environmental forces, e.g., socioeconomic and cultural, that impact on nursing practice are presented. Selected ethical and legal aspects of nursing practice are identified. The laboratory experience introduces computational concepts required for professional nursing practice. Concepts include (but are not limited to) systems conversion, ratio and proportion, dosage calculations, and intravenous calculations supported with a computerized assisted learning program. Pre-Requisites: BIO1200, BIO1210, BIO1300; PSY1401; SOC1100; ENG1100; ENG1202 and CHE1210 may be taken concurrently.

**NUR2731L  Pathophysiological Foundations for Nursing Practice (3)**

Pre-Requisites: None  
Co-Requisite courses: CHE1210L  
Equivalent courses: NUR311L Pathophysiological Foundations for Nursing Practice

This course will examine the concept of human disease states and their clinical management from a nursing perspective. This course will help the pre-clinical nursing student apply knowledge of anatomy and physiology to the study of adaptive and maladaptive processes that lead to illness. Specific physiologic concepts will be discussed, including cellular adaptation, inflammation, tissue oxygenation and perfusion, fluid and electrolyte balance and the body’s defense system. Alterations of the major body systems will be emphasized, including cardiovascular, pulmonary, neurologic, renal, hematological and endocrine systems.

**NUR2740L  Pharmacology (3)**

Pre-Requisites: NUR2540L and BIO2200L and PSY2450L  
Co-Requisite courses: None  
Equivalent courses: NUR103L Pharmacology

This course provides the student with a foundation for application of concepts of pharmacology in nursing practice. Drugs will be presented by classification, groups and prototypes. Principles of drug action, including pharmacokinetics and pharmacodynamics, nursing considerations and client teaching for each prototype will be emphasized. Pre-Requisites: NUR2540, BIO2200 PSY2450

**NUR2840L  Fundamentals of Professional Nursing Practice (3)**

Pre-Requisites: NUR2540L and BIO2200L and PSY2450L and CHE1210L  
Co-Requisite courses: NUR2841LAB  
Equivalent courses: NUR106L Fundamentals of Professional Nursing Practice

Introductory concepts of the art and science of professional nursing practice are presented and integrated into clinical practice. Gordon’s Functional Health Pattern is introduced as the fundamental assessment tool. Selected nursing skills and physical assessment are presented in lecture, practiced in the Nursing Learning Laboratory, and applied in providing care to adults in the clinical setting nursing practice focuses on all aspects of the nursing process, and utilizes the three levels of prevention (primary, secondary, and tertiary) to facilitate adaptive responses to stressors affecting physiological and safety needs. Pre-Requisites: NUR2540, BIO2200, PSY2450, CHE1210
NUR3540L  Nursing Research (3)

Pre-Requisites: NUR2740L and NUR2840L and PSY2302L
Co-Requisite courses: NUR3740L
Equivalent courses: NUR210L Nursing Research

Includes discussion of nursing theories and research methods. Emphasis is placed on critical analysis of published nursing research. Attention is paid to ethical issues and the contribution of research in developing nursing theory and improving nursing practice. Pre-Requisites: All Pre-Requisites for NUR3740; Co-Requisite: NUR3740. RN Students: NUR2740, NUR2840, PSY2302

NUR3600L  Ethics and Law of Health Care for Nursing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The legal and ethical aspects of the nurse's role in leading and managing safe and effective patient-centered care are examined in this course. The ethical responsibilities of the nurse as well as decision-making models related to health care situations will be discussed. The content focuses on the identification and analysis of legal and ethical concepts and principles underlying nursing practice and health care. Topics include an exploration of current ethical and legal issues that impact professional nursing and health care practice.

NUR3650L  Advanced Concepts in Nursing Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

Building on previous knowledge and skills applicable to the practice of professional nursing, this course enhances the transition of registered nurses to the baccalaureate prepared professional nurse role. Emphasis is on the challenging role of the nurse in today's global healthcare system. Content focuses on the interrelated concepts of nursing theory, models of health and illness, evidence-based practice, critical thinking, and clinical judgment. Changes in the health care environment and the impact on the professional nurse's role as part of the interprofessional healthcare team are discussed.

NUR3680OL  Applications of Statistics for Health Professionals (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course is designed to assist the students to acquire an understanding of the applications of statistical methods as a basis for identifying research problems, planning and implementing a research plan. The focus of the content is on the knowledge and skills to use, and interpret output from, statistical analysis techniques that are frequently encountered in the clinical literature of nursing, medicine, psychology and epidemiology, and other health related disciplines. Emphasis is placed on application and solid conceptual understanding of statistical inference with different study designs.
NUR3740L  Adult Medical Surgical Nursing (9)

Pre-Requisites: NUR2740L and NUR2840L and PSY2302L
Co-Requisite courses: NUR3741LAB
Equivalent courses: NUR206L Adult Medical Surgical Nursing

Provides students with the opportunity to continue application of the nursing process. Emphasis is placed on assessment and diagnosis, expansion of planning and implementation, and beginning use of evaluation. In acute care settings, students provide health care to adults experiencing stressors affecting biophysical needs. Students apply the nursing process in primary, secondary, and tertiary levels of prevention. Pre-Requisites: NUR2740, NUR2840, NUR2302

NUR3940L  Family Centered Nursing (10)

Pre-Requisites: NUR3740L and NUR3540L
Co-Requisite courses: NUR3941LAB
Equivalent courses: NUR214L Family Centered Nursing

Focuses on the role of the professional nurse in assisting the family and its individual members to adapt to stressors of the childbearing and childrearing phases of the life cycle. Students learn to apply the nursing process to meet the needs of families along the health-illness continuum. Clinical experiences include nursing care of the antepartum, intrapartum and postpartum woman and her newborn, well and hospitalized children, and their families. Health teaching activities occur in various healthcare settings. Pre-Requisites: NUR3740, NUR3540. Co-Requisite: NUR3941, NUR3942

NUR3942L  Family Centered Nursing Process (2)

Pre-Requisites: NUR3740L and NUR3540L
Co-Requisite courses: NUR3940, NUR3941
Equivalent courses: NUR215L Family Centered Nursing Process

Analyzes the family system as it responds to stressors throughout the life cycle. A variety of approaches to family analysis are considered throughout the course. Students apply the nursing process in studying the roles, functions, values, and communication patterns within family. Teaching-learning principles are implemented in completing a health teaching project in the community. Students apply the nursing process in primary, secondary, and tertiary levels of prevention. Pre-Requisites: NUR3740, NUR3540. Co-Requisites: NUR3940, NUR3941

NUR4200L  Health Promotion and Care of Vulnerable Populations (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course will examine the role of nursing in providing care to vulnerable populations within the community. Theories of community health and nursing practice will be discussed as well as concepts of health promotion and preventative care for vulnerable individuals, families, groups and communities. Content focuses on risk reduction, health maintenance, and promotion of high level wellness to individuals, families, and groups of all ages throughout the health continuum.
NUR4250L  Global Issues in Nursing Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course introduces global health care systems and models and their influence on health disparities in the delivery of healthcare. Content provides a foundation to examine factors influencing the health of communities and populations locally, nationally and globally. Basic public health principles and sciences are used to identify factors that influence promote and maintain health of populations. The use of epidemiological data and knowledge of environmental health, social determinants of health, genetics/genomics, and the influence of culture on health behaviors will be discussed.

NUR4340L  Community Focused Nursing (6)

Pre-Requisites: NUR3940L and NUR3941L and NUR3942
Co-Requisite courses: NUR4341LAB
Equivalent courses: NUR302L Community Focused Nursing

Synthesizes nursing and public health principles as applied to assessing, promoting and preserving the health of populations. Assists students to conceptualize the complexities of community dynamics (cultural, economic, political, and social) as they impact on the health of the community. Students apply the nursing process in primary, secondary and tertiary levels of prevention. Pre-Requisites: NUR3940, NUR3941, NUR3942

NUR4351L  Psychiatric/Mental Health Nursing (6)

Pre-Requisites: NUR3940, NUR3941, NUR3942
Co-Requisite courses: NUR4341LAB
Equivalent courses: NUR304L Psychiatric/Mental Health Nursing

Develops knowledge and skills in applying the nursing process with individuals and families experiencing stressors affecting psychosocial needs. Students expand previous knowledge of human behavior and interpersonal relationships. Behavior is viewed on a continuum from healthy, adaptive responses to unhealthy, maladaptive responses. Therapeutic use of self as a nursing approach is emphasized in providing care in day treatment and inpatient settings. Students investigate selected mental health issues and analyze professional roles within the context of primary, secondary, and tertiary levels of prevention. Pre-Requisites: NUR3940, NUR3941, NUR3942

NUR4400OL  Evidence-based Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses:

This course focuses on the development of nursing knowledge and the improvement of nursing practice through current relevant evidence. Research methods are examined and current issues are analyzed in relation to the implementation of evidence-based practice in selected settings. Content includes identification of clinical questions, analysis of evidence for potential solutions/innovations, planning and implementing practice changes, evaluating outcomes and identifying gaps in nursing knowledge. Processes for leading and managing practice changes through the use of evidence based research to promote effective or positive patient outcomes are explored.
NUR4532L Senior Seminar I (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR328L Senior Seminar I

This course will assist the student in preparing for the Nurses (NCLEX-RN) Examination. The student will be required to complete content modules and attend computerized practice sessions in preparation for a culminating computerized exit examination and success on the NCLEX-RN examination.

NUR4533L Senior Seminar II (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course is an extension of NUR4532 and will assist the student in preparing for the NCLEX-RN examination. The student will be required to complete content modules in preparation for a culminating computerized examination.

NUR4534L Independent Study (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

A planned learning experience that provides students with an opportunity to explore a particular topic/area of interest related to their program of study that is not offered at the College. The requirements for an independent study are accomplished independent of formal classroom and/or laboratory sessions through written contract between the student and a faculty member.

NUR4540L Trends and Issues in Nursing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR325L Trends and Issues in Nursing

Increases the student's ability to synthesize the knowledge, skills, concepts, and theories essential for effective professional nursing practice. Students examine issues that affect clients and healthcare systems. Consideration is given to the impact of cultural, economic, ethical, legal, political, professional, and social issues upon nursing practice.

NUR4600L Leadership and Management in Nursing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

Synthesis of theories and concepts related to leadership and management such as, critical thinking, clinical judgment or reasoning, change theory, conflict resolution, delegation, and changes that impact the health care delivery system is discussed. The aspects of the role of the nurse as leader and manager are explored in depth, with
a special emphasis on the role of the nurse as change agent. The course will provide practical information for the practicing nurse to strengthen problem solving, decision-making, and critical thinking abilities, which are all vital in today's rapidly changing health care delivery systems.

**NUR4940L  Complex Medical Surgical Nursing (6)**

Pre-Requisites: NUR4340L and NUR4351L and NUR4532L  
Co-Requisite courses: NUR4941L and NUR4540L  
Equivalent courses: NUR306L Complex Medical Surgical Nursing

Provides a framework for the student to assist individuals, families, and groups in adapting to complex stressors. Emphasis is placed on the development by the student of critical thinking and critical judgment while using the nursing process to assist clients to meet their biophysical and psychosocial needs. Health teaching activities and research findings are incorporated into nursing care. Pre-Requisites: NUR4340, NUR4341, NUR4532

**NUR4941L  Nursing Leadership (6)**

Pre-Requisites: NUR4940L  
Co-Requisite courses: None  
Equivalent courses: NUR307L Nursing Leadership

Focus on the leadership process and development of the leadership role of the professional nurse. Students apply the nursing process in primary, secondary, and tertiary levels of prevention. Students analyze leadership and management functions, characteristics, styles, and roles. Interpersonal communication, staff development, change theory, and assertiveness skills are applied. Pre-Requisites: NUR4940

**NUR4999L  Capstone Seminar (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None

This course provides the student the opportunity to synthesize previous knowledge and skills in a supervised practicum experience with the guidance and approval of the faculty. The clinical project provides students with the opportunity to explore a problem or issue of particular personal or professional interest that is related to one of the following nursing competencies: patient-centered care, teamwork/collaboration, evidence based practice, quality improvement, safety or informatics (QSEN: [http://www.qsen.org](http://www.qsen.org)).

**NURSING – (Graduate)**

**NUR5040L  The Art and Science of Nursing for Advanced Practice (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: NUR500L The Art and Science of Nursing for Advanced Practice

Nursing knowledge development, worldview, and competencies of the advanced practice nurse are examined. This focus of this course is professional practice development, communication, leadership, team building, and interdisciplinary collaboration.
NUR5041L  Seminar in Nursing Research (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR505L Seminar in Nursing Research

Evidenced based practice and clinical reasoning are explored. Problem identification, problem solving, ethical standards and principles of research are the focus of a research proposal. Dissemination of research and translational research are analyzed for interdisciplinary practice.

NUR5042L  Policy, Politics, and Organization of Healthcare (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR510L Policy, Politics and Organization of Healthcare

Quality improvement, standards of care, health care policy, and organizational science, are topics of this course. Information technology and trends of healthcare are examined. Legal and economic challenges of advanced practice nursing are incorporated.

NUR5043L  Concepts of Healthcare Transformation (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR515L Concepts of Healthcare Transformation

Family, community and public health nursing are the focus of this course. Complex science and systems theory are explored in relation to design, delivery and evaluation of population health. Concepts of cultural safety are considered.

NUR5140L  Evaluating Learning Outcomes (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR542L Evaluating Learning Outcomes

The aim of this course is to prepare nurse educators to evaluate student progress in achieving course objectives. Course content includes evaluation of learning in the cognitive, psychomotor and affective domains. Construction of test items based on course blueprints, use of rubrics, and clinical evaluation are included topics. Objective evaluation and student feedback are discussed as critical legal and ethical standards for nurse educators.

NUR5141L  Holistic Nursing Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR562L Holistic Nursing Practice

This course explores the integral approach of Holistic Nursing as an art and a science in concert with contemporary nursing by examining the Core Values of Holistic Nursing and Holistic Nursing Scope and Standards of Practice. The focus is on the role of the nurse as an instrument of healing the whole person, mind, body, spirit and emotions while honoring the interconnectedness and the interrelatedness of the nurse, client,
society, and universal environment. Holistic nursing is based on a foundation of self-care, healing relationships, mutuality and presence. Caring healing interventions will be introduced and considered for integration into relationship-centered clinical practice and self-care to restore balance and enhance well-being.

NUR5143L  Culture and Diversity (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR548L Culture and Diversity

This course examines cultural safety, cultural tolerance, and cultural diversity related to population-focused nursing through the study of healthy ethnic communities and diverse socio-cultural groups. Travel to Toronto, Ontario, Canada for an accelerated cultural experience is required. This course is offered in the first summer session. This course requires additional course fees TBA prior to registration depending on current cost of travel, room and board.

NUR5300L  Interprofessional Comm. and Collaboration for Health Pro. (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course explores essential collaboration and communication skills for health care providers. Interprofessional collaboration and its significance in safe patient centered care is a focus of this course. Students will review the Interprofessional competencies and discuss the role of the nurse in improving interprofessional collaboration in the healthcare setting. Professional written and oral communication as key to leading and managing safe patient care will also be addressed.

NUR5412L  Professional Writing for Nursing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR564L Professional Writing for Nursing

This course explores essential writing skills for professional nurses. Grant application and papers for submission as publications are the focus of this course. Components of the course include: clear exposition, persuasive argument, effective synthesis and mastery of writing mechanics including APA format.

NUR6040L  Advanced Concepts of Pathophysiology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR600L Advanced Concepts of Pathophysiology

Principles of pathophysiology including biopsychosocial science and genomics are the focus of this course. Nursing’s role in management of chronic and acute adult onset illnesses is examined.

NUR6041L  Advanced Concepts of Pharmacology (3)

Pre-Requisites: NUR6040L
Co-Requisite courses: None
Pharmacological management of adult onset acute and chronic illness is the focus of this course. Principles of pharmacokinetics, pharmacodynamics and pharmacogenomics will be examined. Cultural beliefs and practices for adult onset illnesses related to medication management are analyzed. Pre-Requisites: NUR6040

**NUR6042L  Advanced Concepts of Health Assessment (3)**

Pre-Requisites: NUR6040L and NUR6041L  
Co-Requisite courses: None  
Equivalent courses: NUR610L Advanced Concepts of Health Assessment

Health assessment of individuals and families are explored from the perspective of client-centered care, safety, cultural diversity, genomics, and biopsychosocial principles. Laboratory practice is required. Pre-Requisites: NUR6040, NUR6041

**NUR6140OL  Healthcare Informatics (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: NUR555L Informatics

This course provides an overview of nursing informatics and electronic modalities that assist in patient and client management. The automation of data management through information systems, expert systems, and telecommunications will be examined in the context of health care informatics. The use of technology to help make decisions and to improve the health status of the individual, family, and community will be emphasized. Legal and ethical implications of informatics and technology in healthcare are addressed.

**NUR6141L  Evidence - Based Practice for Nursing Education (3)**

Pre-Requisites: NUR5040L and NUR5041L  
Co-Requisite courses: None  
Equivalent courses: NUR540L Evidence - Based Practice for Nursing Education

Principles of evidence - based nursing education for pre-licensure nursing students are the focus of this course. Classroom and clinical teaching is emphasized. Evaluation of student learning outcomes is included. Pre-Requisites: NUR5040, NUR5041

**NUR6142L  Nursing Leadership and Management (3)**

Pre-Requisites: NUR6142L  
Co-Requisite courses: None  
Equivalent courses: NUR550L Nursing Leadership and Management

Fiscal management, strategic planning, trend analysis, and resource management are the focus of this course. Elements and processes of outcome measurements are explored. Leadership and management of personnel are included topics. Pre-Requisites: NUR5040, NUR5041
NUR6143L  Concepts and Elements of Core Measures (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: NUR546L Concepts and Elements of Core Measures

This course focuses on the knowledge and tools to support, promote, and implement change leading to improvements in patient and health system outcomes. Students will be introduced to concepts and theories of quality measurement and best practices including application to Deming’s Plan-Do-Study-Act (PDSA) method of continuous quality improvement.

NUR6149L  Nursing Administration Practicum (6)

Pre-Requisites: NUR6141L
Co-Requisite courses: None
Equivalent courses: NUR640L Nursing Education Practicum

Clinical practicum practice in nursing education is the focus of this course. Students begin their own reflective nursing education practice with the guidance of a mentor. A practicum project presentation is required. Pre-Requisites: NUR6141

NUR6249L  Nursing Administration Practicum (6)

Pre-Requisites: NUR6142L
Co-Requisite courses: None
Equivalent courses: NUR650L Nursing Administration Practicum

Clinical practicum practice in nursing administration is the focus of this course. Students are mentored in a nursing administrative practice with an advanced practice nurse. A practicum project presentation is required. Pre-Requisites: NUR6142

NUR6510L  Advanced Health Assessment and Differential Diagnoses (2)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

Focuses on health assessment knowledge and skills needed by advanced practice nurses. The diagnostic reasoning skills needed for clinical reasoning in the advanced practice role are emphasized. Includes a 60 hour clinical component to continue to develop and refine comprehensive health assessment skills.

NUR6520L  Advanced Practice Nursing: Professional Issues & Responsibility (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The role of the advanced practice nurse and the concepts of primary care within a contemporary health care system will be explored. Issues related to the role of the APN, regulation affecting practice, interprofessional collaboration, accountability and outcomes relevant to the APN practice will be examined.
NUR6530L  Pharmacology for Advanced Practice Nurses (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course is designed to prepare advance practice nurses (APRN) to accurately describe, administer, and counsel patients regarding appropriate and safe medication regimens. In addition APRN students will be prepared medication prescriptive authority within their scope of practice. Basic pharmacologic principles and the pharmacologic actions of the major drug classes will be discussed in relation to physiologic systems, with emphasis on the application of these agents.

NUR6540L  Primary Care Clinical Management: Role of FNP I (6)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

First in a series of three clinical management courses for nurse practitioners. Focus of course is on application of advanced pathophysiology concepts and clinical decision making skills to interpret assessment data and develop diagnoses and treatment plans in primary care of clients and their families across the lifespan. The integration of research and evidence-based practice, teaching/health promotion, and consultation skills within the context of collaborative practice are emphasized.

NUR6550L  Primary Care Clinical Management: Role of FNP II (6)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

Focus is on the delivery of care to clients and their families experiencing acute and chronic health problems. Continued emphasis on collaboration with the health care team in the implementation and the evaluation of accepted medical and nursing interventions used in the care of patients across the lifespan. Effective use of skills required for clinical management, education, consultation, referral, and follow-up are emphasized. Therapeutic interventions based upon evidenced-based research are integrated along with complementary and alternative healing approaches appropriate for individuals and their families with health care problems.

NUR6560L  Primary Care Clinical Management: Role of FNP III (6)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

Opportunity to further develop leadership, research, teaching, and consultation skills as a basis for advanced clinical practice. Practice issues are explored within the context of ethical and effective use of resources for beginning autonomous practice. Course focuses on the management of complex health issues experienced by clients across the lifespan, with special emphasis on the elderly and other vulnerable populations. Theoretical concepts of organizational systems and health care politics and policy are applied to the advanced practice setting to identify and solve complex health and systems problems.
NUR6600L  Advanced Practice Capstone (2)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course is a capstone experience in which the family nurse practitioner students continue to develop knowledge and expertise in the role as a primary care provider. Autonomy in clinical decision-making is emphasized. Family nurse practitioner students increase their levels of responsibility for independent client and family management.

OCCUPATIONAL THERAPY

OTR2210L  Introduction to Occupational Therapy (2)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course introduces students to the foundational principles of occupational therapy practice including historical perspectives, the philosophical base and current research of the profession. The course will utilize the guiding documents of the American Occupational Therapy Association the Occupational Therapy Practice Framework: Domain and Process, 2nd edition to promote students’ understanding of the meaning and dynamics of occupation and activity as a foundation of OT evaluation, intervention and outcomes. Roles and responsibilities of the occupational therapy practitioner will be explored utilizing the AOTA Standards of Practice and Occupational Therapy Code of Ethics and Ethics Standards. The course will promote development of values related to being an occupational therapist including cultural competency, client-centered, occupation-based and evidenced-based practice.

OTR2230OL  Medical Terminology (1)

Pre-Requisites: All General Education and Program Requirements.
Co-Requisite courses: None
Equivalent courses: OTR100L Medical Terminology

This on-line course utilizes an E-Textbook that is available at www.aicmedterm.com. This course is an on-line, computer-based course that is designed for occupational therapy students. The tutorial format has an 800 page online printable textbook. The E-Textbook includes 3000 color medical pictures that will visually assist students to understand why specific word parts were selected to form the thousands of specialized compound Medical & Scientific terms discussed in this course. In addition, the E-Textbook contains interactive audio-visual lecture pages that prepare each student for the 1000 self-testing flashcards and the 800 multiple choice self-test questions. Students are provided with an opportunity to study and replay the audio-visual online lectures and complete the self-testing activities at a convenient time and place. Pre-Requisites: All General Education and Program Requirements.

OTR2410L  Professional Communication (2)

Pre-Requisites: All General Education and Program Requirements
Co-Requisite courses: None
Equivalent courses: ENG338L Scientific Research Writing
OTR2430L Occupational Science (3)

Pre-Requisites: All General Education and Program Requirements
Co-Requisite courses: None
Equivalent courses: OTR220L Introduction to Occupational Science

This course provides students with an opportunity to survey and apply basic concepts, theories, and values that are the foundation of occupations in people’s lives from a global perspective and including concepts from sociology, psychology, and anthropology. Consideration of the occupational needs, history, and patterns of engagement of individuals across the life span will be studied in order to develop occupational profiles that include the influences of family, society, culture, and spirituality. Pre-Requisites: All General Education and program requirements

OTR2432L Neuroscience (4)

Pre-Requisites: BIO1200L and PHY1200L and PHY1210LAB
Co-Requisite courses: None
Equivalent courses: OTR623L Neuroscience

This course presents the neurological foundations of human performance, behavior, and emotion through a variety of formats. Students will gain an understanding of the structure, function, and development of the nervous system and its influence on human behavior throughout the lifespan. This course explores how the nervous system functions, how it develops, and how it controls thoughts, emotions, and actions. Content will include anatomy, physiology, and functioning of the central and peripheral nervous systems, including clinical examples illustrating the impact of disease, trauma, learning, and developmental change on the everyday activities of people of all ages. Pre-Requisites: BIO1200, PHY1200, PHY1210

OTR2630L Tasks & Activity Analysis (2)

Pre-Requisites: All General Education and Program Requirements
Co-Requisite courses: None
Equivalent courses: OTR204L Activity Analysis

Through active participation in activities, this course will develop skills in analyzing activities of daily living, work and productive activities, play or leisure activities, and social participation. The analysis will include the physical and environmental requirements to perform activities. It will identify facilitators and barriers to performance including performance skills, client factors, activity demands, and contexts. The coursework will explore the relationship of activities to broader areas of occupation. The course will offer the students an opportunity to begin to develop skills in teaching, collaborative planning, and goal writing. Pre-Requisites: All General Education and program requirements.

OTR3210L Foundations of Occupational Therapy (2)

Pre-Requisites: OTR2210L and OTR2430L
Co-Requisite courses: None
Equivalent courses: None

This course will utilize the guiding documents of the American Occupational Therapy Association the Occupational Therapy Practice Framework: Domain and Process, 2nd edition to promote students’ ability to
apply their understanding of the meaning and dynamics of occupation and activity as a foundation of OT evaluation, intervention and outcomes. Students will learn how to explain and justify the importance of supervisory roles, responsibilities, and collaborative professional relationships between the occupational therapist and the occupational therapy assistant utilizing AOTA’s official documents, including AOTA’s Standards of Practice. The course will promote the development of values and professional responsibilities related to being an occupational therapist including cultural competency, client-centered, occupation-based and evidenced-based practice. Pre-Requisites: OTR2210, OTR2430

**OTR3230L  Evidence-Based Practice (2)**

Pre-Requisites: OTR2210L and OTR2430L  
Co-Requisite courses: None  
Equivalent courses: OTR303L Outcomes

The course will explore the themes of building scientific knowledge as the basis for disciplinary development, using research evidence to answer clinical questions, and transforming clinical problems into researchable questions. The process of becoming a scholarly practitioner that utilizes research-based data to select assessment tools, develop goals, decide on intervention strategies, and measure outcomes will be discussed. The steps in the research process that includes generating a question, reviewing the existing literature, and designing a study that produces evidence to help answer the question, will be described and applied to learning activities. Course activities will include searching the literature using books, journals, and electronic databases; and analyzing peer-reviewed articles from occupational therapy and related journals to assess the validity and reliability of assessment instruments, the effectiveness of treatment interventions, and the use of statistics in testing and outcomes measurement. Pre-Requisites: OTR2210 and OTR2430

**OTR3430L  Gross Anatomy (4)**

Pre-Requisites: BIO 2432L  
Co-Requisite courses: None  
Equivalent courses: OTR222L Gross Anatomy

Human gross anatomy is an examination of the structures of the human body. The course includes an in-depth presentation of the musculoskeletal system, with limited consideration of other body systems. The course material will be conveyed through lectures, laboratory experiences with human cadaver pro-sections, ADAM computerized dissections of the human body, audiovisual tapes, and anatomical models. Pre-Requisites: BIO2432

**OTR3440L  Group Dynamics (2)**

Pre-Requisites: OTR2630 L  
Co-Requisite courses: None  
Equivalent courses: OTR201L Group Dynamics

This course provides information regarding the theory of group dynamics that includes communication, group process, group development, leadership styles, and group roles and norms. Human occupation, cognitive, and developmental models are introduced. Students will be required to apply activity analysis and observation skills as both group leaders and members. Students will participate in a community group during the semester. Pre-Requisites: OTR2630
OTR3630L Kinesiology (3)

Pre-Requisites: OTR2432L
Co-Requisite courses: None
Equivalent courses: OTR302L Kinesiology

This course is an introduction to the study of the movements of the human body. Students examine the major joint complexes of the body, including the skeletal, muscular and neurological contributions to movement at each joint, and consider the physical forces that influence human movement. Students also observe, analyze, and document using SOAP format the skilled movement patterns needed for occupational performance in daily life. The course material is presented in lecture and laboratory format and is supplemented with hands-on sessions for practicing range of motion and manual muscle testing skills on peers. Skeletal and anatomical models and audiovisual materials will complement the instructional process. Pre-Requisites: OTR2432

OTR3700L Comprehensive Exam (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This is the first course in the comprehensive exam series that addresses domain areas related to the foundations of occupational therapy. The course stresses developing critical reasoning skills within the context of the exam. Active learning is emphasized, with practice in reading, interpreting, and answering multiple choice and clinical simulation questions to help assess strengths and weaknesses.

OTR4230L Psychosocial Occupations 1 (3)

Pre-Requisites: All general education and program requirements as well as OTR3700
Co-Requisite courses: None
Equivalent courses: OTR506L Psychosocial Occupations 1

This course in the physical performance series addresses psychosocial development from birth to adolescence. Developmental theories and models of psychodynamics, cognition, behavior, and occupations are examined. The DSM-IV diagnostic categories for disorders of children and adolescents are included such as learning disabilities, pervasive developmental disorders, and anxiety disorders. Specific emphasis is on the emotional development, social interactions, and physical play environments of young children and adolescents. The effects of dysfunction on the occupations of the child/adolescent are studied including contextual effects on the family, and societal systems. Therapeutic assessment and intervention for occupational dysfunction in this age range will be explored. Level I Fieldwork is integrated within the course work affording the opportunity to apply classroom experiences to real life clinical experiences. Pre-Requisites: All general education and program requirements as well as OTR3700

OTR4231L Physical Occupations 1 (3)

Pre-Requisites: All General Education and Program Requirements
Co-Requisite courses: None
Equivalent courses: OTR516L Physical Occupations 1

This course in the physical performance series addresses gross and fine motor development from birth to adolescence. Developmental theories and models of motor learning, sensory integration, acquisitioned, and perceptual motor are examined. Performance skills addressed include typical and atypical feeding patterns, postural development, mobility, and eye-hand coordination relative to development of self-care, educational, play,
social, and pre-vocational occupations. Sensory motor dysfunction is addressed including but not limited to cerebral palsy, spina bifida, muscular dystrophy, and congenital anomalies. The effects of dysfunction on the occupations of the child or adolescent are studied including contextual effects on the family, and societal systems. Therapeutic assessment and intervention for occupational dysfunction in this age range will be explored. Level I Fieldwork is integrated within the course work affording the opportunity to apply classroom experiences to real life clinical experiences. Pre-Requisites: All general education and program requirements as well as OTR3700

OTR4232L  Assistive Technology 1 (3)

Pre-Requisites: All general education and program requirements as well as OTR3700
Co-Requisite courses: None
Equivalent courses: OTR 526L Assistive Technology 1

This is the first of two courses examining the role of assistive technology in promoting optimal occupational functioning across the lifespan. This course will provide an introduction to the theories and principles of assistive technology intervention for occupational performance disruption during childhood and adolescence. Performance contexts and their impact on occupational performance and use of assistive technology will be examined. Various types of assistive technology used at home, in school, and in the community will be explored. Students will be required to apply activity analysis skills in problem solving and developing assistive technology interventions. Students will be introduced to the utilization of assessment data and assistive technology in the therapeutic process. Legal, ethical and funding issues will also be introduced. Student will participate in classroom activities and hands-on labs to construct simple assistive devices. Field trips and Level I Fieldwork observations and assignments will be used to apply classroom learning. Pre-Requisites: All general education and program requirements as well as OTR3700

OTR4233L  Fieldwork/Service Delivery 1 (3)

Pre-Requisites: All general education and program requirements as well as OTR3700
Co-Requisite courses: None
Equivalent courses: OTR592L Fieldwork/Service Delivery 1

This course examines the continuum of care and methods of service delivery for pediatric populations in a variety of medical, educational, and social settings. Current issues affecting service delivery including access, quality, and cost will be identified and discussed. Students are challenged to recognize the influence of federal legislation and health care policy on current practice and to identify and analyze the social, economic, political, and demographic factors and trends that influence the delivery of pediatric practice in the United States. The occupational therapists emerging role within the context of health promotion, community, and public health will be discussed. Students participate in Level I Fieldwork experiences in pediatric/adolescent settings as part of this course. Pre-Requisites: All general education and program requirements as well as OTR3700

OTR4240L  Research Methods (3)

Pre-Requisites: OTR3230L
Co-Requisite courses: None
Equivalent courses: OTR705L Research 1

As the second course in the research series, this course provides an opportunity for in-depth examination of the concepts, problems, needs, and issues involved in evaluating and conducting research in occupational therapy. The nature, relevance, and application of qualitative and quantitative research methods are examined as they relate to the development of an attitude of scholarly inquiry in this practice profession. The themes of evidence-based assessment and intervention, and outcomes measurement based in occupational performance resurface in the
context of defining scholarship in occupational therapy. Students will develop beginning level research skills by
initiating the development of a proposal for a scholarly project. Student outcomes will include the identification of
a researchable problem/question and a review of the literature on a topical area. Pre-Requisites: OTR3230

**OTR4430L  Psychosocial Occupations 2 (3)**

Pre-Requisites: OTR4230L
Co-Requisite courses: None
Equivalent courses: OTR606L Psychosocial Occupations 2

This course explores psychosocial aspects of occupational performance among adult and older adult populations. Using the DSM-IV-R criterion, occupation and function are explored in varied contexts and phases of wellness, illness, and disability. With this fundamental knowledge, students will engage in clinical reasoning in the areas of evaluation, goal setting and treatment planning using a collaborative model and an emphasis on meaning and purposeful activity. The inter-relationship and inter-dependence of person, physical environment, and the larger social context will be reinforced through the application of theoretical principles. Assessment tools, theoretical approaches, intervention planning, and techniques appropriate to this age range will be explored. Level I Fieldwork is integrated within the coursework affording the opportunity to apply classroom experiences to real life clinical experiences. Pre-Requisites: OTR4230

**OTR4431L  Physical Occupations 2 (3)**

PRE-REQUISITES: Pre-Requisites: OTR4231L
Co-Requisite courses: None
Equivalent courses: OTR616L Physical Occupations 2

This course explores physical development and functioning as it relates to occupational performance from early to late adulthood. Changes in the human body affecting skeletal, muscular, neurological, cardiopulmonary, and sensory systems will be examined. Functional implications on development and maintenance of occupational roles will be analyzed, and the importance of purposeful activity to maintain wellness will be highlighted. The integration of person, environment, and occupation will be stressed when applying theoretical principles to pathologic conditions, and in developing support systems to enable optimal occupational performance throughout adult life. Therapeutic assessment and intervention for occupational dysfunction in this age range will be introduced. Level I Fieldwork is integrated within the coursework, affording the opportunity to apply classroom experiences to real life clinical experiences. Pre-Requisites: OTR4231

**OTR4432L  Assistive Technology 2 (3)**

Pre-Requisites: OTR4232L
Co-Requisite courses: None
Equivalent courses: OTR626L Assistive Technology 2

This is the second of two courses examining the role of assistive technology in promoting optimal occupational functioning across the lifespan. Performance contexts and their impact on occupational performance and use of assistive technology with a focus on the occupations of adulthood will be examined. Assistive technology in the areas of ergonomics, environmental evaluation/adaptation and control, and community mobility will be addressed. Assistive technology interventions focused on increasing function and participation in home, work, school, and community contexts will be explored. Students will be required to apply activity analysis skills in problem solving and developing assistive technology interventions. Demonstration of competency in environmental evaluation, basic computer adaptations, and teaching compensatory strategies is expected by the end of the semester. Students
will analyze the effects of technology on the lives of people with disabilities through readings, assignments, and Level I Fieldwork experiences. Pre-Requisites: OTR4232

**OTR4433L  Fieldwork/Service Delivery 2 (3)**

Pre-Requisites: OTR4233L  
Co-Requisite courses: None  
Equivalent courses: OTR692L Fieldwork/Service Delivery 2

This course examines the continuum of care for adult populations while exploring issues of service delivery within the medical and social systems. The class will focus on issues related to access, quality, and cost of health care. Students are challenged to recognize the influence of federal legislation and health care policy on current practice and to identify and analyze the social, economic, political, and demographic factors and trends that influence the delivery of health care in the United States. Students participate in Level I Fieldwork experiences in adult settings as part of this course. Pre-Requisites: OTR4233

**OTR4444L  Directed Study (2)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: OTR398L Directed Study (2-6)

This course is not part of the standard curriculum. Students may register for this course only by approval of the Program Director. This course will direct students to survey and apply the basic concepts, theories and values of occupational science. Occupation as a foundational concept of life is studied, and group dynamics theories and applications are explored. Students will develop occupational profiles and task analyses of occupational performance in the areas of daily living, work or school, play and leisure, and social interactions as the basis for therapeutic intervention. Pre-Requisites: None

**OTR4525L  Program Development in Health/Wellness(2)**

Pre-Requisites: All 2000 series OTR courses and OTR 4240  
Co-Requisite courses: None  
Equivalent courses: OTR625L Program Development/Leadership

This is the first course in the comprehensive exam series that addresses domain areas related to the foundations of occupational therapy. The course stresses developing critical reasoning skills within the context of the exam. Active learning is emphasized, with practice in reading, interpreting, and answering multiple choice and clinical simulation questions to help assess strengths and weaknesses. Pre-Requisites: All 2000 series OTR courses and OTR4240

**OTR4531L  Supervision/ Management (2)**

Pre-Requisites: OTR4240L  
Co-Requisite courses: None  
Equivalent courses: OTR792L Management

This course is designed to prepare the student for supervision and management issues related to future clinical practice. The management portion of this course will present management theory pertinent to the occupational therapy/health care industry. Organizational behavior and structure will be discussed in relation to professional organizations that influence the delivery of occupational therapy services. Management principles and strategies
involved in the managerial functions of planning, organizing, staffing, budgeting, directing, evaluating and marketing will be examined and applied during class and individual assignments. Classroom discussion topics will emphasize communication skills, supervision and professionalism. Pre-Requisites: OTR4240

OTR4600L Comprehensive Exam (1)

Pre-Requisite: All 2000 series OTR courses
Co-Requisite courses: None
Equivalent courses: None

This is the second course in the comprehensive exam series that addresses practice areas related to management and psychosocial occupations. The course stresses developing critical reasoning skills within the context of the exam. Active learning is emphasized, with practice in reading, interpreting, and answering multiple choice and clinical simulation questions to help assess strengths and weaknesses. Pre-Requisites: All 2000 series OTR courses

OTR6030L Occupational Therapy Process: Pediatrics (4)

Pre-Requisites: OTR 4600
Co-Requisite courses: None
Equivalent courses: OTR806L Occupational Therapy Process: Pediatrics

This course is designed to apply knowledge of biological, physical, behavioral, and psychosocial development of children to pediatric occupational therapy practice. Students will apply an occupation-based and client-centered approach to evaluation and intervention in a variety of occupational therapy practice contexts including schools, hospital settings, rehabilitation centers, mental health programs, and community, and home-based settings. Theoretical perspectives that integrate person, environment, and occupation will be stressed as a foundation for understanding physical and psychosocial pathology in child and adolescent populations. Research evidence from journal articles will supplement the text material to identify the most effective assessments and interventions currently available in the arena of pediatric practice. Students will synthesize knowledge of evaluation techniques including standardized tests and behavioral scales, as well as motor, sensory, or behavioral treatment approaches. They will apply clinical reasoning/problem solving to select appropriate tools, interpret, and document assessment data, and determine the appropriate occupational interventions for the age and functional level of the child. Level I Fieldwork with children and adolescents with physical and/or psychosocial disabilities will be provided to permit students to apply classroom learning to real-life clinical experience. Pre-Requisites: OTR4600

OTR6031L Occupational Therapy Process: Mental Health (4)

Pre-Requisites: OTR 4600
Co-Requisite courses: None
Equivalent courses: OTR816L Occupational Therapy Process: Mental Health

This course is designed to apply knowledge of behavioral and psychosocial development to the practice of occupational therapy with adolescents and adults who exhibit psychosocial dysfunction affecting occupational performance. Students will apply an occupation-based and client-centered approach to evaluation and intervention in a variety of occupational therapy practice contexts including hospital settings, rehabilitation centers, mental health programs, and work, community, and home-based settings. Theoretical perspectives that integrate person, environment, and occupation will be stressed as a foundation for understanding psychosocial pathology in young to aging adult populations. Research evidence from journal articles will supplement the text material to identify the most effective assessments and interventions currently available in the arena of mental health. Students will synthesize knowledge gained from developed competencies in conducting basic evaluation and intervention planning to utilize clinical reasoning/problem solving in the appropriate selection and analysis of
assessment data, the setting of effective intervention goals and objectives, and the selection of appropriate treatment media and activities to enhance occupational performance. Level I Fieldwork with adult clients with psychosocial disabilities will be provided to permit students to apply classroom learning to real-life clinical experience. Pre-Requisites: OTR4600

**OTR6032L Occupational Therapy Process: Adults (4)**

Pre-Requisites: OTR 4600  
Co-Requisite courses: None  
Equivalent courses: OTR826L Occupational Therapy Process: Physical Disabilities

This course is designed to apply biomechanical, neurobiological, and occupation-based models and frames of reference for occupational therapy intervention with adults with physical dysfunction. Students will apply an occupation-based and client-centered approach to identification of appropriate evaluation and intervention strategies for clients in a variety of occupational therapy practice contexts including hospital settings, rehabilitation centers, intermediate and long-term care facilities, and home environments. Students will synthesize knowledge of the use standardized evaluation tools, research-based intervention strategies and adaptive techniques, to utilize clinical reasoning/problem solving strategies for establishing effective client-centered intervention plans to enable maximum independence in occupational performance. The ability to identify and synthesize research evidence from appropriate sources to identify the most effective assessments and interventions in the arena of physical disabilities will be emphasized. Level I Fieldwork with adult clients with physical disabilities will be provided to permit students to apply classroom learning to real-life clinical experience. Pre-Requisites: OTR4600

**OTR6033L Occupational Therapy Process: Aging (4)**

Pre-Requisites: OTR4600  
Co-Requisite courses: None  
Equivalent courses: None

This course teaches students to provide client centered, evidence-based services for the growing cohort of older adults. Students will explain the interaction between the aging process and disability and explore how this impacts performance and engagement in occupation for both the client and any supporters/caregivers of clients. Pre-Requisites: OTR4600

**OTR6130L Fieldwork Seminar (1)**

Pre-Requisites: OTR4600  
Co-Requisite courses: None  
Equivalent courses: OTR885L Fieldwork Seminar

This course precedes the Level II Fieldwork experience and examines the respective roles and responsibilities of the student, fieldwork supervisor, and academic fieldwork coordinator. Fieldwork goals and objectives, and the criteria for student evaluation will be clarified. Students will also be instructed regarding national certification (NBCOT), the application process for the certification exam, and licensure requirements and procedures. Classroom discussion topics will emphasize communication skills, supervision, and professionalism related to fieldwork and future practice. Pre-Requisites: OTR4600
OTR6139L  Level II Fieldwork (6)

Pre-Requisites: OTR6200
Co-Requisite courses: None
Equivalent courses: OTR896OL Level II Fieldwork

The Level II Fieldwork assignments provide students with the opportunity to apply an academically acquired body of knowledge to an in-depth clinical experience in the delivery of occupational therapy services to clients and their families or caregivers. The OT student practitioner (OTS), as evaluated by AOTA’s Fieldwork Performance Evaluation for the Occupational Therapy Student will demonstrate competencies in: fundamentals of practice, basic tenets, evaluation and screening, intervention, management of occupational therapy services, communication, and professional behaviors. Students will be graded on a pass/fail basis. Level II Fieldwork sites are frequently at a distance from the College and/or the student’s home. Student preferences for site selection will be taken into consideration but there is no guarantee that the preferences will be granted. Students are required to accept and to attend the fieldwork placements as assigned to them by the Academic Fieldwork Coordinator. Students are responsible for assuming all costs associated with travel to and from all sites, as well as transportation, food, housing and personal health insurance. Students selecting a fieldwork site that requires a supervision fee are required to assume personal financial responsibility. Completion of Level II Fieldwork will not exceed one year from the end of didactic course work unless approved by the program director. Pre-Requisites: OTR6200

OTR6200L  Comprehensive Exam (1)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses:

This is the third course in the comprehensive exam series that addresses practice areas related to physical disabilities and pediatrics. The course stresses developing critical reasoning skills within the context of the exam. Active learning is emphasized, with practice in reading, interpreting, and answering multiple choice and clinical simulation questions to help assess strengths and weaknesses.

OTR6239L  Level II Fieldwork (6)

Pre-Requisites: OTR6200
Co-Requisite courses: None
Equivalent courses: OTR897OL Level II Fieldwork

The Level II Fieldwork assignments provide students with the opportunity to apply an academically acquired body of knowledge to an in-depth clinical experience in the delivery of occupational therapy services to clients and their families or caregivers. The OT student practitioner (OTS), as evaluated by AOTA’s Fieldwork Performance Evaluation for the Occupational Therapy Student will demonstrate competencies in: fundamentals of practice, basic tenets, evaluation and screening, intervention, management of occupational therapy services, communication, and professional behaviors. Students will be graded on a pass/fail basis. Level II Fieldwork sites are frequently at a distance from the College and/or the student’s home. Student preferences for site selection will be taken into consideration but there is no guarantee that the preferences will be granted. Students are required to accept and to attend the fieldwork placements as assigned to them by the Academic Fieldwork Coordinator. Students are responsible for assuming all costs associated with travel to and from all sites, as well as transportation, food, housing and personal health insurance. Students selecting a fieldwork site that requires a supervision fee are required to assume personal financial responsibility. Completion of Level II Fieldwork will
not exceed one year from the end of didactic course work unless approved by the program director. Pre-Requisites: OTR6200

**OTR8000L  Foundations of Occupational Therapy (6)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: OTR800L Foundations of Occupational Therapy

This course provides a historical perspective for the evolution of the profession of occupational therapy. The role of occupational therapist is viewed within the context of synthesizing current theories, service delivery settings, models of practice, and current research related to the practice of occupational therapy. The structure and function of the profession will be identified, including the guiding principles and ethical standards, and the important professional organizations, i.e. AOTA, ACOTE, NBCOT, and WFOT. Legal issues such as state licensure and malpractice will also be examined. Students will study the domain and process of occupational therapy practice and apply their knowledge of the discipline of occupational science to the profession of occupational therapy.

**PUBLIC HEALTH – (Undergraduate)**

**PCH1030L  Introduction to Public Health Practice(3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCH101L Introduction to Public Health Practice

Overview of the basic principles of public health practice, including the infrastructure of public health, the tools employed by public health practitioners, biopsychosocial perspectives of public health problems, health promotion and prevention of disease and injury, quality assurance and improvement, and legal and ethical concerns.

**PCH2030L  Global Health (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCH201L Global Health

Overview of major global health issues; the socioeconomic, biological, and environmental causes and consequences of disease; and global health metrics, ethics, policies, and practices.

**PCH2040L  Epidemiology in Public Health (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCH220L Epidemiology in Public Health

Provides an introduction to principles of epidemiology, with a focus on preparation to read an interpret research in public health.
PCH3031L  Public Health Policy (3)

Pre-Requisites: PCH1030L
Co-Requisite courses: None
Equivalent courses: PCH360L Public Health Policy

This course will examine the essential concepts, principles, organizational skills, and political processes integral to the development, formation, and analysis of public health policy. Senior Level. Pre-Requisites: PCH1030

PCH3066L  Internship in Public Health (3)

Pre-Requisites: PCH1030L and PCH2040L and PCH3630L
Co-Requisite courses: None
Equivalent courses: PCH395L Internship in Public Health

The internship provides an opportunity for each student to apply the knowledge and skills acquired throughout the program by working under the guidance and direction of a public health professional. With the guidance of their program advisor, students may choose to complete the practicum in a public health setting that is of interest to them and aligns well with their career goals. Pre-Requisites: PCH1030, PCH2040, PCH3630

PCH3200L  Disparities in Health (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The course will be situated within the historical context of the United States, including the social, political, economic, cultural, legal, and ethical theories related to health disparities. Several frameworks regarding health disparities will be used for investigating and discussing the empirical evidence on disparities, research and outcome measurement issues, policy and policy formation concerns, and intervention practices. Disparities will be discussed in terms of racial/ethnic differences in health and health outcomes as well as disparities among other subgroups (e.g., the poor, women, uninsured, disabled, and non-English speaking populations) will also be included and discussed.

PCH3250L  Environmental Health (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

The ecological position of human populations within the global ecosystem and impacts of natural environmental factors and pollutants on human health will be explored. Specifically, how the body reacts to environmental pollutants; physical, chemical, and biological agents of environmental contamination; vectors for dissemination (air, water, soil); solid and hazardous waste; susceptible populations; biomarkers and risk analysis; the scientific basis for policy decisions; and emerging global environmental health problems.

PCH3630L  Community Health Promotion (3)

Pre-Requisites: PCH1030L
Co-Requisite courses: None
Equivalent courses: PCH350L Community Health Promotion
Overview of community health within the context of public health practice. Students will discuss foundations of community health, explore major health concerns, analyze determinants of health, and evaluate strategies to improve health of communities. Pre-Requisites: PCH1030

**PCH3632L Program Planning & Evaluation (3)**

Pre-Requisites: PCH1030L and PCH3630L  
Co-Requisite courses: None  
Equivalent courses: PCH210L Program Planning & Evaluation

Focuses on the knowledge, skills, and strategies needed for planning, implementing, and evaluating health education programs to facilitate health behavior changes in individuals, groups, and communities. Pre-Requisites: PCH1030, PCH3630

**PCH4430L Seminar in Public Health (3)**

Pre-Requisites: PCH2030L and PCH2040L and PCH3630L and PCH3031L  
Co-Requisite courses: None  
Equivalent courses: PCH370L Seminar in Public Health

This course focuses on the integration of public health knowledge, skills, and practice acquired during the program. Emphasis will be on summarizing, analyzing and synthesizing major key concepts and critically evaluating strategies to impact the health of the public. Focus will be on current health challenges locally and globally. Pre-Requisites: PCH2030, PCH2040, PCH3630, PCH3031

**PCH4899L Capstone in Public Health (3)**

Pre-Requisites: PCH2030L and PCH3630L and PCH3031L  
Co-Requisite courses: None  
Equivalent courses: PCH385L Capstone in Public Health

Focuses on selecting and applying effective strategies and skills to plan, develop, and implement a culminating project that integrates coursework and internship experience. Provides students with the opportunity to focus on a key health issue in the community and/or one that is related to their intended career goals as a public health professional. Pre-Requisites: PCH2030, PCH3630, PCH3031

**PHILOSOPHY – (Undergraduate)**

**PHI1000L Introduction to Critical Thinking (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PHI100L Introduction to Critical Thinking

This course offers a careful examination of the various standards that must be observed if one is to read, write, and think critically. It surveys common sources of confusion and error, such as ambiguity, vagueness, propaganda, political rhetoric, misleading advertising, misuse of evidence, improper reliance upon authority and tradition, and other varieties of fallacious reasoning. Pre-Requisites: None
**PHI1010L**  Theory of Knowledge (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PHI208L Theory of Knowledge

This course is designed to teach and expose students to some of the ways in which we acquire information that leads to legitimate knowledge claims. Theory of knowledge is centered on student reflection and dialog with other students. Theory of Knowledge addresses intellectual self-discovery and cultural awareness. Students will better understand the nature of learning and legitimacy of knowledge.

**PHI1200L**  Introduction to Philosophy (3)

Pre-Requisites: PHI1000L  
Co-Requisite courses: None  
Equivalent courses: PHI101L Introduction to Philosophy

This course provides a critical examination of several philosophical problems, including the nature and scope of knowledge, the freedom-determinism issue, the question of the existence of a God, and the status of moral judgments. Pre-Requisites: PHI1000 suggested.

**PHI1400L**  Philosophy through Literature (3)

Pre-Requisites: PHI1000L or PHI1200L  
Co-Requisite courses: None  
Equivalent courses: PHI102L Philosophy through Literature

This course offers an introduction to, and critical analysis of, problems in philosophy, with special stress on those value aspects bearing directly upon the formulation of a philosophy of life. Selections from fiction and poetry, as well as the more traditional form of philosophic exposition, are read and discussed. Pre-Requisites: PHI1000 or PHI1200.

**PHI2010L**  World Religions (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: REL201L World Religions

This course is designed to be a hands-on survey of major religions of the world. In addition to reading the texts, students will visit a mosque, synagogue, and church. The objective of the course is to determine key doctrinal points of each faith, identify common threads in each, and observe how people practice their faith today. Pre-Requisites: None

**PHYSICS – (Undergraduate)**

**PHY1010L**  Science for the 21st Century (3)

Pre-Requisites: None  
Co-Requisite courses: PHY1011LAB  
Equivalent courses: PHY111L Science for the 21st Century
An introduction to the fundamental concepts of the physical sciences. Topics in physics, chemistry, astronomy, and earth science will be studied. How these four areas of science are interrelated will be emphasized. Students must also enroll in PHY1111L to meet laboratory science requirements for general education. Pre-Requisites: None. Students must be concurrently enrolled in PHY1111L.

**PHY1020L  Earth Science for the Liberal Arts (3)**

Pre-Requisites: None  
Co-Requisite courses: PHY1021LAB  
Equivalent courses: PHY112L Earth Science for the Liberal Arts

General, introductory earth science following a systems approach. Students will first learn what the building blocks of Earth are and the processes they undergo. Then the features and processes that continuously reshape Earth’s surface will be studied. Following will be a study of Earth’s interior and the processes driven from within that bear upon its surface. We will then study Earth’s oceans, the atmosphere, weather, and climate. Of particular importance will be the effects of the sun on Earth. Students must also enroll in PHY112L to meet laboratory science requirements for general education. Pre-Requisites: None. Students must be concurrently enrolled in PHY1021.

**PHY1030L  Physics: From Playground to Battlefield (3)**

Pre-Requisites: None  
Co-Requisite courses: PHY1031LAB  
Equivalent courses: PHY113L Physics: From Playground to Battlefield

Via the science and technologies used in sports, entertainment, and recreation together with those used in the military, now and throughout history, the field of physics will be investigated. The concepts of motion, force, energy, momentum, electricity, magnetism, optics, and atomic systems will be explored both conceptually and in their applications to recreation and the military. Students must also enroll in PHY1011 to meet laboratory science requirements for general education. Pre-Requisites: None. Students must be concurrently enrolled in PHY1031.

**PHY1040L  Earth Science for the Sciences (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PHY114L Earth Science for the Sciences

This course is intended for students who have already completed the laboratory science general education requirement. Following a systems approach, students will first learn what the building blocks of Earth are and the processes they undergo. Then students will study the features and processes that continuously reshape Earth’s surface. A study will follow of Earth’s interior and the processes driven from within that bear upon its surface. We will then study Earth’s oceans, the atmosphere, weather, and climate. Of particular importance will be the effects of the sun on Earth. Pre-Requisites: None.

**PHY1050L  Astronomy for the Liberal Arts (3)**

Pre-Requisites: None  
Co-Requisite courses: PHY1051LAB  
Equivalent courses: PHY115L Astronomy for the Liberal Arts
This is a general, introductory course in astronomy. Students study the physical properties and concepts concerning motion, gravitation, light, and atoms. Students will explore the Earth-Moon system, the Solar System, the tools used by astronomers, and the life cycles of stars and galaxies. The course emphasizes conceptual understanding. Students must also enroll in PHY115L to meet laboratory science requirements for general education. Pre-Requisites: None. Students must be concurrently enrolled in PHY1051.

**PHY1055L  Astronomy for the Sciences (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PHY117L Astronomy for the Sciences  

This course is intended for students who have already completed the laboratory science general education requirement. Students study the physical properties and concepts concerning motion, gravitation, light, and atoms. Students will explore the Earth-Moon system, the Solar System, the tools used by astronomers, and the life cycles of stars and galaxies. The course emphasizes conceptual understanding. Pre-Requisites: None

**PHY1200L  Physics of the Human Body (3)**

Pre-Requisites: None  
Co-Requisite courses: PHY1210LAB  
Equivalent courses: PHY116L Physics of the Human Body  

A conceptual approach is used to understand the human body as a living system governed by the basic laws of physics. Topics include forces exerted by muscles, circulation of blood, nerve conduction, vision, perception of sound, and effects of radiation. Lectures are augmented with demonstrations requiring student participation. Pre-Requisites: None

**PHY1600L  General Physics I (4)**

Pre-Requisites: MAT1840 with a grade of C or better  
Co-Requisite courses: PHY1601LAB  
Equivalent courses: PHY211L General Physics I  

This is a basic course that covers the fundamental principles of mechanics, vibration, and thermodynamics. Newton's laws of motion will be applied to a broad range of practical problems involving real phenomena. The laws of thermodynamics will be utilized to study thermal processes and properties. Students will learn to develop working equations from basic concepts in order to solve problems. The course is taught without calculus. Pre-Requisites: MAT1840 with a grade of C or better

**PHY1800L  General Physics II (3)**

Pre-Requisites: PHY1600 with a grade of C or better  
Co-Requisite courses: PHY1801LAB  
Equivalent courses: PHY212L General Physics II  

This is a continuation of PHY1600 covering the fundamental principles of electricity, magnetism, light, and modern physics. The course is taught without calculus. Pre-Requisites: PHY1600 with a grade of C or better
POLITICAL SCIENCE – (Undergraduate)

POL1000L  Introduction to Political Science (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: POL100L Introduction to Political Science

This course provides an overview of the discipline of political science, including its division into the four fields of political theory, American Politics, comparative politics and international relations. Students will learn basic concepts in politics and analyze governmental types, forms of political participation, and political socialization.

POL1400L  Introduction to American Politics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: POL105L Introduction to American Politics

This course provides an overview of American politics and government, focusing on Constitutional principles, national institutions of governance, and politics actors, such as political parties and the media. Pre-Requisites: None

POL1500L  Comparative Politics (3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL106L Comparative Politics

This course provides a comparative examination of governmental and political systems, with the American system considered as point of comparison in some cases. The course will focus on one or two areas of the world, such as the Middle East or Europe. Pre-Requisites: POL1400

POL2400L  State and Local Politics (3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL208L State and Local Politics

This course focuses on the politics, institutions, and policy processes of state and local governments. State and local governments provide essential services, such as education and policing, and are considered the building blocks of democracy. In this course, comparisons will be made among states but much attention will be paid to the state of Massachusetts and city of Springfield. Pre-Requisites: POL1400

POL2410L  International Relations (3)

Pre-Requisites: POL1500L
Co-Requisite courses: None
Equivalent courses: POL209L International Relations
This course is a study of the international community and of the forces that determine political relations among
the nation states it comprises. Consideration is given to the character of the nation state, the nature and
determinants of political power in a multistate system, and the conduct of diplomacy. Pre-Requisites: POL1500

POL2420L Presidency and Congress (3)

Pre-Requisites: Pre-Requisites: POL1400, any 1000- or 2000-level history course, or permission of instructor.
Co-Requisite courses: None
Equivalent courses: POL215L Presidency and Congress

The powers, function, and inherent conflicts of the Congress and the presidency are examined with emphasis
placed on the historical development of institutions. Pre-Requisites: POL1400, any 1000- or 2000-level history
course, or permission of instructor.

POL2450L Political Parties (3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL221L Political Parties

This course is a study of the organizations, characters, bases, and operations of party systems with emphasis on
the United States. The historical development of the parties is investigated. Pre-Requisites: POL1400

POL2500L American International Elections (3)

Pre-Requisites: POL1400, any 1000- or 2000-level history course, or permission of instructor.
Co-Requisite courses: None
Equivalent courses: POL275L American National Elections

This course examines the structure of both presidential and congressional elections and the resultant consequences
of those structures. The historical development of elections is emphasized. A case study of either the presidential
or congressional midterm election will be analyzed with special attention given to campaign strategies. Pre-
Requisites: POL1400, any 1000- or 2000-level history course, or permission of instructor.

POL2510L Government and Politics in the Middle East (3)

Pre-Requisites: POL1500L
Co-Requisite courses: None
Equivalent courses: POL347 Government and Politics in the Middle East

The student will study political concepts, institutions, and processes in the Middle Eastern political systems. Pre-
Requisites: POL1500

POL2520L Politics, the Media and Pressure Groups (3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL362L Politics, the Media and Pressure Groups
This course examines the role of the media in political life, considering its roles in polling, setting the agenda, and providing political information. The structure of the media, including its ownership, will be studied as will its influence as an interest group. Pre-Requisites: POL1400

POL2610L European Integration (3)

Pre-Requisites: POL1500L
Co-Requisite courses: None
Equivalent courses: None

This course will explore the topic of European integration from a variety of perspectives, including those of history, political science and sociology. The first half of the course will concentrate on the pre-history of the European communities leading to the creation of the European Union in November 1993. Then it will look at the European Union's institutions and how they function, the relationship between the member states and the EU, and special issues that face the EU today. Pre-Requisites: POL1500 FOR POL MAJORS

POL2620L Public LAW(3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL216L Public Law

This course is the study of nature, function, and power of the Supreme Court in the American political system via study of its decisions. Emphasis is placed on cases about separation of powers, federalism, and economic liberties. Pre-Requisites: POL1400

POL2630L Civil Liberties (3)

Pre-Requisites: POL1400L
Co-Requisite courses: None
Equivalent courses: POL217L Civil Liberties

Effectiveness of the legal system in protecting and promoting individual rights are examined and discussed via a reading of constitutional case law. Special attention is given to rights of the accused, freedom of speech and religion. Pre-Requisites: POL1400

POL3400L Public Administration (3)

Pre-Requisites: POL1400, any 1000- or 2000-level history course, or permission of instructor
Co-Requisite courses: None
Equivalent courses: POL305L Public Administration

A study is made of the politics and problems of implementing governmental policies with particular emphasis on organization, management, personnel, finances, responsibility, and bureaucracy. Pre-Requisites: POL1400, any 1000- or 2000-level history course, or permission of instructor.

POL3401L The Cold War (3)

Pre-Requisites: Any 1000- or 2000-level history course or POL2410 or Permission of instructor
Co-Requisite courses: None
Equivalent courses: None
This course will examine the international history of the Cold War. Special emphasis will be placed not only on the rivalry between the United States and the Soviet Union, but also on how the entire world between 1945 and 1991 was influenced by the competition between the different ideologies and socio-economic systems that those countries represented. It also will suggest how the Cold War has continued to influence our present era. Pre-Requisites: Any 1000- or 2000-level history course or POL 2410 or Permission of instructor.

**POL3402L American Foreign Policy (3)**

Pre-Requisites: POL1000L and POL1400L  
Co-Requisite courses: None  
Equivalent courses: POL316L American Foreign Policy

In this course a study is done of the aims, instruments, and conduct of American foreign relations, with particular reference to contemporary problems. Students will participate in case studies. Pre-Requisites: POL1000 or POL2410

**POL3410L International Institutions (3)**

Pre-Requisites: POL2401L  
Co-Requisite courses: None  
Equivalent courses: POL210 International Institutions

The impact of international organizations on relationships among nations is examined and discussed. There will be special focus on the role of major institutions such as the United Nations, World Bank, International Monetary Fund, World Trade Organizations, European Union, OAS, NATO, and OPEC. Pre-Requisites: POL2410

**POL3412L Contemporary Problems in International Relations (3)**

Pre-Requisites: POL2401L  
Co-Requisite courses: None  
Equivalent courses: POL212L Contemporary Problems in International Relations

This course consists of an analysis of contemporary problems in the world community in light of the theories and concepts of international politics. Pre-Requisites: POL2410

**POL3413L The American Radical Tradition (3)**

Pre-Requisites: Pre-Requisites: Any 1000 or 2000 Level History course or POL1400 or Permission of the instructor.  
Co-Requisite courses: None  
Equivalent courses: POL311L The American Radical Tradition

This course will examine the nature and significance of the American radical tradition from the American Revolution to the present day. Among the radical philosophies and movements to be covered will be the socialism and communism; civil rights; Black power; feminism; the New Left; environmentalism; the gay and lesbian movement; and the global justice movement. Examination of the American radical tradition suggests that radicalism has been a persistent and significant feature of American history. Pre-Requisites: Any 1000 or 2000 level History course or POL1400 or permission of the instructor.
POL3420L Principles of International Law and Diplomacy (3)

Pre-Requisites: POL2410L
Co-Requisite courses: None
Equivalent courses: POL308L Principles of International Law and Diplomacy

A study is made of the fundamental concepts of international law and diplomacy. Particular attention will be devoted to the significance and application of these concepts in international relations. Pre-Requisites: POL2410

POL3460L Nations and Corporations (3)

Pre-Requisites: POL2410L
Co-Requisite courses: None
Equivalent courses: POL364L Nations and Corporations

In this course, an inquiry is made into the role of multinational corporations in international relations. A broad range of ideas and issues are explored, including: an analysis of states and corporations as juristic entities; business transactions and world politics; corporate interest and national interest; multinationals as precursors of integrated global system; role of international law and diplomacy; and multinationals’ impact on national employment, taxation, and balance of payments. This course is not open to freshmen. Pre-Requisites: POL2410.

POL3500L The Supreme Court in American History (3)

Pre-Requisites: Any 1000 or 2000Level History course or POL 1400 or Permission of the instructor.
Co-Requisite courses: None
Equivalent courses: POL349L The Supreme Court in American History

A study of the historical role of the U.S. Supreme Court and its impact on American society, including an examination of issues of political theory and major court cases. Pre-Requisites: Any 1000- or 2000- level history course or POL1400 or permission of the instructor.

POL3642L Issues in Modern Political Thought (3)

Pre-Requisites: Nine credits in Political Science (POL)
Co-Requisite courses: None
Equivalent courses: POL345L Issues in Modern Political Thought

Organized thematically, this course explores diverse issues current in modern political thought and pertinent to contemporary governments and societies. Pre-Requisites: Nine credits in Political Science (POL).

POL3660L Political Philosophy (3)

Pre-Requisites: Nine credits in Political Science (POL) or History(HST) course.
Co-Requisite courses: None
Equivalent courses: POL309L Political Philosophy I

This course surveys the ideas of leading political thinkers from ancient times to the Renaissance. Figures such as Plato, Aristotle, St. Augustine, St. Thomas, and Machiavelli will be discussed. Pre-Requisites: Nine credits in a Political Science (POL) or History (HST) course.
POL3661L Political Philosophy II (3)

Pre-Requisites: Nine credits in a Political Science (POL) or History (HST) course.
Co-Requisite courses: None
Equivalent courses: POL310L Political Philosophy II

This course surveys the ideas of leading political thinkers from early modernity through to the present day. Figures such as Bodin, Hobbes, Locke, Montesquieu, Rousseau, Burke, Hegel, Marx, and Mill will be discussed.

POL3700L American Political Thought (3)

Pre-Requisites: Nine credits in Political Science (POL) or History (HST) course.
Co-Requisite courses: None
Equivalent courses: POL343L American Political Thought

This course studies American political thought from its Puritan origins to present day. The course is organized around defining moments of political thought, such as the Revolution, Constitutional Founding, Civil War, Great Depression, and Civil Rights Movement, with selections from mainstream and radical voices in each period. Readings include selections from James Madison, John Adams, Abraham Lincoln, Emma Goldman, Eugene Debs, and Martin Luther King, Jr. Pre-Requisites: Nine credits in Political Science (POL) or History (HST) course.

POL4870L Seminar in Political Science (3)

Pre-Requisites: POL1400, POL1500, an additional NINE (9) credits in political science, and JUNIOR or SENIOR status.
Co-Requisite courses: None
Equivalent courses: POL370L Seminar in Political Science

In this course, students will learn the research process. Special emphasis will be placed on research design. At a minimum, students will conduct a literature review, formulate a research question, and choose the appropriate research methods to answer that question. It is expected that students’ topics will flow from their course work in political science. Pre-Requisites: POL1400, POL1500, an additional nine credits in political science, and JUNIOR or SENIOR status.

POL4889L Political Science Practicum (3)

Pre-Requisites: Permission of instructor and the department chair.
Co-Requisite courses: None
Equivalent courses: POL336L Political Science Practicum

An internship in a government office, social agency, or research department is required. Pre-Requisites: Permission of instructor and the department chair.

POL4894L Directed Study (3)

Pre-Requisites: Advanced standing and permission of department chair
Co-Requisite courses: None
Equivalent courses: POL398L Directed Study
This is a series of independent readings to be conducted under the instructor's supervision. Pre-Requisites: Advanced standing and permission of department chair

POL4899L Internship-NY State Assembly (3)

Pre-Requisites: Junior Or Senior Status, POL1400L
Co-Requisite courses: None
Equivalent courses: POL395L Internship-NY State Assembly

During the spring semester, students participate in a formal internship program at the New York State Assembly in Albany. The program includes completion of an academic course, a four-day orientation about the state legislative process, and seminar discussions. Students work 30 hours per week for a member of the assembly, doing legislative research, constituent relations, and other administrative tasks. Students must be accepted into this program to participate. Pre-Requisites: Junior or Senior Status, POL1400

POLITICAL SCIENCE – (Graduate)

POL5204L Public Budgeting (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA403L Public Budgeting

This course explores process, politics and policy of federal, state, and local budgeting for twenty-first century challenges. Students will examine procedures, performance, and accountability of public budgeting in three ways: control over expenditure; program management; and long-term policy planning. Students will analyze performance-based budgeting and political vs. managerial budgeting approaches, as well as gain an understanding of the social impact of conflict and prioritizing inherent in public budget decision-making. Pre-Requisites: None

POL5214L Public Policy (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA404L Public Policy

This course examines the process of policy formulation, techniques of policy analysis, and execution of public policy. Content will address the issues of policy development, legislative enactment, implementation, enforcement, and evaluation. Through case study analysis, students will map out the theoretical and practical approaches to current public policy issues. Pre-Requisites: None

POL5224L Grant Writing - Development and Application (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA505L Grant Writing - Development and Application

Provides opportunities for understanding federal, state, and foundation sources of public finance, with an emphasis on proposal development, organizational development and change, and grant writing. Lectures, small-group problem solving, and a variety of speakers will be utilized to cover course material. Pre-Requisites: None
POL5744L  Ethics Seminar in Public Administration (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: MPA603L Ethics Seminar in Public Administration

This course examines the ethical, moral, and legal dilemmas of public, private, and nonprofit management decision-making. Through case study analysis students will gain insight into the appearance versus the actual conflicts of interest; learn how to prevent fraud, waste and abuse; and establish a zero tolerance for issues of personal gain, influence peddling and other corrupt practices common to the work environment. Special topics will focus on crafting appropriate codes of ethics and standards of conduct for both employer and employee to strengthen management and organizational ethics and culture. Pre-Requisites: None

POL6999L  MPA Capstone (3)

Pre-Requisites: Students should have completed at least 75% of the MPA program or receive permission of the instructor.
Co-Requisite courses: None
Equivalent courses: MPA660L MPA Capstone

This capstone course requires students to apply the knowledge learned in the MPA program in a comprehensive, experiential project focused on analyzing and proposing recommendations to a significant issue within a governmental agency or master’s thesis involving substantial research focused in public administration specific to a student’s area of interest. Students will be required to present their project or research in a public forum. Pre-Requisites: Students should have completed at least 75% of the MPA program or receive permission of the instructor.

PSYCHOLOGY – (Undergraduate)

PSY1401L  General Psychology I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY101L General Psychology I

This course covers the basic principles of behavior that make up the foundation of psychology. Emphasis is placed on the biological basis of behavior, sensation, perception, learning, language, memory, thinking, infancy, and childhood. The methods of inquiry used in psychology are also emphasized. Pre-Requisites: None

PSY1501L  General Psychology II (3)

Pre-Requisites: PSY1401L
Co-Requisite courses: None
Equivalent courses: PSY102L General Psychology II

Continuation of PSY1401, with an emphasis on the application of psychology to contemporary life. Topics include: motivation and emotion; social behavior; adolescence and adulthood; personality; abnormal behavior and psychotherapy; stress, health, and psychology of the workplace. Pre-Requisites: PSY1401
PSY2302L       Statistics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY302L Statistics

This course is an introduction to statistical methods as they are used in the social sciences. Both descriptive and inferential statistics are covered, including sampling, probability, and hypothesis testing. Specific parametric and non-parametric analyses include analysis of variance, the t-test, Chi-square, and correlation. Pre-Requisites: None

PSY2408L       Adolescent Psychology (3)

Pre-Requisites: PSY1401L
Co-Requisite courses: None
Equivalent courses: PSY208L Adolescent Psychology

This course is a study of adolescent behavior, including current theories concerning the nature of adolescence. Emphasis is placed on physical, emotional, and cognitive forces, and how they interact to shape the adolescent personality. Pre-Requisites: PSY1401

PSY2410L       Psychology of Aging (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY346L Psychology of Aging

Life cycle studies have recently focused upon the middle and older years of the life span. These studies have revealed that the declines in aging aren’t as universal, precipitous, nor inevitable as previously thought; indeed, each decade in middle years has its theme and task. It has also been found that many of the changes we associate with old age actually began during earlier periods of life. The focus in this course is on the origin and nature of these individual changes and phases. Pre-Requisites: PSY1501

PSY2414L       Psychology of Human Sexuality (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY214L Psychology of Human Sexuality

Human sexuality is examined from biological, cultural, and psychological perspectives. Topics include sexual anatomy, childbirth, contraception, abortion, sexual development, sexual attitudes, adult sexual behavior, and alternative sexual lifestyles. Pre-Requisites: PSY1501

PSY2420L       Psychology of Death and Dying (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY350L Psychology of Death and Dying

This course will focus on the many different aspects of death and dying. Some of the topics include: grief and bereavement, the hospice philosophy, children and death and dying, and AIDS. This course is appropriate for
psychology and sociology majors, nurses and nursing students, gerontology students, and anyone interested in exploring this most fascinating subject. Pre-Requisites: PSY1501

**PSY2450L  Developmental Psychology (3)**

Pre-Requisites: PSY1501 or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: PSY309L Developmental Psychology

The purpose of this course is to examine the concepts of human development, from conception to old age. Specifically, the course looks at how physical, cognitive, and socioemotional factors interact to influence learning, intelligence, language development, and the growth of personality. Major theories and the research that supports or refutes them are examined. Pre-Requisites: PSY1501 or permission of instructor

**PSY2600L  Foundations of Psychology (3)**

Pre-Requisites: PSY1401L and PSY1501L  
Co-Requisite courses: None  
Equivalent courses: PSY200L Foundations of Psychology

This meets the requirement as a writing intensive course in the major. This course provides an overview of the fundamental skills to the study of psychology. Students should develop a better understanding of how to succeed in the major and psychology-related professions. Recommended for sophomores. Pre-Requisites: PSY1401 and PSY1501

**PSY2610L  Health Psychology (3)**

Pre-Requisites: PSY1501L  
Co-Requisite courses: None  
Equivalent courses: None

This course provides a comprehensive overview of the field of health psychology. It is an extremely useful course for those planning to enter the healthcare field. The focus will be on adults; however, pediatric issues will also be covered. This course will examine the history of health psychology, mind-body connections, the effects of stress, and behavioral factors in illness. More specifically, this course will examine coronary heart disease, hypertension, cancer, psychoneuroimmunology, chronic pain, obesity, and smoking cessation. General issues such as compliance with medical regimens and psychological disorders that may affect proper compliance with medical regimens will also be covered. Pre-Requisites: PSY1501

**PSY2617L  Cognitive Psychology (3)**

Pre-Requisites: PSY1401L  
Co-Requisite courses: None  
Equivalent courses: PSY317L Cognitive Psychology

An introductory examination of the field of human cognition. Topics include perception, attention, short and long-term memory, problem solving, and decision making. Emphasis will be on understanding the scientific nature of the discipline. Pre-Requisites: PSY1401
PSY2620L  Educational Psychology (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY301L Educational Psychology

This course examines aspects of psychology related to human learning and the educational process. The course surveys topics such as learning, thinking, memory, intelligence, creativity, testing, motivation, and mental development that are vital to teachers and valuable to anyone engaged in learning. Pre-Requisites: PSY1501

PSY2820L  Advanced Statistics (3)

Pre-Requisites: Students must earn a grade of C or higher in PSY2302 or its equivalent.
Co-Requisite courses: None
Equivalent courses: PSY2821B, PSY328L Advanced Statistics

This course is a continuation of PSY302, including a brief review of the material previously covered, such as probability, sampling, and hypothesis testing for both parametric and non-parametric analysis. Presented for the first time are such topics as Factor Analysis of Variance, the within-subjects Analysis of Variance, the paired t-test, and Chi-Square. Pre-Requisites: Students must earn a grade of C or higher in PSY2302 or its equivalent.

PSY3000L  Psychology of Industry (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY305L Psychology of Industry

This course surveys industrial and organizational applications of psychology. Principles of individual differences are discussed that relate to career choice, career advancement, management, and the workplace environment. Pre-Requisites: PSY1501

PSY3422L  Physiological Psychology (3)

Pre-Requisites: PSY1401L
Co-Requisite courses: None
Equivalent courses: PSY322L Physiological Psychology

This course is an introduction to the physiological basis of psychology. It focuses on the human brain and nervous system as they relate to topics such as learning, memory, motivation, sensation, sleep, drugs, and mental disorders. Pre-Requisites: PSY1401

PSY3600L  Abnormal Psychology (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY304L Abnormal Psychology

This course examines the historical perspectives of abnormal behavior, and the nature, classification, etiology, and treatment of a variety of psychopathologies. Intended for majors in psychology, nursing, criminal justice, occupational therapy, physical therapy, special education, and human services. Pre-Requisites: PSY1501
PSY3607L  Social Psychology (3)

Pre-Requisites: PSY1501, recommended for juniors and seniors only
Co-Requisite courses: None
Equivalent courses: PSY307L Social Psychology

This course examines human behavior as it is affected by various social situations. Topics include the study of attitudes, social attribution, altruism, aggression, group behavior, and interpersonal attraction, among others. Pre-Requisites: PSY1501, recommended for juniors and seniors only

PSY3612L  Personality (3)

Pre-Requisites: PSY1501, junior standing
Co-Requisite courses: None
Equivalent courses: PSY312L Personality

In this course, theories and research directed toward understanding individual differences in thought, feeling and behavior are considered. Major focus will be on psychodynamic, humanistic, behavioral, cognitive, and trait perspectives. Psychotherapies will be examined as implementations of personality theory. Pre-Requisites: PSY1501, junior standing

PSY3615L  Experimental Psychology (4)

Pre-Requisites: PSY2600 and PSY2820 and 2821
Co-Requisite courses: None
Equivalent courses: PSY315L Experimental Psychology

This is a laboratory course dealing with the nature of science and scientific research methods. Although the emphasis is on experimentation, quasi-experimental designs and other research methods are covered in detail. Students carry out research projects, analyze the results, and write APA-style research reports describing the research project. Pre-Requisites: PSY2600 and PSY2820 and 2821

PSY4000L  Psychological Testing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY306L Psychological Testing

This course surveys the available instruments, tests, inventories, and questionnaires in current use today. Emphasis is placed on the practical use of psychological measurements in education and psychological practice in business and industrial settings. The theoretical assumptions of assessment, the technical characteristics of good tests, and the systems of test score reporting are covered as they apply to the use of tests and test results.

PSY4001L  Psychopathology of Adolescence (3)

Pre-Requisites: PSY1501L
Co-Requisite courses: None
Equivalent courses: PSY356L Psychopathology of Adolescence

This course is designed for students to gain an understanding about specific psychological and psychiatric disturbances that afflict teenagers ages 13 to 21. Topics include teen depression, delinquent behavior, alcohol
abuse, suicide and homicide, affective disorders, schizophrenia, eating disorders, and a brief introduction to family and network therapy. Pre-Requisites: PSY1501

**PSY4245L. Topics in Psychology (3)**

Pre-Requisites: PSY102; recommended for juniors and seniors only. Course may be repeated twice if different topics, up to a total of six credits.
Co-Requisite courses: None
Equivalent courses: PSY342 Topics in Psychology

The Topics in Psychology course addresses special topics not ordinarily covered in other departmental courses and often provides students with cutting-edge insights and experiences. Topics will vary each semester based on the expertise of the faculty member teaching the course. Students will be expected to read current research and literature on the selected topic, engage in class discussions of the reading, and complete a course project. Pre-Requisites: PSY102; recommended for juniors and seniors only. Course may be repeated twice if different topics, up to a total of six credits.

**PSY4598L. Teaching Assistantships in Psychology (3)**

Pre-Requisites: Junior or senior status and permission of the department chair.
Co-Requisite courses: None
Equivalent courses: PSY361L Teaching Assistantships in Psychology

A number of advanced psychology majors are selected each semester by the psychology department to act as TAs (teaching assistants) in several undergraduate courses. The TAs are expected to deliver lectures, be involved in an active tutoring program, and to assist in both creating and scoring exams and quizzes; in short, to be involved actively in the total teaching process. Pre-Requisites: Junior or senior status and permission of the department chair.

**PSY4615L. Experimental Methodology (3)**

Pre-Requisites: PSY3615L
Co-Requisite courses: None
Equivalent courses: PSY316L Experimental Methodology

In this course, the student conducts his/her own original research project under the close supervision of the instructor. The project encompasses all phases of the research endeavor from conceptualization of the question, through data collection and analysis, to the written report in the format of the APA. Especially recommended for psychology majors considering graduate school. Pre-Requisites: PSY3615

**PSY4698L. Directed Study (3)**

Pre-Requisites: Permission of chairperson of the department. Register for PSY4698 if taken in the fall semester and PSY4798 if taken in the spring semester.
Co-Requisite courses: None
Equivalent courses: PSY398L Directed Study

Part one of a two-part course. In these courses a student pursues in depth an individualized program of reading and/or research with a specific faculty member. These courses may be repeated for credit with permission of the department up to a total of six credits. Pre-Requisites: Permission of chairperson of the department. Register for PSY4698 if taken in the fall semester and PSY4798 if taken in the spring semester.
PSY4798L Directed Study (3)

Pre-Requisites: Permission of chairperson of the department. Register for PSY4698 if taken in the fall semester and PSY4798 if taken in the spring semester.
Co-Requisite courses: None
Equivalent courses: PSY399L Directed Study

Part two of a two-part course. In these courses a student pursues in depth an individualized program of reading and/or research with a specific faculty member. These courses may be repeated for credit with permission of the department up to a total of six credits. Pre-Requisites: Permission of chairperson of the department. Register for PSY4698 if taken in the fall semester and PSY4798 if taken in the spring semester.

PSY4830L History and Systems in Psychology (3)

Pre-Requisites: PSY3615L
Co-Requisite courses: None
Equivalent courses: PSY330L History and Systems in Psychology

This meets the requirement as a writing intensive course in the major. This course addresses the roots of modern psychological thought and methodology, from their origins in philosophy and the natural sciences through the refinement of psychology in its current form. The major theories, schools of thought, and the people who have influenced the field of psychology will be examined. This course also serves as preparation for students who will be taking Graduate Record Examinations and for graduate study in psychology. Pre-Requisites: PSY3615

PSY4899L Psychology Practicum (3)

Pre-Requisites: Psychology majors and minors only, junior or senior status, and a GPA of 2.0 or higher. Register for PSY340 if taken in the fall semester and PSY341 if taken in the spring semester.
Co-Requisite courses: None
Equivalent courses: PSY340L Psychology Practicum

Students are placed in off-campus settings such as detention centers, hospitals, senior citizen centers, alternative schools, and halfway houses. Journals are maintained reflecting the student’s activities and reflections while at the practicum site. An academic paper with citations from psychological literature is required, covering some aspect of the practicum experience (i.e. client population, treatment approach, strategy for change, etc.). Detailed plans for the practicum are made in consultation with the instructor. A practicum completed in another department, which has an acceptable psychological component, may be used to fulfill this requirement. Pre-Requisites: Psychology majors and minors only, junior or senior status, and a GPA of 2.0 or higher. Register for PSY340 if taken in the fall semester and PSY341 if taken in the spring semester.

PSYCHOLOGY – (Graduate)

PSY5036L Behavioral Statistics (3)

Pre-Requisites: Preparation in math
Co-Requisite courses: None
Equivalent courses: PSY402L Behavioral Statistics
Coverage includes descriptive statistics: central tendency, variability, transformed scores, graphing, skewedness and kurtosis. Also included will be probability and inferential statistics, including z test, t tests (one and two sample), ANOVA, Chi square and the Pearson r. Basic preparation in mathematics is needed. Pre-Requisites: Preparation in math

**PSY5205L  Applied Research Methodology (3)**

Pre-Requisites: PSY2302L or PSY5036L or its equivalent  
Co-Requisite courses: None  
Equivalent courses: PSY407L Applied Research Methodology

This course links statistical analysis and research methodology in order that the student may become a sophisticated research consumer as well as research producer. The student must learn to understand the logic of the research enterprise and have a basic grasp of the conceptual base on which the statistical tests of significance rest. Understanding research strategy and the logic behind the statistical tests is the underlying theme of the course. This will allow students to understand the nature of empirical research in developing education interventions and therapeutic strategies. Students are also required to learn the SPSS computer program. Pre-Requisites: PSY2302 or PSY5036 or its equivalent.

**PSY5215L  Counseling Theory and Practice (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY425L Counseling Theory and Practice

This course will examine in some detail the influence of psychoanalytic, interpersonal/social, cognitive, and behavioristic theories on present therapeutic techniques. Each style of counseling is evaluated and the relationship between the nature of the disturbance and the effectiveness of each approach is discussed. The response to counseling of those from various racial and cultural groups will be considered. Classroom discussion will be used in conjunction with film and audio tape presentations to translate theoretical understanding into effective counseling behavior. Pre-Requisites: None

**PSY5225L  Family Counseling (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY521L Family Counseling

This course will provide students with a solid basis in General Systems Theory. Coverage will include theories and techniques that could be used by the psychologist in dealing with the family. Topics will include initial interview skills, therapeutic intervention techniques, and the application of systems theory to the family setting. Included will be usefulness and application of theory to culturally diverse groups, single parent, and blended families. Pre-Requisites: None

**PSY5230L  Principles and Practices of Guidance (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY483L Principles and Practices of Guidance
This is an introductory course designed to acquaint the student with the basics of the need, meaning, and ethics of guidance services. Issues related to school guidance practices, with an overview of the role and function of the school counselor, will be reviewed. Specifically, student scheduling, testing and assessment, career guidance, and college placement will be emphasized. Current trends in the field, as well as general guidance issues, will be explored. Emphasis will be placed on the fact that the guidance counselor serves as part of a collaborative team with a strong focus on consultation.

**PSY5240L**   Theoretical Basis for School Counseling Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY519L Theoretical Basis for School Counseling Practice

This course will provide students with a broad, integrated perspective on the discipline of psychology and its practice. Students will begin with an overview of the philosophical ideas from which psychology developed. Major theoretical positions in psychology will be explored from an historical perspective moving to the present positions and focusing on current practice. These include: Structuralism, Functionalism, Behaviorism, Gestalt, Psychoanalysis, Social Learning, Information Processing, and Cognitive models. Emphasis is placed on the educational and clinical implications of these basic positions. The neurological basis of learning and memory will be considered also. The student will develop an understanding of current trends in practice through a basic understanding of the theoretical foundations of psychology.

**PSY5241L**   The Juvenile Justice System (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY429L The Juvenile Justice System

An in-depth look at the juvenile justice system from its historical origins to current practices. Special emphasis is placed on juvenile justice terminology, landmark cases, and procedures used with juveniles and their families. The social, economic, and racial considerations of juveniles in difficulty with the law will be considered. Pre-Requisites: None

**PSY5305L**   Occupational Information (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY488L Occupational Information

This course is designed to acquaint the student with vocational counseling practices. Sources of career information, lifestyle development, advantages and disadvantages of each source, and methods of storing and disseminating information will be explored. An understanding of career development assessment and career counseling techniques will be explored. Current issues in college planning and school-to-work transition programming will be explored. Pre-Requisites: None

**PSY5315L**   Group Counseling (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY505L Group Counseling
The emphasis in this course will be on human growth and the counseling process within the group setting. Among the concepts included are curative factors, interpersonal learning, group composition, and tasks and techniques for change. Drug addictions, poverty, and education will be explored in understanding the individual response to group counseling. The class itself will experience these concepts by both participating in a personal growth group and reviewing appropriate literature. Pre-Requisites: None

**PSY5316L**  
**Principles in Forensic Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY580L Principles in Forensic Psychology

This course will provide students with information about the various forensic activities in which psychologists and other related professionals currently participate. Activities may include competency evaluations, assessment of violent behavior and dangerousness, child abuse/neglect, treatment issues, court testimony, police psychology, and consultation to judges, attorneys, and other law enforcement personnel. Students will obtain information about the numerous roles of professionals in the field of forensic psychology and will develop the skills and knowledge base that will prepare them to continue with specialized training in this area. Pre-Requisites: None

**PSY5318L**  
**Applied Research in Criminal Behavior (3)**

Pre-Requisites: PSY5205L  
Co-Requisite courses: None  
Equivalent courses: PSY470L Applied Research in Criminal Behavior

This course involves doing original research in the area of criminal psychology. Students will be involved in gathering data, statistically analyzing the data, and writing the results of the research project. Students in this course will work as a research team investigating the correlates, theories, personality characteristics, and possible explanations of criminal behavior. Pre-Requisites: PSY5205

**PSY5322L**  
**Child and Adolescent Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY523L Child and Adolescent Development

This course is designed to give the students general knowledge of the typical course of development in children and adolescents in the major areas: physical, cognitive, and social-emotional. The ages from 3 to 21 will be the focus of the information provided in this course since teachers, school counselors, and school psychologists work within this age group primarily. The relative contribution of heredity and environment are considered when describing and explaining behavior. Specific focus is on the impact of early childhood education, poverty, abuse, and technology on development as well as on the education process. Cultural, English language learning and socioeconomic factors are also addressed within the context of contemporary times.

**PSY5325L**  
**Psychology of Learning (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY514L Psychology of Learning
Intensive coverage of the major learning theories in psychology, and their epistemological roots in philosophy, both from the point of view of rationalism and empiricism. Emphasis, however, will be on the twentieth century and will include Pavlov, Thorndike, Watson, Guthrie, Hull and Skinner as behaviorist-associationists, and Wertheimer, Kohler, Lewin, and Bruner on the cognitive gestalt side. Bandura's social modeling theory will be stressed, including discussions of racial prejudice and attitude change. Piagetian cognitive model will be stressed, including discussion of qualitative differences in learning according to developmental stage. Coverage will also include processing models, cognitive acquisition theories, and the basic models concerning the physiology of learning and memory. Pre-Requisites: None

**PSY5338L  Theory & Practicum - Diagnostic Assessment I: WISC and WAIS (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY500L Theory & Practicum - Diagnostic Assessment I: WISC and WAIS

Provides a thorough understanding of the administration, scoring, and interpretation of both the WISC and WAIS. Subject analysis stresses an understanding of cognitive strengths and weaknesses. Scoring analysis covers comprehensive personality descriptions. Differential diagnosis is also integrated in the course from a treatment-planning perspective. A major emphasis will be placed on the proper administration, scoring, interpretation, and preparation of a written report based on the Wechsler Scales. In addition, direct and indirect assessment techniques will be covered. Pre-Requisites: None

**PSY5345L  Advanced Abnormal Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY515L Advanced Abnormal Psychology

This course examines disorders in adulthood, adolescence, and childhood with consideration of the relationship between biological, social, psychological, and environmental factors, as well as problems in classification and potential behavior systems. The concepts of normal and abnormal will be explored especially when attempting to understand the behaviors of culturally diverse groups. The symptomatological disorders, including borderline personalities, and various phobic and obsessive-compulsive syndromes will be studied. Also covered will be discompensation, stress, anxiety, and defense. Pre-Requisites: None

**PSY5350L  Adolescent Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY408L Adolescent Psychology

This course is a study of adolescent behavior, including current theories concerning the nature of adolescence. Emphasis is placed on physical, emotional, and cognitive forces, and how they interact to shape the adolescent personality. Students write a topical paper on some aspect of adolescence to gain a better understanding of the issues.

**PSY5355L  Systems and Theories in Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None
This course traces the history of the major theoretical positions in psychology (structuralism, functionalism, behaviorism, gestalt, and psychoanalysis) from their epistemological, both rationalistic and empirical, and philosophical roots, dating from ancient Greece to the present time. Coverage will include discussions of the scientific method and the philosophy of science. Finally, contemporary positions, especially those involved in the cognitive revolution, will be covered from both the psychological and physiological points of view. Throughout these latter discussions, emphasis will be placed on the developmental aspects of human growth. Pre-Requisites: None

PSY5408L  **Pre-Internship Clinical Practicum (Two Semesters)** (3)

Pre-Requisites: PSY5215L and second year status
Co-Requisite courses: None
Equivalent courses: PSY531L Pre-Internship Clinical Practicum I (Two semesters)

This course provides students with a yearlong opportunity (100 hours) to put their acquired academic knowledge of psychology and counseling into clinical practice prior to their final years internship, when they actually work with clients. This course is normally undertaken in the second year of the program and after PSY425. The practicum is utilized, in part, to meet the requirements for certification as a mental health counselor. In addition to developing counseling skills through the readings and exercises in the textbook, students also role-play counseling in the classroom and on audio and videotapes. Students explore their specific career interests and search for sites for the following year's internship experiences. Pre-Requisites: PSY5215 and second year status

PSY5415L  **Psychology of Development** (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY614L Psychology of Development

This course addresses the physical, cognitive, and social-emotional development of children, adolescents, adults, and the elderly, including a description of behaviors that are present at the various stages, and explanations for those behaviors in terms of relative contributions of heredity and environment. The sociocultural and social economic factors that may contribute to a development outcome are considered. Pre-Requisites: None

PSY5418L  **Theory and Practicum - Diag. Assess. II: Pers. & Projections** (3)

Pre-Requisites: PSY5338L
Co-Requisite courses: None

A continuation of PSY500. In this course, the student will be encouraged to develop a personal frame of reference around personality assessment. Specifics include an examination of several traditional and non-traditional diagnostic instruments such as the TAT and Rorschach. Problems involved in assessing dysfunction will be included, as well as the application of assessment and diagnoses to the selection of treatment modalities. Pre-Requisites: PSY5538

PSY5430L  **Assessment Techniques in Forensic Psychology** (3)

Pre-Requisites: PSY5316L
Co-Requisite courses: None
Equivalent courses: PSY585L Assessment Techniques in Forensic Psychology

This course will familiarize students with the particulars of forensic assessment and test administration and will deal with techniques of synthesizing and integrating psychological and practical information into an effective forensic report. Emphasis will be placed on formal and informal assessment techniques, presenting problems, presentation of reports, and collaboration with other professionals. Students will develop skills in the assessment and diagnosis of disorders commonly found in forensic settings. Pre-Requisites: PSY5316

**PSY5510L. Counseling Theory & Practice (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC500L Counseling Theory & Practice:

Includes studies of major theories, approaches and procedures in counseling and psychotherapy; historical-cultural developmental contexts; case conceptualization and specific techniques used in contemporary therapeutic systems and their respective limitations; applications with various client populations; ethical and professional issues associated with counseling theories and practices.

**PSY5520L. Psychology of Human Growth & Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC501L Psychology of Human Growth & Development

Includes studies of current theories of human lifespan development as influenced by genetic, biological and environmental factors; physical, cognitive, intellectual, language, behavioral learning, emotional, and personality aspects of development; the nature and needs of individuals at all developmental levels.

**PSY5530L. Social & Cultural Bases of Behavior (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC502L Social & Cultural Bases of Behavior

Includes studies of social psychology; group dynamics and processes; organizational behavior; attribution theory; socially inherited and transmitted patterns of pressure, expectations, and limitations learned by individuals; unique characteristics of individuals, couples, families, ethnic groups and communities; issues and trends in a multicultural society (including culture, ethnicity, nationality, age, gender, sexual orientation, mental characteristics, physical characteristics, education, family values, religious values, spiritual values, and socioeconomic status); and awareness of discriminatory attitudes and beliefs that can have a negative impact on group and individual relationships in various contexts.

**PSY5540L. Helping Relationships (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC503L Helping Relationships

Includes studies of the basic building block and advanced counseling skills; the collaborative nature of the helper-client relationship; consultation skills; nonverbal and reflecting skills; and the three stage helping model
that drives the client’s problem-managing and opportunity-developing action: helping clients tell their stories, helping clients determine what they need and want, and helping clients develop strategies to accomplish their goals.

**PSY5550L Group Work and Therapy (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC504L Group Work and Therapy

Group Work and Therapy: This course includes advanced studies of theoretical approaches to and key concepts of group counseling and their practical applications. It focuses on the elements of group dynamics and process; group counseling methods; strategies and skills; historical and cultural contexts in which models were developed; leadership styles and practicalities of creating and leading groups. Learners will research ethical and professional issues in group therapy practice, and analyze various uses of group counseling or supervisory techniques. The role of an effective group leader and group leadership styles, group dynamics, and social and cultural factors in groups will also be considered.

**PSY5560L Career and Lifestyle Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC505L Career and Lifestyle Development

Includes studies of career development theory and research; applications in counseling and educational settings; approaches to career decision-making processes; relationships between career development and life factors; career development exploration techniques; skills for helping individuals consider career choice and lifestyle options; and sources of occupational and educational information.

**PSY5610L Appraisal and Diagnostic Techniques (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC506L Appraisal and Diagnostic Techniques

Includes introductory studies of the basic concepts of testing and other assessment techniques including norm-referenced and criterion-referenced assessment, environmental assessment, performance assessment, individual and group test and inventory methods, behavioral observations, alternative assessment, and computer-managed and computer-assisted methods.

**PSY5620L Abnormal Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC507L Abnormal Psychology

Focuses on psychopathology and includes studies of the etiology and categorization of psychopathology; historical, sociopolitical, cultural, behavioral and epidemiological approaches to the systematic description of psychological disorders; use of the DSM-IV-TR in differential diagnosis; potential alternatives to the existing system; and the roles of assessment, treatment planning and intervention for psychological disorders. Learners will identify and articulate the ethical issues related to the diagnosis and treatment of abnormal behavior and
mental illness, and will demonstrate knowledge of the major diagnostic categories including current theories related to the development of the disorders and commonly used treatment strategies. Learners will also explore the various emotional disorders and reactions to stress such as anxiety disorders, somatoform and dissociative disorders, affective disorders, and the schizophrenias and related psychotic disorders. Course materials will also facilitate the various disorders related to social mal-development such as personality disorders and sociopathic, substance abuse disorders, eating disorders, and sexual and gender identity disorders.

**PSY5630L  Human Sexuality for Counselors (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC508L Human Sexuality for Counselors

This course includes studies of the diverse nature and constructs of human sexuality, sexual identity and sexual dysfunction. Perspectives of human sexuality including biological, behavioral, cultural, social, psychological, as well as clinical factors will be studied. The role of the professional counselor and counseling strategies are considered.

**PSY5640L  Research Methods and Program Evaluation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC519L Research Methods and Program Evaluation

This course examines a range of research methods, basic descriptive and inferential statistical analysis, needs assessment, ethical and legal considerations in research, steps of research design and implementation, and the fundamentals of program evaluation through use of qualitative and quantitative methods.

**PSY5710L  Professional Orientation and Ethics (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC509L Professional Orientation and Ethics

This course examines the process of ethical decision making in the workplace and the role of the ethical leader. Theories of ethical decision making, principles, and theoretical concepts will be covered. Students also will be encouraged to reflect upon their own ethical code and decision making. Emphasis in this course is on the real life application of theoretical concepts.

**PSY5720L  Practicum in Counseling Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC510L Practicum in Counseling Psychology

Optional as determined by state regulations. A pre-internship practice in application of counseling psychology principles and skills. Learners must accumulate a minimum of 100 hours of practicum experience at a faculty-approved site. Includes practice of basic and intermediate individual and group counseling skills with clients to integrate theoretical knowledge from coursework with practical applications. A site-based clinical supervisor and a faculty advisor closely monitor activity of the learner throughout the process to ensure that all practicum activities are appropriate to the field of study. The faculty advisor and field (site-based) supervisor
formally evaluate the progress of individual learners. Learners submit a practicum log and reflective essay to chronicle their growth and development, and must receive satisfactory field evaluations.

**PSY5738L Internship in Counseling Psychology I (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC511L Internship in Counseling Psychology I

The first of two semesters of supervised internship in counseling psychology designed to integrate theoretical understanding with direct, hands-on exposure to practice. Fieldwork experience serves to provide practice of counseling psychology skills in an applied setting under the supervision of an experienced practitioner. Learners must accumulate a minimum of 300 hours of Internship I (to meet the minimum requirement for the Program’s 600 hour total internship hours*) at a site approved by the faculty in order to complete this requirement. All aspects of psychological practice – appraisal, therapeutic intervention, and consultation – are addressed in the internship experience. Both a site-based supervisor and faculty advisor monitor the activity of the learner throughout the internship process to ensure that all internship activities are appropriate to this field of psychology. The advisor and field (site-based) supervisor formally evaluate the progress of individual learners.

**PSY5838L Internship in Counseling Psychology II (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC512L Internship in Counseling Psychology II

Is the second required semester of internship experience in counseling psychology. Learners are required to accumulate a minimum of 300 supervised internship hours to complete this requirement, bringing the total internship hours to 600 to complete the program. (See additional requirements for individual state regulations)

**PSY5938L Internship in Counseling Psychology III (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC513L Internship in Counseling Psychology III

Is third semester of internship experience in counseling psychology, which some students may need to complete their state licensure requirements. Learners are required to accumulate a minimum of 300 supervised internship hours to complete this requirement, bringing the total internship hours to 900 to complete the program. (See additional requirements for individual state regulations) (In some states, Students may need to take third internship)

**PSY6110L Biological Bases of Behavior (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC520L Biological Bases of Behavior

Includes studies of the gross anatomy of the nervous system and the basic relationships between the brain, chemical neurotransmitters and behavior; right and left hemisphere specialization; learning disorders and learning style differences; relationships between neurotransmitters and psychiatric disorders; biological bases of memory systems and retrieval processes including long-term, short-term, episodic and semantic memory.
PSY6210L  Personality Theory & Development (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC521L Personality Theory & Development

This course includes exploration of the theories, dynamics and processes of personality; the nature and causes of the personality proposed by major personality theorists; various modes of practice derived from psychoanalytic/psychodynamic, psychophysiological, behavioral, cognitive, humanistic, and existential theoretical paradigms; and the symptomologies of major psychiatric disorders; and use of the DSM-IV-TR in practice. In this course, learners will articulate the major psychological theories of personality and the characteristics of an individual which provide the foundation of the personality, and will research the theories of etiology and development of personality characteristics. Learners will also explore psychologically healthy and deviant personality functioning within varied social and cultural contexts and ways in which stable characteristics are modified.

PSY6220L  Family Therapy (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC522L Family Therapy

This course focuses on the history, theory and practice of family therapy, with analysis and comparison of beliefs, therapeutic strategies, and techniques of the most prominent approaches. It includes the study of differences between individual and systems approaches to helping families and the use of the genogram in family therapy, as well as the role and functions of a family therapist. In this course, learners will research and explore specific issues in family dysfunction, including cultural and social phenomena, addictions and abuse, alternative family structures. Learners will also explore current treatment issues in working with diverse family structures, and subsequently better understand the role of marital, couple, and family counselors/therapists in various practice settings and in relation to other helping professionals. The course will also cover ethical and legal considerations specifically related to family and systems related work.

PSY6225L  Psychology of Behavior Management for Special Needs Children (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY412L Psychology of Behavior Management for Special Needs Children

Basic behavioral measures and techniques involved in working with special needs children, including theory, assessment, materials, and problem remediation. Special attention is given to communication, observation, and group management skills. Pre-Requisites: None

PSY6230L  Psychology of Exceptional Children (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY657L Psychology of Exceptional Children

Exceptional children are those for whom special educational programming is considered necessary. In this course, we consider the characteristics, prevalence, etiology, neurological correlates (if applicable), developmental course,
assessment, and treatment for the categories of learning disabilities (including reading disability and nonverbal LD), ADHD, Asperger’s syndrome, children with limited English proficiency, children from culturally diverse backgrounds, and the gifted and talented. Pre-Requisites: None

**PSY6310L. Psychopharmacology (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC523L Psychopharmacology

Includes studies of psychopharmacology including ways in which drugs interact with the brain to affect cognitive processes and behavioral states, the fundamental principles of psychopharmacology including pharmacokinetics and chemical neurotransmission; specific classes of drugs and their applications to the treatment of psychological disorders including anxiety, depression, bipolar mood and psychotic disorders; and substance use and abuse through topics including basic neurophysiology, addiction processes and the effects of licit and illicit drugs.

**PSY6330L. Theories of Learning Disabilities (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY517L Theories of Learning Disabilities

This course is designed to familiarize the student with the field of learning disabilities and acquaint students with the various concepts of learning disability and the changing and developing perspectives during the past 20 years. Included will be a review and evaluation of the evidence for the existence of a social learning disability and nonverbal learning disabilities. The evidence for a neurological basis of learning disabilities is explored. Definitions and terms are introduced and discussed. Particular emphasis is placed on the concept that a learning disability is not a single entity that will respond to a single remedial strategy, but exists rather as a multi-dimensional phenomenon basically occurring in the context of school-related tasks. Pre-Requisites: None

**PSY6410L. Substance Abuse and Addictive Disorders (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC524L Substance Abuse and Addictive Disorders

Includes studies of historical and societal aspects of drug use and abuse; core concepts of substance use, abuse and dependence; the etiology of drug abuse; neurophysiology of addiction; effects of licit and illicit drugs; and effectiveness of treatment methods and preventive strategies for addictions to food, sex, alcohol, drugs, work, gambling and relationships.

**PSY6505L. Issues and Ethics in Psychology (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY516L Issues and Ethics in Psychology

The purpose of this course is to acquaint the student with the major issues in the practice of psychology. The course will involve an intense analysis of the philosophical, technical, and consultative issues contributing to the professional identity and function of the psychologist in a public school or clinical setting. Emphasis will be placed on the setting, the practical application of theory, and the demands placed on the setting, the practical
application of theory, and the demands placed on the practicing school psychologist. This course stresses professional ethics and general standards of conduct. The guide for this section of the course is the American Psychological Associations Code of Ethics. Pre-Requisites: None

**PSY6510L. Crisis Intervention (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC525L Crisis Intervention

Includes studies of the theories and principles of crisis intervention as applied to therapeutic strategies for treatment; scientific bases of various approaches to crisis intervention including short-term, long-term and telephone counseling methods; community and societal crisis; interventions with diverse clinical populations; professional skills for intervening, prevention techniques; evaluation of services; and the roles and responsibilities of others participating in crisis intervention.

**PSY6515L. Psychopharmacology and Substance Abuse (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY532L Psychopharmacology and Substance Abuse

This course covers the fundamental principles of pharmacology, drug actions, tolerance, addiction, clinical use of psychotic medications, substance abuse, and addiction treatment. Research that explores the efficacy of medications taken during treatment, specific treatment programs, and the degree of recidivism is presented. Pre-Requisites: None

**PSY6578L. Directed Study (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC516L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

**PSY6588L. Directed Study (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC515L Directed Study

In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

**PSY6598L. Directed Study (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC514L Directed Study
In these courses, a student pursues, in-depth, an individualized program of reading and/or research with supervision by first and second core faculty. Pre-Requisites: None

**PSY6605L. Therapeutic Techniques and Consultation (3)**

Pre-Requisites: PSY5345L  
Co-Requisite courses: None  
Equivalent courses: PSY558L Therapeutic Techniques and Consultation

This course will provide students with techniques to integrate the theories of treatment into specific situations that the counselor or psychologist will confront in actual practice. Topics will range from working with clients in multiple system membership to consultation around behavioral/emotional issues in schools as well as clinics. The consultation model will be considered as it relates to counselors and psychologists within a multicultural model.  
Pre-Requisites: PSY5345

**PSY6610L. Theoretical Foundations in Complementary Health Counseling (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC526L Theoretical Foundations in Complementary Health Counseling

This course explores the theory base of complementary health counseling. The seminar begins with a stress and health exploration of the biological bases of health and disease and includes an overview of psycho-neuroimmunology stress and health. The course examines the contributions of learning theory and cognitive behavioral models, learned helplessness and self-efficacy, stress and coping with an emphasis on social bases of health and disease, Engel's bio-psychosocial hierarchy, family systems, health and disease, and concludes with ethno-cultural variables and health and existential and meaning making models.

**PSY6615L. Social Bases of Behavior (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY615L Social Bases of Behavior

This course covers a number of advanced topics in the general area of social psychology, including cultural, ethnic, and group processes, sex roles, organizational behavior, group dynamics, status and role, attribution theory, and leadership. Special emphasis will also be placed on cultural diversity, including those issues related to racial and ethnic bases of behavior, with a focus on people of color. Pre-Requisites: None

**PSY6649L. Field Based Research in School Guidance/School Adjustment (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY482L Field Based Research in School Guidance/School Adjustment

This is an opportunity for students to apply the principles learned in their coursework to the practical application in the area of school counseling in order to improve student service. This is an action-based research project completed as part of a graduate degree. For those students who have decided not to pursue licensure, this research project may be completed in place of the advanced practicum.

**PSY6678L. Practicum in School Adjustment Counseling (3)**
Pre-Requisites: Completion of all course requirements
Co-Requisite courses: None
Equivalent courses: PSY560L Practicum in School Adjustment Counseling

The purpose of the practicum is to provide a culminating experience for the student in a school and/or clinical setting. The student is offered an opportunity to apply skills gained from course work in actual practice of school adjustment counseling. The student works under the direct supervision of a certified or licensed school adjustment counselor with the assistance of a college advisor. The advisor helps the student to develop appropriate goals, to effectively use interpersonal skills, and to determine the areas to be further developed. A weekly seminar class is considered to be component of the practicum in order to provide additional academic information and to discuss practical experiences. The practicum is 900 clock hours (six credits). At this point, the student is employable as a school adjustment counselor, and works independently with mentorship and college supervision. Pre-Requisites: Completion of all course requirements

PSY6684L. Independent Study in Forensic Psychology (3)

Pre-Requisites: Permission of department chair.
Co-Requisite courses: None
Equivalent courses: PSY581L Independent Study in Forensic Psychology

In this course, a student pursues, in-depth, an individualized program of reading and/or research with a specific faculty member. Pre-Requisites: Permission of department chair

PSY6688L. Practicum in Guidance Counseling (3)

Pre-Requisites: All prior coursework in program, passage of Communication and Literacy MTELs, GPA of 3.0, and approval of school district and AIC’s Office of Field Experience
Co-Requisite courses: None
Equivalent courses: EDC471L Practicum in Guidance Counseling

The purpose of the practicum is to provide a culminating experience for the student in the School Guidance program in a school. The student is offered an opportunity to apply skills gained from course work in actual practice of guidance counseling. The student works under the direct supervision of a licensed guidance counselor with the assistance of a college advisor. The advisor helps the student to develop appropriate goals, to effectively use interpersonal skills, and to determine the areas to be further developed. Periodic meetings are scheduled with students and the college advisor as part of the practicum experience. The duration of the practicum is 450 clock hours, for which three credits are awarded. The clinical experience is a continuation of the practicum and builds upon the experience. At this point, the student is employable as a guidance counselor and works independently with school mentorship and college supervision. The clinical experience is 600 clock hours, for which six credits are awarded. Pre-Requisites: all prior coursework in program, passage of Communication and Literacy MTELs, GPA of 3.0, and approval of school district and AIC’s Office of Field Experience.

PSY6689L. Advanced Practicum with Seminar (6)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY471L Advanced Practicum with Seminar

All prior coursework in program, passage of Communication and Literacy, MTELs, GPA of 3.0 and approval of school district and AIC’s Office of Field Experience.
PSY6710L Applications in Complementary Health Counseling (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC527L Applications in Complementary Health Counseling

This course will examine how the theoretical foundations of complementary health counseling are applied in clinical practice. This seminar will begin with a survey of the assessment strategies of the complementary health counselor including bio-psychosocial approaches, interview, observational, and behavioral methods and paper and pencil measures. Students will then proceed to a survey of individual, group, family and large systems interventions, an examination of medical adherence, and conclude with a discussion of supervisory and consultation issues in the field.

PSY6809L Clinical Internship (Two semesters) (9)

Pre-Requisites: Permission of program director
Co-Requisite courses: None
Equivalent courses: PSY540L Clinical Internship (Two semesters)

This course is primarily an off-campus, supervised work experience, extending from September to May and involving 16-20 hours per week. Practica are undertaken in the final year of the program, with approval of the clinical faculty. On-campus weekly meetings are required and are an integral part of the necessary supervision. All aspects of clinical experience from intake to discharge are acceptable with primary emphasis on face-to-face counseling interaction. May be repeated for up to nine credits. Pre-Requisites: Permission of program director

PSY6810L Contemporary Issues in Complementary Health Counseling (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC528L Contemporary Issues in Complementary Health Counseling

This course is designed to enable advanced students in the complementary health counseling specialization with the opportunity to consolidate their overall understanding of the field. The course focuses on large systems issues including ethical, legal, and professional concerns; economic, political, organizational, and policy issues, and research methods in Complementary Health Counseling.

PSY6819L Clinical Experience in Guidance (6)

Pre-Requisites: Permission of program director
Co-Requisite courses: None
Equivalent courses: PSY604BL Clinical Experience in Guidance

The purpose of the clinical experience is to provide a culminating experience for the student under the direct mentorship of a licensed school adjustment counselor or licensed guidance counselor with assistance from a college supervisor. The student is provided an opportunity to develop and to apply skills gained from course work to actual practice as a school counselor. The advisor and mentor help the student to develop appropriate goals, to effectively use interpersonal skills, counseling skills, and consultation skills, and to determine areas to be further developed. The student is expected to take significant responsibility in developing independence in the application of skills, and must demonstrate competence by meeting performance goals. At least one-half of the clinical experience must be completed in a school setting. Since the student must qualify for an initial license before
beginning the clinical experience, this experience may be done on the job and is necessary for the professional license. Pre-Requisites: Permission of program director

**PSY6820L**  
The Psychology of Health (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC529L The Psychology of Health

This course will focus on the cognition of health, which addresses how thinking and reasoning are related to health behavior and illness. The course reviews how various cognitive processes such as risk perception, cost/benefit analysis, judgmental heuristics, norm perceptions, cognitive dissonance, and control perceptions are related to the adoption of healthy and unhealthy behaviors and the processing of health information. The course will also cover the concurrent influence of motivational and affective influences such as defensiveness. Attention will be devoted to how people make health-related decisions (such as whether to screen for cancer), how they respond to health communications, and how they mentally represent illness (as well as the extent to which cognitions determine the course and recovery from illness). This course takes a general theoretical approach.

**PSY6829L**  
Clinical Experience in School Adjustment (6)

Pre-Requisites: Permission of program director  
Co-Requisite courses: None  
Equivalent courses: PSY604AL Clinical Experience in School Adjustment

The purpose of the clinical experience is to provide a culminating experience for the student under the direct mentorship of a licensed school adjustment counselor or licensed guidance counselor with assistance from a college supervisor. The student is provided an opportunity to develop and to apply skills gained from course work to actual practice as a school counselor. The advisor and mentor help the student to develop appropriate goals, to effectively use interpersonal skills, counseling skills, consultation skills, and to determine areas to be further developed. The student is expected to take significant responsibility in developing independence in the application of skills and must demonstrate competence by meeting performance goals. At least one-half of the clinical experience must be completed in a school setting. Since the student must qualify for an initial license before beginning the clinical experience, this experience may be done on the job and is necessary for the professional license. Pre-Requisites: Permission of program director

**PSY6830L**  
Spirituality in Counseling (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSYC530L Spirituality in Counseling

This course will focus on the study and application of theory and techniques to assist the counselor in the appropriate integration of spirituality into the counseling process. The course will promote the knowledge and skills that counselors should possess to effectively engage clients in the exploration of their spiritual and religious lives as they relate to other psychological concerns.
PSY6840L Nutrition-Health and Emotional Wellness (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC531L Nutrition-Health and Emotional Wellness

This course will focus on the relationship between nutrition, diet, and food and their role in emotional health and wellness. This course will provide students with practical information, critical thinking skills, and the scientific foundation needed to help clients make better informed choices about their diet and health.

PSY6845L Advanced Counseling Theory and Practice II (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY525L Advanced Counseling Theory and Practice II

The purpose of this course is to continue to have school counselors develop the psychological, behavioral, and therapeutic skills in order to provide basic counseling services to students in elementary, middle, and high school. Emphasis will be on the practical strategies to help students with problems such as depression and anxiety that are consistent in most student issues such as academic underachievement, peer relationship problems, cultural differences, emotional disorders, and the issues of homosexual and bisexual youth.

PSY6850L Diagnostic Psychoeducational Assessment (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY409L Diagnostic Psychoeducational Assessment

The purpose of this course is to learn to carry out a Psychoeducational assessment using appropriate assessment instruments and to write an effective report of the assessment. To achieve this, the class will become familiar with the particulars of testing and test administration, and will critique and study formal and informal tests and testing procedures in the areas of reading, math, language, attention deficit, and behavior. The influence and impact of standardized tests on groups such as racial, ethnic, cultural minorities, and English language learners will be explored. This course will deal with the techniques of synthesizing and integrating psychological and practical information into an effective report and educational plan. Emphasis will be placed on assessment techniques, an overview of presenting problems, the development of appropriate intervention strategies, the presentation of psychological reports, and consultation and collaboration with both parents and professionals. Pre-Requisites: None

PSY6855L Group Testing (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY401L Group Testing

This course focuses on developing an understanding of the nature and function of group assessments. This includes, but is not limited to, such areas as achievement, aptitude, interest, and vocation. The nature and purpose of tests such as the Massachusetts Comprehensive Assessment System as a requirement for high school graduation is also explored. Students will understand the issues of assessment norms, validity, and reliability, as well as general principles of test construction. Emphasis will be on the ability to interpret and integrate
information obtained from assessment tools for the purpose of addressing student needs, and on communicating
assessment results to students, parents, and teachers. Pre-Requisites: None

**PSY6889L. Externship in Forensic Psychology (3)**

Pre-Requisites: Permission of department chair
Co-Requisite courses: None
Equivalent courses: PSY590L Externship in Forensic Psychology

This course is primarily an off-campus supervised work experience in a forensic setting involving approximately 15
hours per week for an academic semester. All externships are usually undertaken during the final year of the
program with approval of the program director. One hour of direct on-site supervision is required and will
optimally be provided by a licensed/certified mental health professional. On-campus meetings are also required
and are an integral part of the supervision process. All forensic experiences, broadly defined, will be considered as
acceptable placements. Pre-Requisites: Permission of department chair

**PSY6899L. Professional Portfolio (Capstone) (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSYC518L Professional Portfolio (Capstone)

This course provides a culminating experience that allows each student to reflect on his or her scholarly and
professional growth over the program of study. In organizing the portfolio according to program competencies
and values, the student provides evidence of his/her meeting those outcomes, as well as concentration-specific and
individual goals laid out in the Degree Plan.

**PSY7210L. Advanced Human Growth and Development (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCC751L Advanced Human Growth and Development

This course focuses on current theories of human development across the lifespan. Consideration of the influence
of genetic and environmental factors will be included, as well as an advanced overview of the physical, cognitive,
behavioral, and emotional elements of development. The change process and strategies for facilitating appropriate
development will be addressed.

**PSY7220L. Advanced Social and Cultural Foundations (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCC752L Advanced Social and Cultural Foundations

This course focuses on personal and professional awareness and sensitivity to issues of diversity and the impact of
culture. Advanced studies will include models of cultural competency in all arenas of diversity, including race,
ethnicity, gender, class, ability and more. The course will cover knowledge of pertinent concepts and issues, and
acquisition of skills applicable to multicultural situations. The course is also designed to look at issues of
oppression in our society and the impact of that oppression.
PSY7230L  Promoting Personal and Institutional Resiliency (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course focuses on identifying factors that promote individual and institutional resiliency, especially in times of transition and change. Major theories and research on resiliency at both levels will be covered. Students will have the opportunity to build personal theories of best practice about how to build and nurture resiliency in themselves, their co-workers, and those they supervise.

PSY7240L  Collaboration, Colleagueship, and Reflective Practice (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: HCC754L Collaboration, Colleagueship and Reflective Practice

This course focuses on critical elements of sustaining individual and institutional health and wellness, as well as promoting optimal performance among individuals. Students will examine literature on the importance of building and maintaining collegial relationships, participating in reflective practice in action, and developing workplace activities that promote learning, sharing, and collaborating among individuals.

PSY7241L  Clinical Supervision (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PCS753L Clinical Supervision

This course is designed to provide students with theoretical and practical knowledge of clinical supervision models, methods and issues. The course will explore supervisory roles, evaluation methods, research, and socio-cultural issues in supervision.

PSY7315L  Psychology Systems and Theories (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY751L Psychology Systems and Theories

This course includes advanced and comprehensive studies focused on the major models and theories of psychology, with a specific focus on the historical western philosophers and philosophies and subsequent theorists and theories that provide the foundations of the established models of modern psychological schools of thought and paradigms.

PSY7320L  Advanced Professional Orientation and Ethics (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: IID850L Advanced Professional Orientation and Ethics

This course includes the study of ethical issues in a variety of counseling settings and includes the moral and legal bases for ethical codes and guidelines for human service professionals. The counseling relationship and ethical and
professional conduct, standards, and practices are considered. Issues related to client/counselor conflict and societal, legal and cultural values are included. The course will include a focus on methods and strategies for recognizing and resolving ethical dilemmas.

**PSY7325L  Organizational Theory and Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID752L Organizational Theory and Development

This course focuses on developing an understanding of the effects of organizational and managerial practices on individual self-fulfillment and systems effectiveness. Foundational theories of organizational development will be covered, as will theories of organizational change. Students will be introduced to action-research methods in organizational development.

**PSY7326L  Advanced Theories of Learning and Behavior (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY752L Advanced Theories of Learning and Behavior

This course includes studies of the principles and theories of learning and behavior including functionalist, associative and cognitive approaches; and current research and practical applications of learning theories in clinical, educational and other applied settings.

**PSY7330L  Individuals and Groups in Organization (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID754L Individuals and Groups in Organizations

This course focuses on micro-level topics related to individual and interpersonal processes within an organization, including how individual behaviors, cognitions and perceptions are affected by organizational context, structure, culture, and values. Study of the critical skills needed by managers to support their ability to lead and work effectively in teams as well as to know when teams are not the best way to reach organizational goals is included. In spite of ongoing reliance on teams, many organizations do not create conditions to develop and support high performing teams. This course is designed to develop and hone the team management and membership skills of students. In particular, it focuses on helping students understand how to avoid or manage typical team “traps” that lead to ineffectiveness.

**PSY7350L  Individual and Institutional Ethics (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID855L Individual and Institutional Ethics

This course explores the topic of ethics in the professional domain. Students will be exposed to theories of ethical practice on both the individual and institutional levels. There will be opportunities to consider ethical dilemmas that one may face as a practitioner, as well as chances to reflect on one's own ethical code and values.
PSY7410L Advanced Group Work: Theory and Methodology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PCS752L Advanced Group Work: Theory and Methodology

This course includes advanced studies of theoretical approaches to and key concepts of group counseling and their practical applications. It focuses on the elements of group dynamics and process; group counseling methods; strategies and skills; historical and cultural contexts in which models were developed; leadership styles and practicalities of creating and leading groups.

PSY7415L Advanced Abnormal Psychology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY753L Advanced Abnormal Psychology

This course focuses on psychopathology and includes studies of the etiology and categorization of psychopathology; historical, sociopolitical, cultural, behavioral and epidemiological approaches to the systematic description of psychological disorders; use of the DSM-IV-TR in differential diagnosis; potential alternatives to the existing system; and the roles of assessment, treatment planning and intervention for psychological disorders.

PSY7420L Advanced Appraisal (Test and Measurements for Individ. & Grp.) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PCS754L Advanced Appraisal (Tests and Measurements for Individ. & Grp.)

This course focuses on the study of theory and practice of appraisal, including issues of reliability and validity; evaluation procedures and test administration, as well as clinical and practical aspects of individual and educational testing and clinical diagnosis; integration and interpretation of data from a variety of appraisal procedures; report writing; and the professional communication of appraisal results. It includes legal, ethical and social/cultural issues related to the appropriate use of major instruments for evaluating intelligence, aptitude, achievement, personality and neurological conditions; and computer-managed and computer-assisted methods.

PSY7422L Interpersonal and Institutional Communications (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: IID873L Interpersonal and Institutional Communication

This course explores scholarly literature and research in the field of organizational behavior, focusing on key factors affecting successful communication, both between individuals and within the institution. This course helps students analyze styles and modes of communication in one-to-one, group, and large-system settings. It offers an opportunity to deepen one's own understanding of his/her own communication style and skills, including verbal, non-verbal, perceptual, and cross-cultural theory and research.

PSY7425L Principles of Psychological Assessment, Tests and Measurement (3)

Pre-Requisites: None
Co-Requisite courses: None
This course focuses on the study of theory and practice of appraisal, including issues of reliability and validity; evaluation procedures and test administration, as well as clinical and practical aspects of individual and educational testing and clinical diagnosis; integration and interpretation of data from a variety of appraisal procedures; report writing; and the professional communication of appraisal results. It includes legal, ethical and social/cultural issues related to the appropriate use of major instruments for evaluating intelligence, aptitude, achievement, personality and neurological conditions; and computer-managed and computer-assisted methods.

**PSY7430L Advanced Theory and Practice of Career and Lifestyle Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS852L Advanced Theory and Practice of Career and Lifestyle Development

This course includes studies of career development theory and research and the application of these in a counseling. Theoretical and operational foundations of career counseling, career decision-making, and career development, including assessment and intervention, as well as various career decision-making processes, are included. The relationship between career development and a range of life factors is considered. Practical skills for helping individuals consider career choice and lifestyle options are included.

**PSY7435L Leadership, Creativity and Change (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID755L Leadership, Creativity and Change

This course explores scholarly literature and research related to leading organizations through change and sustaining renewal efforts. Application of theories related to leading organizations, organizational change, creative leadership, renewal, and sustaining change will be emphasized.

**PSY7440L Research and Program Evaluation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HCC850L Research and Program Evaluation

This course includes advanced studies of a range of research methods and program evaluation. Topics include: basic descriptive and inferential statistical analyses, needs assessment, ethical and legal considerations in research and evaluation, research design and implementation, and the purpose, fundamentals and process of program evaluation. Both qualitative and quantitative methods are considered.

**PSY7465L Advanced Counseling Theory and Practice (Helping Relations) (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID871L Advanced Counseling Theory and Practice (Helping Relations), PCS751L Advanced Counseling Theory and Practice (Helping Relations)

This course includes studies of major theories, approaches and procedures in counseling and psychotherapy, their historical-cultural developmental contexts, and their applications and practice. Students will be exposed to an
overview of current and emerging approaches to psychological counseling, including psychodynamic, existential humanistic, transpersonal, cognitive-behavioral, and systems approaches. Emphasis is on both theory and practical applications of the various approaches.

**PSY7510L  Survey of Research Methods in the Social Domain (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HCC980L Survey of Research Methods in the Social Domain

This course focuses on an introduction to the selection and construction of a research design and choice of appropriate research methods for the student’s inquiry to be undertaken. A variety of research methods will be reviewed. The design and collection of data, data analysis, and ethical issues related to research with human subjects will be explored.

**PSY7520L  Adult Learning, Motivation, and Transformation (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID751L Adult Learning, Motivation, and Transformation

This course focuses on developing understanding of adult learning and the implications for professional practice. Regardless of role and formal job description, all institutional leaders must interact with adults, and an understanding of the developmental tasks of personal and career cycles is essential. Knowing how to motivate individuals, support them through times of change, and encourage risks that lead to positive transformation will be studied. Course content is designed to stimulate thinking about how to promote growth and transformation in one’s own life and with others.

**PSY8001L  Advanced Professional Orientation and Ethics (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS755L Advanced Professional Orientation and Ethics

This course includes the study of ethical issues in a variety of counseling settings and includes the moral and legal bases for ethical codes and guidelines for human service professionals. The counseling relationship and ethical and professional conduct, standards, and practices are considered. Issues related to client/counselor conflict and societal, legal and cultural values are included. The course will include a focus on methods and strategies for recognizing and resolving ethical dilemmas.

**PSY8005L  Theory Orientation: Supervision with Specific Theoretical Orientations (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS871L Theory Orientation: Supervision with Specific Theoretical Orientations

This course will allow the student to focus on the specifics of supervision within varying theoretical orientations and populations. Noting the theory under consideration directs the learner towards understanding how supervision fits within that theory and methodology.
PSY8006L  Advanced Counseling Theories and Practice (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY755L Advanced Counseling Theories and Practice

This course focuses on the study of theory and practice of appraisal, including issues of reliability and validity; evaluation procedures and test administration, as well as clinical and practical aspects of individual and educational testing and clinical diagnosis; integration and interpretation of data from a variety of appraisal procedures; report writing; and the professional communication of appraisal results. It includes legal, ethical and social/cultural issues related to the appropriate use of major instruments for evaluating intelligence, aptitude, achievement, personality and neurological conditions; and computer-managed and computer-assisted methods.

PSY8009L  Organizational and Human Flourishing (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID852L Organizational and Human Flourishing

This course explores two vibrant and emerging fields: Positive Psychology and Positive Organizational Scholarship (POS). One basic premise of positive psychology is that human flourishing—a life rich in purpose, relationships, and enjoyment—will not result simply by curing pathology but requires building and capitalizing on human strengths and capacities. Topics of study include happiness, positive emotions, resilience, creativity, finding meaning, and optimism. POS investigates collective and emergent processes of optimal functioning, at the levels of individuals in organizations, groups in organizations, and organizations as a whole. POS is premised on the belief that enabling human flourishing in organizations involves unlocking or building potential resources, capabilities and capacities in people, groups and systems. The focus on generative dynamics leads researchers to consider the role of positive emotions, positive meaning, and positive relationships, among other mechanisms as keys to explaining human and collective flourishing.

PSY8012L  Human Resource Management in Organizations and Institutions (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID854L Human Resource Management in Organizations and Institutions

This course focuses on strategic issues and choices in acquiring, developing, motivating, managing and retaining a workforce, from the perspective of a general manager, or non--HR manager. Topics include employment law, job design and analysis, performance management, HR planning, staffing, training and development, compensation and incentive and employee/labor relations.

PSY8016L  Advanced Appraisal (Tests and Measurements for Ind. and Grps.) (3)

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID870L Advanced Appraisal (Tests and Measurements for Ind. and Grps.)

This course focuses on the study of theory and practice of appraisal, including issues of reliability and validity; evaluation procedures and test administration, as well as clinical and practical aspects of individual and educational testing and clinical diagnosis; integration and interpretation of data from a variety of appraisal procedures; report writing; and the professional communication of appraisal results. It includes legal, ethical and
social/cultural issues related to the appropriate use of major instruments for evaluating intelligence, aptitude, achievement, personality and neurological conditions; and computer-managed and computer-assisted methods

**PSY8020L Advanced Group Work: Theory and Methodology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID872L Advanced Group Work: Theory and Methodology

This course includes advanced studies of theoretical approaches to and key concepts of group counseling and their practical applications. It focuses on the elements of group dynamics and process; group counseling methods; strategies and skills; historical and cultural contexts in which models were developed; leadership styles and practicalities of creating and leading groups.

**PSY8024L Leadership and Politics in Organizations (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID874L Leadership and Politics in Organizations

This course examines the creation and execution of power relationships, political engagements and communications in institutions and organizations. Leadership styles and strategies for effectively navigating the political landscape with organizations will be explored. Students will have the opportunity to identify, analyze and critique their own social styles and leadership skills as part of their studies.

**PSY8031L Advanced Theory and Practice of Career and Lifestyle Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID851L Advanced Theory and Practice of Career and Lifestyle Development

This course includes studies of career development theory and research and the application of these in a counseling. Theoretical and operational foundations of career counseling, career decision-making, and career development, including assessment and intervention, as well as various career decision-making processes, are included. The relationship between career development and a range of life factors is considered. Practical skills for helping individuals consider career choice and lifestyle options are included.

**PSY8209L Appreciative Inquiry (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: IID854L Human Resource Management in Organizations and Institutions

The theory and practice of Appreciative Inquiry, an approach to organizational change that emphasizes identifying and building on the good things that already exist in the system. The emerging field of Positive Organizational Scholarship is studied as well.

**PSY8218L Practicum in Psychology – Mental Health (3)**

Pre-Requisites: Completion of all course requirements  
Co-Requisite courses: None
Equivalent courses: PSY551L Practicum in Psychology - Mental Health

The purpose of the practicum is to provide experience for the student in a clinical setting. The student is offered an opportunity to apply skills gained from course work to clinical practice. The student works under the direct supervision of a certified or licensed psychologist with the assistance of a college supervisor. The student is encouraged to develop goals, interpersonal skills, and to determine any individual framework. Periodic campus meetings are held with the college supervisor. Pre-Requisites: Completion of all course requirements.

PSY8228L Practicum in Psychology - School Psychology (3)

Pre-Requisites: Completion of all course requirements
Co-Requisite courses: None
Equivalent courses: PSY550L Practicum in Psychology - School Psychology

The purpose of the practicum is to provide experience for the student in a school and/or clinical setting. The student is offered an opportunity to apply skills gained from course work in actual practice of psychology. The student works under the direct supervision of a certified or licensed psychologist with the assistance of a college adviser. The adviser helps the student to develop appropriate goals, to effectively use interpersonal skills, and to determine the areas to be further developed. Periodic group meetings are held with the college supervisor in order to provide additional academic information and to discuss practical experiences. Pre-Requisites: Completion of all course requirements

PSY8340L Racial and Ethnic Bases of Behavior (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY620L Racial and Ethnic Bases of Behavior

This course emphasizes cultural diversity, especially regarding persons of color. The focus is on the impact of cultural diversity on psychological health and growth. The students will be involved in becoming familiar with the challenges and opportunities presented by a diverse culture. Although the emphasis will be on persons of color, coverage will also include diversity in other areas, such as gender, socioeconomic class, and cultural background. Pre-Requisites: None

PSY8410L Cognitive Psychology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY900L Cognitive Psychology

This course will provide students with an intensive analysis of cognitive functioning. Different paradigms of information processing, especially those that are developmentally related, will be reviewed with emphasis on cognitive development and assessment. Pre-Requisites: None

PSY8418L Internship (1, 2 & 3) (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PCS856L Internship (1, 2 & 3)
These courses will serve to meet requirements for licensure for counselors seeking state licensure and NBCC certification. They will include a practicum course and up to two internships based on the licensing and certification requirements. All aspects of psychological practice – appraisal, therapeutic intervention, and consultation – are addressed in the internship experience. Both a site-based and a college supervisor closely monitor the activity of the learner throughout the internship process to ensure that all internship activities are appropriate to this field of psychology. The college and field (site-based) supervisors formally evaluate the progress of individual learners.

**PSY8420L Individualized Research Design (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: HCC982L Individualized Research Design

This course focuses on developing an appropriate research design for each student’s dissertation proposal. It includes articulating the research questions, choosing the design and being able to articulate its appropriateness to the inquiry at hand, discussing the assets and limitations of the design, human subjects and other ethical concerns, and proposed methods of data collection and analysis.

**PSY8508L Pre-Doctoral Internship - School Psychology (Two Semesters) (3)**

Pre-Requisites: Advanced standing and permission of department chair.  
Co-Requisite courses: None  
Equivalent courses: PSY630L Pre-doctoral Internship - School Psychology (two semesters)

Supervised experience in psychotherapeutic and assessment procedures in an approved clinical facility. Includes seminars and case conferences and must be supervised by a licensed clinical psychologist. The internship may be selected after the student has completed 60 credit hours of doctoral work and involves 16 to 20 hours a week. On-campus meetings are also required as a key part of the supervision. Additional requirements may apply. Pre-Requisites: Advanced standing and permission of department chair.

**PSY8518L Pre-Doctoral Internship - Mental Health (Two Semesters) (3)**

Pre-Requisites: Advanced standing and permission of department chair.  
Co-Requisite courses: None  
Equivalent courses: PSY631L Pre-doctoral Internship - Mental Health (two semesters)

Supervised experience in psychotherapeutic and assessment procedures in an approved clinical facility. Includes seminars and case conferences and must be supervised by a licensed clinical psychologist. The internship may be selected after the student has completed 60 credit hours of doctoral work and involves 16 to 20 hours a week. On-campus meetings are also required as a key part of the supervision. Additional requirements may apply. Pre-Requisites: Advanced standing and permission of department chair.

**PSY8635L Abnormal Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS851L Abnormal Psychology

This course focuses on psychopathology and includes studies of the etiology and categorization of psychopathology; historical, sociopolitical, cultural, behavioral and epidemiological approaches to the systematic
description of psychological disorders; use of the DSM-IV-TR in differential diagnosis; potential alternatives to the existing system; and the roles of assessment, treatment planning and intervention for psychological disorders.

**PSY8650L  Family Therapy (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS854L Family Therapy

This course focuses on the history, theory and practice of family therapy, with analysis and comparison of beliefs, therapeutic strategies, and techniques of the most prominent approaches. It includes the study of differences between individual and systems approaches to helping families and the use of the genogram in family therapy, as well as the role and functions of a family therapist.

**PSY8660L  Personality Theory and Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS857L Personality Theory and Development

This course includes exploration of the theories, dynamics and processes of personality; the nature and causes of the personality proposed by major personality theorists; various modes of practice derived from psychoanalytic/psychodynamic, psychophysiological, behavioral, cognitive, humanistic, and existential theoretical paradigms; and the symptomologies of major psychiatric disorders.

**PSY8665L  Positive Psychology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS858L Positive Psychology

This course includes an exploration of the theories, concepts and practice of positive psychology including applications in clinical, coaching, and other settings; promoting psychological health in one's life and practice; the study of positive emotion and life satisfaction; intervention/coaching strategies that address specific life challenges for counselors and their clients.

**PSY8670L  Psychology of Learning (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS859L Psychology of Learning

This course includes studies of the principles and theories of learning and behavior including functionalist, associative and cognitive approaches; and current research and practical applications of learning theories in clinical, educational and other applied settings.

**PSY8675L  Psychopharmacology (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS860L Psychopharmacology
This course includes a focus on psychopharmacology for the counselor. Attention to the ways in which drugs interact with the brain to affect cognitive processes and behavioral states is noted. Study of the specific classes of drugs and their applications to the treatment of psychological disorders including psychosis, anxiety, depression, and bipolar disorders is included.

**PSY8680L  Spirituality in Counseling (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS861L Spirituality in Counseling

This course focuses on the need of counselors to understand the wide range of religious and spiritual experiences of clients and how these impact mental health and well-being. Included is a study of clients’ sense of meaning and purpose in life, as well as their values and beliefs. Consideration is given to the utilization of the client’s belief system in furthering counseling goals. The course introduces, as well, transpersonal psychology theory and practice as a framework for professional counseling.

**PSY8685L  Substance Abuse and Addictive Disorders (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS862L Substance Abuse & Addictive Disorders

This course includes studies of historical and societal aspects of drug use and abuse. It covers core concepts of substance use, abuse and dependence and the etiology of drug abuse. The neurophysiology of addiction and effectiveness of treatment methods and preventive strategies for addictions are covered.

**PSY8690L  Ethics in Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS863L Ethics in Supervision

This course will focus on the ethics and professional orientation for the counseling supervisor, including a focus on dual relationships, legal issues, complex situations in supervision, and a moral and ethical base for the work of supervision.

**PSY8695L  Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS864L Supervision

The course focuses on methods and theories of group supervision, with an emphasis on how the group process facilitates learning of supervisees, as well as building the field of inquiry and knowledge acquisition.

**PSY8700L  Honoring Clinician's Values in Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None
Equivalent courses: PCS865L Honoring Clinician's Values in Supervision

This course focuses on being aware of and respecting the spiritual orientation, as well as personal and professional values of the clinician being supervised. Included are considerations of different value/spiritual traditions and an inquiry into the nature of how values affect the counseling relationship.

**PSY8705L  Challenges in Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS866L Challenges in Supervision

This course includes focus on a variety of challenging issues in supervision, including verbal and nonverbal resistance by supervisees, issues of transference, breaches of ethics, cultural difference and supervision anxiety. Included is the study of ways to counteract resistance, support supervisee openness and turn the process of challenging experiences into a positive growth experience for supervisees and supervisor.

**PSY8710L  Positive Approaches to Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS867L Positive Approaches to Supervision

This course draws from the theories and themes of positive psychology as an approach to supervision. Considerations of supervisor feedback based in principles of thriving, positivity, and wholeness will be included.

**PSY8715L  Supervision in Family Therapy (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS868L Supervision in Family Therapy

This course focuses on the specific skills needed to supervise family therapists and people working with couples and family groups. The unique role of the family therapist and considerations of how this translates to supervision will be included.

**PSY8720L  Supervision Authenticity (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PCS869L Supervision Authenticity

This course focuses on strategies for helping supervisees identify their own coherent counseling philosophy, personal strengths and weaknesses, and their abiding sense of meaning in the work they do. The course includes strategies for the supervisor in eliciting deep conversation with supervisees and in inspiring supervisees towards their own best practices.

**PSY8725L  Supporting Beginning Therapists in Supervision (3)**

Pre-Requisites: None  
Co-Requisite courses: None
This course focuses on the delicate role of supervising beginning practitioners with an emphasis on supporting the new therapist in a developmental move into a full professional identity.

**PSY8730L Advanced Topics in Adult Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY850L Advanced Topics in Adult development

This course focuses on issues and theories of adult development, especially within the context of established psychological and related developmental theories and models. Course content is designed to support professional work with adults through understanding of theories of adult development, life course issues and cultural and biological issues in aging.

**PSY8735L Advanced Topics in Child and Adolescent Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY851L Advanced Topics in Child and Adolescent Development

This course focuses on theories and applications of child and adolescent development. Special emphasis is placed on understanding childhood and adolescent developmental processes from holistic perspectives integrating established theories of biological, cognitive, emotional/psychological, moral, and psycho-social development.

**PSY8740L Advanced Topics in Emotional Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY852L Advanced Topics in Emotional Development

This course focuses on developing one’s understanding of child, adolescent, and adult emotional development, especially within the context of established psychological and related developmental theories and models. Special emphasis is placed on understanding emotional development and processes from holistic perspectives integrating established theories of biological, cognitive, emotional/psychological, moral, and psycho-social development.

**PSY8745L Advanced Topics in Personality, Theory and Development (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY853L Advanced Topics in Personality Theory and Development

This course includes exploration of the theories, dynamics and processes of personality; the nature and causes of the personality proposed by major personality theorists; various modes of practice derived from psychoanalytic/psychodynamic, psychophysiological, behavioral, cognitive, humanistic, and existential theoretical paradigms; and the symptomologies of major psychiatric disorders; and use of the DSM-IV-TR in practice.

**PSY8750L Advanced Topics in Family Therapy (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY854L Advanced Topics in Family Therapy

This course focuses on the history, theory and practice of family therapy, with analysis and comparison of beliefs, therapeutic strategies, and techniques of the most prominent approaches. It includes the study of differences between individual and systems approaches to helping families and the use of the genogram in family therapy, as well as the role and functions of a family therapist.

**PSY8755L Advanced Topics in Group Therapy (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY855L Advanced Topics in Group Therapy

This course includes advanced studies of theoretical approaches to and key concepts of group counseling and their practical applications. It focuses on the elements of group dynamics and process; group counseling methods; strategies and skills; historical and cultural contexts in which models were developed; leadership styles and practicalities of creating and leading groups.

**PSY8760L Nutrition and Emotional Wellness Connections (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY856L Nutrition and Emotional Wellness Connections

This course focuses on understanding the psychological processes underlying humans’ development of eating behaviors and the adoption of both healthy and maladaptive cognitions and behaviors concerning food, eating, and our bodies. Issues to be addressed include: food choice, the development of food preferences, motivation to eat, cultural influences on eating patterns, weight-regulation, body image, dieting behaviors, obesity, eating disorders, and treatment of unhealthy and clinical eating problems. The psychology (not physiological processes) of eating will be emphasized, and psychological problems associated with eating will be thoroughly discussed. Areas of examination include anorexia nervosa, bulimia nervosa, compulsive eating, obesity, and weight preoccupation; discussion of cultural and nutritional factors, family issues, and psychological consequences, as well as preventative and therapeutic interventions. Nutritional needs & food choices for optimal health of individuals across the lifespan and Interrelationship with wellness are also explored.

**PSY8765L Psychology of Wellness Applications (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PSY857L Psychology of Wellness Applications

Course Description: This course incorporates the traditional evidenced based applications and goals of a psychology of well-being (getting rid of negatives and dealing with ordinary challenges), as well focusing on current methods in Positive Psychology that emphasize growth and excellence. Positive Psychology is the study of how human beings prosper and overcome adversity. Its goal is to identify and enhance human strengths and virtues and allow individuals and communities to thrive.

**PSY8770L Psychology of Mind/Body Connections (3)**

Pre-Requisites: None
Co-Requisite courses: None  
Equivalent courses: PSY858L Psychology of Mind/Body Connections

This course examines basic psychological processes that influence health and illness including perceived control, stress, behavioral conditioning, factors that influence behavioral change, self-efficacy and social support. It examines specific behaviors, illnesses, and physical conditions that are part of the behavioral medicine domain, including: obesity, smoking, cancer, HIV, and hypertension. This course also considers learners holistic approaches to stress management, looking at both cognitive skills and relaxation techniques.

PSY8775L  Clinical Pharmacology: Considerations for Health and Wellness (3)  
Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY860L Clinical Pharmacology: Considerations for Health and Wellness

This course is designed to prepare learners to provide guidance and support to clients whose treatment currently includes or might include pharmacotherapy. The purposes, advantages and limitations of specific medications and how to evaluate the usefulness of various medications in conjunction with other treatment approaches will be covered, to include latest information on the effects of psychotropic medications on various groups including children, the elderly, women and different racial and ethnic populations.

PSY8780L  Principles of Brain Based Learning (3)  
Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY862L Principles of Brain Based Learning

This course offers advanced studies of theoretical approaches to and key concepts of brain based learning and their practical applications to applied psychology and education. It integrates cross-disciplinary research in the neurosciences, cognitive psychology, neuropsychology, and education to provide learners with solid empirical foundations of current theories and models of brain based earning principles.

PSY8790L  Cognitive Psychology and Cognitive Functions (3)  
Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY864L Cognitive Psychology and Cognitive Functions

This course covers cognitive neuroscience, attention and consciousness, perception, memory, knowledge, representation, language, problem solving and creativity, decision making and reasoning, cognitive development, and intelligence. Students will research theories, models, and scientists from many disciplines, including physics, chemistry, biology, and neuroscience, which contribute to the study of cognition and cognitive science. The course will present from a premise that cognitive psychology, the science of the human mind and of how people process information, is at the core of empirical investigations into the nature of mind and thought, and that cognitive psychology is at heart empirical philosophy. Students will research, assimilate, and understand core questions about thought, language, perception, memory, and knowledge.

PSY8798L  Directed Study (3)  
Pre-Requisites: None  
Co-Requisite courses: None
This course permits the student, in conjunction with his or her core faculty advisors, to create a mentored-study experience that allows for in-depth study of topic of interest related to the student’s doctoral research. The student must create a complete syllabus outlining the learning experience and receive core faculty approval prior to beginning the course.

**PSY9118L. Directed Study in Learning Disabilities (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY998L Directed Study in Learning Disabilities

This course is designed to allow doctoral students the opportunity to explore a single topic in greater detail than might be possible in other courses. This course is only open to doctoral students with advanced standing, who, because of past experience, can demonstrate competence in up to two non-comprehensive exam courses. Under such circumstances, these courses would be waived, and the directed study used in their place. Lab fee is at the discretion of the instructor. Pre-Requisites: None

**PSY9210L. The Physiological Basis of Behavior (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY920L The Physiological Basis of Behavior

Introduction to the gross and microscopic anatomy of the central nervous system and to the physiology of the nerve impulse and synaptic transmission. The course reviews the relationship of behavior to the nervous system on such chemical factors as hormones and neural transmitters. A term project is assigned for which the student prepares a paper, lecture, videotape, audio tape, or any combination of these dealing with the physiological correlates of any behavior. Pre-Requisites: None

**PSY9220L. Multivariate Research Methods (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: PSY911L Multivariate Research Methods

The focus in this course is on the practical problems involved in real-world research. Topics covered include the nature of causal inference, validity of instruments and design, experimental and quasi-experimental field-based research approaches, design development, and problems involved in the statistical analysis of data obtained from complex design.

**PSY9989L. Dissertation in Educational Psychology (3)**

Pre-Requisites: Completion of all course requirements  
Co-Requisite courses: None  
Equivalent courses: None

Limited to candidates for the Doctor of Educational Psychology degree who have successfully completed the comprehensive examination. Pre-Requisites: Completion of all course requirements
PHYSICAL THERAPY – (Undergraduate)

PTR3201L    Physical Therapy Orientation (1)

Pre-Requisites: None
Co-Requisite courses: None
   Equivalent courses: PTR101L Physical Therapy Orientation

PHYSICAL THERAPY – (Graduate)

PTR7020L    Gross Anatomy I (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR405L Gross Anatomy I

This course is designed to present an in-depth examination of the musculoskeletal system of the human body, with limited consideration of pertinent aspects of other body systems. The course material will be presented in lecture format and supplemented with laboratory experience with human cadaver dissection, computer programs, audiovisual tapes and anatomical models. Topics covered include the spine, neck, thorax and upper extremity.

Pre-Requisites: Successful completion of all previous coursework.

PTR7030L    Scientific Writing in Physical Therapy (1)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR403L Scientific Writing in Physical Therapy

This course focuses on the fundamentals of English and the manner in which health care professionals communicate with scientific and public audiences. Students will be prepared to write documents such as abstracts, research proposals and summaries of scientific literature using AMA style. Students will be exposed to different types of research materials through the use of library and electronic resources.

Pre-Requisites: Successful completion of all previous coursework.

PTR7120L    Gross Anatomy II (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR406L Gross Anatomy II

This course is an extension of Human Gross Anatomy I. The course will continue its in-depth examination of the musculoskeletal system of the human body. The materials will be presented in lecture format, supplemented with laboratory experience with human cadaver dissection, computer programs, audiovisual tapes and anatomical models. Topics covered include the lower extremity, thorax, abdomen, pelvis, head and neck.

Pre-Requisites: Successful completion of all previous coursework.

PTR7131OL   Scientific Inquiry I (1)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Evidenced Based Medicine is the process of finding, appraising and using research findings in order to make sound patient management decisions. This course introduces the learner to the basic concepts of EBM and is the first in the Scientific Inquiry series. Students will learn how to formulate relevant clinical questions, search and critically appraise the medical literature, and implement useful findings into clinical practice. Students will also be introduced to the research requirements and process for the doctor of physical therapy degree at AIC. Teaching methods will include web-based instruction, case studies, small group discussions and lecture. Pre-Requisites: Successful completion of all previous coursework.

**PTR7133L  Foundations of Clinical Medicine (3)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR435L Foundations of Clinical Medicine

This course is the first in a series of courses designed to provide the physical therapy student with a general knowledge of human pathology of selective body systems including implications for patient management. Topics covered are inflammation, wound healing, immunity, cardiopulmonary and endocrine systems. The beginning series of lectures integrates with Fundamentals of Patient Management I for management of integumentary disorders and prepares the student for the specialty unit on burn management in Integumentary Patient Management. This is a foundational course as it introduces the student to medical terminology, promotes and understanding of disease processes, and guides the student in application and analysis of medical pathology in patient care. Pre-Requisites: Successful completion of all previous coursework.

**PTR7142OL  Professional Foundations I (1)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR458L Professional Foundations I

This course will introduce students to professionalism in physical therapy including the Code of Ethics, Guide to Professional Conduct, Professional Behaviors, Standards of Practice, Core Values and the APTA's Vision 2020 Statement. Contemporary practice issues and patient rights will be discussed. Pre-Requisites: Successful completion of all previous coursework.

**PTR7145L  Kinesiology (3)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR457L Kinesiology

This course introduces the student to basic concepts of biomechanics as applied to human functional anatomy and motion. Primary areas of study will include kinematics, kinetics, muscle function and anthropometry. This course prepares the student for further study of movement dysfunction across the curriculum. Pre-Requisites: Successful completion of all previous coursework.

**PTR7150L  Fundamentals of Patient Management I (4)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None
Equivalent courses: PTR425L Fundamentals of Patient Management I

This course provides a foundation for examination and diagnostic skills relevant to orthopedic, neurological, cardiopulmonary and integumentary pathologies. This course introduces the student to the Nagi model of disablement, the International Classification of Functioning, Disability and Health (ICF) and to the five elements of patient/client management as described in the Guide to Physical Therapist Practice. Primary areas of emphasis in this course are examination procedures including history taking, systems review, and basic tests and measures such as assessment of vital signs, reflexes, joint range of motion and strength. In addition, the student will also learn documentation using a SOAP note format. Pre-Requisites: Successful completion of all previous coursework.

PTR7160L Fundamentals of Patient Management II (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR445L Fundamentals of Patient Management II

This is one of two fundamental patient management courses in which the student will begin to acquire clinical skills. It is intended to serve as an introduction to the profession of physical therapy. The course will cover basic clinical techniques such as bandaging, positioning and transferring patients, gait training, wheel chair assessment, application of various heat and cold modalities, hydrotherapy, paraffin, ultrasound and nerve and muscle stimulating currents. This course is designed to prepare the student to critically analyze a patient and provide interventions to those patients in the acute, sub-acute, rehabilitation and homecare settings. Pre-Requisites: Successful completion of all previous coursework.

PTR7210L Musculoskeletal Patient Management I (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR426L Musculoskeletal Patient Management I

This course continues the series on management of the patient with musculoskeletal dysfunction, with an emphasis on patient examination, evaluation, diagnosis and prognosis. The course emphasizes a Cyriax-based examination scheme and also includes basic McKenzie principles for diagnosis of spinal disorders, gait and postural analysis. Pre-Requisites: Successful completion of all previous coursework.

PTR7220L Musculoskeletal Patient Management II (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR446L Musculoskeletal Patient Management II

This course focuses on treatment intervention techniques such as therapeutic exercise, massage, extremity mobilization, and spinal traction, and prepares the student for the design, implementation and evaluation of treatment programs. This course is designed to prepare students to perform patient interventions specifically in the outpatient setting, but can also be adapted to the acute care, sub-acute, rehabilitation and home care setting. This course is integrated with Musculoskeletal I, Gross Anatomy II, Musculoskeletal Clinical Medicine and Kinesiology. Pre-Requisites: Successful completion of all previous coursework.
PTR7230L  Neuroscience I (2)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR407L Neuroscience I

Neuroscience I and II will introduce the students to the neuroanatomy and neurophysiology of the central nervous system. Emphasis will be placed on the sensory and motor functions of the human nervous system. The application of basic neuroscience to clinical practice will be included. Current research topics and methodology will be discussed to foster an ongoing ability to integrate new information. Pre-Requisites: Successful completion of all previous coursework.

PTR7232L  Musculoskeletal Clinical Medicine (3)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR432L Musculoskeletal Clinical Medicine

This is the second in a series of three clinical medicine courses designed to acquaint the student with medical aspects and pathologies of diseases and disabilities. The first orthopedic unit follows Patient Evaluation I: PTR435, for basic orthopedic clinical terminology, runs concurrently with Musculoskeletal Patient Management II: PTR446. Also included are special units on the management of hand problems and maternal adaptations to pregnancy. Pre-Requisites: Successful completion of all previous coursework.

PTR7240OL Professional Foundations II (1)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR459L Professional Foundations II

This course is the second in a series of Professional Foundation courses. The emphasis will be placed on cultural diversity of patients and how the physical therapist must be sensitive to cultural differences and various perceptions of health, illness, and rehabilitation. The course will also familiarize students to the expectations of clinical education experiences including the role of clinical faculty, professional behaviors and the Clinical Performance Instrument. Pre-Requisites: Successful completion of all previous coursework.

PTR7241L Scientific Inquiry II (3)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR500L Scientific Inquiry II

This research course is a continuation of Scientific Inquiry I and will critically explore the issues involved in conducting and evaluating research in physical therapy. Concepts from Scientific Inquiry I will be reinforced while examining the nature, relevance, and application of qualitative and quantitative research methods as they relate to assessment and intervention outcomes in the context of evidence-based practice. Students will learn the concepts, theories and tools necessary to be able to formulate research questions, and design the studies to answer those questions. Emphasis will be given to the strengths and weaknesses of different types of research design, validity and reliability of outcome measures, types of research biases and their effects, and reviewing the clinical research literature. Pre-Requisites: Successful completion of all previous coursework.
**PTR7242L Exercise Physiology (3)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR456L Exercise Physiology

This course investigates the principles of exercise physiology, including physiologic function, muscle architecture, and biological responses to various forms of exercise. Lecture sessions will focus on the basic principles and expected responses to exercise. Selected topics will include aerobic and anaerobic metabolism, muscle structure and physiological responses to exercise. Pre-Requisites: Successful completion of all previous coursework.

**PTR7336L Clinical Education I (12 Weeks) (7)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR700OL Clinical Education I (12 weeks)

Clinical Education I is the first in the series of three clinical education experiences in which the student will have the opportunity to perform examinations and interventions in a clinical setting. The assignment will be 40 hours/week for a 12 week period, beginning at the end of the first academic year. The experience is designed to permit progressive responsibility in patient examination and treatment. Pre-Requisites: Successful completion of all previous coursework.

**PTR7430L Neuroscience II (2)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR408L Neuroscience II

Neuroscience I and II will introduce the students to the neuroanatomy and neurophysiology of the central nervous system. Emphasis will be placed on the sensory and motor functions of the human nervous system. The application of basic neuroscience to clinical practice will be included. Current research topics and methodology will be discussed to foster an ongoing ability to integrate new information. Pre-Requisites: Successful completion of all previous coursework.

**PTR7431L Scientific Inquiry III (3)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR510L Scientific Inquiry III

This course addresses research designs and statistical analyses used in physical therapy and rehabilitation research. Students learn to conduct, interpret, and analyze descriptive and inferential statistics, including group comparisons and regression. Students will learn to interpret and evaluate the research designs and statistics of published research as well as create designs and select the proper statistical tests for their own research hypotheses. Pre-Requisites: Successful completion of all previous coursework.

**PTR7432L Introduction to Ergonomics (1)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR610L Introduction to Ergonomics

This course introduces students to ergonomic principles and processes, governing bodies, and the application of ergonomics in the home and work setting. Selected topics will include job site analysis; work capacity evaluations and intervention planning. Students will conduct a job/home sites analysis and formulate an intervention plan. Pre-Requisites: Successful completion of all previous coursework.

PTR7433L Neuromuscular Clinical Medicine (3)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR640L Neuromuscular Clinical Medicine

This course is the third in a series of three clinical medicine courses and provides an overview of pathological conditions affecting the central and peripheral neuromuscular systems. Emphasis is placed on pathology etiology, clinical signs and symptoms as well as implications for patient management. This information will establish a foundation for management of patients with neuromuscular dysfunction. The student integrates this knowledge with physical therapy patient examination in Neuromuscular Patient Management I and patient intervention planning in Neuromuscular Patient Management II. Pre-Requisites: Successful completion of all previous coursework.

PTR7450L Neuromuscular Patient Management I (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: None

This course examines the theoretical and clinical basis for the examination and treatment of patients with neurological impairments. Historical and current theories of CNS function, motor control, motor learning and motor development will be used as the framework for this process. Examination procedures and findings, and their implications for therapeutic interventions will be explored based on the ICF and the Nagi Model of Disablement and evidence based practice. The format of this course will be lecture/laboratory style, including patient demonstrations, movement analysis, and examination procedures. Pre-Requisites: Successful completion of all previous coursework.

PTR7460L Gait, Orthotics, and Prosthetics (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR645L Gait, Orthotics and Prosthetics

This course introduces the student to the components of normal and pathological gait across the lifespan. The normal mechanics of gait are the basis for the biomechanical assessment of the foot and ankle and patient management for orthotic and prosthetic prescription and training. Pre-Requisites: Successful completion of all previous coursework.

PTR7520L Neuromuscular Patient Management II (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR644L Neuromuscular Patient Management II
This course examines the theoretical and clinical basis for the treatment of patients with neurological impairments. Evidence for historical and current intervention approaches will be discussed. Students will design, implement, progress a plan of care and analyze functional outcomes. The format of this course will be lecture/laboratory style, including patient demonstrations, movement analysis and exploration of handling skills. Pre-Requisites: Successful completion of all previous coursework.

**PTR7530L Principles of Teaching and Learning (2)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR620L Principles of Teaching and Learning

This course will examine the principles of teaching and learning across the lifespan. Students will discuss issues regarding teaching peers, patients, caregivers and the community. Learning theory and styles and the interactive use of technology will be emphasized. Pre-Requisites: Successful completion of all previous coursework.

**PTR7531L Pharmacology (1)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR600L Pharmacology

This course reviews pharmacology and its relevance to physical therapy practice. Basic mechanisms of drug action are described. Drug benefits and detrimental side effects are presented related to specific disorders. Selected medications and their impact on patient management are discussed. This course is taught concurrently with Neuromuscular and Cardiopulmonary Patient Management and relevant sections are interactively supportive. Pre-Requisites: Successful completion of all previous coursework.

**PTR7533L Integumentary Patient Management (2)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR651L Integumentary Patient Management

This course is an advanced integumentary patient management course in which students study patient/client management concepts pertaining to disorders of the integumentary system across the lifespan. It is a culminating integumentary course following introduction to wound care in Foundations of Clinical Medicine. Major topics include evidenced based physical therapy management of integumentary dysfunction associated with burns, traumatic injury, infection, vascular disease, lymphedema, and pressure/mechanical wounds. Pre-Requisites: Successful completion of all previous coursework.

**PTR7536L Clinical Education II (12 Weeks) (7)**

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR710OL Clinical Education II (12 weeks)

Clinical Education II is the second in a series of three clinical education experiences in which the student will have the opportunity to perform examinations and interventions in the adult population, across the practice
patterns. The assignment will be 40 hours/week for a 12 week period, beginning at the end of the second academic year. Pre-Requisites: Successful completion of all previous coursework.

PTR7540L Psychosocial Elements of Illness and Disability (2)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR660L Psychosocial Elements of Illness and Disability

This course examines the relationship of the psychosocial aspects of illness and disability. Students will discuss topics regarding ageism, cultural diversity, gender issues, death and dying, elder and child abuse, and domestic violence. Pre-Requisites: Successful completion of all previous coursework.

PTR7541L Health and Wellness (2)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR664L Health and Wellness

This course investigates the components of health promotion and wellness programs presented with an emphasis on prevention and the promotion of health and wellness. Concepts and constructs of health and wellness in relation to individuals and populations will be reviewed and analyzed. Promotion of health, health of Americans (Healthy People 2020) and world health (World Health Organization, WHO) are discussed. Students examine and apply theories and models relevant to changing health behavior. Pre-Requisites: Successful completion of all previous coursework.

PTR7542L Cardiopulmonary Patient Management (4)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: PTR686L Cardiopulmonary Patient Management

This course focuses on management of the patient with cardiopulmonary dysfunction or disease with an emphasis on patient examination, evaluation, diagnosis, prognosis and evidence based interventions. Students will examine the normal function of the cardiopulmonary system across the life span as the basis for pathogenesis and the application of physical therapy management. Pre-Requisites: Successful completion of all previous coursework.

PTR7630L Scientific Inquiry IV (1)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR520L Scientific Inquiry IV

Scientific Inquiry IV is one of the culminating courses in the scientific inquiry sequence. Students participate in faculty supervised independent study with the ultimate goal of completion of a capstone project in the form of a clinical case report. Students will identify and research a clinical case that has not already been reported in scientific literature. Student will submit the first draft of their manuscript in order to progress to Scientific Inquiry V. Pre-Requisites: Successful completion of all previous coursework.
PTR7631L  Differential Diagnosis and Imaging (3)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR630L Differential Diagnosis and Imaging

The course will explore the principles of differential diagnosis in which the student will develop a systematic method of distinguishing between disorders of similar character by comparing their signs and symptoms. A case-based approach will be used in this course. Principles of imaging, including radiography, CT scans, MRI, special studies and arthrography will also be discussed. The course prepares students for their final clinical education experience. Pre-Requisites: Successful completion of all previous coursework.

PTR7633L  Health Policy and Administration (3)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR671L Health Policy and Administration

This course focuses on leadership theory and principles, organizational processes, policy formation, political aspects of the Affordable Healthcare Act, and various components of private practice. Upon completion of this course, students will be prepared to incorporate the values of transformational leadership into their personal leadership plan, understand the progression of starting their own practice, and navigate the contemporary healthcare environment. A current research-based approach will be used to explore leadership, healthcare innovation, and political influences in order to create models that may expand the profession of physical therapy. Pre-Requisites: Successful completion of all previous coursework.

PTR7641L  Complex Patient: Integrative Seminar (2)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR690L Complex Patient: Integrative Seminar

The Complex Patient seminar integrates both clinical and basic science knowledge and skills acquired throughout the curriculum by analyzing patients with multiple diagnoses and movement dysfunction. Students will have the opportunity to apply clinical decision-making skills to the dynamic interaction of multiple system variables (physiological, biomechanical, psychological, social, cultural and environmental) and their impact on the disease and recovery process. Tests, measures and interventions will be discussed related to the diagnostic categories described in the Guide to Physical Therapist Practice. The format of this course will include a variety of learning experiences including presentations by expert clinicians, small group discussions, patient based experiences, video demonstrations and written assignments. Pre-Requisites: Successful completion of all previous coursework.

PTR7650L  Pediatric Patient Management (4)

Pre-Requisites: Successful completion of all previous coursework.
Co-Requisite courses: None
Equivalent courses: PTR674L Pediatric Patient Management

This course integrates knowledge from core curriculum courses as it relates to normal development and pediatric disorders. The course will examine the clinical decision making process involved in pediatrics with regards to musculoskeletal, neurological, cardiopulmonary and neonatal impairments. The student will be knowledgeable in the tests, measures, and examination, evaluation, and intervention strategies as described in the Guide to Physical
Therapy Practice. The student will explore evidence-based medicine for further investigation of the efficacy of physical therapy outcome measures in pediatrics. The student will recognize and internalize the psychosocial impact on children and families with disabilities. A variety of learning experiences will be provided to develop critical thinking skills. Pre-Requisites: Successful completion of all previous coursework.

**PTR7660L Musculoskeletal Patient Management III (4)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR650L Musculoskeletal Patient Management III

This course requires integration of material previously learned in Gross Anatomy, Kinesiology, and the Patient Management and Clinical Medicine series. The focus of this course is on advanced examination and intervention skills for the patient with spinal and TMJ musculoskeletal impairments, with an emphasis on evidence-based practice. Interventions will include muscle energy techniques, mobilization, manipulation as well as therapeutic exercise and patient education. Teaching methods for this course will include lecture, discussion, lab experience, on-site ergonomic analysis, patient demonstrations, case studies, student presentations, and online lectures and discussions. Pre-Requisites: Successful completion of all previous coursework.

**PTR7730L Scientific Inquiry V (1)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR530L Scientific Inquiry V

Scientific Inquiry V is the culminating course in the scientific inquiry sequence. Students participate in faculty supervised independent study with the goal of completion and dissemination of a capstone project in the form of a clinical case report. Students identify, research and document a clinical case that has not already been reported in scientific literature. Students submit a manuscript, create a poster, prepare and present a platform presentation and disseminate their capstone projects with the college and local community. Pre-Requisites: Successful completion of all previous coursework.

**PTR7736L Clinical Education III (12 Weeks) (7)**

Pre-Requisites: Successful completion of all previous coursework.  
Co-Requisite courses: None  
Equivalent courses: PTR720L Clinical Education III (12 weeks)

Clinical Education III is the culminating clinical education experience. The assignment will be 40 hours/week for a 12 week period. The student will demonstrate entry level skills and knowledge necessary to enter into the professional practice of physical therapy upon completion of this course. Pre-Requisites: Successful completion of all previous coursework.

**SPEECH and LANGUAGE PATHOLOGY**

**SLP1010L Human Communication and Disorders (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None
This course provides an introduction to the field of communication sciences and disorders including language, speech, and hearing. Normal development and basic anatomy relevant to each of these areas will be discussed along with an overview of disorders of speech, Language and hearing. Additional topics related to scope and practice of the profession, assessment overview, therapy overview, augmentative/alternative communication, sign language, etc. will be discussed.

**SLP1050L**  **Multicultural Issues in Language (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None

This course provides an introduction to culture and awareness of the diversity among cultures within our own society. Definitions of race, culture and ethnicity are discussed as well as the various cultures found within the United States. The history of immigration and the impact on the United States will be explored. In addition, communication and basic language development between English and non-English speaking cultures will be addressed.

**SLP2010L**  **Normal Speech and Language Development (3)**

Pre-Requisites: PSY2450L  
Co-Requisite courses: None  
Equivalent courses: None

This course focuses on the acquisition of speech and language in children and the continued development of language over the life span and will include the biological basis of language, models of language development, and the structure of language systems. Pre-Requisites: PSY2450

**SLP3010L**  **Speech-Language Disorders in the Educational Setting (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None

Study of the implications of a broad range of speech and language disorders on learning and academic performance, which will include language processes that are related to literacy acquisition. Assessment and service delivery models in the educational setting will also be addressed.

**SLP3050L**  **Clinical Methods (3)**

Pre-Requisites: None  
Co-Requisite courses: None  
Equivalent courses: None

This course presents an introduction to clinical issues in providing services to persons with communication impairments. Case management, documentation, assessment, and therapy principles as well as professional responsibilities and ethics are addressed.
SLP3099L  Practicum (3)

Pre-Requisites: All courses in SLP Sequence
Co-Requisite courses: None
Equivalent courses: None

This practicum allows the student to apply concepts and theories learned in previous classes via observation of assessment and therapy sessions in a variety of educational and clinical settings. Where permissible and practical, students will have the ability to participate in supervised speech, language and hearing interventions. Pre-Requisites: All courses in SLP sequence

SOCIOLOGY – (Undergraduate)

SOC1010L  Introduction to Anthropology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: ANT101L Introduction to Anthropology

This course presents the fundamentals of anthropology. Both physical and cultural anthropological perspectives will be utilized. A holistic focus will be on the intersection of these two perspectives as they attempt to explain human social behavior. Main topics related to the role and results of natural selection include: territoriality, food acquisition, aggression, gender roles, marriage, reproduction, religion, socialization strategies and child rearing. Pre-Requisites: None

SOC1100L  Introduction to Sociology (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: SOC101L Introduction to Sociology

This course is designed to acquaint the student with working knowledge of the concepts used by sociologists and with the well-established generalizations in the field. Topics include socialization, primary groups, stratification, population, and bureaucracy. This course is a prerequisite for all other sociology courses. Pre-Requisites: None.

SOC1400L  Social Problems (3)

Pre-Requisites: SOC1100L
Co-Requisite courses: None
Equivalent courses: SOC205L Social Problems

This course examines what makes a social problem and an analysis of present areas of tension and social maladjustment, especially those associated with recent rapid social changes. Pre-Requisites: SOC1100

SOC1610L  Complex Organization (3)

Pre-Requisites: SOC1100L
Co-Requisite courses: None
Equivalent courses: SOC210L Complex Organizations
This course explores the operation and structure of complex organizations and bureaucracies. Particular emphasis is placed on corporations, government agencies, and educational institutions. Pre-Requisites: SOC1100

**SOC2400L  Crime and Delinquency (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC214L Crime and Delinquency

The extent and types of crime and delinquency in contemporary society, and the criminologist's contribution to the analysis of causal factors are examined and discussed. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC2410L  Deviance and Social Control (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC216L Deviance and Social Control

This course introduces the sociological perspectives of deviant behavior, including social control theory, social disorganization theory, anomie theory, labeling theory, and conflict theory. Scientific research on such deviant behaviors as prostitution, pornography, and drug use will be examined. Governmental deviance, corporate deviance, and police deviance and the cost of these forms of deviance to society is explored. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC2420L  Sociology of American Institutions (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: SOC212L Sociology of American Institutions

This course focuses on the creation and maintenance of social institutions and the ways in which these congeries of organizations and structures shape human relations and experience. Particular emphasis will be placed on the educational system, government, the family, religion, the economy, and the media. Pre-Requisites: None

**SOC2430L  Marriage and the Family (3)**

Pre-Requisites: SOC1100L
Co-Requisite courses: None
Equivalent courses: SOC213 Marriage and the Family

An examination is made of the family as a major social institution, and how family forms and roles vary across cultures. Topics include ethnic and social variations in structure, single-parent families, parent-child interactions, non-traditional marriages, and domestic violence. Pre-Requisites: SOC1100

**SOC2600L  Class, Status, and Power (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC305L Class, Status, and Power
This course is an in-depth exploration of the causes and consequences of social class inequality in the United States. Emphasis will be placed on an analysis of the multiple ways in which social and economic inequality operates to provide power and privilege to certain segments of society. The effect of social class inequality on racial and gender inequality is also considered. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC2621L Sociology of Aging (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)  
Co-Requisite courses: None  
Equivalent courses: SOC321L Sociology of Aging

Social aspects of aging over the life span will be discussed. Age-related changes, role transitions, and outcomes of increased longevity will be presented. Special topics include: race, ethnicity, retirement, access to healthcare, long-term care, as well as death and dying. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC2631L Sociological Research Methods (3)**

Pre-Requisites: SOC1100, SOC1400, and senior standing  
Co-Requisite courses: None  
Equivalent courses: SOC331L Sociological Research Methods

A study is made of methods used in sociological research with special emphasis on measurement and data collection. Time will also be devoted to the interview, questionnaire, and recent sociological studies. Pre-Requisites: SOC1100, SOC1400, and senior standing

**SOC2643L Sociology of Organizations and Occupations (3)**

Pre-Requisites: SOC1100L and SOC1610L  
Co-Requisite courses: None  
Equivalent courses: SOC243L Sociology of Organizations and Occupations

This course examines the development and functioning of bureaucratic organizations, including both formal and informal aspects. The sociology of work will also be discussed with emphasis on occupations and professions and their performance expectations within the organization. Pre-Requisites: SOC1100, SOC1610

**SOC2650L Sociology of the Third World (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)  
Co-Requisite courses: None  
Equivalent courses: SOC250L Sociology of the Third World

The course will cover the social systems of former colonial nations in Africa, Asia, and the Caribbean. Emphasis will be placed on their changing institutions: political, economic, educational and social, as influenced by colonialism. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC2800L Classical Sociological Theory (3)**

Pre-Requisites: SOC1100, SOC1400, and Junior standing  
Co-Requisite courses: None
Equivalent courses: SOC316L Classical Sociological Theory

The student will study the outstanding theorists in the development of sociological thought. Special attention will be given to the works of Durkheim, Marx, and Weber. Upper division students. Pre-Requisites: SOC1100, SOC1400, and Junior standing

**SOC3243L  Race and Ethnic Relations (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC343L Race and Ethnic Relations

This course is an intensive study of selected ethnic and racial groups and subcultures in their structural and cultural aspects. Students will study how these affect their lifestyles in relation to dominant groups within the social system. Both classical and contemporary models of minority-dominant relations will be considered for their relevance toward an adequate understanding of contemporary social systems. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC3430L  Sociology of Religion (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC338L Sociology of Religion

This course examines the impact of religion in American life; the changing religious landscape; profiles of America's religious groups; trends in individual religious commitment; and the relationship between religion and politics in the U.S. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC3440L  Sociology of Health and Illness (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC340L Sociology of Health and Illness

Societal expectations and reactions to health and illness in the United States will be examined. Institutions and current provider systems will be described. Discussion will center around the concept of the sick role and the reciprocal statuses (medical and allied health professions) involved. Alternative health options will also be discussed. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)

**SOC3630L  Gender and Society (3)**

Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
Co-Requisite courses: None
Equivalent courses: SOC337L Gender and Society

This course presents a sociological analysis of the status of women after the Women's Liberation movement. Special emphasis on roles, work, family, education, and goals women have set for themselves, not only in the United States but in other societies as well. Pre-Requisites: SOC1100 and SOC1400 (1400 may be taken concurrently)
SOC4894L Directed Study (3)

Pre-Requisites: SOC1100L SOC1100, Junior or Senior status, permission of the instructor and approval of the department chair and the dean of the School of Arts, Education and Sciences
Co-Requisite courses: None
Equivalent courses: SOC398L Directed Study

Selected topics, chosen in accordance with the student's interests and background, are analyzed in depth. Pre-Requisites: SOC1100, Junior or Senior status, permission of the instructor and approval of the department chair and the dean of the School of Arts, Education and Sciences.

SOC4899L Internship in Sociology (3)

Pre-Requisites: SOC1100 and permission of the instructor and department chair.
Co-Requisite courses: None
Equivalent courses: None

The object of the internship program is to give the student practical experience in a social agency, business, organization, or institution. Intern assignments will be made in keeping with the student's future vocational plans. Course work includes related readings, maintaining a journal and a final paper summarizing the internship experience. Credits awarded will be determined by instructor and department chair. Pre-Requisites: SOC1100 and permission of the instructor and department chair.

SPANISH – (Undergraduate)

SPA1010L Latin American Popular Culture (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: None

This course examines distinguishing features of contemporary Latin American culture. It will provide students as understanding of modern daily life, including topics such as fashion, popular music, television, etc. Emphasis will be given to social and business etiquette, especially for students who wish to prepare themselves to engage in intercultural or international transactions. Pre-Requisites: None

SPA1100L Spanish for Health Professionals (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: SPA104L Spanish for Health Professionals

This course provides students with a basic knowledge of the terms and expressions used in the field of health care. Pre-Requisites: None

SPA1201L Elementary Spanish and Culture I (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: SPA101L Elementary Spanish and Culture I
This is a basic course for students who have had little or no experience with the Spanish language. The course includes drill in pronunciation, elementary conversation, grammar, and writing, and the use of a cultural approach text. This is a comprehensive language course teaching the four skills of reading, writing, speaking, and listening. Pre-Requisites: None

**SPA1202L Elementary Spanish and Culture II (3)**

Pre-Requisites: SPA1201L  
Co-Requisite courses: None  
Equivalent courses: SPA102L Elementary Spanish and Culture II

This course is a continuation of SPA1201. Pre-Requisites: SPA1201 or permission of the instructor

**SPA2211L Intermediate Spanish I (3)**

Pre-Requisites: SPA1202L or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: SPA211L Intermediate Spanish I

The course will examine more complex grammatical/structural aspects of Spanish with expanded opportunities for listening, speaking, reading and writing practice. Pre-Requisites: SPA1202 or permission of instructor.

**SPA2212L Intermediate Spanish II (3)**

Pre-Requisites: SPA2211L or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: SPA212L Intermediate Spanish II

This course is a continuation of SPA2211. Pre-Requisites: SPA2211 or permission of instructor.

**SPORTS and RECREATION MANAGEMENT – (Undergraduate)**

**SRM1600L Management of Sports Industries (3)**

Pre-Requisites: MGT1400  
Co-Requisite courses: None  
Equivalent courses: SRM200L Management of Sports Industries

Examines the principles and foundations of sports management and how the concepts of planning, organizing, leading and controlling apply to the sport enterprise. The focus is on the application of core management principles, including ethics, to provide a basis for understanding the development and oversight of sport organizations, and for addressing current management issues facing this industry. Pre-Requisites: MGT1400

**SRM2600L Event and Facility Management (3)**

Pre-Requisites: SRM1600  
Co-Requisite courses: None  
Equivalent courses: SRM306L Event and Facility Management
Examines the history of facility management and modern issues facing facility managers. The focus is on the application of management skills as applied to arena, stadium, and event management. The course examines the requisite skills to run a facility, including understandings on management theory, facility operations, marketing, budgeting, and legal considerations. Pre-Requisites: SRM1600

SRM2800L Programming Human Services (3)

Pre-Requisites: SRM1600
Co-Requisite courses: None
Equivalent courses: SRM307L Programming in Human Services

This course studies the effectiveness of programs and explores how programs are developed to achieve positive social change. The human service areas of application would include criminal justice, sports and recreation management, psychology, and sociology. Pre-Requisites: SRM1600

SRM2801L Sporting Goods Industry (3)

Pre-Requisites: SRM1600
Co-Requisite courses: None
Equivalent courses: SRM309L Sporting Goods Industry

Examines the principles and foundations of the sporting goods industry. The focus is on the history, the current structure, and the current challenges facing the industry. The students also gain an understanding of the role of vendors in the industry as well as learning about the channels of distribution, an understanding of how products are marketed in the sporting goods industry, the financial dimensions of the sporting goods industry and an appreciation for the growth of e-commerce in the sporting goods industry. Pre-Requisites: SRM1600

SRM2850L Communication in Sport (3)

Pre-Requisites: SRM1600
Co-Requisite courses: None
Equivalent courses: SRM305L Sports Media Relations

This course will provide the student with an understanding of the sports communications industry. This course will cover the history and evolution of sports communication, the varying and expanding methodologies of sport communications (covering print, electronics, and online media resources), understanding the importance of advertising and public relations, and the role they play in the media, sociological and legal aspects of sport communication, as well as careers in this sport communication and media industry. This course builds on and enhances skills learned in the introduction to Sports Management course, and serves to compliment topics introduced in other courses such as Sports Law, Sports Economics, and Facility Management. Note: Communications does offer a course in sports writing (COM 319), but does not capture any of the other area of sport communication, which are far more significant in today's sports industry. Additionally COM319 does not address any aspects of available careers or the evolution of communications. Pre-Requisites: SRM1600

SRM3203L Sports Psychology (3)

Pre-Requisites: Junior or Senior status
Co-Requisite courses: None
Equivalent courses: SRM303L Sports Psychology
Examines psychological theories and research related to sport and exercise behavior. The course is designed to introduce students to the field of sport and exercise psychology by providing a broad overview of the major topics in the area. Students work to increase understanding of how psychological factors influence involvement and performance in sport, exercise, and physical education settings, and to increase understanding of how participation in sport, exercise, and physical education influences the psychological makeup of the individuals involved. Pre-Requisites: Junior or Senior status

**SRM3210L  Sport Marketing (3)**

Pre-Requisites: MKT1450L  
Co-Requisite courses: None  
Equivalent courses: SRM300L Sport Marketing

Analyzes the application of marketing, promotion, and public relations principles to sport industries. Explores issues in marketing of the sport enterprise, sport-related programs and facilities, products, and services. Focus on marketing sport as a commercial proposition, and on relating sport as a support tool in the marketing of non-sport related products and services. Addresses the unique challenges and new trends in sport marketing. Pre-Requisites: MKT1450

**SRM3211L  Legal Issues in Sports and Recreation Management (3)**

Pre-Requisites: Junior or Senior status  
Co-Requisite courses: None  
Equivalent courses: SRM308L Legal Issues in Sports and Recreation Management

This course analyzes the legal principles and issues involved in the field of sports and recreation management. It explores tort liability, negligence, and product liability, constitutional law, labor laws, personal freedom and individual rights, discrimination issues, due process, and risk management. Pre-Requisites: Junior or Senior status

**SRM3212L  International Aspects of Sports Management (3)**

Pre-Requisites: Junior or Senior status  
Co-Requisite courses: None  
Equivalent courses: SRM310L International Aspects of Sports Management

This course analyzes the evolving nature of the global sports and recreational business environment with special focus on major events such as the Olympics, World Cup, and Formula One. Integration of markets, regulatory institutions and policies, and cultural factors are examined as driving forces as well as foreign entry strategies and operational decisions in the growth of sports throughout the global economy. Pre-Requisites: Junior or Senior status

**SRM3401L  Sport Finance and Economics (3)**

Pre-Requisites: ECO1401 and/or ECO1402, and at least sophomore status  
Co-Requisite courses: None  
Equivalent courses: SRM301B Sport Finance and Economics

Examines the application of financial methods and economic analysis to the sport enterprise. Focus on understanding the sport organization as a business model. Techniques of labor economics are applied to the market for sport talent. Uses the tools of finance to assess the economic viability of sport enterprises - ratio
analysis, return of investment, capital budgeting, taxation and cash flow, and revenue enhancement through ticket sales, sponsorship, and licensing. Pre-Requisites: ECO1401 and/or ECO1402, and at least sophomore status

**SRM4090L Current Issues in Sports Management (3)**

Pre-Requisites: Junior or Senior status  
Co-Requisite courses: None  
Equivalent courses: SRM390L Current Issues in Sports Management

This course deals with topics that are in the forefront of concern for managers in the sports industry. Among the topics covered are events management, security issues (terrorism and crowd control), selection and compensation of key player, technical, and administrative personnel, community standards and public policy, behavior and conduct of players and spectators. The course makes extensive use of case studies, guest speakers, and field trips to major sporting sites in New England. Pre-Requisites: Junior or Senior status

**SRM4899L Management Practicum (3)**

Pre-Requisites: Junior or Senior status, and a student in the SUM major or minor  
Co-Requisite courses: None  
Equivalent courses: SRM395L Management Practicum

Internship in sports and recreation management. Pre-Requisites: Junior or Senior status, and a student in the SRM major or minor

**SOCIAL WORK – (Undergraduate)**

**SWK3201L Social Case Work (3)**

Pre-Requisites: SWK2401, SOC1100 and six hours of psychology or permission of the instructor.  
Co-Requisite courses: None  
Equivalent courses: SWK301L Social Case Work

A primarily experiential and social work course for those seriously considering social work careers. Major topics covered include methods and techniques used in social casework, the interviewing process, role-playing, and casework within the agency setting. Pre-Requisites: SWK2401, SOC1100 and six hours of psychology or permission of the instructor.

**SWK3460L Social Work-Child Welfare I (3)**

Pre-Requisites: SOC1100, SWK2401, SWK3201 or permission of instructor  
Co-Requisite courses: None  
Equivalent courses: SWK360L Social Work-Child Welfare I

This course will focus on the knowledge, methods and skills of social work practice in the field of child welfare. It will provide an overview of the current children’s welfare system services and practices. Students will explore and analyze the impact of services and practices on the child and family. In addition, students will examine the historical trends in services to children and their families within the framework of supportive, supplemental, and substitute services that have evolved over time as part of the service structure in child welfare. While recognizing the impact of impoverishment, changing family structures, and other aspects of pressures on contemporary family life, attention will be given to social work approaches that encourage parenting strengths and home-based
intervention options as preventive strategies in child welfare services. Pre-Requisites: SOC1100, SWK2401, SWK3201 or permission of instructor.

**SWK4899L Internships in Social Work (3)**

Pre-Requisites: SOC1100 and permission of the instructor and department chair.
Co-Requisite courses: None
Equivalent courses: SWK361L Internships in Social Work

The object of the internship program is to give the student practical experience in a social agency, business, organization, or institution. Intern assignments will be made in keeping with the student's future vocational plans. Course work includes related readings, maintaining a journal and a final paper summarizing the internship experience. Credits awarded will be determined by instructor and department chair. Pre-Requisites: SOC1100 and permission of the instructor and department chair.

**THEATER – (Undergraduate)**

**THR1400L Introduction to Theater (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: THR101L Introduction to Theater

This course introduces students to theater as an interdisciplinary, collaborative art. Students will read and analyze plays from varied periods of theater history. The course content includes study of the art, craft, business, and historical roots of drama, as well as theaters relationship to the fine arts. Students will attend the Fall or Spring play and write a formal theatrical critique and whenever possible will attend outside theatrical productions. Over the course of the semester students can expect to engage in a number of group projects including re-writing a scene from a classical play in their own contemporary vernacular and writing a short play using only three words. Pre-Requisites: None

**THR1420L Fundamentals of Acting/Acting I (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: THR102L Fundamentals of Acting/Acting I

This course introduces students to the study and practice of acting for the theater. They will acquaint themselves with physical and vocal warm up activities to harness and understand of the actor’s body. Students will read plays and will develop one monologue and one scene over the course of the semester from one of the plays read. Students will engage in acting exercises to enhance focus, clarity of thought, a better understanding text, a better understanding of objective driven action and vocal and physical transformation and character development. For each character played students will create a character biography and character journal prior to final performance of scene and monologue. This course also provides a space in which students can harness skills in public speaking, development of confidence and poise, and focus in any given situation. Pre-Requisites: None.

**THR1430L Theater Workshop I (3)**

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: THR105L Theater Workshop I

Theater Workshop I is the first of three courses under the theater workshop designation. This course is an introduction to the play development process. Students can assume the duties of an actor, crew technician, crew costumer and crew props master. Students will be encouraged to work out of their areas of interest to work instead in the areas they know little about. As this section of Theater Workshop is meant for the student who is newly engaging theater each student will be working as an assistant and or supporting player in the process. This course is structured like a crew and company at a professional theater in that hierarchy is of great importance. There will be a lead in each area of study and the students in Theater Workshop I will assist and or apprentice under the more experienced theater students. In addition to other assigned work each student will write a formal evaluation of their work at the end of the semester. Students can take this course for 1, 2, or 3 credits depending on their credit load that semester. Each students work hours in the course will correlate with the credit(s) they are taking. Students can take this course for up to three credits. Pre-Requisites: None.

THR2420L Styles of Acting/Acting (3)

Pre-Requisites: THR1420 and Sophomore Standing
Co-Requisite courses: None
Equivalent courses: THR202L Styles of Acting/Acting

This course is the second course in the acting curriculum. The focus of this course will be on the identification and study of the varied styles of acting. We learn in Fundamentals of Acting the importance of focus, center, objective driven action, understanding of text, the relationship between the voice and the body, improvisation, and transformative tools for character development. In this course we will study the varied styles of acting including but not limited to, Kabuki, Commedia, Poetic Realism, Realism, Absurdist etc. We will dive into world theater styles and acting for the theater by watching video of actors training in such areas and engaging in some of the same exercises and assignments they do. We will write about such styles and debate the relevance or lack of relevance and how an actor can adapt to changing styles of performance. One major project will be assigned at the end of the semester and will culminate with the performance of a monologue or scene from one of the plays we have read in class in one of the styles studied in the course. The performance will be accompanied by a written explanation of the student process in developing the performance and a self-evaluation of their work. Pre-Requisites: THR1420 and Sophomore Standing.

THR2430L Theater Workshop II (3)

Pre-Requisites: THR1403L
Co-Requisite courses: None
Equivalent courses: THR205L Theater Workshop II

Theater Workshop II is the second of three courses under the theater workshop designation. This course is an intermediate course and is meant for students who have taken Theater Workshop I. Students can assume a larger role in the production in terms of the hierarchy of theatrical production. Students can work as an actor, technician, asst. stage manager, publicity director, asst. costumer, asst. lighting designer or light board operator, props master, or dramaturgy (theatrical researcher). Students will be expected to lead by example for the students involved in Theater Workshop I and will develop work that is reflective of their level of understanding of the subject and their professional title. In addition to other assigned work each student will write a formal evaluation of their work at the end of the semester. Students can take this course for 1, 2, or 3 credits depending on their credit load that semester. Each students work hours in the course will correlate with the credit(s) they are taking. This course can be taken multiple times up to 3 credits. Pre-Requisites: THR1430
THR2500L  Scene Study (3)

Pre-Requisites: THR1420 and Sophomore Standing.
Co-Requisite courses: None
Equivalent courses: THR203L Scene Study

This course is the study of scene development and text analysis for the actor. Students read six plays over the course of the semester and chose a scene to work on from each play assigned. Students will engage in conventional and non-conventional scene development and analysis while intensely studying subtext, hidden meanings, and character background. There will be many written and research based assignments related to each character developed. Students will harness a deep understanding of how a scene is conceived of, written and performed with a scholarly knowledge of the text and its origination. Pre-Requisites: THR1420 and Sophomore standing.

THR2600L  Movement for the Actor (3)

Pre-Requisites: THR1402L
Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: THR206L Movement for the Actor

This course focuses on the development of each students understanding of their own body as performers. This course can be taken by actors, dancers, students interested in physically harnessing their center and athletes looking to improve upon their ability to exhibit focused and graceful action on the field. Students will learn how to harness energy and sustainability while engaging in physical theater exercises that focus on the brain body connection. Students will read texts and articles focused on specific movement styles and will engage in physical exploration of these styles furthering their understanding of each styles purpose. Students will develop movement topographies and an understanding of stage combat and will journal about their experiences. An attempt is made to bring in a movement based theater company for workshop training. Pre-Requisites: THR1420

THR2610L  Costume Design (4)

Pre-Requisites: THR1403L
Co-Requisite courses: None
Equivalent courses: THR214L Costume Design

In this course, comprised of both lecture and laboratory, students will learn the fundamentals of costume, hair and make-up design for the stage. Students will learn techniques for stage make up and wig design, how to design costume sketches, and the techniques necessary to design and build a garment. Students will also learn costume history, the importance of costumes and make up, and how they serve contemporary productions. Students will learn all aspects of caring for and storing costumes, and how to organize the dressing room for productions. Final projects will include make up plots, styling wigs, and building a garment for the department production. Students will also learn how to develop a portfolio of their work. Pre-Requisites: THR1430

THR2620L  Play Production (4)

Pre-Requisites: THR1400, THR1402, and THR1430
Co-Requisite courses: None
Equivalent courses: THR216L Play Production

This course is the fundamental technical theater course in the theater arts curriculum. There is a lecture and lab component to this course and students should be prepared to work hard as both scholars and crew members.
During lab time student will learn how to correctly use tools and saws, develop a theatrical flat, paint sets using various techniques, recognize the basic parts of a lighting instrument, rig lighting, gel lighting, design a set and create a set model. Students will be introduced to the basics of set, light, and sound design while learning about the history of technical theater and how spectacle can be used most effectively. Students in play production will use their skills to develop the set, lights, and sound for the theatrical production that semester. In conjunction with students in the theater workshop courses Play Production students will lead the development of spectacle for the play. Pre-Requisites: THR1400, THR1402, and THR1430

THR3200L  Voice and Articulation (3)

Pre-Requisites: THR1420L
Co-Requisite courses: None
Equivalent courses: THR204L Voice and Articulation

This basic voice and articulation course and accompanying lab is designed to help students improve their speaking voice both onstage and in professions such as teaching, management, marketing, public relations, and law just to name a few. In this course, students will gain an understanding of vocal health and the physical demands placed on the vocal apparatus. Content covered will include the Linklater Vocal Warm Up, study of The International Phonetic Alphabet, and basic dialect (accent training). Students will develop the tools needed to recognize and start to deal with their own individual vocal challenges including sustainability, and moving beyond impediments of all kinds. Pre-Requisites: THR1420

THR3210L  Theater History I (Ancient Greeks – 1750) (3)

Pre-Requisites: ENG1201 and THR1400
Co-Requisite courses: None
Equivalent courses: THR210L Theater History I (Ancient Greeks -1750)

This course is a history of theater course and will focus on the time periods of Ancient Greece through to 1750. Students will read plays from each era of theater history studied and will research the life of work of each playwright read. There is a strong lecture component to this course coupled with a written assignment for each play assigned. There will be an exam for each section of the course material divided by period and will culminate with a major research based project at the end of the course. Pre-Requisites: ENG1201 and THR1400

THR3430L  Theater Workshop III (3)

Pre-Requisites: THR2430 or permission of the instructor.
Co-Requisite courses: None
Equivalent courses: THR305L Theater Workshop III

Theater Workshop III is the third of three courses under the theater workshop designation. This course is an advanced course and is meant for students who have taken Theater Workshop I and II. Students can assume roles in the leadership in the production including working as the Set designer, Costume designer, Stage Manager, Publicity Director, Lighting Designer, Make Up designer and upper level acting student. Students will be expected to lead by example for the students working with them making up their crews and apprentice groups. Students in Theater Workshop III must be prepared to take on leadership roles that give them the opportunity to experience the level of work and commitment needed to perform such duties in the real world of the professional theater. Students in this course must also have a focus in terms of their area of study within the course and it must correlate with something they have worked with in the past in the other theater workshop courses. Pre-Requisites: THR2430 or permission of the instructor.
THR3610L  Theater History II (1750 - Present) (3)

Pre-Requisites: ENG1202L
Co-Requisite courses: None
Equivalent courses: THR310L Theater History II (1750-Present)

This course is a history of theater course and will focus on the time periods of 1750 through to the present time. Students will read plays from each era of theater history studied and will research the life and work of each playwright read. There is a string lecture component to this course coupled with a written assignment for each play assigned. There will be an exam for each section of the course material divided by period and will culminate with a major research based project at the end of the course. Pre-Requisites: ENG1202

THR3820L  Dramaturgy (3)

Pre-Requisites: Junior or Senior status and permission of the instructor.
Co-Requisite courses: None
Equivalent courses: THR312L Dramaturgy

This course is based on theatrical research of dramaturgy. If a student has an interest in theatrical research and would like to serve as the dramaturge for a production on campus they will be instructed to take this course in theatrical research. Students will learn the basic approach to theatrical research and why it is integral to ensure a scholarly theater production. The course will focus on the development of the dramaturge's writing skills and formation of a dramaturgical notebook. Pre-Requisites: Junior or senior status and permission of the instructor.

THR3830L  Stage Management (3)

Pre-Requisites: Junior or Senior status and permission of the instructor.
Co-Requisite courses: None
Equivalent courses: THR313L Stage Management

This directed study course is based on the development of Stage Management skills. If a student has interest in working as a stage manager they will be instructed to take this one credit course. Students will learn to develop a stage managers box of tools as well as a stage managers prompt book including any and all information about the production being worked on. Students will learn to develop necessary forms for auditions, actor biography, and production meeting minutes as well as rehearsal report notices. Sections focusing on how to work with challenging actors and crew members will be offered as well as how to work with directors and designers of varied style. Pre-Requisites: Junior or Senior status and permission of the instructor.

THR4610L  Theater and Society (3)

Pre-Requisites: ENG1202 and THR1400
Co-Requisite courses: None
Equivalent courses: THR314L Theater and Society

This course is a theory based course and will focus on the relationship theater shares with the society. As theater reflects the world we live in, we must as theater artists take an interest in our communities. We will study the work of Augusto Boal, The Living Theater, The GLBT, Women's and Black Theater Movements. Students will be assigned readings and will research a theater and society movement. There will be a major final research project assigned that will be presented to the class. The course will culminate with the class volunteering at a local school and will offer ensemble and community building workshops to students. There is an attempt made to bring in guest theater artists to engage students in discussion of their work as a socially conscious theater artist.
THR4810L  Directing (3)

Pre-Requisites: THR2420, THR2500, THR2430, and Senior standing.
Co-Requisite courses: None
Equivalent courses: THR399L Directing

This course is focused on the fundamentals of directing for the theater. This culminating experience should be taken during a student’s senior year. The basic fundamentals of directing will be covered including staging, styles of directing, history of directing, text analysis, scene study, directing theory, working with actors and development of a prompt book. Students will choose one scene to direct for the mid-term exam and a one act play that they must direct as part of a one act play festival that will culminate at the end of each semester in which this course is offered for a final exam. Students will be given examples of each major fundamental and will be given multiple writing and reading assignments. There will also be a series of workshops during class time that will engage students in physical development of stage pictures and will allow them time to rehearse their approach to actors in the formal rehearsal process. Student actors can be used from the Fundamentals of Acting and Styles of Acting courses. Pre-Requisites: THR2420, THR2500, THR2430, and Senior standing.

THR4899L  Theater Arts Internship (3)

Pre-Requisites: Senior Status
Co-Requisite courses: None
Equivalent courses: THR398L Theater Arts Internship

One of the assets of the theater program is our close relationship with area arts organizations and professional theaters that provide internship opportunities to our students. These internships will be production based and will include work in the following areas: acting, directing, stage management, costume, light, sound and set design, theater administration, and casting. Theater arts majors will be required to take 6 credits of professional learning experience in theater. Students will take this course one as a junior and once as a senior. Students will document their professional learning experience though daily journals and three written self-evaluations. This course can only be taken with the pre-permission of the department chair and approval of the dean of the school of BAS. Pre-Requisites: Senior status

VISUAL DIGITAL ARTS – (Undergraduate)

VDA1410L  Cultivating Creativity (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: VDA114L Cultivating Creativity

The premise of this course is that a creative mindset can be consciously cultivated. Students will immerse themselves in the artistic process, developing tools and techniques necessary to become effective creative problem solvers. Experiential classes will combine hands-on art making with the study of research-based theories. To build art making confidence, the course kicks off with the easy to learn and relaxing Zentangle® method of drawing. Lab fee charged. Pre-Requisites: None
VDA1600L  The Art of Advertising (3)

Pre-Requisites: VDA1410L
Co-Requisite courses: None
Equivalent courses: VDA202L The Art of Advertising

The course examines the vital role of art in advertising. Students will undertake a multidisciplinary study, approaching the topic through the lenses of history, psychology, art and culture. Combined with studying these general categories, students will create profiles of notable individuals who have put the “art” in advertising. Pre-Requisites: VDA1410

VDA1800L  The Vital Basics: Drawing, Painting and Sculpture (3)

Pre-Requisites: VDA1410L
Co-Requisite courses: None
Equivalent courses: VDA208L The Vital Basics: Drawing, Painting and Sculpture

Students will learn the principles and elements of art through various media, such as drawing, painting and sculpture. They will learn techniques and processes to capably and inventively translate ideas into form. Students will also employ the stages of the artistic process to develop creative problem solving skills. A vocabulary for participating in critiques will be introduced. Topics include: color, form, space, line, pattern, rhythm, balance, perspective and abstraction. Pre-Requisites: VDA1410

VDA2000L  Business Know-How for the Entrepreneur (3)

Pre-Requisites: COM2840L
Co-Requisite courses: None
Equivalent courses: VDA254L Business Know-how for the Entrepreneur

For individuals who may spend part of their careers doing freelance work, starting a business or other entrepreneurial ventures, this course lays out the fundamentals of working on your own. Principles of sole proprietorship accounting will be covered, including units on taxes, profit/loss statements, contracts, negotiating and inventory management. Effective traditional and social media marketing practices are covered as well. The importance of networking, both new school and old school, is emphasized, along with no-cost/low cost guerilla marketing techniques. Pre-Requisites: COM2840

VDA2210L  Digital Storytelling (3)

Pre-Requisites: None
Co-Requisite courses: None
Equivalent courses: VDA214L Digital Storytelling

Students will learn how to communicate multilevel stories of a place, moment, person or time by creating multimedia projects. Working with text, still photography, video, music and audio, students will create digital stories and post them online. Students will combine timeless art principles (including viewpoint, composition, light, angle and setting) with literary fundamentals (such plot diagramming and character development) to create modern video projects. Pre-Requisites: None.
VDA2613L  Graphic Design 1 (3)
Pre-Requisites: VDA1410L and COM1410L
Co-Requisite courses: None
Equivalent courses: VDA213L Graphic Design 1

In this introductory class, students will learn graphic design production skills. A focus will be on developing proficiency with the industry standard software tools of InDesign, Illustrator and Photoshop. Students will learn the fundamentals of designing communication materials, including: how to effectively convey a message whether with typography, images or symbols. Logo design and branding will be covered. Students will create communications pieces that benefit the AIC community. Pre-Requisites: COM1410 and VDA1410

VDA2620L  Animation (3)
Pre-Requisites: COM1410L and VDA2210L
Co-Requisite courses: None
Equivalent courses: VDA224L Animation

Students will be introduced to the history and foundations of animation, both 2D and 3D. Using traditional materials in conjunction with digital technologies, students will create web-ready animation projects. Pre-Requisites: COM1410 and VDA2210

VDA2860L  Video Game Design (3)
Pre-Requisites: COM1410L and VDA2210L
Co-Requisite courses: None
Equivalent courses: VDA264L Video Game Design

If you like playing video games or are intrigued by their widespread popularity, this course is for you! The course covers the basics of video game design. Once students learn the fundamental building blocks they will create their own games. Pre-Requisites: COM1410 and VDA2210

VDA3601L  Art and Culture: A Global Look (3)
Pre-Requisites: VDA1410L
Co-Requisite courses: None
Equivalent courses: VDA301L Art and Culture: A Global Look

Across the globe and throughout time, humans have shared a common interest in creating art. By studying the art, past and present, from a variety of cultures, students will develop a multicultural perspective as they answer such questions as: What is the role of art? What is beauty? Why do I value the images that I value? What is the value of art? What is culture? What are my biases? This is a study-and-create class, as students will produce art projects inspired by art from the cultures they study. The course combines research, museum visits and hands-on art creation. Pre-Requisites: VDA1410

VDA3613L  Graphic Design 2 (3)
Pre-Requisites: VDA2613L
Co-Requisite courses: None
Equivalent courses: VDA313L Graphic Design 2
This class builds on and adds to the concepts introduced in Graphic Design 1. Dreamweaver software will be introduced so students can create projects for the Internet. Students will create mock projects for fictional clients to gain understanding how communications materials affect consumers. Students will also create communications pieces that benefit the community surrounding AIC. Pre-Requisites: VDA2613 (Graphic Design 1)

**VDA3681LAB Visual and Digital Arts Laboratory (1)**

Pre-Requisites: Permission of the instructor.
Co-Requisite courses: None
Equivalent courses: VDA281B Visual and Digital Arts Lab

Students will deepen their artistic and creative work by intensive project work. Student explorations will take many forms, whether developing a personal artistic vision, creating projects that benefit the AIC community, or bringing art to the local community. Pre-Requisites: Permission of the instructor.

**VDA4695L Capstone Experience in Visual and Digital Arts (3)**

Pre-Requisites: Senior status only.
Co-Requisite courses: None
Equivalent courses: VDA395L Capstone Experience in Visual and Digital Arts

In this course, Visual and Digital Arts Majors spend time working on projects that tailor their portfolios toward career paths that come into sharper focus as they approach graduation. The semester culminates with a gallery exhibition. Pre-Requisites: Senior status only.

**VDA4899L Internship in Visual and Digital Arts (3)**

Pre-Requisites: Senior status only and the approval of the department chair.
Co-Requisite courses: None
Equivalent courses: VDA398L Internship in Visual and Digital Arts

This course is a supervised work experience for visual and digital arts students. Students have the opportunity to relate concepts and use skills acquired through coursework to practical applications in a professional setting. Pre-Requisites: Senior status only and the approval of the department chair.
